

Culture of CARE program to bolster inclusion in the construction industry

On July 6, the Associated General Contractors of California (AGC of California) launched Culture of CARE, a collection of resources designed to aid construction industry companies and organizations' understanding and implementation of belonging and diversity, equity & inclusion's (DE&I) best practices.

"Cultivating an inclusive environment in the construction industry is imperative to attracting and retaining a diverse workforce now and in the future," said AGC of California Chief Executive Officer Peter Tateishi. "Our Culture of CARE initiative allows our industry to work together to address long-standing underrepresentation in the construction workforce and provide an environment where every worker feels welcome and included."

"CARE" stands for "cultivate, attract, retain, and empower." The program offers actionable tools and resources to help contractors gauge current company culture and provides learning resources for both the office and in the field. Specific resources include:

- Facilitator guide: Tips and best practices for delivering training sessions at your office or jobsite.
- Toolbox Talks: Informational discussion guides on topics such as racism, gender identity, sexual orientation, and more.
- Learning resources Assets your organization can adapt for heritage months, research tools, supplier diversity, and more.

Did You Know

76%
Of Millennials expressed that they would leave an employer if diversity, equity and inclusion initiatives were not offered.

- Belonging survey: An anonymous questionnaire that assesses workers' overall sense of belonging and identifies disparities across demographics. AGC of California's DE&I team will assist companies with analysis of results, which are presented in a succinct and informative way.

Creating a culture that supports DE&I is integral to attracting and retaining an engaged workforce. According to Deloitte, 46% of companies who foster a diverse, equitable and inclusive organization reported an increased competitive advantage. And 69% of Gen Z said they would

46%
Of companies who foster a diverse, equitable, and inclusive organization reported an increased competitive advantage in the industry.

be "absolutely more likely to apply to a job with a company whose recruiters and values reflect a more racially and ethnically diverse workplace," according to Tallo.

"Since its launch in 2021, the AGC of California Diversity, Equity & Inclusion Steering Committee has been working to adapt AGC of America's Culture of CARE initiative to maximize its impact on the California construction industry," said Erin Volk, AGC of California's senior vice president, workforce & community development, and executive director, AGC Construction Education Foundation. "AGC of California's

Budget Buys Time for Transit to Build New Business Model

[Article originally appeared in <https://mtc.ca.gov>]

California transit agencies this week received expected but nonetheless welcome financial news as the fiscal 2023-24 state budget signed into law by Gov. Newsom while aboard a BART train includes \$1.1 billion in flexible transportation funding to help support their operations. The state investment, which largely follows the contours of a budget agree-

ment released by the Legislature earlier this month, will help transit agencies avoid a near-term 'fiscal cliff' that likely would have led to deep service cuts as early as this year by Muni, BART and other agencies whose fare revenues remain well below pre-pandemic levels. The new budget also restores a previously imperiled \$4 billion commitment for local transit capital improvements, with an option to flex these funds toward transit operations. The Bay

Area's share of this \$4 billion total is estimated to be about \$800 million.

Noting the \$5.1 billion for public transit included in the new budget, Gov. Newsom said in an Instagram video released this morning, "That's a significant improvement from where we expected the budget to land...But in return we're also demanding more accountability. We're demanding more collaboration. We're demanding a new approach, a new business model for public transit. Not just for Bay Area Rapid Transit but for public transit writ large."

"MTC truly appreciates the hard work done by so many to craft a budget that recognizes the importance of public transit to maintaining California's economic growth and to meeting our mobility, climate and equity goals," said Commission Chair and Napa County Supervisor Alfredo Pedroza. "Members of the Bay Area legislative caucus, including Senate Budget Committee Chair Nancy Skinner, Assembly Budget Committee Chair Phil Ting and Sen. Scott Wiener,

have been incredibly engaged in this year's budget work; and their attention has been matched by Assembly Speaker Anthony Rendon, Senate President Pro Tem Toni Atkins and others from around the state. Gov. Newsom's call for public transit to develop a new business model for a new era is smart and well stated. Our Commission is eager to work with the governor and with the Legislature to step up the pace on the transit transformation work that's already started here in the Bay Area."

The new budget will allow California transit agencies to use up to a combined \$1.1 billion from select sources, including the state's Cap-and-Trade program for greenhouse gas emission allowances, over the next three years to support operating costs (fuel, drivers, mechanics, etc.) as well as to cover capital expenses associated with the transition to zero-emission transit as required by the Air Resources Board's Innovative Clean Transit rule. MTC is expected to receive

ECONOMIC DEVELOPMENT

Future of Tech Recap - LA Tech Week 2023

[Article originally appeared in <https://laedc.org>]

The LAEDC's Future Forum, as part of LA Tech Week 2023, centered on the power of technology in driving innovation and building an equitable economy. New technologies, such as digital platforms, artificial intelligence, and big data analytics, have the potential to revolutionize economic development. They can improve access to information, services, and workforce opportunities for marginalized communities, bypassing traditional barriers like physical distance or lack of funding. By harnessing technology's potential, the aim is to create more inclusive and sustainable economies that benefit everyone.

Stephen Cheung, President and CEO of the LAEDC, and Chris Manriquez, Vice President for Information Technology and Chief Information Officer of California State University Dominguez Hills, also welcomed the participants. Mr. Manriquez highlighted the university's commitment to transformative education, community collaboration, and technological advancements. Mr. Manriquez stressed the importance of technology and its role in shaping the future economy, emphasizing the need for critical thought, education, and regional cooperation.

Jessica Ku Kim, Chief Deputy of the Los Angeles County Department of Economic Opportunity, represented the newly formed department,

which aims to deepen economic and workforce development services. During her keynote, Ms. Kim emphasized the significance of technology in the digital economy, highlighting the impact of technology during the pandemic. She acknowledged the resilience of high-skill, high-wage jobs and the challenges faced by marginalized communities due to the digital divide.

Ms. Kim discussed the department's focus on supporting local businesses, investing in employers that offer living wages and career advancement opportunities. The County aims to build resources and partnerships to promote equitable capital access. The department also recognized the importance of workforce development, ensuring individuals had the necessary skills for rapidly changing technology-driven industries. Kim encouraged employer partnerships and participation in regional discussions to meet the demands of a fast-changing economy. She mentioned LA County's investment in technological infrastructure, including a worker and business portal to simplify access to resources. The department also planned to invest in digital navigators and resources for communities with limited digital literacy and access. Kim emphasized the need for collective investment in socioeconomic empowerment, particularly in disinvested communities.

Ms. Kim expressed the County's commitment to making impactful investments, working with partners, and delivering services to the community. She invited participants to connect with her and the department for further collaboration.

The Future Forum featured a panelist discussion with:

- Mandi Cohen, Managing Director, Deloitte
- Valorie Jones, CTO, Storyfile
- Krystal Rawls – Director, Workforce Integration Network (WIN), CSUDH
- Tim Ryder, General Manager, Microsoft
- Moderator: Todd Terrazas, President, A LA Community

Mr. Terrazas opened the panel with a recent Goldman Sachs report stating that generative AI is expected to drive a significant increase in global GDP by up to 7 percent and productivity growth over the next decade. Generative AI can generate text, images, and other media, revolutionizing content creation, creativity, and productivity. However, it raises ethical concerns regarding quality, authenticity, and ownership of generated content. The panelists focused on harnessing AI's positive potential while ensuring fairness, safety, and broad benefit.

Each panelist then introduced themselves and shared their perspectives on AI. Ms. Rawls emphasized the importance of collaboration across various sectors to ensure the successful implementation of AI. Ms. Cohen highlighted the need for effective regulation and governance to manage the risks associated with AI, drawing from lessons learned from the invention of the internet. Ms. Jones discussed the advancements in creating digital humans and their applications in fields like entertainment, education, and storytelling. And Mr. Ryder discussed the opportunities and challenges of AI in manufacturing, emphasizing the need to bridge the gap between skill requirements and workforce development.

The conversation then discussed the broader implications of AI, including bias in datasets and the importance of governance and ethics, such as those that were not present at the start of the Internet's rollout. The panelists acknowledged the inherent biases in data and stressed the need for transparency, ethical policies, and human oversight in AI systems. They discussed the importance of organizations having robust ethics policies and being accountable for their data practices. There was an emphasis for the need to involve diverse perspectives and communities to address biases and ensure fair and inclusive outcomes.

San Francisco releases analysis report on the impact of Community Benefit Districts

[Article originally appeared in <https://sf.gov>]

The Office of Economic and Workforce Development (OEWD) released an Impact Analysis of Community Benefit Districts (CBDs), also known as Business Improvement Districts (BIDs). The analysis was conducted to measure the impacts and progress of CBD/BIDs, demonstrate the program's value and contribution, identify opportunities to strengthen public and private partnerships, and educate members of the public and government on the program. The report highlights the partnership with CBDs and their contributions including over \$32 million in assessment revenues annually of

which 70% support cleaning, safety and economic development services.

Community Benefit Districts are public-private partnerships in which property and/or business owners elect to make a collective contribution to the maintenance, development, and promotion of their mixed-use neighborhood through a special assessment to the property or business. CBD/BIDs are uniquely positioned to address hyper-local, neighborhood-specific needs.

"Community Benefit Districts are a great example of what can be accomplished when we work collaboratively with community partners to address our most pressing challenges, and to identify pri-

orities at the neighborhood level to improve the wellbeing of our residents and help our economy," said Mayor Breed. "CBDs are important partners, not only to ensure our neighborhoods are clean and safe, but to help us identify how we can continue to provide culturally sensitive programming and connect people to the social services and resources they need to thrive."

"It's been heartening to see Community Benefit Districts evolve since I first authored Article 15 to enable their formation here in San Francisco," said Board President Aaron Peskin, whose supervisorial district hosts the most CBDs in the City. "When done right, they can provide critical support for

supplemental services that San Franciscans care deeply about: safer, cleaner and more activated streets and public spaces."

The 2023 Impact Analysis focused on 15 locally managed property and business districts that are based on specific geographic areas within San Francisco in operation in 2022. The information and data gathered from the report is through 2020-2021. These 15 CBDs/BIDs cover approximately 8 percent of San Francisco's land area, and approximately 20% when only accounting for commercially zoned land. CBD/BIDs in San Francisco directly sustain over 320 jobs and invest over \$32 million for a range of services including

CALIFORNIA SUB-BID REQUEST ADS

401 W A Street, UNIT 1200, San Diego, CA 92101

REQUEST FOR DBE SUBCONSULTANT INTEREST

AECOM is bidding on the following project as a prime contractor:

City of San Diego
As-Needed Construction Management Services – Federal for Engineering & Capital Projects,
Contract Number: H2326236, H2326237 & H2326238
Proposal Due Date: July 20, 2023 (4pm)

AECOM is seeking qualifications from certified disadvantaged business enterprises (DBEs) for the following work:
Driller: perform geotechnical boring, sampling, monitoring well installation, downhole logging support, and associated services

- NAICS 541380 - Geotechnical (Soils)
- NAICS 541360 - Surveying Services (Not Aerial)
- NAICS 541330 - Engineering Consulting
- NAICS 541330 - Engineering Services, Professional
- NAICS 237310 - Construction Management Services
- NAICS 541990 - Cost Estimating Services
- NAICS 541350 & 237990 - Inspection Services, Construction Type

Experience providing similar services to the City of San Diego and a San Diego County business location is preferred.

This proposal is in alignment with the City of San Diego's DBE Guidelines and certified DBEs are encouraged to respond. The DBE program includes minority- and women-owned business enterprises (MBEs and WBEs).

Interested businesses should email a brief 1-2 page overview of their previous work with the City of San Diego and/or similar experience along with DBE documentation by **Wednesday, July 12, 2023**, to **Kristin Munson** at kristin.munson@aecom.com.

If requested, assistance is available in obtaining any necessary lines of credit or insurance; information related to work requirements; and necessary equipment, supplies materials, or related services. Because this is for as-needed services, no scope of work is provided.

BROSAMER & WALL, INC.

An Equal Opportunity Employer is requesting quotations from all qualified Professional services, sub-contractors, material suppliers and trucking including certified DBEs for the following project:

Agency: Sacramento County

Franklin Blvd Bridge Replacement Over Lost Slough and Alta Mesa Road Bridge Replacement Over Laguna Creek
Contract #4391

Engineer's Estimate: \$14,382,960 ~ DBE Goal: 22%; Working Days: 200

NEW Bid Date: 7/27/2023 at 2:00pm via Addendum 6

Email all Quotes/Proposals to estimating@brosamerwall.com.

All submitted quotes/proposals must include: Current CSLB License Number, DIR Registration Number, Annual Gross Receipts, Years in Business and if applicable DBE Certification Number.

REQUESTING BIDS FROM CERTIFIED DBE, MBE, WBE, SBE, LSAF, SBRA, HUBzone Subcontractors and Vendors

Project: Chet Harritt Pump Station and Clearwell Effluent Flow Meter, Lakeside CA

Reference: CIP 21008 and CIP 22004

Revised Bid Date: 07/18/2023 @ 2:00pm

Owner: Helix Water District

Orion Construction Corporation is bidding the above referenced project as a Prime Contractor and is requesting bids for the following trades and/or material suppliers:

SUBCONTRACTORS: Surveying, Concrete Flatwork, AC Paving, Chain Link Fencing, Concrete Structures, Reinforcing Steel, Masonry, Roofing, Sheet Metal, Roof Specialties and Accessories, Doors and Hardware, Miscellaneous and Structural Metals, Overhead Coiling Doors, Acoustical Panels, Thermal Insulation, Painting and Coatings, Monorail Hoists, Plumbing, HVAC, Electrical and Instrumentation.

MATERIAL SUPPLIERS: Precast Concrete Vaults, Pumps, Fabricated CMLC Steel Pipe, Fabricated Stainless Steel Pipe, Piping Materials.

Plans and specifications can be obtained from: Please use link to: https://orionconstructioncc-my.sharepoint.com/personal/anjelica_puch_orionconstruction_com/_layouts/15/onedrive.aspx?id=%2Fpersonal%2Fanjelica%5Fpuch%5Fforionconstruction%5Fcom%2FDocuments%2FCHPS%20CFM%20NIB%20DOCUMENTS&ga=1 - Or, You may contact Orion Construction Corporation with any questions or for assistance via email to Jose Rivera at estimating@orionconstruction.com.

Additional notes: Please submit bids at least one day prior to bid date and include your DIR registration number and any certification you may have. Orion Construction Corporation is willing to break items of work into smaller increments to assist DBE/WBE/MBE/SBE/SBRA/LSAF/HUBzone Contractors and Suppliers in obtaining work on this project and encourages contracting with a consortium of DBE's when a contract is too large for one firm to handle. 100% Performance and Payment bonds may be required, and Orion Construction Corporation will pay up to 3% bond premium. Subcontractor's must possess a current contractor's license. Please contact us for details, or with any questions. Please call if you need assistance in obtaining: bonding, insurance, equipment, materials, and/or supplies. Include with your bid the Time required for Performance of your work and any Delivery Schedules so that we can establish a Flexible Timeframe for your work. Please note that Water Infrastructure Finance and Innovation Act program of the EPA has statutory requirements commonly known as "American Iron and Steel" that requires all of the iron and steel products used in the project to be produced in the United States.

CALIFORNIA SUB-BID REQUEST ADS

Is requesting quotes from certified and qualified **DBE (MBE and WBE)** Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

SUBCONTRACTORS / SERVICE PROVIDERS

Asphalt Paving, Cable & Hand Railing, Cathodic Protection, CCTV Video Inspection, Cold-Planing, Compaction Grout, Concrete Flatwork, Dewatering, Electrical, Fencing, Ground Penetrating Devices, Hazardous Material Disposal, Hydroseed, Manholes, Manhole/Utility Adjusting, Monitoring of Contaminated Soil, Noise Monitoring, Potholing, Project Scheduler (CPM), Safety Representative, Saw Cutting, Sheet Pile, Shoring, Signage, Slurry Seal, Street Lighting, Street Sweeping, Striping, Survey, SWPPP, Systems Integration, Traffic Control, Traffic Signal, Trenchless Installation, Trucking, Vibration Monitoring, Video Recording of Existing Conditions, Water Treatment, Welding, Welding Inspection

SUPPLIERS

Aggregates, Asphalt Concrete, BMP's, Cathodic Protection, Conduit, Diesel Fuel, Equipment Rentals, Erosion Control, Fiber Optic Cable, Miscellaneous Metals, Pipeline Materials, Precast Concrete Structures, Pump Rentals, Ready Mix Concrete, Shoring, Traffic Control

**Morena Pipeline, San Diego, CA
Bid No. K-23-2169-DBB-3-C**

California State Water Resources Control Board - Drinking Water State Revolving Fund (DWSRF):

	MBE*	WBE*
1. Construction	2%	1%
2. Supplies	1%	1%
3. Services	1%	1%
4. Equipment (Combined in above)	1%	1%

Note: MBEs and WBEs must be certified by EPA, SBA, DOT or by state, local, Tribal, or private entities whose certification criteria match EPAs in order to be counted toward MBE/WBE accomplishments. MBEs and WBEs are part of the larger universe of DBEs.

Requests quotes from qualified and certified DBE/SBE Subcontractors, Service Providers, Consultants, and/or Suppliers seeking to participate on the following Project:

BART Silicon Valley Phase II Extension Program Contract Package 2 (CP2) Tunnel and Trackwork
 OWNER: Valley Transportation Authority (VTA)
 CONTRACT NO.: V20221

PROJECT DESCRIPTION: The Project includes a 5-mile-long tunnel, extending from the terminus south of the recently opened Berryessa/North San José Station, through downtown San José along Santa Clara St., to the planned Newhall Maintenance Facility in the City of Santa Clara.

PROJECT LOCATION: Santa Clara County, CA

BID DUE DATE: July 21, 2023, by 5 PM PT

SUBMIT QUOTES VIA: BuildingConnected

POINT OF CONTACT: KSTJV@Kiewit.com

PRE-BID MEETING: July 6, 2023 (Online)

PROJECT WEBSITE: www.KSTJV.com

KSTJV seeks Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) businesses for the following scopes under Early Works Package 3C (EWP 3C):

- Sheet Piles - Furnish & Install
- Reinforcing Steel - Furnish & Install
- Haul & Dispose of Spoils (Class I, II, III)
- Soundwall - Furnish & Install
- Vertical Post-Tensioned Anchors (Deep)
- Steel Fabrication (Large and Small)
- Ready Mix Concrete
- Concrete Pumping
- Water Treatment System
- Formwork - Design & Supply
- Organic Removal
- Supplies: Pumps, Hoses, Pipes
- Supplies: Mass Concrete Monitoring (Thermocouples, readout displays)
- Supplies: Concrete Vibrators, Screeds, Grout Pumps
- Supplies: Ventilation - Hard Line Duct, Fans
- Supply SOE Steel (Steel Pipe Struts, Steel Walers, Sheet Piles)

Non-DBE firms are encouraged to contract with a group of lower tier DBE/SBEs or individual DBE/SBEs.

Plans are available through BuildingConnected (BC). If your company is interested in bidding any of the scopes listed above, please visit www.KSTJV.com and fill out the Bidders List at the bottom of the page. From there, KSTJV will align the company capabilities to the bid packages. If there is a match, your company will be invited into the bid dashboard of the relevant bid package.

Subcontractors must possess & provide valid current California Contractor's License and DIR Registration numbers.

Compliance to federal requirement includes, but is not limited to:

- Clean Water State Revolving Fund (CWSRF) requirements
- American Iron and Steel (AIS) requirements
- Build America Buy America (BABA) requirements
- Davis-Bacon Act and California Prevailing Wage requirements
- Disadvantaged Business Enterprises (40 CFR Part 33) requirements

All successful bidders must comply with the Project Labor Agreement. Further information will be provided in the bidding documents.

If you have any questions, please contact us at KSTJV@Kiewit.com

Budget Buys Time for Transit to Build New Business Model

Continued from page 1

the Bay Area's share of these funds and then to determine the ultimate distributions to Bay Area transit agencies.

The restoration of the full \$4 billion in capital funds for fiscal 2023-24 and 2024-25 will help keep on track major Bay Area projects such as BART's Transbay Core Capacity initiative to boost service frequencies through the Transbay Tube linking San Francisco and Oakland, and

the BART extension to be built by the Santa Clara Valley Transportation Authority from Berryessa/North San Jose through downtown San Jose to a new terminus in Santa Clara. The Major Projects Advancement Policy (MAP) adopted by MTC last year identifies these projects as the primary recipients of future transit capital dollars that will flow to MTC for distribution.

CALIFORNIA SUB-BID REQUEST ADS

Subcontractor/Supplier Bids/Proposals Requested

Owner: California Department of Transportation

Caltrans Contract Number: 11-2T3434

Bid Due Date: August 16, 2023- 12:00 PM

DBE -23%

Skanska USA Civil West California District Inc. is interested in soliciting in Good Faith all subcontractors and suppliers as well as certified DBE subcontractors and suppliers related to the scopes of work below for the:

FOR CONSTRUCTION ON STATE HIGHWAY IN SAN DIEGO COUNTY IN CHULA VISTA FROM PALOMAR STREET OVERCROSSING TO 0.5 MILE NORTH OF BONITA ROAD UNDERCROSSING In District 11 On Route 805

Plans & Specs can be accessed and download online at:

Caltrans Website: <https://ppmoe.dot.ca.gov/des/oe/weekly-ads/all-adv-projects.php>

Skanska's Planroom: <https://app.buildingconnected.com/projects/64ad6dae8455030048ab007f/bid-packages>

Submit Bids to: bids.socal@skanska.com

General Work Description: Soundwalls, widen freeway, structures, landscape and electrical.

Requested scopes include, but are not limited to the following and should be based on the Contract and its amendments: Construction Area Signs, Traffic Control System, Temporary Fuel, Temporary Water, Temporary Barricades, Temporary Fencing, Temporary Erosion and Sediment Control, Temporary Storm and Water Pollution Control, Concrete Drilling, Structural Concrete, Masonry, Metals, Joint Sealants, Traffic Signage, Electrical, Aggregate Base Courses, Clearing and Grubbing, Excavation, Structural Excavation, Backfill, Concrete Slope Protection, Drives Piles, Concrete Piles, Grinding of Concrete Paving, Pavement markings, Chain Link Fences and Gates, Retaining Walls, Manholes, Delineators, Concrete Pipe, Trucks, Sweepers, Guardrail Systems, Sound Wall Extension, Bridge Removal, Cable Railing, Fiber Optic Cable Systems, Camera Systems, Concrete (Ditch Lining), Reinforced Concrete Pipe, Hot Mix Asphalt, PVC Pipe, Landscape and Irrigation Systems, Treated Wood Waste, CIDH Piling, Concrete Barrier, Road Signs.

Requirements: Skanska is an Equal Opportunity Employer and is requesting quotes from all qualified subcontractors and suppliers. Skanska will assist qualified subcontractors and suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation in your quotation as it will be evaluated with your price. To assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities and establish delivery and construction schedules which will permit maximum participation when feasible. Subcontracting Requirements: Skanska's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products and completed operations agg. and general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Working End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per the scope or RFP requirement. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, and Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. Please note that all Contractors and Subcontractors must register with the DIR (Department of Industrial Relations) in order to bid on public works projects. Include CSLB License Number and DIR Number on All Quotes Submitted.

Skanska USA Civil West California District is an Equal Opportunity/Affirmative Action Employer

JOINT VENTURE

ALL POTENTIAL SBE/LBE SUBCONTRACTORS

Guzman Construction Group is requesting bids from SBE/LBE subcontractors for the following project:

2205 Mission Street

Guzman Project Number: 2022-202

Owner: Mission Economic Development Association (MEDA)

Bidding Starts on 6/29/2023 and bids are due on 8/4/2023

Project Description: The new construction is ground up 9-stories consisting of 62 For-Sale residential units, including family daycare, commercial and amenity space. The construction is concrete and light gauge non-structural framing.

There will be some exciting and challenging elements to this project - all in the heart of the Mission District on a busy corner.

Seeking SBE/LBE subcontractors & material suppliers for (but not limited to) the following trades:

Staking, Traffic Control, Watering, Implement BMP, SWPPP, Temporary Erosion Control, Street Sweeping, Exterior Scaffolding, Hoisting, Tower Crane, Security, Water Detection, Final Clean, Earthwork, Aggregate Base & Subbase, Cement Treated Base, Concrete Base, Seal Coat, Asphalt Concrete, Portland Cement Concrete Pavement, Polished Concrete, Reinforcing Steel, Finishing, CMU, Misc. Metal, Metal Stairs, Metal Shades, Finished Carpentry, Fixed Mounted Wire Shelving, Wood Fence, Wood and Plastic Laminate Casework, Cold Fluid Applied Waterproofing, Fluid-Applied Waterproofing, Building Insulation, Foam In Place Insulation, EFIS, Firestopping, Roofing, Joint Sealant, Flashing and Sheet Metal, Intumescent Paint, Expansion Control, Hollow Metal Doors and Frames, Flush Wood Doors, Elevator Smoke Doors, Door Hardware, Storefront Glass, Vinyl Windows, Mirrors, Drywall, Light Gauge Metal Framing, Tile, Resilient flooring, Carpet, FRP Wall Panels, Wood Panel Ceilings, Acoustical Panel Ceiling Assemblies, Paints and Coatings, High Performance Coating, Graffiti-Resistant Coating, Signage, Fire Protection Specialties, Toilet Room Accessories, Bird Control Devices, Bicycle Racks, Quartz Countertops, Walk-off Mats, Appliances, Trash Chutes, Elevators, Landscaping, Plants, Irrigation, Playground Protective Surfacing, unit pavers, Sewer, Storm and Water Supply.

The documents are already on building connected. Please send me an email for an invite to the project. Please state the scope you are interested in.

To be added to our Subcontractor List for this and other project opportunities subcontractors are requested to contact Roger Giese at rgiese@guzmangc.com. Guzman Construction Group is an equal opportunity employer.

REQUEST FOR Sub-Proposals from Certified DBE Firms

Project Name: Washington Blvd Stormwater and Urban Runoff Diversion Project (PR-000) & Median Improvements (PS-020)

Project No. 2325

Owner: City of Culver City Public Works

DBE Goal: 10%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors): Landscaping, Electrical, Dewatering, Striping & Signage, Traffic Control, Surveying, Minor Concrete, Street Lighting, Shoring, Asphalt Paving, Temp. Fencing, Painting & Coatings, Water Treatment Testing, Cold Planing/ Grinding, Sawcutting/Coring, Trucking.

(Suppliers): Waterworks (Valves, PVC, HDPE), Homa Submersible Centrifugal Pump, Pretreatment Unit, Aggregates, Low Flow Discharge Pump, Reay Mix, RCP, Traffic Control, VCP, BMPs, Geotextiles, Misc. Construction Items, Crash Cushion, Precast Concrete Storage System, Flow Meter, Misc. Metals.

Project Scope:

Culver City completed a redesign that will shorten the underground storage system to be installed along Washington Boulevard. The underground storage system will only be installed between Costco's east and west driveway entrances/exits. The remaining underground storage system will be placed along the west side of Glencoe Avenue north of Washington Blvd. The project consists of installing landscape center meridians.

BID DATE: August 3rd 2023 at 3PM (PDT)

REYES CONSTRUCTION, INC.

State License Number 507561

1383 South Signal Drive, Pomona, CA 91766

Phone: 909-622-2259 • Fax: 909-622-3053

Contact: Brenda Martinez Mon-Fri 7:00 A.M - 4:00 P.M

Assistance will be available in obtaining bonds, lines of credit, insurance, necessary equipment, supplies, materials or related technical assistance.

Plans, Specifications, and Contract requirements can be viewed online at no cost here:

1) Via iSqFt - please send an email request to estimating@reyesconstruction.com

2) Planetbids- <https://pbsystem.planetbids.com/portal/39483/bo/bo-detail/106705>

3) Via Sharefile- please send an email request to estimating@reyesconstruction.com

Please e-mail Quotes to: Estimating@reyesconstruction.com

Request for Quotes from Certified DBE/MBE/WBE Subcontractors and Suppliers

Project: Morena Pipeline • Bid No. K-23-2169-DBB-3-C

Owner: City of San Diego

Revised Bid Date: Bid Date: July 27, 2023, at 2:00 p.m.

CASRF and EPA Funded Contract

SWRCB DBE Forms are REQUIRED

DBE Participation Encouraged

Flatiron West, Inc. is bidding the Morena Pipeline, Bid No. K-23-2169-DBB-3-C, as a Prime Contractor and is requesting quotes for the following, but not limited to, scopes of work:

Subcontractors - Asphalt Paving, Cold Plane AC, Color Stamped Concrete, Concrete Barrier, Dewatering, Electrical, Erosion Control, Fencing, Guardrail, Minor Concrete, Reinforcing Steel, Saw and Seal PCC, Shoring, Striping, Traffic Signs.

Suppliers - Aggregate Supply, Concrete Supply, PCC Material Supply, Pipe Supply, Ready Mix Concrete Supply, Traffic Control Materials.

Services - Hazardous Material Disposal, Ground Penetrating Radar, Potholing, QC Testing, Street Sweeping, Survey, Trucking, Video Documentation, Water Truck.

PLEASE SUBMIT QUOTES TO socalbids@flatironcorp.com or by fax to (858) 271-1330.

Plans and specifications are available to download, at no cost, from the City of San Diego PlanetBids website at the following link: <https://pbsystem.planetbids.com/portal/17950/portal-home>. The Bid Documents are also available, at no cost, from Flatiron in electronic format or can be viewed at our offices in San Diego or Chino. Please call to request access or to make an appointment to view the documents at one of our offices.

This is an American Iron and Steel project. Quotations must be valid for same duration as specified by Owner for contract award. Flatiron analyzes and considers each DBE quote, including those that are broken down into economically feasible units to facilitate bidding. Flatiron intends to work cooperatively with all DBEs for scopes of work firms you are licensed and qualified to perform. Assistance referrals in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and meet insurance requirements. A copy of our Standard Subcontract Terms and Conditions is available in electronic format upon request.

Notwithstanding any contrary language in a bid to Flatiron West, Inc. ("Flatiron") or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%.

Non-DBE Subs/Suppliers: Indicate lower tier DBE participation offered on your quotation as it will be evaluated with your price.

Flatiron West, Inc.

12121 Scripps Summit Drive, Suite 400, San Diego, CA 92131

Phone (760) 916-9100 / FAX (858) 271-1330 • Email: socalbids@flatironcorp.com

WE ARE AN EQUAL OPPORTUNITY EMPLOYER

Plan to Strengthen Semiconductor Supply Chains as Part of Investing in America Agenda

[Article originally appeared in www.commerce.gov]

Department of Commerce Announces Strategic Vision and Application Process for Semiconductor Supply Chain Projects, Nearly 400 Companies Interested in CHIPS Incentive

The U.S. Department of Commerce shared the Biden-Harris Administration's strategic vision to strengthen the semiconductor supply chain through CHIPS for America investments. To advance this vision, the Department announced a funding opportunity and application process for large semiconductor supply chain projects and will release later in the fall a separate process for smaller projects. Large semiconductor supply chain projects include materials and manufacturing equipment facility projects with capital investments equal to or exceeding \$300 million, and smaller projects are below that threshold.

The announcement leads into the Biden-Harris Administration's Investing in America tour, where Secretary Raimondo and leaders in the Administration will fan across more than 20 states to highlight investments, jobs, and economic opportunity driven by President Biden's Investing in America agenda and the historic legislation he's passed in his first two years in office, including the bipartisan CHIPS and Science Act.

"After the pandemic exposed holes and bottlenecks in our semiconductor supply chains that sent shockwaves across our economy, the CHIPS and Science Act is a historic opportunity to ensure our microchip supply chain resilience," said Secretary of Commerce Gina Raimondo. "Thanks to President Biden's Investing in America agenda, we're already seeing billions in private sector investment bolster the semiconductor supply chain. We're laying out our vision for how we'll build on that progress by responsibly making investments to ensure resiliency and success for the clusters we will create."

Alongside the funding opportunity for larger supply chain projects, the Department also released a "Vision for Success" outlining strategic objectives for investments in the semiconductor supply chain, building on Secretary Raimondo's February speech at Georgetown University on core CHIPS for America objectives. The goals in the vision paper include: (1) strengthening

supply chain resilience, including by reducing chokepoint risks flowing from the geographic concentration of critical semiconductor inputs; (2) advancing U.S. technology leadership, including by incentivizing major U.S. manufacturing equipment and materials suppliers to increase their footprints in the United States and attracting non-U.S. suppliers of the world's most advanced equipment, materials, and subsystems to establish large-scale footprints here; and (3) supporting vibrant U.S. fab clusters, including by ensuring that each CHIPS-funded cluster is supported by an ecosystem of reliable suppliers. Read more here about these goals in the supply chain Vision for Success paper.

This vision, in addition to the statements of interest the Department received, will inform implementation and ensure CHIPS funding crowds in private capital – not replace it – across the semiconductor ecosystem. It also positions the Department to steward taxpayer dollars as efficiently and effectively as possible. Since announcing the first funding opportunity, the Department of Commerce has received nearly 400 statements of interest from companies seeking to build semiconductor projects across 37 states, demonstrating widespread enthusiasm from the private sector to continue investing in America. The recently released funding opportunity also maintains the Department's emphasis on building the construction and facility workforce that will support resilient domestic supply chains, including through partnerships with labor, educational institutions, workforce development organizations, and others.

Application Processes and Timelines

As part of the bipartisan CHIPS and Science Act, the Department of Commerce is overseeing over \$50 billion to revitalize the U.S. semiconductor industry, including \$39 billion in semiconductor manufacturing incentives. The first funding opportunity seeks applications for projects to construct, expand, or modernize commercial facilities for the production of leading-edge, current-generation, and mature-node semiconductors. This same funding opportunity is now open to materials and manufacturing equipment facility projects with capital investments equal to or exceeding \$300 million.

Large-scale supply chain projects that are now eligible will follow the five-part application

process laid out in the first funding opportunity: statement of interest, pre-application (optional but recommended), full application, due diligence, and award preparation and issuance. Applicants will be evaluated based primarily on the extent to which the application addresses the program's economic and national security objectives, but they will also be evaluated based on commercial viability, financial strength, project technical feasibility and readiness, workforce development, and broader impacts.

An additional funding opportunity will be released in the fall for supplier projects below the \$300 million threshold with a tailored application that smaller businesses can navigate. Read more here about both funding opportunities.

Current CHIPS manufacturing incentives application processes and timelines:

- **For leading-edge commercial facilities:** Both pre-applications (optional) and full applications are being accepted on a rolling basis.
- **For current-generation and mature-node commercial facilities:** Pre-applications (optional but recommended) are currently being accepted on a rolling basis and full applications will be accepted on a rolling basis starting June 26, 2023.
- **For larger materials and manufacturing equipment supplier facility projects with capital investments equal to or exceeding \$300 million:** Pre-applications (optional but recommended) will be accepted on a rolling basis starting September 1, 2023, and full applications will be accepted on a rolling basis starting October 23, 2023.
- **For all potential applicants:** The Department continues to accept statements of interest on a rolling basis to further inform the program of interest and make for efficient application review.

Forthcoming CHIPS manufacturing incentives applications processes and timelines:

- **For smaller materials and manufacturing equipment supplier facility projects below \$300 million:** The Department will release an additional funding opportunity in the fall with details on the application process and timeline. For more information

about this forthcoming funding opportunity, see here.

- **For commercial R&D facilities:** The Department will subsequently release a separate funding opportunity with details on the application process and timeline.

International Coordination with U.S. Partners and Allies

As CHIPS for America invests across the supply chain, the Department of Commerce will prioritize robust international engagement. Through bilateral and multilateral dialogues, and business-to-business and government-to-business forums, the Department will work with likeminded partners to strengthen and diversify the global semiconductor supply chain.

The Department's CHIPS-related international engagement to date has included engagements with the Republic of Korea, Japan, India, and the United Kingdom, and through the Indo-Pacific Economic Framework, European Union-United States Trade and Technology Council, and North America Leaders' Summit. The Department will continue coordinating closely with U.S. partners and allies to advance these shared goals, advance our collective security, and strengthen global supply chains.

About CHIPS for America

CHIPS for America includes the CHIPS Program Office, responsible for manufacturing incentives, and the CHIPS Research and Development Office, responsible for the R&D programs, that both sit within the National Institute of Standards and Technology (NIST) at the Department of Commerce. NIST promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life. NIST is uniquely positioned to successfully administer the CHIPS for America program because of the bureau's strong relationships with U.S. industries, its deep understanding of the semiconductor ecosystem, and its reputation as fair and trusted. Visit <https://www.chips.gov> to learn more.

How Attachments Can Ease Construction Workforce Shortages

[Article originally appeared in www.forconstructionpros.com]

By Brant Kukuk

Contractors have always relied on their equipment to help them be productive. But today, with more than 8 in 10 leaders in the engineering and construction industry saying the tight labor market and an exiting workforce is a top challenge, contractors may be needing even more help from their equipment to efficiently and effectively complete jobs.

There are many things contractors can do to maximize productivity of their equipment on jobsites. These include making sure operators are trained on the proper equipment operation,

using the performance and health telematics that are increasingly available from equipment, and following proper maintenance strategies.

However, there's one aspect of equipment that's too often underappreciated for how much it can improve productivity and efficiency on the jobsite – their attachments.

Greater Versatility, Better Productivity

Today, equipment like trenchers, stand-on skid steers and vibratory plows are available with a wide range of attachments. In some cases, a single piece of equipment can be fitted with several dozen different attachments.

Attachments can make equipment more versatile, so crews can take on more jobs. In some cases, attachments also help crews work faster because they're doing work that otherwise would need to be done by hand.

Attachments can also make crews more efficient by allowing them to transport fewer pieces of equipment to and from jobs. Some crews, for instance, are able to use one piece of equipment and a mix of attachments for most of the work they do. This also reduces the number of pieces of equipment that crews need to learn how to operate and maintain.

To understand how equipment attachments can make crews more productive, consider the

wide range of jobs that stand-on skid steers can tackle with some of their most widely used attachments.

Bucket

This is perhaps the most popular attachment used with stand-on skid steers. The bucket attachment can lift large piles of material or debris, making it useful for everything from construction-grade jobs to landscaping and tree care.

A variety of bucket types are available to support different job demands. A dirt bucket can be used to move topsoil and backfilling.

EVENTS

CITY OF LODI

DBE CONSULTATION MEETING - JOIN US!

The City of Lodi Transit Division is in the process of calculating its 3-Year Goal for Disadvantaged Business Enterprises to participate in projects funded by the Federal Transit Administration (FTA). The federal fiscal years covered are 2023/24, 2024/25, and 2025/26.

The City will host a hybrid virtual/in-person meeting on Thursday, July 27th at 2:00PM to discuss the goal setting methodology and receive input from stakeholders in our region.

To attend virtually, please RSVP to the email address or phone number below. The meeting will also be held in-person, at the Lodi City Hall Public Works department (221 W. Pine Street, Lodi, CA 95240).

6 Keys To Subcontractor Prequalification Success

[Article originally appeared in
<https://mtc.ca.gov>]

By Kendall Jones

As a general contractor, you have to be selective when it comes to the subcontractors you work with. You want to choose companies that have a dependable skilled workforce, strong management, financial stability, and can perform quality work to your company's standards. To do this, you need to have an established subcontractor prequalification process in place.

As with any business decision, picking subcontractors to work with requires you to do your due diligence. You should be prequalifying every subcontractor you're considering working with to reduce risks that could impact your business, such as subcontractor default or substandard work.

Maybe you have a stable of subcontractors you routinely do business with, but what happens when you decide to take on a project in another state or all of your regular subcontractors are unavailable? At some point, you are going to work with a subcontractor that you have little to no experience working with. Prequalifying subcontractors before you solicit pricing or subcontractor bids can lead to mutually beneficial partnerships for years to come.

Here is some of the key information you need to obtain on your subcontractor prequalification forms:

General Information

You want to get some basic information such as company ownership, current management, number of employees, and the states in which they have contractor licenses. You also want to find out about the size and scope of the projects they typically work on and whether they are certified as a Minority Business Enterprise.

Safety Records

At the very least, you need to get their OSHA 300 information and whether the subcontractor has had any citations issued and their Experi-

Image credit by www.freepik.com

ence Modification Rate for the previous three years. You can also inquire about their training program and whether or not they hold regular safety meetings.

Surety & Bonding Capacity

Find out the subcontractor's current surety provider, agent's name, and contact information. Be sure to ask about their bond rates for specific volumes along with their single project bonding capacity and their aggregate bonding capacity.

Financial Standing

Determine if the subcontractor has ever filed for bankruptcy and ask for their Dun & Bradstreet number if they have one. You can also ask them to provide other financial information such as current year revenues, total and current assets, net equity, current liabilities, and average monthly billings.

Litigation History

The first thing to determine is whether the subcontractor company, or any of the owners, has any active litigation. Find out if the subcontractor has had any labor law violations, had their license suspended or revoked, and if they've had any judgments filed against the company. You should also ask about any contract defaults and whether they've ever been terminated from a contract.

Ask for References

Ask your potential subcontractors to provide three to four reference contacts that can attest to both the quality and dependability of their company and employees and can also verify the company's creditworthiness.

Final Thoughts on Prequalifying Subcontractors

General contractors should make their subcontractor prequalification process easily accessible. Create an online prequalification form that can be easily found on your company's website. Have a link to the form prominently featured on the page where you have your subcontractor opportunities or currently bidding projects listed.

If you are a subcontractor looking for more opportunities, you should contact general contractors in your area and ask to get prequalified with their company. You don't have to wait until they have a job that meets your company's capabilities. Be proactive and get prequalified first. This way, you'll get contacted by the general contractor first when they have an upcoming project requiring services your company provides.

San Francisco releases analysis report on the impact of Community Benefit Districts

Continued from page 2

public safety, cleaning, beautification, wayfinding, outreach and connecting unhoused to resources, marketing, and etc. to improve and strengthen their mixed-use neighborhood commercial areas, annually.

The Impact Analysis found that:

- Based off FY 19-20 data available at the time of authorship, CBDs removed over 2,000,000 pounds of litter and garbage from their service areas.
- Over 30 public art installations produced by CBD/BIDs since 2017, at the time of authorship.
- CBD/BIDs continue to increase the number of placemaking projects and initiatives they lead.
- Over 70% of CBD assessment revenues were focused on clean and safe services.
- Nearly 50% of operating CBD/BIDs were established in the last 10 years.

- CBD-led analysis of their clean and safe programs enables more effective and impactful services.
- The city can and should strengthen partnerships with CBD/BIDs to leverage the localized expertise of these organizations, which will lead to greater effective service delivery results for both.
- The city can leverage CBD/BIDs in their outreach and connecting people to social services programming. This is a relatively new performance area for CBDs, but nearly all CBD executive directors believe their direct services or partnerships with CBOs should continue.
- CBDs adapted immediately to small business needs at the onset of the Covid-19 pandemic and continue to serve as hyper-local resource hubs for businesses and area stakeholders.

- The city should look to CBD/BIDs for hyper-local economic development needs and insights.

“The CBD program has been vital to Japantown’s growth and economic vitality,” said Grace Horikiri, the executive director of the Japantown CBD. “It has helped to identify Japantown as an important voice in our City’s economy through culturally vibrant visitor attraction initiatives and new partnerships locally as well as internationally.”

“Since 2005, the Tenderloin Community Benefit District has been a steadfast champion of community-based leadership, fostering collaboration among stakeholders to advocate for increased resources and successfully pilot new programs that have become integral to our neighborhood,” said Kate Robinson, the executive director of the North of Market/Tenderloin CBD. “The services offered by our CBD go beyond the city’s baseline provisions, ensuring a more equitable and vibrant community for all. These services have proven invaluable, par-

ticularly during our collective response to the pandemic crisis, enabling us to address challenges and sustainably activate our shared public spaces. The success of this extraordinary and diverse neighborhood is synonymous with the success of San Francisco as a whole, and we are immensely grateful to have found a vehicle like the CBD to advocate for the prosperity of the Tenderloin.”

“Residents, businesses, and other stakeholders constantly tell me about the difference we are making in the community,” said Christian Martin, the executive director of the SoMa West CBD. “People constantly see our highly visible cleaning team, which picked up over a million pounds of trash last year, but we also work on streetscapes and public realm activation, implementing public art, organizing community events, and provide outreach service to those in need to connect them to social services.

Culture of CARE program to bolster inclusion in the construction industry

Continued from page 1

in the construction industry. Culture of CARE resources are on AGC of California’s new branded Culture of CARE website complete with actionable tools and resources.

The initiative continues AGC of California’s long-term commitment to advance DE&I across

the industry, membership and leadership. These efforts include the AGC of California DE&I Forum which serves as a space for companies to engage in conversations about transforming corporate structure, policies, practices, and jobsites. The forum is led by AGC of California’s DE&I Steering Committee – comprised of diverse AGC of California contractor and associate members

as well as external experts. The group develops policies, procedures and training to help guide the development of recommendations listed in our DE&I Task Force Report.

“I hope that creating a Culture of CARE will inspire an environment that is more innovative, efficient and mentally safe because all perspectives and ideas are considered,” said AGC of

California DE&I Steering Committee member and Hensel Phelps General Superintendent Ciara Seger. “The people in our industry are bright, imaginative and out-of-the-box thinkers, and we have an opportunity to tap into everyone’s potential by helping to create a Culture of CARE in California.”

High-Speed Rail Recognizes Summer Graduates of Central Valley Training Center

[Article originally appeared in <https://hsr.ca.gov>]

The California High-Speed Rail Authority (Authority) recognized 11 students who completed the Central Valley Training Center's 12-week, pre-apprenticeship program at a graduation ceremony at the Selma Arts Center.

The pre-apprenticeship training program is aimed at serving veterans, at-risk young adults, minority, and low-income populations in the Central Valley. The no-cost program provides hands-on construction industry train-

ing for those looking to work on the nation's first high-speed rail project.

"Continued progress on the high-speed rail project is thanks to the men and women who are on our construction sites each day," said Garth Fernandez, Central Valley Regional Director. "We're proud to be working with our partners and help train the workforce that will bring high-speed trains to California."

At the Central Valley Training Center, students are exposed to more than 10 different construction trades and exit the program with more than a dozen industry-specific certifica-

tions. Graduates receive job placement assistance, including coordination with the high-speed rail project and its contractors.

Since the start of the training center, 134 students have graduated, with more than 1,000 inquiring about the program.

Since the start of high-speed rail construction, the Authority has created more than 11,000 construction jobs with a majority of those going to residents from the Central Valley. In addition, there are more than 30 active construction sites across 119 miles under construction in the Central Valley. Visit www.buildhsr.com

Image credit by <https://hsr.ca.gov/>

for the latest construction information.

The Central Valley Training Center is a project of the California High-Speed Rail Authority in partnership with the City of Selma, Fresno Economic Development Corporation, the Fresno, Madera, Kings, Tulare Building Trades Council, and the Fresno Economic Opportunities Commission. To learn more about the Central Valley Training Center, visit www.cvtcprogram.com.
