

More Power, More Water: Solar-Over-Canal Projects Are Coming to California

[Article originally appeared in www.gov.ca.gov]

WHAT YOU NEED TO KNOW: California is pioneering innovations to generate clean electricity while conserving water, and we're teaming up with the Biden Administration to advance another pilot project that could deliver a major new source of clean power and transform the state's water system.

MERCED COUNTY – California's Central Valley is not just home to the breadbasket of the world, it's now home to the big ideas that could tackle our biggest challenges: using innovation to generate clean electricity while conserving water.

Governor Gavin Newsom invested \$20 million in a solar over canals pilot project in Turlock, and today the Governor joined the Biden Administration to celebrate new federal funding for another solar over canals pilot project outside of Los Banos. Solar over canals projects involve installing solar panels over water canals to help reduce evaporation and generate clean electricity.

WHAT GOVERNOR NEWSOM SAID: "California is pioneering innovations to tackle our biggest challenges, and here in the Central Valley we're addressing two big challenges

Mayor Bass, Senator Padilla and Los Angeles Leaders Highlight Nearly \$900 Million in Federal Funding to Bolster L.A. Transportation Infrastructure Ahead of 2028 Olympic Games

[Article originally appeared in <https://mayor.lacity.gov>]

Los Angeles Mayor and Metro Chair Karen Bass, U.S. Senator Alex Padilla joined local leaders to highlight new transportation infrastructure funding. Leaders gathered outside the Los Angeles Memorial Coliseum to highlight nearly \$900 million in recent federal investments to LA Metro to improve mobility and upgrade transportation infrastructure ahead of the 2028 Olympic and Paralympic Games.

LA Metro received \$709.9 million from the Bipartisan Infrastructure Law and the Fiscal Year 2024 transportation spending law, which will go toward

the D Line (Purple) Subway Extension Project and the East San Fernando Valley Light Rail Transit Project. The Los Angeles region will also receive \$160 million in new federal grant funding for street and transit infrastructure, traffic safety and to improve connections between neighborhoods. This includes \$139 million that will directly improve transportation mobility access during the 2028 Olympic and Paralympic Games and create lasting enhancements for communities.

"These investments are going to help transform Los Angeles," said Mayor Karen Bass. "I want to thank Senator Padilla for continuing to deliver crucial resources, especially as we prepare to host the World Cup and 2028 Olympic and Paralympic

Games. Together, we will continue to push to make Metro safer and more accessible for all."

"As Los Angeles prepares to host the Olympic Games, we have a responsibility not just to make the Games run smoothly, but to make investments that will benefit communities long after the Olympics are over," said Senator Alex Padilla. "For too long, highways and inadequate transportation infrastructure have cut communities across California off from quality educational, healthcare, and job opportunities. That's why I'm glad to announce that over \$139 million from this new funding will specifically help reconnect our communities."

Mayor Bass yesterday joined leaders to announce the successful completion of tunnel mining operations on all three sections of the Metro Purple (D) Line Extension Project. The City of Los Angeles, Metro and the Los Angeles Department of Transportation (LADOT) also recently celebrated the opening of 5.6 miles of new bus priority lanes on Sepulveda Boulevard this week as part of ongoing citywide efforts to save transit customers time and increase the reliability of bus service.

"This funding will help reshape the future of our city and make it a better, safer, and more accessible

California Investing Nearly \$1 Billion in Bicycle and Pedestrian Infrastructure Over Next Four Years

[Article originally appeared in <https://dot.ca.gov>]

Caltrans will spend approximately \$930 million over the next four years to improve bicycle and pedestrian infrastructure throughout the state, according to a plan approved by the California Transportation Commission (CTC) this week. This includes 265 miles of new and improved bike lanes on state highways and the addition of more than 1,300 safety elements by mid-2028.

The CTC also approved a series of transportation projects totaling approximately \$1 billion in continuing a historic push to improve the vital transportation infrastructure through rural and urban projects throughout the state.

The latest allocations include nearly \$375 million from the federal Infrastructure Investment and Jobs Act of 2021 (IIJA) and \$276 million via Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017.

The bicycle and pedestrian infrastructure spending plan is part of the 2024 State Highway Operation and Protection Program (SHOPP). Funding over the next four years will improve access and safety for bicyclists and pedestrians using the state highway system. Of the 265 new and improved bike lanes, 203 miles are a combination of Class 1, 2, and 4 variety, and 62 miles are designated Class 3. Safety elements featured in the plan include more visible and separated bike lanes, ADA-accessible curb ramps, better signage, and upgraded signalization.

The following projects are among those that will focus on improvements in bicycle and pedestrian infrastructure:

- A \$36 million project in Imperial County on State Routes 115, 111 and 86 to fix existing sidewalks and add new sidewalks, Class II bike lanes, and Class IV separated bikeways. Improvements include ADA curb ramp upgrades, lighting systems, traffic signal system upgrades, and overhead sign structure rehabilitation.
- A \$19.6 million project on the Pacific Coast Highway (SR-1) in Santa Cruz County to repair 8.3 miles of pavement, guardrail, crosswalks, sign panels, and Class II bike lanes. This project includes new bike guide striping and enhanced signage. The finished product will all be brought up to the standards of the Americans with Disabilities Act (ADA).

IIJA, known as the "Bipartisan Infrastructure Law," is a once-in-a-generation investment in our nation's infrastructure to improve the sustainability and resiliency of our energy, water, broadband, and transportation systems.

PUBLIC POLICY & WORKFORCE EQUITY

Who Are California's Workers?

[Article originally appeared in
www.ppic.org]

By Tess Thorman, Jenny Duan, and Sarah Bohn

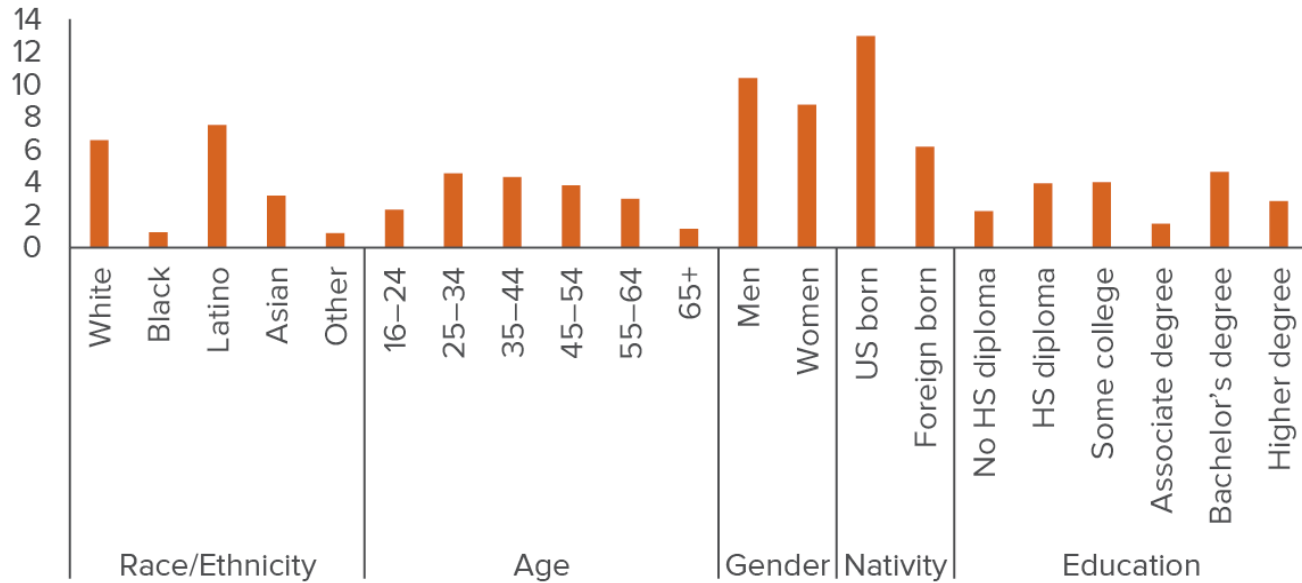

California's workers power the economy.

- Most of California's 19 million workers earn wages or salaries (89%), but a sizeable share are self-employed (11%). More than two-thirds (70%) usually work at least 35 hours a week for 50 or more weeks a year.
- About one in ten (8%) workers are full time for just part of the year, while 22% work part time year-round. In 2022, 47% who worked part time would have preferred to work more hours.
- The median full-time, year-round worker in California earns about \$27 an hour, or \$56,000 a year. A third of all workers (33%) have low-wage jobs (which pay less than \$18 per hour).

Californians work in a variety of occupations and sectors.

- The most common employment sectors—defined by their key products or services—are health care and social assistance, retail trade, manufacturing, and professional, scientific, and technical services. The San Francisco Bay Area differs from other regions in that a large share of its workers are in professional services.
- Nearly 40% of all workers in California are employed in four occupations: management, office and administrative support, sales, and transportation. Workers sharing an occupation do similar tasks day to day.
- Management is the top occupation in many parts of the state, but workers in the Sacramento area and Los Angeles County are more likely to have office and administrative support jobs, and those in the San Joaquin Valley, Sierras, and Inland Empire are more likely to work in transportation.
- In a number of occupations, workers are primarily members of a single demographic group. For example, 69% of childcare workers are women of color, 74% of farmworkers are immigrants, and more than 95% of workers in construction and installation are men.

California's workers are demographically diverse

SOURCE: 2022 American Community Survey 1-Year Estimates, authors' calculations.

California's workforce is demographically diverse.

- Like the state's population, workers in California are predominantly Latino (39%) or white (34%), with Asian/Pacific Islander, Black, and workers of other race/ethnicities comprising the other quarter. As many as half of workers under 35 and those in the central or southern parts of the state are Latino.
- The average California worker is younger than in the rest of the US, and two-thirds are 25-54—prime working ages. But the state's workforce is aging. The share of workers 55 and older has increased 39% since 2005.
- Women make up 45% of the workforce, up from 32% in 1962—but growth has slowed since the mid-1980s.
- Nearly a third of workers are immigrants, a three-fold increase since 1960. The largest share of foreign-born workers are from Mexico (38%); 9% come from Central America, 9% are from China, and 8% are from the Philippines. Newly immigrated workers are more likely to be from Asia (39%) than Latin America (12%).

Educational attainment is rising among workers, but most do not hold four-year degrees.

- About one in four workers in California holds a bachelor's degree, and another 15% hold a higher degree. This combined share (39%) is up from 31% in 2005.
- A third (32%) of workers have high school diplomas or less, while 21% have some college and 8% have associate degrees. Workers in California are more likely than those elsewhere in the US to have less than a high school diploma (12% vs. 8%), although the share without diplomas has declined 28% since 2005.

Most workers live in a household with at least one other working adult.

- The vast majority of workers (76%) live in households with at least one other working adult: with adult roommates, siblings, or extended family (30%), in multigenerational households with grandparents, grandchildren, or adult children (23%), or with a spouse or partner (23%).
- Among the 24% who are sole earners, 58% support children and other adults, while 42% live alone. Black women (20%) and white men (18%) are especially likely to

be sole earners supporting multi-person households.

- Family and/or personal needs factor into work intensity. Women are less likely than men to work full time (64% vs. 75%); they also spend more time on caregiving than men do, on average.

Wages vary substantially across regions and demographic groups.

- Wages vary substantially across the state, as does the cost of living. The Bay Area has the highest median wage (\$33 an hour); median wages are lowest in the Central Valley, Sierras, and northern region—about \$20 an hour.
- Eight percent of working adults are in households classified as poor by the California Poverty Measure. Full-time workers are relatively unlikely to be poor (5%), while single working parents are especially likely to be living in poverty (28%).

ADVERTISEMENT for SUBCONTRACTOR Construction Services
Request for Bids to Perform LLB Subcontractor Construction Services
Terra Linda High School Wellness & Restroom Modernization

CWS Construction Group Inc. is requesting subcontractor proposals for the **TERRA LINDA HIGH SCHOOL WELLNESS & RESTROOM MODERNIZATION** project which consist of the following scope of work:

THIS PROJECT CONSISTS OF INTERIOR, NON-STRUCTURAL DEMOLITION AND REMODEL OF WELLNESS CENTER AND RESTROOMS. ALL BUILDINGS ARE EXISTING AND NO SITE WORK IS INCLUDED IN PROJECT SCOPE.

Trades Needed (but not limited to): Demo, Asbestos Abatement, Lead Abatement, Cast-In-Place Concrete, Cold Formed Metal Framing, Casework, Insulation, Rainscreens, Sheet Metal Flashings and Trim, Joint Sealants, Doors/Frames/Hardware, Aluminum-Framed Storefronts, Glazing, Flooring, Cement Plastering, Gypsum Board, Tiling, Acoustical Panel Ceilings, Vinyl Tile, Tile Carpeting, Painting, Visual Display Units, Signage, Toilet Compartments, Toilet Accessories, Fire-Protection Specialties, Window Shades, Wet-Pipe Sprinkler System, Plumbing, HVAC, Electrical, Fire Alarm

Interested subcontractors shall submit bids on or before April 23rd, 2024 by 2:00 PM, to CWS Construction Group Inc. 1301 Grant Ave, Suite B, Novato, CA, 94945, Attn: Charlie Slack. Bids will be accepted via fax at 415-209-0228 or email at estimator@cwsconstructiongroup.com. Each subcontractor is responsible to ensure that the bid is received by April 23rd, 2024 by 2:00 PM.

We are requesting and encourage sub bids and material quotes from Certified DVBE, LBE, DBE, MBE, WBE, SBE and all others.
*****Mechanical, Electrical, Plumbing, and Fire Suppression contractors need to be prequalified by the district.**
 The list of prequalified contractors can be obtained through the following link: [Prequalified Contractor List](#)

CWS Construction Group Inc. will award the subcontracts based on the best value criteria permitted under Education Code § 17406 and as authorized by the District's governing board. Each subcontractor's license(s) must be active and in good standing at the time it provides its proposal and must remain so throughout the term of the Contract. Each subcontractor shall comply with the registration and qualification requirements pursuant to sections 1725.5 and 1771.1 of the California Labor Code and the skilled and trained workforce requirements pursuant to section 2600, et seq., of the California Public Contract Code.

Pursuant to Assembly Bill 566 all contractors must meet the skilled and trained workforce requirements for Lease- Leaseback Projects. All contractors must be able to comply with the new skilled and trained workforce requirements and will be required to submit monthly reporting of skilled and trained workforce compliance.

Contract Documents are available for review at 1301 Grant Ave, Suite B, Novato, CA 94945, by calling our office at 415-209-0229, or by sending an email to estimator@cwsconstructiongroup.com and requesting an electronic copy.

All questions should be directed to Charlie Slack at estimator@cwsconstructiongroup.com. The last day for RFI's is April 12th, 2024.

CWS is signatory to both the Laborers and Carpenters Union.

\$900 Million in Federal Funding to Bolster L.A. Transportation

Continued from page 1

place to live and work. I was proud to secure \$151 million for my district for projects that will build green spaces and infrastructure projects to reconnect communities that were ripped apart by highways and trains. As we prepare to host the Olympics, these initiatives will not only showcase the resilience and innovation of Los Angeles but also leave a lasting legacy for generations to come," said U.S. Representative Jimmy Gomez.

"As the highest-ranking Californian on the House Transportation and Infrastructure Committee, I was very proud to help draft and pass the Bipartisan Infrastructure Law, working with Senator Padilla on the Senate Public Works Committee, to ensure much needed funding comes to our communities," said U.S. Representative Grace Napolitano. "I was also glad to lead 13 LA County colleagues in supporting LA Metro's \$139 Million grant request for the Reconnecting Communities and Neighborhoods project. I am particularly pleased that the El Monte Bus Station, the largest bus station west of Chicago, will receive enhancements including investments in bike and pedestrian upgrades, concessions, business development spaces, accessible parking, and EV charging, among other improvements. Today's announcement of hundreds of millions in federal transportation funding for LA County is only the start of our continued work in preparation for the 2028 Games and beyond."

"I want to salute Senator Padilla for his remarkable leadership. The federal funding Metro recently received is a perfect and consequential example of what happens when local, regional and federal partners work together and advocate together," said L.A. Metro CEO Stephanie Wiggins. "LA Metro is committed to providing world-class mobility across LA County and for continuing our strong partnership with all stakeholders who want to join us in reshaping and reimagining mobility in our region."

"The LA28 Games will be the largest peacetime gathering in the history of the world, and an opportunity to show the world the best of our region and nation. We are grateful to Senator Padilla, our members of Congress, and the Department of Transportation for this boost to accelerate projects that will build LA's mobility future, while also supporting Games-time transportation, and we look forward to continued partnership to deliver the transportation needs of the Games and the region," said LA28 Olympic and Paralympic Games Chairperson Casey Wasserman.

"Exposition Park is a gem in the heart of Los Angeles and the eyes of the world will be set on us for a historic third Olympic games. I commend Senator Padilla for his vision and efforts to ensure that this monumental nearly \$1 billion investment in federal funds is used to ensure we have the adequate transportation infrastructure to support the millions of commuters that will visit our world-class museums as part of their Olympic experience," said Exposition Park General Manager.

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

McCarthy Building Companies
515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

Subcontractor Solicitation of Interest Kenneth Hahn Hall of Administration – Base Isolation Seismic Retrofit Los Angeles, CA

McCarthy Building Companies, Inc., working as the Construction Manager at Risk in conjunction with the Department of Public Works for Los Angeles County, is soliciting interest from qualified subcontractors to participate in the bidding for award phase of the project.

Project description: The Hall of Administration Base Isolation Seismic retrofit project consists of the installation of seismic isolators under the foundation of the existing building. Hydraulic jacks and temporary load-bearing shoring will be installed in phases to support and transfer the gravity loads from the existing columns/walls to new support foundations. Seismic strengthening of the superstructure using new concrete shear walls is required at select interior locations. These interior locations will require demolition and reconstruction. Select restrooms will receive ADA upgrades and elevators are to be modernized. A moat gap will be constructed around the building perimeter using earth-retention walls. Shoring and earthwork operations will require demolition and reconstruction of the existing site around the building. Underground utilities will be modified or replaced. This project will be performed at an active site where the building is occupied during typical work hours. Provisions of various sorts will be accommodated so as not to disrupt the occupants of the building.

Project Location: 500 West Temple Street, Los Angeles, CA 90012

Work categories include: Surveying, and Best Value Selection for Design-Build Elevators.

Key Subcontractor Qualifications: Design-Build experience for: Elevators.

Key Dates: Request for Proposals (RFP) issued to Subcontractors – 03/21/24 via Building Connected website; Proposals Due to McCarthy Building Companies – 4/19/24.

This project requires:

- Prevailing Wages
- Community Workforce Agreement (CWA)
- Contractor Controlled Insurance Program (CCIP)
- A 100% Performance and Payment Bond from an admitted surety upon award of contract for all trades.

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin.

Please contact us if you have any questions regarding project specifics:

An Equal Opportunity Employer

Subcontractor/Supplier Bids Requested For:
Keyes Community Services District
TCP Treatment Improvements at Well #7, #8, #9, and #10
Project No. 5010009-005C
Project Location: Keyes, CA
BID DATE: Tuesday, April 16th, 2024 at 2pm

Email quotes to jmiranda@shimmick.com.

Shimmick Construction Company, Inc. is requesting quotes from Disadvantaged Business Enterprise (DBE) subcontractors and suppliers, including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in a Rural Area (SBRA), Labor Surplus Area Firm (LSAF), and HUB Zone firms, in the following scopes of work:

Subcontractors: Electrical; Construction Area Signs; Traffic Control System; Traffic Flagger; Finishing Roadway; Concrete Pumping; Asphalt Concrete; Paving Asphalt; Concrete Structure; Minor Concrete Structure; Furnish Precast Concrete Member; Steel Structures; Clean & Paint Steel; Fencing; Temp Fencing; SWPPP; Trucking.

Suppliers: Safety Equipment; Sand & Gravel; Concrete & Cement; Reinforcing Bar Section; Steel; Lumber; Pipe; Drainage Systems; Storm Water Systems; Fencing; Tools; Construction Staking; Traffic Stripes, Marking & TC Materials.

Plans and specifications may be viewed/obtained at one of the following locations: Gouveia Engineering; Keyes Community Services District; Builders Exchange of Stockton; Valley Builders Exchange, Inc.; Tulare Kings County Builders Exchange; Central California Builders Exchange; Sacramento Regional Builders Exchange; Dodge Data & Analytics; and Golden State Plan Service.

You may also contact Jamie Miranda at jmiranda@shimmick.com.

Should you require assistance with your bid, please contact our lead estimator Brian Guerini at bguerini@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

Anticipated funding source for this Project includes the California State Revolving Fund (CASRF) Programs (Clean Water and Drinking Water SRF). Disadvantaged Business Enterprises (40 CFR Part 33) apply to this project. This project is subject to the "Build America Buy America" (BABA) Provisions of Public Law 117-58. This contract requires compliance with the Davis-Bacon and Related Acts and adherence to the current U.S. Department of Labor Wage Decision.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

This project is funded in part by a Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) grant and the California Governor's Office of Emergency Services (CalOES) Prepare California Match grant. This contract requires compliance with the Davis-Bacon wage rates. Contractors and Subcontractors will be required to enter into the Project Labor Agreement, which is available as Appendix A in the plans and specifications.

Project Name: 967 Mission Design Build PV, Sunshades, Elevators and Fire Protection
Location: San Francisco, California
Bid Date: May 8, 2024
Pre-Bid: April 25, 2024 @ 1:00pm
(Microsoft Teams Call)

Labor Requirements:

- 20% SBE Requirement
- Prevailing Wage – State (DIR) and Federal (DOL) apply
- The mandatory local hiring participation level is 30% of all projectwork hours within each trade performed by local SF residents and at least 50% of the project work hours performed by apprentices within each trade shall be performed by local SF apprentices.

Project Schedule: Est. Start June 2025

A 9 story building (plus occupied roof) mid-rise residential building with ground floor resident serving space, the building will provide approximately 95 units of 100% Affordable senior housing including a manager's unit. The project unit mix is studios and one-bedrooms weighted more towards studios. 25% of the units will be for formerly homeless seniors, and all units will be restricted at 50% AMI or lower. Given the proximity to transportation, services and retail, there will be no car parking and only bike parking. Additionally, the ground floor plate is not large enough to accommodate commercial space and is programmed with property management offices, a community room with a kitchen that allows for flexibility of uses, services offices, and a small conference room, lobby with mail area and back of house spaces. This required ground floor program will not allow sufficient area to provide a transformer vault in the building, the project will apply for an under sidewalk transformer vault. The building will be built for connectivity so that the residents can access Wi-Fi. The building will be all-electric.

Project Schedule: 21.5 Months Est Start: June 2025

Bid Documents: A link has been sent to you via a BuildingConnected email notification. For any questions on accessing bid documents please contact Hannah Austin, Precon & Estimating Coordinator via email, hannah@nibbi.com. For specific questions regarding this project please contact Andrew Kent, Senior Estimator via email andrewk@nibbi.com.

Bidding: Bid proposals shall be submitted no later than 2:00 PM on Wednesday, May 8th 2024 online via the BuildingConnected website.

Prequalification Process:

Unless otherwise directed or authorized, in writing, by Contractor, all Subcontractors shall be required to provide prequalification information as defined by the Contractor and their Prequalification System, TradeApp by Building Connected, upon request and at Contractor's sole discretion, and in all cases prior to Contract award and at any time during the entire duration of the Contract.

Lead Estimator: Noel Moore (626) 926 – 6501
Email: nmoore@stevebubalo.com

Plans & specifications are available for review Monday through Friday, 9:00 am to 3:30 pm, at no cost at our office located at 128 E. Live Oak Ave., Monrovia, CA 91016, and also through a requestable documents link. Please email: mhernandez@stevebubalo.com.

Steve Bubalo Construction Co. is an equal opportunity employer and a Union signatory contractor, and willing when economically feasible to divide total contract requirements into small portions or quantities to permit maximum participation of Small and Minority Business Enterprise (MBE) and Women Business Enterprise (WBE). If you are interested in participating in this project, please contact the Lead Estimator above.

Subcontractors must have a valid California Contractor's License and must be registered with the Department of Industrial Relations (DIR). Subcontractors will be required to adhere to Steve Bubalo Construction Co.'s subcontract agreement and meet general insurance requirements.

More Power, More Water

Continued from page 1

at the same time – generating clean electricity and conserving water. Companies are coming to California because we're embracing innovation and we have the talent and infrastructure to foster new technologies that will solve not only California's, but the world's, biggest challenges."

These pilot projects will:

- Demonstrate the feasibility of installing solar panels over canals
- Reduce water evaporation
- Improve water quality
- Provide renewable power generation
- Demonstrate scalability

UC Merced will study the Turlock project to determine how much clean energy could be generated, how much water could be conserved, and analyze how this could be scaled statewide. Initial findings show that if these projects are scaled statewide they would:

- Save California over 60 billion gallons of water every year – enough for 2 million people;
- Generate 13 gigawatts of clean power – more than half the projected new solar capacity needed by 2030 to meet the state's decarbonization goals.

MORE POWER: It's innovations like these that are pushing California's clean energy future, where we're hitting our goals years ahead of schedule:

- Nearly 60% of California's electricity comes from clean sources – on track to meet our goal of 100% clean electricity by 2045;
- California has already built out 35,000 megawatts of clean electricity capacity for the grid – already powering millions of homes;
- The state has increased battery storage by 757% in only four years – enough to power 6.6 million homes for up to four hours.

\$1 Billion in Bicycle and Pedestrian Infrastructure Over Next Four Years

Continued from page 1

District 4 -

Bay Area / Oakland (Alameda, Contra Costa, Marin, Napa, San Francisco, Ssan Mateo, Santa Clara, Solano and Sonoma counties)

SAN FRANCISCO COUNTY

- **\$5.9 million** allocated for US-101 in the City and County of San Francisco, at Twenty Third Street Overcrossing and at Third Street Undercrossing to replace and upgrade existing bridge rails with new bridge rails to meet current crash and safety standards.
- **\$4 million** allocation for SR-80 in the city of San Francisco, from 16th Street to 7th Street and on US-101, from 16th Street to 0.5 mile south of Market Street. On October 19, 2023, during bridge inspections, it was discovered that portions of the bridge deck had been missing tubular railing, temporarily protected by guardrail, and dam-

aged unsound guardrail at multiple locations. This project will replace damaged bridge concrete barriers and tubular railing.

- **\$2.6 million** allocation on I-80 for the Hillcrest Road Improvement Project in the City of San Francisco on Yerba Buena Island, from the intersection of Hillcrest Road & Forest Road to 0.25 miles west, north of the I-80 on-ramp. The goal is to construct a widened roadway and retaining walls, including 8-ft shoulders, a Class II bike lane, and width to accommodate a future multi-use path.
- **\$3.8 million** allocated for the Yerba Buena Island Multi-Use Pathway Project. This project will construct a multi-use pathway for pedestrians and bicyclists, from the Bay Bridge Trail Lookout (Yerba Buena Island) to the ferry terminal (currently under construction) on Treasure Island, between the City of San Francisco and the City of Oakland.

ALAMEDA COUNTY

- **\$2.9 million** allocation on SR-92 in Hayward, from west of San Mateo Hayward Bay Bridge Toll Station to Santa Clara Street to rehabilitate pavement and upgrade facilities to Americans with Disabilities Act (ADA) standards.
- **\$3 million** allocation on East Lewelling Boulevard between Meekland Avenue and Langton Way in the unincorporated community of Ashland. This project involves closing sidewalk gaps, closing bikeway gaps with Class IV separated bikeways, and enhancing crosswalks with bulb-outs and ADA ramps.

MARIN COUNTY

- **\$1.4 million** allocation on SR-1 near Hamlet, at 2.4 miles south of Tomales-Petaluma Road to repair roadway slipout and embankment, install a retaining wall, and place rock slope protection. This project will utilize the Emergency Limited Bid contract method.

- **\$1.7 million** allocation on SR-131 in Tiburon, east of Trestle Glen Boulevard to stabilize roadway by constructing a retaining wall.
- **\$4.4 million** allocated on SR-131 in and near Tiburon, from US-101 to Main Street (PM 0.0/4.392), in order to rehabilitate pavement, upgrade guardrail, rehabilitate drainage systems, upgrade facilities to Americans with Disabilities Act (ADA) standards, and construct Class 2 and Class 4 bikeways as complete streets elements.

SOLANO COUNTY

- **\$2.9 million** on SR-12 in and near Rio Vista, from Summerset Road to Drouin Drive for roadway resurfacing and rehabilitation, realignment, and widening.

To download the RFP, see: [OCII RFP CFD1 Plaza and Streetscape Maintenance Services](#). Local Small Business Enterprises (SBEs) are encouraged to apply. A virtual pre-submittal meeting will be held on 3/20/2024, 10:00 AM. A Site Tour will be held on 3/22/2024, 11:00 AM. Proposals are due on 4/22/2024, not later than 5:00 PM. For questions, please contact Marie Munson at 415-749-2415 or marie.munson@sfgov.org

UNIVERSITY OF CALIFORNIA UC DAVIS HEALTH

REQUEST FOR QUALIFICATIONS/ PROPOSALS (RFQP)

Subject to conditions prescribed by the University of California – UC Davis Health, responses to Design-Builder’s RFQP documents are sought from Proposers for the following Project and bid package:

Hospital Bed Replacement Tower (RHT) Project UC Davis Health Bid Package #RHT 18 Metal Decking

Description of Work: Construction includes the building of a Replacement Hospital Tower (RHT). The RHT is a key piece of UC Davis Health’s strategy to achieve seismic safety compliance, additional service capacity, and operational improvements. The RHT project is envisioned to comprise a minimum of +/-332 inpatient beds including ICU and medical/surgical, Acuity Adaptable (ICU capable rooms), complex procedure rooms, and imaging and support services. The building option under consideration is approximately 909,000 BGSF of new space. The proposed site is located on the east end of the existing hospital, adjacent to the Pavilion that houses primarily surgery, ICUs, the burn unit, and the emergency department. The RHT will be connected to the Pavilion. Utilities for the RHT will be supplied from the Central Utilities Plant.

Work in this bid package includes; construction services for **Metal Decking** scope for the RHT Project. All work included in this bid package will be performed under the authority and jurisdiction of HCAI. The California Tower of the RHT project has an overall Elemental Target Value (today’s dollars) of \$950,000,000. Metal Decking Bid Package Target Value is: **\$9,500,000.00**.

McCarthy Building Companies, Inc. (MBC) has included qualifications for a qualifications-based competitive selection process for Trade Partner construction services relating to the Hospital Bed Replacement Tower Project (referred to in this RFQP as RHT). This Request for Qualifications/Proposals (RFQP) establishes the requirements for Lump Sum Proposal Submission by qualified Proposers. Lump Sum Proposals will be accepted only from qualified Proposers.

MBC reserves the right to reject any or all submittals and to withhold the award of this project for any reason it may determine.

Procedures: Proposal documents will be available on March 20, 2024 and will be issued electronically at BuildingConnected to prequalified proposers.

Mandatory RFQ-P Information Session:

An Informational RFQP Session will be presented by the Project Team on Wednesday March 27, 2024, beginning promptly at 9:00 a.m. PST. Only proposers who participate in the pre-proposal conference in its entirety will be allowed to propose on this project. Participants shall utilize the following online video/conference call information hosted by Microsoft Teams Software:

Join the meeting now
 Meeting ID: 227 352 037 263
 Passcode: Mh98QT

Price and Narrative Proposals will be received electronically only at McCarthy’s designated BuildingConnected site.

Qualifications & Cost Proposals must be received on or before **1:00 p.m., April 17, 2024**.

Bid results will be provided by **April 19, 2024**.

{FACILITY OPTION: IF THE PRE-PROPOSAL CONFERENCE AND PROJECT SITE VISIT ARE CONDUCTED SEPARATELY, ADD THE FOLLOWING PARAGRAPH:}

Proposal Security in the amount of 15% of the Lump Sum Base Proposal, excluding alternates, shall accompany each bid. The surety issuing the Bid Bond shall be, on the bid deadline, an admitted surety insurer (as defined in the California Code of Civil Procedure Section 995.120)

All insurance policies required to be obtained by the trade partner shall be subject to approval by McCarthy Building Companies and University for form and substance. All such policies shall be issued by a company rated by Best as A- or better with a financial classification of VIII or better or have equivalent rating by Standard and Poor’s or Moody’s.

The successful proposer will be required to have the following California contractor’s license at the time of the proposal opening: C51 – Steel, Structural

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wages at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

California Wage Determination (2024-1) Date: February 22, 2024

No contractor or subcontractor, regardless of tier, may be listed on a Bid for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful proposer shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined as \$15 per hour as of 10/01/2017) and shall comply with all applicable federal, state, and local working condition requirements.

BUSINESS TOOLKIT

8 essential steps for effective project cost estimation and budgeting

[Article originally appeared in www.fieldwire.com]

By Rose Morrison

To say that winning bids is the key to success in construction is a half-truth. Estimating project costs correctly and managing the budget accordingly are just as vital.

Subcontractors getting awarded a contract spells financial disaster if the bid is too high to be competitive or too low to be profitable. Submitting a price within the Goldilocks zone can be challenging. You must have domain expertise and foresight to calculate how much everything will cost, avoid charging too little and spend funds properly.

All subcontractors make project cost estimation and budgeting errors. You can learn from your mistakes and get wiser with experience and insight. However, only some businesses can afford to commit too many faults to keep the lights on. Follow these eight essential steps to estimate project costs and budget funds effectively to prevent grave miscalculations.

1. Study the project details

Understand the construction project's specifications and requirements during the bid solicitation phase. Paying close attention to these details can help you determine whether you're qualified for the job and should submit a proposal.

Bidding on projects you have yet to gain experience in can broaden your horizons. However, trying to be a specialty contractor for everyone can backfire. Concentrating on jobs that fit with your business has merits.

Establishing a solid reputation for specific projects can increase your hit ratio. Property owners can find your credentials impressive and confidence-inspiring when you've been around the same block a few times. Finding your niche can benefit your brand, gaining repeat business from general contractors and design-build construction firms.

For example, focusing on green projects in your county where recycled and carbon-neutral materials are paramount can make you the local authority in sustainability. Zeroing in on historic restoration jobs is another way to differentiate yourself from the competition.

In contrast, trying your luck on any project coming your way can lower your chances of winning a contract. Construction project stakeholders expect you to self-regulate and reflect on whether you're up to the task. Even experienced subcontractors can seem like novices when bidding on jobs outside their areas of expertise.

You may underestimate the job's scale and complexity if you outbid others when you're unqualified. Biting off more than you can chew can put you in a bad light.

2. Perform a material takeoff

Conducting a material takeoff is a sound practice to identify and address discrepancies early. General contractors can review all available con-

struction documents or the bill of quantities the property owner or project engineer prepared. Subcontractors can do a separate take-off based on the general contractor's specs to verify material and equipment quantities and ensure an accurate count before contacting suppliers and vendors.

3. Solicit pricing information

Request quotes from various sources and study their pricing structures. Consider how much savings you can get when ordering large quantities. Buying slightly more than needed may entitle you to bulk pricing discounts.

Factoring material waste into the equation can reveal how many additional supplies you should procure to prevent delay. This task may involve guesstimation, although your life will be easier if you track this information through construction software. Digital data lends itself to analytics. It enables you to evaluate your past projects and have a concrete basis for the amount of extra materials you should order.

Quality must take priority over price. Although almost any product has a budget-friendly option, finer materials contribute to functionality, aesthetics, safety and longevity. Skimping on supplies can save you money once. However, investing in quality items can keep you in business for a long time. It can help you build a reputation for excellence and ensure counterparty satisfaction consistently.

Ask about quote expiration, too. Suppliers and vendors rarely wait forever. Determine whether their offers are valid until you snag the contract to see if you can count on them.

Regarding tools and machines, renting what you seldom use for projects is smart. It spares you from maintenance and storage duties.

4. Calculate labor costs

Labor costs include worker wages, taxes, insurance premiums, retirement contributions, vacation and sick leaves, and union dues. These expenses multiply for every extra person you have on staff.

Know the exact roles the project requires and the hours needed to complete the job to build the right crew.

If you don't have enough employees, use independent contractors to round out the team. They can reduce your labor-related expenses since they're not entitled to the federal minimum wage and overtime pay.

Sadly, many construction businesses purposefully misclassify their employees as independent contractors to slash their payroll costs by up to 50% and shrink bids by 25%. The financial advantages may be enticing, but decide against it to avoid getting sued.

5. Determine indirect expenses

You must estimate insurance, bonds, indirect field expenses and overhead costs. Insurance and bonds particularly matter because they

mitigate risks for all stakeholders and make you a safer party to do business with.

Integrating overhead expenses into estimates accurately is simple. Discerning estimators determine the business's expected annual revenue and overhead cost when assigning a specific percentage of the overhead to a project.

6. Prepare for contingencies

Unknown and unforeseen events can lead to budget overruns, so setting aside a contingency fund is necessary. Gleaning insights from past projects can help you determine a reasonable amount to add to your estimate and keep from pulling a number out of thin air.

Sometimes, property owners have contingency limits. For example, the Washington State Department of Transportation bars contractors from allocating more than 4% of the contract amount for contingencies.

7. Take target profit into account

Determine a suitable profit margin to make the project worth your while without turning off property owners. On average, remodelers net 4.7% before taxes. Regardless of how you feel about this figure, it's an excellent reference point for deciding how much you should charge.

The construction bidding process is only a meritocracy occasionally. Charging too much is a losing strategy if you bid on public projects because government rules generally favor the lowest bidders.

On the contrary, commercial property owners are more keen on hiring contractors with stellar project experience, scheduling philosophies and safety records, even if it means paying more.

8. Technologize budget management

Responsibly spending funds is a different skill. Ensuring the project costs as close to the estimate as possible is the ultimate goal. Preventing unnecessary expenses within your control is a must.

Tracking how much money goes out of your account manually isn't the most efficient method. Instead, use a construction management program to stay on top of your budget. Cloud-based tools designed to keep tabs on invoices and compare actual spending against the budget are indispensable. They can help you economize in every area, finish the job on schedule and get paid ASAP.

Underestimating estimation and budgeting errors is costly

Estimates are no guarantees of cost overrun avoidance. What's certain is getting them wrong can put you out of business sooner or later. Let the above steps guide you and trust the process.

The Best Career Advice for Construction Workers Looking to Grow

[Article originally appeared in <https://dozr.com>]

By Kevin Forestell

Getting started in the contracting industry can be a daunting task for anyone. Whether you're working a summer landscaping job, are in an apprenticeship program, are a daily laborer, or looking to rise up the ranks in your career to become a project manager, there are some great tips out there to ensure you have success.

Taking the time to read forums on Reddit and interview people on our own podcast, The Building Builders Podcast, we've combed the internet for the best construction career advice for contractors to contribute to any construction project.

Here's what experienced and employed construction managers, colleagues, contractors, laborers, construction workers, and leaders had to say about how to start a career in construction.

Build Relationships

Relationships in construction will make or break how well you do in your career. If you have the soft skills needed to build great relationships and develop a strong network, you will be untouchable.

Whether you're a laborer, contractor, or looking to grow a small business or manage construction projects, how you treat the people around you is the most crucial ingredient of a successful career. Almost all the other tips on this list feed into relationship building in one form or another.

Be Accountable

In the construction industry, one of the fastest ways to earn respect is to be accountable. Everyone knows that mistakes happen, but passing blame to someone else will not win you any points.

Contractors are proud of the work they do and for good reason. Many of them are experts at their craft and love to build things with their hands. If someone messes with that, it can hurt. Both financially and their reputation.

Rookie mistakes happen but owning them, learning from them, and moving on will make you a better laborer, apprentice, project leader, and leader in the long run. This accountability, while hurting in the short term, will help build your confidence in your career in the long term.

Be Punctual

A tip that should go without saying is being on time. As the common expression goes "5 minutes early is 10 minutes late." You never know what to expect before a shift. Whether it's a longer commute than usual, needing to get food on the way, getting dressed on the job site, or any other things that might come up, being late is unacceptable.
