

5 New CASE Machines Focus on Helping Construction and Utility Crews Take on Complex Jobs More Efficiently

[Article originally appeared in
www.forconstructionpros.com]

By Allyson Sherrier

CASE Construction Equipment is enhancing its machine lineup with two new compact wheel loaders, including an electric model, two new motor graders and a new small articulated loader with a telescopic arm. The launch also includes upgrades to existing machines, with new technology and options for dozers, compact track loaders and skid steer loaders that give operators more control, visibility and comfort on the jobsite.

“Jobsites for construction, utilities and municipal crews are becoming more varied with more complicated requirements, whether it’s tight operating spaces, exacting project specifications or stringent regulations,” says Terry Dolan, head of CNH Construction Brands, North America. “The ever-changing challenges of the construction industry is partly what drives our ingenuity-obsessed mindset, and it’s why our latest round of innovations are focused on providing versatile, smart machines that make it easier to get more done.”

1. New Compact Wheel Loader Drives Productivity for Big Range of Jobs

For construction teams needing a machine that can handle both heavy-duty tasks and tight jobsite conditions, the CASE 421G compact wheel loader offers a balance of power and flexibility. With 112 horsepower and breakout forces close to 16,900 lbs., it performs like a larger model while maintaining the maneuverability of the CASE 321F platform.

Image Source: CASE

Its hydrostatic drive expands the range of compatible attachments, while the flow-sharing hydraulic system provides adjustable output to meet different job needs. A high-flow hydraulic option supports attachments like stump grinders and cold planers. The cab includes a wide field of view and features like seat-mounted controls, a color display, and a rearview camera to support operator comfort and visibility.

2. New EV Compact Wheel Loader Brings Emissions-Free Performance to Tough Jobs

The CL36EV electric compact wheel loader is now officially available, offering a quieter, emissions-free option for projects that require low environmental impact. With performance like diesel-powered loaders, the 3.6-metric ton machine fits well on jobs with noise restrictions

or indoor requirements. A hinge-pin height of over 10 feet and compatibility with various attachments make it suitable for supply yards and large renovation sites.

3. Upgraded Dozers Give Operators More Precise Control on Complex Jobs

CASE is updating all M Series dozers with improved control systems, giving crews the ability to execute detailed site plans with more precision. Enhancements to the hydraulic and electrical systems simplify maintenance and operation.

Known for high drawbar pull, ranging from 39,086 to 80,979 lbs., these dozers can move large volumes of material efficiently. Optional factory-installed 2D/3D blade control systems and updated electrohydraulic controls help operators hit tighter tolerances with greater ease.

4. New Motor Grader Series Enhance Precision and Control

The new CASE D Series motor graders support improved accuracy and control for grading applications, thanks to electro-hydraulic joysticks and an 8-inch touchscreen display. The updated cab layout improves the user experience with a new control keypad, throttle handle, and a connectivity system that enables remote monitoring through telematics.

Both the 836D and 856D models are built on the C Series platform and offer either four-wheel or all-wheel drive, giving contractors options based on their performance needs.

5. New Small Articulated Loader Gives Operators More Reach

The latest update to CASE’s small articulated loader lineup adds a telescopic boom to the SL27 model, enabling a hinge-pin height of 142 inches for improved stacking and loading capabilities.

This 50-horsepower loader uses a universal hydraulic coupler to quickly switch between attachments and features forward articulation for maneuverability in tight areas. It’s a practical option for material handling, site preparation, and cleanup tasks on compact jobsites.

Updates to Compact Track Loaders and Small Skid Steer Loaders Boost Safety and Accuracy

CASE’s B Series compact track and skid steer loaders are getting several updates aimed at safety and ease of use. Rear object detection helps alert operators to hazards, and new self-leveling features keep buckets and forks level during lift operations.

Markey, Ernst Celebrate American Spirit of Entrepreneurship During National Small Business Week

[Article originally appeared in
www.markey.senate.gov]

U.S. Senate Committee on Small Business and Entrepreneurship Ranking Member Edward J. Markey (D-Mass.) and Chair Joni Ernst (R-Iowa) led 81 of their colleagues in declaring this week as “National Small Business Week” to recognize the innovators and job creators who power our economy.

“This National Small Business Week, we celebrate the contributions of small businesses that create jobs, drive our local economies, and make up the fabric of our communities,” said Senator Markey. “By supporting local businesses and aspiring entrepreneurs, we make our communities and our country stronger. I’m committed to ensuring that our nation’s 34 million small businesses and the 722,500 small businesses in Mas-

sachusetts receive the tools and resources they need to compete and thrive.”

“Small businesses are the lifeblood of Iowa’s economy, making up more than 99% of all businesses,” said Senator Ernst. “These shops mean so much more than the livelihoods they support and the jobs they create, they embody the American spirit and shape the culture of big cities and rural communities across America. These innovators drive our nation forward every day, I’m proud to recognize their tremendous contributions.”

There are more than 34.7 million small businesses in America, accounting for more than 99.9% of all businesses and employing 45.9% of American workers, or about 59 million people.

MCCARTHY
Subcontractor Solicitation of Interest
LA County Care Community on the Metropolitan State Hospital Campus
Norwalk, CA
BID DATE 5/30/2025

McCarthy is soliciting interest from qualified subcontractors and suppliers to participate in the proposal phase of the project.

Project description: The proposed Project is located at the Department of State Hospitals (DSH) – Metropolitan campus in Norwalk, CA. On the east side of Norwalk Boulevard, bounded by Second Street and Third Street, this new Behavioral Health Campus is to be leased by the County from the State and segregated and completely independent from the Metropolitan State Hospital campus and will include Adult Interim Housing, Transitional Age Youth (TAY) Interim Housing, TAY Psychiatric Subacute Facilities and Permanent Supportive Housing. Permanent Supportive Housing will be designed and constructed by others and is not a part of this RFP.

b. The proposed project is located on approximately 13 acres and consists of renovation of the aforementioned buildings, and site improvements as follows:
Cottage 202/204, 205/207
- 16-bed boys Transitional Age Youth Psychiatric Subacute Facility (one building), 16-bed girls Transitional Age Youth Psychiatric Subacute Facility (one building), Beds, Dining/warming kitchen, Multi-purpose/community rooms, Conference/group rooms, Therapy spaces, Staff spaces, Nurse station
Cottage 209/211
- 70-bed Transitional Age Youth Interim Housing Facility, Beds, Community rooms, Dining/warming kitchen, Case management services
Site Improvements
- Parking lot improvements, Ambulance drop-off, Fire lane access road, Program perimeter security fence enclosure with motorized vehicular and pedestrian electronic controlled access gates from dedicated entrance/exit at intersection of Norwalk Boulevard and Second Street, Renovation of existing green space for dedicated landscaped courtyards including but not limited to activity areas, recreational spaces, and shade. Each courtyard to be fenced from adjacent courtyards, Hardscape and landscape, Stormwater management system, New dedicated utilities to buildings 202/204, 205/207, 206/208, 209/211, 210/212, and 213/215, Bicycle parking, ADA improvements.

Project Location: 11401 Bloomfield Avenue, Norwalk, CA 90650

Work categories include: Site Concrete, Landscaping. Glazing, Paint, Flooring, Asphalt Concrete, Striping, Roofing, Misc metals, Casework, Doors/Frames/Hardware.

Key Subcontractor Qualifications: Experience with renovation projects

Key Dates: Request for Proposals (RFP) to be issued to Subcontractors – 05/19/25 via Building Connected website; Proposals Due to McCarthy Building Companies – 05/30/25.

This project requires:
• Prevailing Wages
• Project Labor Agreement (PLA)

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OFFICE OF COMMUNITY INVESTMENT AND INFRASTRUCTURE (OCII)

NOTIFICATION:
DEVELOPMENT OPPORTUNITY

DATE: May 8, 2025

FROM: Jasmine Kuo, Development Specialist

RE: Request for Proposals (“RFP”) for Block 4 West in the Transbay Project Area

The Office of Community Investment and Infrastructure (“OCII”) is seeking qualified applicants to submit proposals to:
Develop, own, and operate mixed-use affordable rental housing units, including units set aside for

households experiencing homelessness, and to construct adjacent off-site public improvements, at Transbay Block 4 West in the Transbay Redevelopment Project Area

OCII, Successor to the San Francisco Redevelopment Agency, is seeking submittals from qualified applicants to develop, own, and operate two (2) 100% affordable rental housing buildings serving low-income families, seniors, and households who have experienced homelessness, with a ground floor community-serving or public benefit commercial space, and to design, develop, and construct an extension of Tehama Street from Beale Street to Main Street, to be transferred to the City of San Francisco for ownership and operation.

An applicant (“Applicant”) is defined as a team comprised of only the following: a lead non-profit or for-profit housing developer and a non-profit housing co-developer, a property manager, an architect, a Workforce and Contracting Action Plan (“WCAP”) consultant (if an outside consultant is being proposed), and a supportive services provider.

In accordance with the OCII Small Business Enterprise Program, the successful Applicant will be required to competitively solicit and select its other consultants and contractors, including general contractor and subcontractors, at subsequent and appropriate development stages of this project. Firms not defined as an Applicant above but interested in participating in this project are advised to contact the successful Applicant’s WCAP representative after completion of

this RFP. The selection of an Applicant is tentatively scheduled for October 2025 (subject to change) and announcement of the successful Applicant will be posted on the OCII website shortly thereafter.

Proposal submittals will be accepted until 4:00PM on Thursday, July 31, 2025. To obtain a copy of the RFP, please visit: <http://sfocii.org/rfps-rfqs-bids>.

For questions regarding this RFP, please contact Jasmine Kuo at jasmine.kuo@sfgov.org.

SAN FRANCISCO COUNTY TRANSPORTATION AUTHORITY

Invitation to Bid for the Treasure Island Ferry Terminal Enhancements Project

The Treasure Island Mobility Management Agency (TIMMA) will receive sealed construction bids for the TREASURE ISLAND FERRY TERMINAL ENHANCEMENTS PROJECT. The Bid Submission Deadline is Tuesday, June 3, 2025, at 2:00 p.m. (PDT). An electronic bidding process has been adopted for this solicitation. Paper bids will not be accepted. Elec-

tronic bids shall be submitted through <https://www.bidexpress.com>. All bidders must register on <https://www.bidexpress.com> and create Digital ID through Bid Express to submit a bid. It can take up to five (5) business days to process your Digital ID and it is highly recommended that a Digital ID be active 48 hours in advance of submitting an electronic bid. Costs associated with obtaining said Digital ID and submitting a bid using Bid Express shall be the sole responsibility of the bidder. Contract Documents, any addenda, and bid forms will be available from <https://www.bidexpress.com/solicitations/41020>.

A non-mandatory Pre-Bid Meeting for the project will be held electronically on Wednesday, May 7, 2025, at 1:00 p.m. (PDT) at the virtual meeting platform Zoom. Attendees can register by visiting www.sfcta.org/ferry-terminal-prebid.

Bids will be opened electronically and read aloud on Tuesday, June 3, 2025, at 2:00 p.m. (PDT) at the virtual meeting platform Zoom. Attendees can register by visiting www.sfcta.org/ferry-terminal-opening.

The project consists of construction of transit shelters, located near the main ferry terminal shelter structure;

men’s, women’s, and family/all gender restrooms; and associated exterior work on Treasure Island, in the City and County of San Francisco.

The Engineer’s cost estimate is approximately \$2,950,000. A Class B General Building Contractor’s license is required and the successful bidder must pay prevailing wages.

The project includes a Disadvantage Enterprise contract goal of 22%.
