## The Value of Drones on Construction Sites

[ Article originally appeared in www.michaelpage.com ]

While some construction professionals are reluctant to adopt new methods of technology, it is becoming increasingly necessary to do so. Tech can help to keep projects on schedule and on budget, which is vital during a talent shortage.

Drones are incredibly useful on construction sites. Many professionals are finding this out for themselves as drone use in the construction industry has increased by nearly 240% in a single year.

So, what exactly can drones do for your construction business?

#### **Application of Drones**

While drones can be used by many people on a construction site, it is most likely that project managers, technology managers, and supers will be behind the controls.

These flying vehicles typically have cameras in them, which means that they provide a birds-eye view of a construction site. This can help with land surveying, project mapping, and planning. It can also give decision-makers regular updates and keep everyone informed about a build's progress. With these insights, those in command of a site can catch pitfalls and mistakes before they balloon into a larger problem.

Image credit by https://blog.bluebeam.com

This information can also be used with various types of construction software. It is especially useful when combined with BIM, which maps and models entire builds in preconstruction. These types of software can also help with designs and workflows, all powered through drone data.

With sensors and cameras, drones can also track construction equipment and vehicles on a site. In the future, they may even be able to control that equipment through AI.

In addition to these options, drones can be used for risk mitigation, the bid process, and quality control and assurance.

#### **Benefits of Drones**

So, how do these uses for drones benefit your bottom line?

Through the surveying process, drones can save time and manpower while also mitigating human error. They can do the same with inspections and updates throughout the project. You can even program a drone to do regular flyovers and collect data on a weekly basis. This way, when stakeholders want information or have questions, the answers are already collected and available to you.

This tech also increases communication and surveillance, making sites safer all around. Drones can spot hazardous areas, or even complete work higher up. This can reduce the rate of accidents, especially falls.

In addition to safety issues, detecting problem areas through drone data early can save time and money on a project, which we know is essential.

If you'd like to know more about trends in construction, please visit our Michael Page advice section. Also, if you're looking for qualified talent with experience using this kind of technology, reach out to our expert consultants today.

## **Celebrating California's 175th Anniversary**

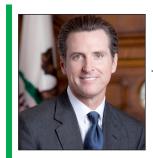

[ Article originally appeared in www.gov.ca.gov ]

Governor Gavin Newsom and First Partner Jennifer Siebel Newsom announced the official launch of efforts to celebrate California's 175th year of statehood. Today's announcement initiates an effort to commemorate the rich and full history of the Golden State — its people, its progress, and its promise — and invites Californians across all regions and backgrounds to take part in honoring the milestone. This will include celebrations across the state,

including on September 9, 2025 to mark 175 years since California joined the Union on September 9, 1850.

As part of the statewide commemoration, Governor Newsom and First Partner Siebel Newsom are launching a working group — supported by an Ambassador Circle of state and external leaders — to coordinate and amplify efforts that invite communities across the state to celebrate 175 years of growth, innovation, and diversity.

Continued on page 7

"Throughout American history, California has been a beacon of innovation, shaping the very essence of the American Dream. The state has played a monumental role in igniting movements that have redefined industries, expanded rights, and shaped society. From the farmworker revolution that championed labor rights to the free speech movement that set new democratic standards, California has consistently been at the forefront of progress."

— Governor Gavin Newsom

"California has always been a place of possibility— a state where dreams are realized. Like our nation, our history is far from perfect, but it has been the people of California who have demanded the progress we celebrate today. Californians themselves are what make the Golden State so special, driving our culture, innovation, and resilience. As we celebrate this milestone, we honor the generations who have shaped California into what it is today so we may continue to work together to build a future where every Californian has the opportunity to thrive."

- First Partner Jennifer Siebel Newsom

## **WORKFORCE DEVELOPMENT**

# Central Valley Training Center Surpasses 250 Graduates to Complete Pre-Apprenticeship Program

## [ Article originally appeared in https://hsr.ca.gov ]

WHAT YOU NEED TO KNOW: Established in 2020, the Central Valley Training Center has provided pre-apprenticeship training to more than 250 individuals, combining handson instruction from journeyman-level professionals to prepare participants for high-quality careers in the construction trades.

The California High-Speed Rail Authority (Authority) today recognized 16 more students to complete the Central Valley Training Center (CVTC) pre-apprenticeship program located in the city of Selma, surpassing 250 program graduates since it first began in 2020.

The CVTC is a 10-week pre-apprenticeship program located in the city of Selma that introduces students to 10 different construction trades. Students work hands-on with journeyman-level workers from various fields like ironworkers, carpenters, roofers and cement masons and others. While doing so, they work to complete sev-

#### Ian Choudri, Authority CEO

"These graduates represent more than individual achievement — they are a sign of what's possible when we invest in people and in California's future. The Central Valley Training Center is not just preparing workers for careers in construction; it's helping build a skilled, local workforce that will power the nation's first high-speed rail system. This is how we create lasting opportunity, drive innovation, and deliver real benefits to communities across the state."

# Philip Holzberger, Central Valley Training Center graduate

"My favorite activity was learning from the electricians. It was exciting to learn more about what they deal with, the tools they use, and the math needed. The program  $\nu$  more than expected. We learned something new every day."

eral construction-related certifications to take with them as they enter their new careers.

Student Philip Holzberger of Parlier, California learned of the program from his grandmother.

Now that he has completed the program, he is interested in becoming an electrician.

The CVTC is a program in partnership with the Authority, the Fresno, Madera, Kings, Tulare Building Trades Council, Fresno Economic Development Corporation, Fresno Economic Opportunities Commission and the city of Selma.

Within the Central Valley, 5,026 jobs have been filled by workers from Fresno County, 2,763 from Kern County, 1,602 from Tulare County, 712 from Madera County, 548 from Kings County, and 227 from Merced County.

Construction of the high-speed rail project is happening every day. There are currently 171 miles under design and construction from Merced to Bakersfield.

Interviews in Spanish are available upon request. For more information, contact the Authority's media relations office at: news@hsr.ca.gov.

California State Revolving Fund Programs, Clean Water & Drinking Water SRF (CASRF/CWSRF/DWSRF) Project with DBE Requirements and Participation Encouraged CA Water Board/EPA DBE Participation Forms Required from Certified Subs/Suppliers

We are soliciting quotes for the following Divisions and items of work:
For Divisions 01 thru 46, including, but not limited to: CAS/Roadway Signs, Clear & Grub, Erosion Control, Landscaping & Irrigation, AC Paving, Cold Plane AC, CIDH, Rebar, Painting & Coatings, Underground Utilities, Fencing, Metal Railing, Striping, Electrical (Subs must complete Electrical Prequal forms), Minor Concrete, Welding, Aggregates (Crushed Stone, Agg Base & Sand), Ready Mix Concrete, Concrete Pumping, Welded Steel Pipe, Underground Pipe Products (Steel/PVC/DIP/HDPE), Misc. Metals Iron & Steel, Trucking, HAZ MAT Trucking, SWPP Plan & Materials, Lead Compliance Plan, Geotextile Materials, Underground Precast, Street Sweeping, Traffic Control, Sheet Pile Installation, Dewatering, Mechanical Equipment (Furnish & Install), Vibration Monitoring, Asbestos Monitoring, Survey, Quality Control Testing, Temporary Pumping Systems, Shoring & Excavation, Hazardous Materials Remediation, Demolition, Grouting, Epoxy Resin, Concrete Formwork, Concrete Repairs, Joints in Concrete, Masonry, Glass Fiber & Resin Fabrication, Rough Carpentry, Damp Proofing, Built Up Bituminous Roofing, Roof Specialties & Accessories, Roof Fall Protection System, Firestopping, Fiberglass Doors & Frames, Translucent Wall Assemblies, Glass & Glazing, Louvers, Polyurethane MIC Coatings, Hardware, Joint Fillers, Sealants & Caulking, Skylight Protection Screen, Louvers, Painting & Coatings, Epoxy MIC Coating Systems, Polyurethane MIC Coatings, Canopies, Steel Laboratory Cabinets & Accessories, Metal Building System, Hydro Pneumatic Bladder Tank, Manual/Electric Actuators, Cathodic Protection System, Plumbing, HVAC, Pipe Supports, Process Piping, Valves, Cranes & Hoists, Instrumentation and Controls, Pumps, Polyethylene Storage Tanks, Automatic Refrigerated Samplers, Mixers and Automatic Straining Equipment

Non-DBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier participation with your quote. 2nd-tier participation will be evaluated with your price.

100% performance and payment bonds will be required for the full amount of the subcontract price. Please contact us for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor and supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all scopes/quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operators, Laborers, Cement Masons, Carpenters & Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. We intend to work cooperatively with subcontractors/suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. We will reimburse for bond premium up to 2%. Firms must possess & provide current contractor's license number & DIR Registration number on the quote. Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact us for any assistance required by your firm. Subcontractors will be required to execute our standard subcontract agreement and agree to the standard general terms & conditions. Please contact us by email if you would like copies for review prior to bid day.

Contract Documents and related project information, including future Addenda, is available and can be downloaded for FREE from our Box ftp site by email request. You can also purchase a USB from Union Sanitary District for \$75 to become an official planholder. Documents downloaded online from BIDNET will be locked and contain a watermark. Please send the email request to NORCALBIDS@flatironcorp.com for access to plans & specs on our BOX ftp site. If you would like to speak to an estimator for a specific scope or work, please email us and we can scheduling a virtual or in person appointment to review project docs.

Please email ALL Scopes/Quotes to: NorCalBids@flatironcorp.com

Mass. Electric Construction Company Bid Solicitation for LACMTA Metro A & B Lines Communication Transmission System Upgrade

Company: Mass. Electric Construction Company (MEC)

Owner: Los Angeles County Metropolitan Transportation Authority (LACMTA)

Project: Metro A & B Lines Communication Transmission System Upgrade (IFB No. C129803C1237)

Mass. Electric Construction Company (MEC) is assembling a team to respond to the invitation for bids issued by the Los Angeles County Metro Transportation Authority (LACMTA) to provide Furnish, Install and Commissioning services for the Metro A & B
Lines Communication Transmission System (CTS) Upgrade Project.

The project will involve furnishing materials, installation, testing and commissioning Fiber Optic Cables (CTS) system for network connectivity along A Line South (Metro Blue Line), B Line Seg-1, Union Station Gateway (USG) building and MCP (New Security Center).

MEC is actively soliciting bids from firms interested in subcontractor / supplier opportunities on the Project (upon award to MEC).

Bids due to MEC April 28, 2025 by 12pm PDT.

Anticipated opportunities include (but are not limited to):\*
Vendor/Supplier: Fiber Connectivity Materials, Microduct, Microfiber, PVC Conduit, Rigid Conduit

Subcontractor: Maintenance of Traffic (MOT)

\*Contract opportunities are contingent upon project award to MEC.

Associated NAICS codes include: 238210, 238990, 335921, 335929, 335999, 423610, 423690, 561990

BIDS DUE TO MEC APRIL 28, 2025 BY 12PM PDT

MEC utilizes BuildingConnected for bidder communications regarding plans/specs and addenda distribution.

ACCESS SCOPE PACKAGE DETAILS IN BUILDINGCONNECTED

1. Set up a free BuildingConnected account at: <a href="https://app.buildingconnected.com/create-account">https://app.buildingconnected.com/create-account</a>. 2. Visit the project BuildingConnected site at: https://bit.ly/MEC-MetroCTSBids

Use the "Join" buttons on the right of the scope package to access scope details, download files, and communicate with the project team.

Subcontractors and suppliers, especially including those certified as a Small Business Enterprise (SBE) by LACMTA or BART, firms certified as a Disabled Veteran Business Enterprise (DVBE) and/or certified as a Local Small Business Enterprise (LSBE) by the California Department of General Services (DGS) are highly encouraged to submit bids.

For questions, email: <a href="mailto:Dylan.Shiao@kiewit.com">Dylan.Shiao@kiewit.com</a> MEC is an Equal Opportunity Employer.

Requests quotes from qualified and certified DBE/SBE Subcontractors, Service Providers, Consultants, and/or Suppliers seeking to participate on the following Project:

BART Silicon Valley Phase II Extension Program Contract Package 2 (CP2) Tunnel and Trackwork - Early Works

ADVERTISE DATE April 7, 2025 OWNER: Valley Transportation Authority (VTA) CONTRACT NO.: V20221

CONTRACT NO.: V20221

PROJECT DESCRIPTION: The Project includes a 5-mile-long tunnel, extending from the terminus south of the recently opened Berryessa/North San José Station, through downtown San José along Santa Clara St., to the planned Newhall Maintenance Facility in the City of Santa Clara.

PROJECT LOCATION: Santa Clara County, CA

PRE-BID MEETING: April 16, 2025, 9:00 AM - 9:30 AM PDT, https://bit.ly/3Ef1ALE

JOB WALK: April 18, 2025, 10:30 AM - 11:00 AM PDT

BID DUE DATE: April 22, 2025, 12:00 PM PDT SUBMIT QUOTES VIA: BuildingConnected
POINT OF CONTACT: KSTJV@Kiewit.com
PROJECT WEBSITE: www.KSTJV.com

KSTJV seeks Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) businesses for various scopes to support Tunnel Construction. Scopes are planned to include the following, which may be adjusted:

• Landscaping/trash removal and disposal, clear and grub, fence repair and painting over graffiti at the following properties: Greene (East Portal); Monarch/SCS (28th St), Goodlife (13th St), Goldrock (3rd St), Chase/Gross Holmes (between Market & 1st)

Non-DBE firms are encouraged to contract with a group of lower-tier DBE/SBEs or individual DBE/SBEs.

Plans are available through BuildingConnected (BC). If your company is interested in bidding any of the scopes listed above, please visit <a href="www.KSTJV.com">www.KSTJV.com</a> and fill out the Sub/Supplier List at the bottom of the page. From there, KSTJV will align the company capabilities to the bid packages. If there is a match, your company will be invited into the bid dashboard of the relevant bid package.

Subcontractors must possess & provide valid current California Contractor's License and DIR Registration numbers Compliance to federal requirement includes, but is not limited to:

- Clean Water State Revolving Fund (CWSRF) requirements
- Davis-Bacon Act and California Prevailing Wage require
- American Iron and Steel (AIS) requirements Build America Buy America (BABA) requirements
- Disadvantaged Business Enterprises (40 CFR Part 33) requirements

All successful bidders must comply with the Project Labor Agreement and provide proof of applicable insurance and bonding capability. Further information will be provided in the bidding documents.

If you have any questions, please contact us at KSTJV@Kiewit.com

#### Looking for Subcontractors, Vendors, and Suppliers?

Advertise your Sub-Bid Requests in the Small Business Exchange.

## Celebrate California's 175th Anniversary

#### Continued from page 1

#### California 175

As part of the State's effort to commemorate California's 175th Anniversary beginning September 9, 2025, Governor Newsom and First Partner Siebel Newsom are launching a working group – across state agencies and departments – to identify different ways people across the Golden State can mark the occasion and celebrate nearly two centuries of growth, innovation, and diversity. An 'ambassador circle,' composed of cabinet secretaries, legislative designees, constitutional officers and external partners, will help amplify and support activities throughout the state.

#### America 250

California's celebration comes as the country gears up to celebrate 250 years next July. The working group will lead commemorations of both California 175 and America 250, with state agencies and departments celebrating efforts that reflect upon and honor the state's and country's history, building on that work to better our communities for the future.

#### Learn more

Californians can sign up on the newly launched website to learn more about how the state will be marking this occasion – including different events and activities – as well as America's 250th birthday during Summer 2026.

**8 SMALL BUSINESS EXCHANGE** APRIL 10, 2025 - APRIL 16, 2025

## CALIFORNIA SUB-BID REQUEST ADS

Owner: Los Angeles County Public Works Project Name: Santa Anita Debris Dam Seismic Strengthening Project Location: Arcadia and Monrovia, CA

Bid Date: April 22, 2025 @ 11:00am PST

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE) firms, including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firm (LSAF), Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBES must be certified by one of the following agencies prior to bid opening: The US Environmental Protection Agency (USEPA), The Small Business Administration (SBA), California Department of Transportation (CalTrans), Tribal, State and Local governments, or an independent private certifying organization

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below

Dumpster/Trash services, cleaning, aggregate, lead abatement, trucking and hauling, water trucks, concrete rubble disposal, dewatering, piles and caissons, storm water pollution prevention, cured in place pipe, reinforced concrete pipe, asphalt supply, rigid placement, paving specialties, fencing, MSE wall, landscaping, ready mix supply, concrete reinforcing installation, concrete pumping, concrete drilling and sawcutting, masonry work, metals, welding services, damp proofing, metal doors, overhead door, louvers and vents, valves, electrical work and telecommunications.

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of BuildingConnected system (at no cost to bidder) with project information and bid instructions. Plans and specifications will also be available for review at the address listed below if requested.

This project is funded by the Clean Water State Revolving Fund (CWSRF) and is therefore subject to the requirements for Ameri-

Responsive bidders must possess a valid California Contractor's license (as appropriate), be registered with the Department of Industrial Relations (DIR) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work are required to be signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all project participants on this project. For further information regarding this project, licensing, insurance or bonding, equipment, supplies, materials, or related assistance or services or project schedule,

Kiewit Infrastructure West Co. 10704 Shoemaker Ave., Santa Fe Springs, CA 90670 Tel: (562) 946-1816 • Fax: (562) 946-3823 Contact: Ken Johnston | Email: ken

Kiewit Infrastructure West Co. is an Equal Opportunity Employer

Owner: City of Irvine
Project Name: Marine Way Grade Separation and Borrego Channel Undercrossing Location: Irvine, CA

<u>Bid Date: April 22, 2025 at 10:00a.m.</u>

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE), including Minority Business Enterprises (MBE), Woman Business Enterprises (WBE), Small Business Enterprises (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firms (LSAF), Historically Underutilized Business (HUB) Zone Small Businesses and all other business enterprises to perform as subcontractors, material contractors, and suppliers. ## How Construction Businesses Can Navigate Labor Shortage and **Social Inflation Challenges**

Recently, workforce challenges have been the headline for another major industry—the U.S. government—but that doesn't mean the labor shortage isn't still affecting construction.

[Article originally appeared in www.constructionexec.com |

#### By Sy Nilakout

Construction businesses have faced a rising tide of challenges since the pandemic. The labor shortage, worker safety threats and more have created a difficult environment for business owners to find opportunities for growth while keeping their operations running smoothly and safely. Add to that an increasingly litigious work environment, and it's evident that a dedication to safety and risk mitigation may be just what construction business owners need to work through today's risks and set themselves apart from the competition.

A proactive business owner who dedicates time and resources to workplace safety can build a pipeline to greater success and growth while avoiding major claims that could derail their operations. Business owners and operators can improve their hiring and risk mitigation efforts by focusing on the following key

#### ECONOMIC FACTORS AND **SAFETY CHALLENGES**

The labor shortage has strained the construction industry and placed significant pressure on business owners. Heading into 2025. Associated Builders and Contractors estimated that the industry would need to attract around

454.000 additional workers to meet labor demands. This worker shortage has coincided with a rise in demand for construction. The industry is seeing more project requests on both the residential and commercial fronts, leading to an increase in construction spending, and at a faster pace than anticipated.

These two factors have had downstream effects on construction businesses. According to data from the Associated General Contractors Association of America's 2024 Workforce Analysis Survey, 54% of firms have reported production delays caused by worker shortages. A number of companies have been forced to delay building and operations because they did not have sufficient talent on staff to run these projects.

For businesses that have moved forward with their projects amid the talent shortage, there has been an observable rise in safety concerns. Some construction companies have been forced to hire inexperienced workers to complete their growing list of projects. Other teams simply have not had the bandwidth to conduct the thorough safety training sessions they usually would, leading to gaps in safety knowledge and best practices

In some cases, this has also corresponded with a decrease in quality of work. Many team members have felt rushed in recent years to move projects along to meet deadlines while trying to uphold their company's quality standards, leading to quality control issues.

These factors have also caused a rise in construction defect claims, which have come at a difficult time as nuclear verdicts—verdicts topping \$10 million—are at an all-time high across all business sectors. In 2023, nuclear verdicts hit a record \$14.5 billion, and this trend is expected to continue.

Jurors in this litigious environment have tended to side with plaintiffs and are awarding larger dollar amounts to the injured parties. These multimillion-dollar claims can not only harm a construction company's reputation but potentially put them out of business entirely.

What can construction businesses do to work around the labor shortage and avoid these costly claims? Focusing on risk mitigation is a good way to start.

#### BUILDING A CULTURE OF SAFETY

Construction businesses looking to improve their risk profiles have several options to improve their safety measures and create a culture of workplace safety. Consider the following best practices:

Expand your hiring network: The traditional job advertisement is not enough in the current job market. Business owners should consider other avenues to find workers. This could include networking with local high school and college students, working with local trade associations and creating an employee referral program to incentivize your

best employees to bring in other good people. Consider reaching out to colleges, high schools and trade schools in other towns, cities and states to expand your hiring network.

- Enforce training policies: While it can be tempting to pull back on hiring and training standards to manage rising workloads, untrained staff members can eventually run into workplace safety issues. The resulting damage and insurance claims can prove incredibly costly for businesses. Comprehensive safety training following OSHA guidelines should be conducted at least quarterly. If a claim does occur, construction businesses should offer retraining to team members to ensure everyone is aware of best practices.
- Incentivize safety: Consider adding a formal incentive program recognizing employees who have made safety a priority in the workplace. These incentives can serve as a morale booster and demonstrate that ownership has a genuine interest in the health and safety of team members.
- Invest in the right technology: There has been considerable innovation in construction safety, and smart businesses will take the time to review their options and invest in the right solutions.

## **PUBLIC LEGAL NOTICE ADVERTISEMENTS**

#### SONOMA-MARIN AREA RAIL TRANSIT

Solicitation Title: Request for Qualifications for the Healdsburg Extension Project

Solicitation Number: CV-DB-25-001

Project Owner: Sonoma-Marin Area Rail Transit

Project Description: Design and Construction of Civil, Structures, Systems, and Architectural Improve-ments for the Healdsburg Extension Project. The Healdsburg Extension Project is the extension of the SMART railroad and pathway system with the objectives of extending passenger rail service 9 miles to the North, constructing a station in the City of Healdsburg, the Town of Windsor to the City of Healdsburg where it will tie into the existing Foss Creek pathway within the railroad right-of-way.

Work includes, but is not limited to replacement of the existing track with new track, ties, ballast, and sub ballast; construction of a new center boarding platform to include SMART standard amenities, shelters, lighting, CCTV security cameras, card vending machine(s), real-time passenger signs, etc.; several bridge replacements or refurbishments, including a significant bridge crossing the Russian River; all new and existing grade crossings to be reconstructed, construction of a non-motorized bicycle and pedestrian pathway from Windsor to Front Street in Healdsburg, extension of (EATC) train control system, extension of SMART's communication system to support a closed SMART network communication system, etc.

Optional tasks are also included in this solicitation to further extend SMART's rail and pathway system North towards Geyserville, CA. Similar work ele-ments to that of the Healdsburg Extension Project are included in these work tasks.

Project Delivery Method: Progressive Design-Build Alternative Delivery Method

Engineer's Estimate: \$263,000,000.00 Funding Source: Federal Railroad Administration 1:00 p.m. (Pacific), RSVP Requested

#### REQUEST FOR QUALIFICATIONS INDEPENDENT PLAN REVIEW SERVICES

Under the guidelines of CA Public Contract Code 10510.4 -10510.9, the University is seeking up to two (2) best qualified firms with experiences in healthcare facilities to provide Plan Review Services in support of renovation and/or new construction projects for UCI Health.

The selected consultants will provide building code plan review services in the most efficient manner possible and consistent with the University's plan review systems and protocols in order to assure compliance of University building construction plans with all adopted regulatory codes. These comprehensive services shall include the following basic regulatory plan re-

o All in-force adopted codes and referenced standards as outlined in the California Code of Regulations, Title 24 & Title 19 and documented by the California Building Standards Com-

- o Accessibility to Public Buildings, Public Accommodations,
- o Energy conservation
- o Noise attenuation

o Structural integrity

o Green building standards

Design services will be authorized on an "as-needed" basis and are contingent upon project approvals, funding and the quality of services delivered by the design professional.

Est. Contract Value: \$250,000 or greater

TO OBTAIN RFQ PACKET (REQUIRED FORMS), email Kim Kerwin at khau@hs.uci.edu or Maryann Gonzales @ maryacg1@hs.uci.ed.

Address (1) original, (2) hard copies and an electronic copy in USB of the qualification submittal to Kim Kerwin, UCIMC Planning, Design & Construction, 101 The City Drive South

Bldg. 27, Rte. 131; Orange, CA 92868. Deadline for RFQ submittal is 4/25/25 @ 2:00 PM.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability: veteran's status: medical condition: genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy. The selected consulting firm will be required to show evidence of their Equal Employment Opportunity policy.

For other opportunities,

#### **Mayor Lurie. Supervisors Announce Legislation to Support** Neighborhoods, Small Businesses with Five New Entertainment **Zones**

#### [Article originally appeared in www.sf.gov ]

Mayor Daniel Lurie announced new legislation to continue driving San Francisco's economic recovery by supporting neighborhoods and local businesses by creating five new entertainment zones. Co-sponsored by District 3 Supervisor Danny Sauter, District 6 Supervisor Matt Dorsey, and District 9 Supervisor Jackie Fielder, and set to be introduced tomorrow, the legislation builds on the success of entertainment zones downtown and, most recently, in the vibrant Cole Valley commercial corridor and on Front Street.

"Our city's recovery depends on neighborhoods, people, and bringing joy and life back to our streets—block by block. That's what entertainment zones do, and that's why we are excited to be creating five new ones," said Mayor Lurie. "From Cole Valley to Front Street, we've seen what happens when we open up our streets: Foot traffic goes up, local businesses get a boost, and neighbors come out to connect. I want to thank Supervisor Dorsey, Supervisor Sauter, and Supervisor Jackie Fielder for co-sponsoring this legislation and all of our partners in these communities for working hand-in-hand with our administration to bring our city back.'

"Entertainment Zones are a proven approach to support small businesses and our art and nightlife communities," said District 3 Supervisor Danny Sauter. "Today's introduction of key new Entertainment Zones means that more residents and tourists alike will see San Francisco at our best through active open spaces filled with joy, creativity, and community."

"These new Entertainment Zones are about bringing joy, energy, and economic vitality back to our neighborhoods," said District 6 Supervisor Matt Dorsey. "From the heart of downtown on Yerba Buena Lane to the nightlife corridor of Folsom Street in SoMa, we're creating welcoming spaces that support small businesses, celebrate our culture, and bring people together."

Mayor Lurie and the Board of Supervisors are taking major steps to support small businesses downtown and across the city. Most recently, Mayor Lurie and Supervisor Stephen Sherrill announced legislation to renew the First Year Program, which has helped thousands of small businesses open their doors by waiving fees in their first year. In February, Mayor Lurie launched PermitSF to reform and streamline the city's permitting processes, cutting red tape for small businesses and housing development. He also partnered with State Senator Scott Wiener to introduce state legislation to create new, more affordable liquor licenses and bring new restaurants and bars to downtown San Francisco.

The new entertainment zones would be in the following locations:

- On Valencia Street, between 16th Street and 21st Street
- At Pier 39
- On Ellis Street, between Stockton Street and Powell Street
- On Folsom Street, between 7th Street and
- On Yerba Buena Lane between Market Street and Mission Street and at Jessie Square

## **BUSINESS TOOLKIT**

## **4 Tips for Subcontractors To Win More Bids**

[ Article originally appeared in Autodesk Construction Cloud Blog. https://construction.autodesk.com ]

#### **By Grace Ellis**

If you're a construction subcontractor hoping to grow your business, you'll be pleased to know that there are reasons to be optimistic this year. Research shows that bidding on US-based projects increased by 5% in 2024 compared to the previous year, and this trend will likely continue in 2025. Commercial construction projects, including hotels, stores, and even military projects, are expected to gain steam this year.

It's no surprise that subcontractors are now seeing more opportunities coming through the pipeline. However, with more bids comes more competition, and rising inflation poses additional risks, increasing costs for materials and labor. Therefore, you must be strategic and organized with your construction bidding and project management practices to mitigate these challenges.

In this post, we'll discuss several ways subcontractors can improve their bidding practices to increase their bid-hit ratio.

Let's get started.

#### How to Bid a Job as a Subcontractor

Crafting a winning bidding strategy starts with understanding the process. Here are the key phases that subcontractors go through to secure projects.

- Receive Bid Invitation General contractors send bid invitations to subcontractors, outlining project scope, timelines, and requirements. These invitations give you the opportunity to submit a competitive proposal based on your expertise and pricing.
- Review Project Documents and Scope

   Carefully analyze plans, specifications, and project timelines to assess feasibility. At this stage, you should understand materials, labor requirements, and any potential challenges before committing to a bid.
- Estimate Costs Time to run the (initial) numbers. Factor in labor, materials, equipment, overhead, and a reasonable profit margin. For best results, use estimating software or historical data to refine your numbers.
- Prepare Bid Proposal Compile a detailed bid highlighting your qualifications, pricing breakdown, and value proposition. A well-structured proposal increases your chances of winning while setting clear expectations for the project.
- Negotiate with General Contractors

   Once your bid is shortlisted, expect discussions around pricing, scope adjustments, and timelines.
- Contract Award Congrats—if you made it to this phase, your bid has been selected. Take some time to review the

final contract before signing. All terms, payment schedules, and project expectations must be clearly defined to avoid scope creep or payment delays.

Tips for Improving Your Subcontractor Bidding Process

#### 1. Centralize Your Data

Being all over the place with your bidding information is costing you time and money. If you're still using paper documents, email, spreadsheets, or (heaven forbid) a combination of all of the above, you're likely missing out on project opportunities.

For starters, it can take a tremendous amount of time to sift through documents, emails, and sticky notes, so if the information you need is stored in multiple places, you could lose critical information or even miss deadlines entirely.

Manual bid tracking is a cumbersome and costly process, so it's no wonder that ninety-nine percent of subcontractors who track bids in email or Excel miss multiple bid invites a year.

The good news is that there is a simple fix for all of these issues. As a subcontractor, you should adopt a cloud-based bidding solution that enables you to store bidding information and track everything from a centralized location.

With the right platform, you can have all critical details—including deadlines, project details, and communications—in one place so you never have to hunt down for documents or details when preparing your bids.

What's more, cloud-based solutions enable you to access data from virtually anywhere. You don't have to be in your office or in front

of the computer to find and retrieve information, so you can take action and move forward with bids even when you're out and about.

All these benefits lead to fewer missed deadlines, less stress, and ultimately more project opportunities.

## 2. Leverage Technology to Manage the Increase in Workload

Construction revolves around strict timelines, and being on time can make or break your chances of winning a project.

This is where technology comes into play. Digitizing how you track and manage bids will streamline your processes, allowing you to get more things done with less time and effort. Essentially, the right technology can help you bid smarter and faster so you can handle higher volumes without running yourself to the ground.

Consider Bid Board Pro, which not only enables subcontractors to digitize and organize their bids but also helps you find more work. Bid Board Pro has a feature called Plan Room that surfaces projects that GCs and owners have shared on BuildingConnected.

You can easily zero in on jobs that fit your business through Plan Room's filtering capabilities, which narrow down projects by work performed, location, due date, and more.

From there, you can quickly access project details and scope of work and then seamlessly integrate jobs into your Bid Board, where you manage all your bid tracking in one place.

#### 3. Streamline the Takeoff Process

Accuracy is critical when submitting—and ultimately winning—bids. You need to ensure that all the costs, quantities, and measurements specified in your bid are correct and on target.

#### Image credit by www.autodesk.com

Today, many subcontractors still do construction takeoffs manually—including with paper drawings. To reduce potential errors, save time, and increase bid accuracy, subcontractors should look to streamline the takeoff process using technology.

There are several solutions available that can automate tasks, such as creating takeoffs to ensure accuracy. Takeoff solutions can also make data more accessible, allowing you to see historical information and cost comparisons to develop better estimations in your bids.

Plus, if you're using cloud-based takeoff tools, you can integrate different workflows, enabling you to have better visibility into the process and collaboration with other teams.

All in all, a tight and well-executed takeoff process results in a highly informed and more confident bid—one that not only increases your chances of winning more work but also builds ongoing trust with general contractors who rely on accurate bids.

#### 4. Utilize Data to Improve Performance

Construction professionals make smarter decisions and see better outcomes when they have the necessary information. When you're a subcontractor, having the right data not only helps you win more bids, it allows you to win the right bids.

Tracking bid data allows you to surface insights into what's working and what isn't so you can double down on what you're doing well and make changes and improvements where appropriate.
