Embracing diversity in construction leads to innovation and success

Image by www.fieldwire.com

[Article originally appeared in Autodesk Construction Cloud Blog. https://construction.autodesk.com]

By Chad Arthur

Future-forward discussions within the construction sector require more than focusing on an aging workforce and labor shortage. Next-generation construction managers and subcontractors will need to be more diverse and creative than ever before. More representation from varied backgrounds will help organizations adapt to a technological, sustainable and demanding future. How will 2025 reinforce a more diverse and inclusive workforce?

How diverse is construction currently?

For most of history, construction has had a relatively demographically homogeneous workforce. Everything from race to age remained consistent for decades. In recent years, trends have shifted in a more equitable direction. However, disparities are still apparent, even as 2025 begins.

Gende

According to the U.S. Bureau of Labor Statistics, only 10.8% of the construction sector is women. Information on other gender categories

WOMEN'S HISTORY MONTH

Empowering Women in Construction with AI

[Article originally appeared in www.constructconnect.com]

By Maila Kim

Every March, Women in Construction Week highlights women making a difference in this male-dominated field. According to the National Association of Women in Construction (NAWIC), women now make up 14% of the construction workforce, up from 10.9% just five years ago. The industry is changing for the better. In addition to seeing more women

join the field, technology like artificial intelligence (AI) is changing the game. It's an exciting time to be part of construction!

That's why we're celebrating the hard work of women in this field and showing how AI tools like Takeoff BoostTM are helping them build a stronger industry.

Women Are Innovating the Industry

Women are making a difference in many roles across the industry. They are not only working as contractors and estimators, but also

"The work we do has a lasting impact everyroles
workworkalso
worksomewhere along the way."

mators (ASPE), highlights this impact:

Her words remind us just how impactful women are in shaping the places we live and work.

as administrators, project managers, and key

Katie Pickard, Vice President of Training

and PreSales at ConstructConnect® who also

serves on the National Education Committee

of the American Society of Professional Esti-

players in construction technology.

Words of Wisdom from Women in Construction

Joining the construction industry might feel intimidating, but Katie Pickard reassures women that the construction community is welcoming:

"Construction is an incredibly welcoming community with a deep tradition of knowledge-sharing and building expertise on the job. With regard to working in a male-dominated space, it's again, very welcoming. Almost every mentor I have ever had has been a man. Every single one of them pushed hard to see me succeed. Like just about everyone in this industry, they are driven by their love of the build and are thrilled when anyone—woman or man—wants to become a builder, in every sense of that word."

Whether you're experienced or just beginning, there are many opportunities to grow.

How AI is Changing the Game

Construction is evolving—not just because more women are joining, but because new AI tools are making work faster and more accurate. AI isn't replacing people; it's helping them work smarter. Jen Johnson, Chief Product Officer at ConstructConnect, explains it in an interview titled "AI & Construction: A Beginner's Guide":

"Use AI to your advantage. Use it as your secret weapon, a tool in your belt to help you be more productive."

Business Tax Reform in San Francisco

New Ordinance and Proposed Regulations Bring Greater Certainty for Businesses

[Article originally appeared in https://sftreasurer.org]

Treasurer José Cisneros announced that the Board of Supervisors passed a key ordinance, ushering in the creation of two programs to improve tax compliance and collection as part of the implementation of Proposition M (2024).

"Businesses were clear that they needed a more transparent and predictable tax system — and we listened," said Treasurer José Cisneros. "Taxes may not be fun to pay, but by quickly implementing Proposition M, we are making it easier for businesses to comply with the law."

The passage of the ordinance, allowing the Office of the Treasurer and Tax Collector to waive taxes, penalties, and interest under a Voluntary Disclosure Program and to collect fees from taxpayers to implement an Advance Written Determination Program, marks an important step in the implementation of Proposition M (2024), a voter-approved measure restructuring San Francisco's business tax system. In addition, the Office of the Treasurer & Tax Collector released draft regulations to assist taxpayers in the interpretation of Proposition M.

"San Francisco is on the path to a strong economic revival, and we are making it clear that the city is open for business," said Mayor Daniel Lurie. "Proposition M simplifies our tax system and is an important step to encourage growth and investment in our city. With this ordinance, along with efforts like PermitSF, City Hall is fostering an environment where businesses of all sizes can thrive and contribute to the vibrant economy that benefits all our neighborhoods."

The passage of Proposition M followed years of collaboration among San Francisco leaders, including the Office of the Treasurer & Tax Collector and Controller, who engaged extensively with the business community to understand their challenges and priorities. The Office also studied

best practices from other jurisdictions to develop a more efficient and transparent tax system.

"Over two years ago, I requested a comprehensive study of our business tax system to ensure it was working for San Francisco's economy," said Board President Rafael Mandelman. "With the implementation of Proposition M, we are seeing that effort come to fruition, ensuring that businesses have the clarity they need to plan for the future while strengthening the City's economic stability."

In late 2024, the Office of the Treasurer & Tax Collector worked with policymakers to approve

CONTRUCTION WORKFORCE

Nonunion Construction Workforce Tops 80% in 41 States

[Article originally appeared in www.constructionexec.com]

By Associated Builders and Contractors (ABC)

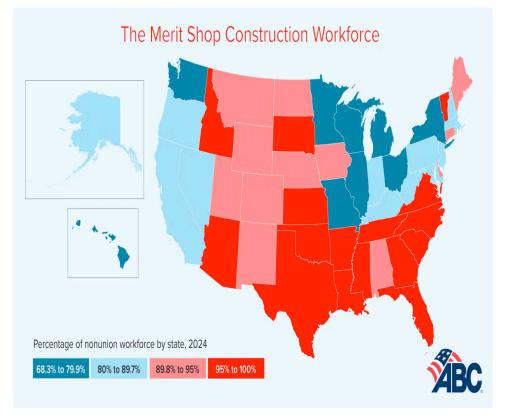

Associated Builders and Contractors released an analysis of 2024 state union membership data published by unionstats.com, which found that in 41 states at least 80% of workers in the private construction industry did not belong to a union. At least 90% of workers in the private construction industry did not belong to a union in 29 states in 2024 and 2023, up from 26 states in 2022 and 24 states in 2021. Nationwide, the U.S. Bureau of Labor Statistics reports that 7,978,000 construction industry workers were not members of a union in 2024, a 12,000-person increase from 7,966,000 workers in 2023. Overall, union membership decreased by 38,000 to 916,000.

"More and more construction workers work for nonunion employers, defying four years of new union-friendly policy schemes advanced by the self-declared most pro-union president in history," said Ben Brubeck, ABC vice president of regulatory, labor and state affairs. "In contrast, commonsense policies providing opportunities for all of America's construction workforce are rooted in the ideals of merit and worker choice, which help taxpayers get the best possible infrastructure products at the best possible price."

A record-high 89.7% of construction workers nationwide are not part of a union, according to the U.S. Bureau of Labor Statistics, up from 89.3% in 2023.

"Workers' choice to affiliate with unions independent of government interference creates immense value in the marketplace, which is why ABC will continue to oppose government-mandated project labor agreement policies and advocate for all construction workers to choose how to achieve their career dreams and prosper in a safe and healthy environment," said Brubeck. "ABC urges the Trump administration and the 119th Congress to advance policies that prioritize fair and open competition, preserve worker choice and address the issues that the construction industry faces, including a skilled labor shortage of 439,000 in 2025 alone, widespread regulatory burdens, inflation, high interest rates, expiring tax provisions and other economic chal-

Project: Lafayette and Walnut Creek Water Treatment Plants Chemical System Safety Improvements Spec. No. 2194 Owner: EBMUD

Revised Bid Date: March 26th, 2025 @ 1:30 p.m.

We are requesting quotes from all qualified DBE/MBE/WBE/ Subcontractors and Suppliers but not limited to: Low Density Cellular Grout, Pipe Suppliers, Precast Materials, Misc. Metals, Concrete Flatwork/Structures, Demolition, Electrical-Building, Cast-in-place, Reinforcing steel, SWPPP, Pre-fab metal bldg., Fire Protection, Doors, Acoustical, Pumping Plant Equipment, Generators, HVAC/Mechanical, Painting/Coatings, Roofing, FRP Grate, Windows/Glass

Project Description:

The work includes but not limited to: Demolition and replacement of chemical feed systems for primary coagulant, coagulant polymer, sodium hypochlorite, ammonia, caustic soda, and fluoride, including bulk tanks, pumps, injection quills and diffusers, and chemical piping from truck unloading to chemical injection.

B. Installation of temporary chemical feed and storage systems for plant operation during construction of these improvements. Installation of a temporary maintenance storage facility (Walnut Creek WTP only).

C. Installation of other improvements related to chemical, worker, and environmental safety including: emergency power, fire alarm and sprinkler systems, emergency eyewash/shower (EES), emergency panic hardware, spray shields, signage and egress, gas detection, chemical leak detection, ventilation improvements, chemical tank roof vents, secondary containment for bulk chemical storage, chemical resistant coatings, chemical piping secondary containment, chemical tank separation, truck unloading area improvements, drainage improvements (Lafayette WTP), seismic restraints for existing non-structural components, and miscellaneous structural, civil, and electrical improvements and modifications.

D. Construction of road improvements at Lafavette WTP to protect the aqueducts and improve traffic flow through

E. Installation of a new medium voltage transformer and switchboard at Lafayette WTP, including transferring loads from the existing unit substation to the new switchboard

F. Installation of Honeywell

Engineers Estimate: \$45 Million - \$55 Million

Plans are available through BuildingConnected (BC). If your company is interested in bidding any of the scopes listed above, please visit www.KSTJV.com and fill out the Sub/Supplier List at the bottom of the page. From there, KSTJV will align the company capabilities to the bid packages. If there is a match, your company will be invited into the bid dashboard of the relevant bid package. Subcontractors must possess & provide valid current California Contractor's License and DIR Registration numbers.

Compliance to federal requirement includes, but is not limited to:

- Clean Water State Revolving Fund (CWSRF) requirements
- American Iron and Steel (AIS) requirements
- Build America Buy America (BABA) requirements
- Davis-Bacon Act and California Prevailing Wage requirements
- Disadvantaged Business Enterprises (40 CFR Part 33)

All successful bidders must comply with the Project Labor Agreement and provide proof of applicable insurance and bonding capability. Further information will be provided in the bidding documents.

If you have any questions, please contact us at KSTJV@Kiewit.com

PROJECT NAME: BART Police Department Headquarters
2000 Broadway, Oakland, CA 94612
DOCUMENTS TO BE RELEASED: March 24, 2025.
BID DUE DATE: April 4, 2025 at 4:00 PM. Include ALL completed Bid forms

Swinerton is requesting quotations from All Subcontractors and Certified DBE's.

Trades: Trade Package #2: Steel (excludes Damper Procurement)
RFIs Due: March 28, 2025, 4 PM.
Project Description:

Swinerton is Bidding this project for Bay Area Rapid Transit. This bid is for award.

Swinerton Builders and Gensler Architects are teaming up for a Progress Design-Build Tenant Improvement for a new Bay Area Rapid Transit (BART) Police Department Headquarter facility. The location of the existing building that will be ongoing construction is located at 2000 Broadway Street in Oakland, 94612, California. The scope of work for this project involves demolition of interior member like doors, interior walls, and fixtures along with partial MEPFS removal. Once demolition is complete, construction will consist of seismically upgrading the building, adding micro piles and viscous dampers along with refurbishing the interior space tailoring it to BART PD's needs.

PLANS & SPECIFICATIONS: Available via Building Connected

Virtual pre-bid meeting February 10, 2025 at 10AM Contact: Blake Nelson Tel: (415) 385-4732 EMAIL TO: bnelson@swinerton.com

- This is a Public Works project that has federally funding. Subcontractor must be registered with the CA Department of Industrial Relations before submitting a bid. Application and renewal are completed online with an annual, non-refundable fee.
- Davis-Bacon Act Requirements and Wage Determinations shall apply to this contract.
- Project is covered by a Project Stabilization Agreement
- 45% DBE Participation for Steel scope
- This will be a "best value" procurement; Price, capability, DBE participation or DBE status. Proposal and interview

We reserve the right to require all subcontractors to furnish 100% performance and payment bonds from a U.S. Treasury-listed surety. Premium cost to be included as a separate item. At our discretion, a bid bond and/or letter of bondability from a U.S. Treasury-listed surety may be required within 48 hours of demand.

Major Progress in Business Tax Reform

Continued from page 2

legislation to eliminate annual license fees for small businesses, making it easier to operate, grow, and open a small business in San Francisco. The measure waived 49 annual license fees, providing \$10 million annually in relief to San Francisco small business owners.

"The voters laid out clear priorities for the city in Proposition M, requiring that we make the tax system more equitable, support our small businesses, and provide greater certainty to taxpayers in advance of their tax payments," said Sarah Dennis Phillips, Executive Director, Office of Economic and Workforce Development. "The Treasurer's swift implementation of fee waivers, timely release of sourcing regulations, and the launch of the Voluntary Disclosure Agreement and Advance Written Determination programs all show that San Francisco is open for business and that it is a new day for companies who want to invest and grow in San Francisco."

About the Ordinance

The newly approved ordinance supports two essential programs designed to improve tax certainty and compliance, with applications available this Spring:

Voluntary Disclosure Agreement (VDA) Program – Allows unregistered businesses to voluntarily come forward and resolve unpaid tax obligations while having certain taxes, penalties, and/or interest waived. Businesses must disclose and pay unpaid taxes and interest for the previous six years. Many other states and localities have implemented similar voluntary disclosure programs, and this initiative aligns San Francisco with best practices nationwide. The program is projected to generate \$2.5 million in revenue over the next three years.

Shimmick / CEC Joint Venture 1 Harbor Center, Suite 200 · Suisun City, CA 94585 Phone (707) 410-5070 An Equal Opportunity Employer

MBE and WBE Subcontractor/Supplier Bids Requested For:

East Bay Municipal Utility District (EBMUD)
Lafayette and Walnut Creek Water Treatment Plants Chemical Systems Safety Improvements
Specification No. 2194

REVISED BID DATE: Wednesday, March 26th, 2025 at 1:30pm

Project Location: Lafayette and Walnut Creek, CA
Email guotes to imiranda@shimmick.com

Shimmick Construction Company, Inc. is requesting quotes from certified MBE and WBE subcontractors and suppliers in the following scopes of work, including, but not limited to:

Subcontractors: Asphalt Concrete; Plane Asphalt Concrete; Paving Asphalt; Remove Concrete; Grading; Concrete Pumping; Concrete Structure; Minor Concrete Structure; Concrete Surface Finish; Reinforcing Steel; Clean & Paint Steel; Sawcutting; Drywall; Wall Covering; Roofing; Plumbing; Fire Protection; Demolition; Trucking (Transfer Dump, Super 10, Flat Bed, Water, Street Sweeping)

Suppliers: Safety Equipment; Sand & Gravel; Asphalt; Concrete & Cement; Rebar; Lumber

Plans are available to download on EBMUD's website https://construction-bids.ebmud.com/CurrentorFutureBid.aspx2BidMode=Current. You may also contact Jamie Miranda at jmiranda@shimmick.com for a download link to view plans and specifications or to schedule an appointment via Teams to discuss the documents. Meetings are held during regular business hours.

Should you require assistance with your bid, please contact our lead estimator Jason Burden at jburden@shimmick.com

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Amanda Mobley at amanda.mobley@shimmick.com.

Mountain Cascade Inc. 555 Exchange Court, Livermore, CA 94550 (925) 373-8370, Fax (925) 373-0940

Kellogg Resiliency Project Owner: Fairfield-Suisun Sewer District Bid Date: April 8th, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified Subcontractors and Suppliers but not limited to:

Aggregates, Asphalt, Concrete Material, Pipe Suppliers, Precast Materials, Concrete Flatwork, Environmental Services, Erosion Control, Fencing, Hydroseeding, Reinforced Concrete Pipe, Landscaping/Irrigation, Striping, Surveying, SWPPP, Tree Removal/Arborist, Trucking, Pumping Plant Electrical Equipment, Drainage Pumping Equipment, Liner.

<u>Project Description:</u> The Kellogg Resiliency Project is a time-sensitive State Water Resources Control Board grant funded project that includes, but is not limited to rehabilitation of the Kellogg Stormwater Pump Station involving replacement of aging mechanical equipment and the Station's outfall tide gate, construction of a new fire vehicle access road and concrete v-ditch along the southern side of Kellogg Stormwater Basin, new security fencing and chain link fencing around the perimeter of the basin, bio-retention area improvements, landscaping, irrigation, and removal of invasive plant species and other vegetation within the limits of the stormwater basin. The project also generally includes potholing, demolition, excavation, shoring, dewatering, public notifications, utility coordination, utility protections, pavement rehabilitation, pavement base repairs (dig-outs), construction of storm drain, maintenance hole and green stormwater infrastructure (GSI), traffic control, striping, pavement markings, and reconstruction of concrete curb, gutter, sidewalk, curb ramp, driveway and conforming roadway and ADA path-of-travel improvements along Kellogg Street, from the intersection of Elwood Street, south, to the southern roadway terminus.

Engineers Estimate: \$3.4 Million

Diversity in construction leads to innovation and success

Continued from page 1

is not gathered. Unfortunately, women are not common in leadership positions, much like other minority populations.

Raca

Only 6.7% of construction workers identify as Black or African American, 1.7% as Asian and 34% as Hispanic or Latino. Not only is there not enough diversity here, but the various departments across a construction organization fail to provide equal opportunities. For example, while Hispanic people are the majority of workers in construction and extraction, they have little representation in management or financial operations compared to non-Hispanic White staff.

Age

Construction is an aging industry, and the number of workers over 55 has doubled to 22.7% in the last several decades. While ages 25-54 is still the most predominant age group, younger professionals are underrepresented. However, this is a multilayered concern, primarily as trade schooling fell out of fashion for students for a while in lieu of university education.

Disability

Approximately 5.9% of people in construction, around 440,000, identify as having a disability. Surveys show the majority of these individuals have multiple, while other categories include hearing, vision, ambulatory and cognitive classifications. There is a prevailing wage gap between people with and without disabilities, with those with them being paid less.

What are the barriers preventing further diversity?

Discrimination is culturally embedded into construction after decades of prejudice and failure to dissolve these mentalities. Recognizing bias as a problem is the first step to providing equal belief and training to all employees. Therefore, culture

is the most significant blockade against equality, so a shift is necessary.

Construction workers of different demographics and backgrounds receive different training. Women or people with disabilities may struggle to find outlets for learning certain skills and trades due to social stigma. For example, the skills needed to enter a career in diesel mechanics, like basic machinery and tool proficiency, are socially associated with men.

Increasing awareness through education and community-building among diverse coworkers is the first step to breaking stereotypes. Sometimes, interactivity is all that is necessary to change tone.

How can construction be more diverse in 2025?

Construction firms and subcontractors have several options for instituting a more accepting, inclusive workplace.

Revising hiring protocols

First, they can establish more ethical hiring practices. Instituting mandatory bias training for talent acquisition staff is crucial for equitable hiring practices. It ensures a firm onboards the most qualified staff and does not dismiss individuals

based on demographics or background. Companies may also draft hiring policies focusing on hiring underrepresented populations who have historically been given fewer chances in the sector.

Creating working groups

Several agencies have done this already with notable success. Skanska USA is a notable case study. It has a Women's Network, which provides a dedicated space for these individuals to find mentorship opportunities and pursue competitive leadership development. Simply having this fixture encourages more women to apply to the company, as they will feel supported by management. Members tout its efficacy in changing organizational culture and overcoming challenges.

Choosing sustainability

While environmental, social and governance goals typically focus on reducing carbon emissions and waste generation, it also relates to equity. Eco-conscious and social justice are inextricably linked. Therefore, construction companies establishing environmental goals are more likely to push themselves to fight for diverse workers.

Cities like Los Angeles and Detroit have established climate action plans, which include criteria like workforce diversity. This demonstrates how crucial these subjects tie together and support green jobs and projects.

Committing to equity in infrastructure

The Equity in Infrastructure Project is a way for construction companies to commit to a framework to promote the livelihoods of minority groups, women workers and overlooked construction businesses. Pledging to this initiative is a signal to competitors and clients alike that the agency and its contractors care about establishing fair construction settings. There are currently 74 signed members, with hopefully more to come in 2025.

Making culture consistent

New and old hires will only feel comfortable and safe if there is a widespread culture shift. This means management teams must enforce a no-tolerance discrimination policy. Additionally, educational opportunities should be available to make staff understand the benefits and necessity of hiring diversely.

Fairness in construction

The construction sector's thought leaders will be companies embracing an inclusive workforce in 2025. The industry has operated on antiquated ideas for so long, and it needs a fresh perspective. Bringing in new perspectives the industry has not previously included is the way to break the limiting boxes construction created for itself. All construction stakeholders should make diversity, equity and inclusion one of their most prominent priorities to send a positive, impactful message about what is to come.

Empowering Women in Construction with Al

Continued from page 1

One great example is Takeoff BoostTM. This AI-powered tool automates tasks like takeoff measurements, giving contractors more time to focus on strategy. Monique Young, a general contractor and estimator at One Accord Services LLC, shares how On-Screen Takeoff® and its AI-assisted feature Takeoff Boost improves her work:

"On-Screen Takeoff has allowed me to be competitive and knowledgeable in my trade, and that has been impactful. Takeoff Boost helps me sharpen my pencil—it helps me to be laser-focused."

Building a Brighter Future

AI isn't just making construction more efficient—it's opening doors for more women. By automating tedious tasks, tools like Takeoff Boost are making the industry more accessible. And the best part? It is just the beginning. A new generation of tech-savvy workers will be joining the industry in the next few years, ready to embrace AI. That's why Jen Johnson encourages everyone currently in construction to explore what AI can do:

"Don't be scared. Instead, embrace the technology. Try something new every week and share your experiences. The best thing you can do is stay curious," she advises.

Young shares a similar perspective:

"I like AI. I'm not afraid of it. Why would I not use a tool that's available to me now, just because I am afraid? It helps me. It's a tool I can use now that helps me with my day-to-day business."

Pickard emphasizes the importance of inspiring a future generation of women, including those that may be using AI tools in other aspects of their life:

"Awareness is the biggest obstacle. If more women were aware of the opportunities in the construction industry, you would see more women here. I describe my career as the job I never knew I always wanted. If you have a woman in your life—young or old—wondering what their next step is, tell them to consider a career in construction. It could be the thing they never knew they always wanted!"

MARCH 20, 2025 - MARCH 26, 2025 SMALL BUSINESS EXCHANGE 9

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR QUALIFICATIONS
AND PROPOSALS (RFQ/P)

DSA Certified Project Inspectors

Cal Fire Implementation Project Manzanita Elementary School 2409 East 27th Street, Oakland, CA 94601 Project # 24103

Issued March 19, 2025

Responses must be received April 3, 2025, no later than 2:00 p.m.

The Oakland Unified School District ("District") is requesting proposals from experienced firms, partnerships, corporations, associations, persons or professional organizations ("Consultants") to provide project inspection services associated with modernization of McClymonds High School ("Project").

Interested firms are invited to submit a Statement of Qualifications ("SOQ") and a detailed Fee Proposal (collectively "RFQ/P Packet") as described below of the requested materials with a cover letter addressed

Oakland Unified School District Kenya Chatman, Executive Director of Facilities Department of Facilities Planning and Management 955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets and to negotiate contract terms with one or more Respondents.

The District will only accept a hard copy proposal along with a PDF version on a flash drive. Proposals received by the District no later than 2:00 PM (Pacific Time) on April 3, 2025 will be submitted (attention to Juanita Hunter)

If you have any questions regarding this RFQ/P and/or submitting proposal electronically, please email Kenya Chatman at kenya.chatman@ousd.org and cc: to Colland Jang at colland.jang@ousd.org

LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM

District Modification: Based on the availability analysis, the LBU Requirement may be met

with a modified 25% Cumulative Local Business Participation - inclusive of Small Local Business Enterprise (SLBE) and/or Local Business Enterprise (LBE) Participation.

For Reference, the Local Business Utilization Policy requires that there is a mandatory fifty percent (50%) LBU participation with a 25% or less Local Business (LBE) participation and a 25% or more Small Local or Small Local Resident Business (SLBE/SLRBE) participation for all capital program/construction-related contracts and professional services agreements. (See District Modification for this RFQ/P above).

On April 28, 2021, the Board of Education amended the Local Business Policy which had named the City of Oakland as the singular agency to certify local businesses to include five additional local business certifications. For businesses located in Oakland, Local Business and Small Local Business certifications may also be accepted from the Port of Oakland, Alameda County Transportation Commission, Alameda County Department of General Services, US Department of Transportation California Unified Certification Program, and the California Public Utilities Commission.

The District will follow the City of Oakland Small Business size standards in recognizing Small Local and Small Local Resident Businesses.

The full version of OUSD's latest Local, Small Local and Small Local Resident Business Enterprise Program can be found by going to the following link:

https://www.ousd.org/facilities-planning-manage-ment/opportunities/lbu-policy

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises ("DBE"), Small Local Business Enterprise ("SLBE"), Small Emerging Local Business Enterprise ("SLBE") and Disabled Veterans Business Enterprise ("DVBE") firms shall be afforded full opportunity to submit qualifications in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation, or religion in any consideration leading to the award of contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise by subjected to discrimination in any consideration leading to the award.
