

CalOSBA Invests \$25 Million for Launch of Nation's First Statewide Program

The California Regional Initiative for Social Enterprises (CA RISE) program will build capacity and provide capital to businesses that hire, train, and support California workers facing barriers to employment.

[Article originally appeared in <https://business.ca.gov>]

CalOSBA has selected its partners to build a first-of-its-kind program designed to accelerate economic inclusion by investing in the power of employment social enterprises (ESEs). CARISE (California Regional Initiative for Social Enterprise) will help ESEs statewide improve their business stability and advance the economic mobility of their employees by pairing technical assistance and advisory support with grant funding for participating businesses.

CalOSBA has selected non-profit REDF to serve as program lead responsible for technical assistance and counseling to California's ESEs or businesses that want to become an ESE. CalOSBA has also selected financing minority-led small business lender Lendistry to serve as the fiscal agent for administration of grants to eligible ESEs that complete REDF's counseling program. Governor Gavin Newsom approved \$25,000,000 funding for CA RISE as part of the 2022-2023 state budget.

ESE businesses employ, train, and support talented Californians overcoming barriers to employment, including people often overlooked by employers because of their experiences of homelessness, incarceration, or mental health and substance use challenges; refugees; survivors of domestic violence and trafficking; and youth who have been in foster care.

ESEs participating in CA RISE will receive customized, in-depth technical assistance to ensure the sustainability and success of their businesses and become eligible to apply for grant funding through the program. REDF will also work with ESEs to connect them with local public partners, training providers, and private sector employers. Eligible businesses include non-profits and for-profits that are organized as social purpose or benefits corporations and with a demonstrated track record of achieving specific outcomes related to economic inclusion, stability, and mobility.

Mayor Breed Signs Balanced Budget that Delivers Key City Priorities

[Article originally appeared in <https://sf.gov>]

Mayor London N. Breed signed San Francisco's \$14.6 billion Budget following final approval by the Board of Supervisors during Tuesday's meeting. Mayor Breed was joined by Budget Chair Supervisor Connie Chan, members of the Board of Supervisors, and other City officials at a signing ceremony on the Mayor's Balcony at City Hall.

"Our agreement with the Board of Supervisors delivers a budget that builds on the core priorities that San Francisco residents deserve, while closing a significant budget deficit. Specifically, it will deliver critical public safety support for

our neighborhoods," said Mayor Breed. "It will drive our economic recovery and revitalize Downtown. It will confront the City's fentanyl crisis, provide support for those struggling with homelessness, and create opportunities for all San Franciscans to thrive. I want to thank the members of the Budget Committee, including Chair Connie Chan, for their work on this agreement."

"This has been a challenging budget year and the work is not done. But let's take this one step at a time, today we can celebrate this milestone," said Budget Chair and Supervisor Connie Chan. "Tomorrow, let's get back to work, we have a tough road ahead of us."

The City is working to implement the Mayor's top priorities, including the strategic plans laid out in the Roadmap to Downtown's Future, Housing for All, Home by the Bay, Children and Family Recovery Plan, and the Climate Action Plan.

Mayor Breed's two-year Budget builds on these strategic plans in her work to deliver a clean and safe City, drive the City's economic recovery, confront the City's fentanyl crisis, create opportunities for all San Franciscans to thrive, and ensure people have a safe and affordable place to call home.

Key priorities funded in the Budget, include the following:

Delivering A Clean and Safe City

This Budget meets key public safety priorities proposed by Mayor Breed to make residents, workers, and visitors safe in this City. The Budget builds back the Police Force to meet long-term hiring goals, including hiring 220 more police officers over the next two years, expands alternatives to policing to free up officers to focus on crime and safety issues, and delivers more tools for accountability of open-air drug markets.

It also funds Public Works cleaning crews who power wash sidewalks, remove litter, and sweep gutters, and provides courtesy graffiti removal for storefronts and other private property in neighborhood commercial corridors.

Restoring our Downtown and Economy

The Budget makes significant investments in supporting Mayor Breed's Roadmap to Downtown's Future, as well as broadly supporting San Francisco's economic recovery.

To strengthen the economy and fill vacancies in the City, the Budget is balanced assuming tax incentives to keep existing businesses stable and to recruit new businesses to fill empty offices Downtown.

The Budget funds key programs to help fill empty storefronts, including investments in the Powell Street Corridor, the new Vacant to Vibrant program, which matches pop-up activations with property owners, and First Year Free, which waives all City fees for new small businesses in the year they open.

BUSINESS TOOLKIT

Benefits of Networking & Building Relationships as a Trade Contractor

[Article originally appeared in www.constructconnect.com]

By Kaiya Barrett

We've all heard the saying, "It's not always about what you know but who you know." As a trade contractor, in an unpredictable economy, it may make more sense to say, "It's always about what you know and who you know."

Your ability to network with other construction industry professionals should be as detailed and precise as your skilled trade. There are several ways to network and discuss business, face-to-face or digitally. Attending conferences, professional events, and webinars are just a few ways to meet your peers and exchange information. Once you reach a certain level of success, your reputation will garner positive or negative word of mouth to pass around the industry. So, treat every meet-up as a future opportunity.

Think of networking as a key pillar of your business and its overall success. There are many ways to build and maintain relationships in the

construction industry, and we will go over the how and why behind it.

The Networking Company to Keep

Former employers, coworkers, and subcontractors are all people you can come across again in future projects. In an industry where everyone knows everyone, maintaining healthy relationships with contacts from the past could become a benefit for the future.

Another tip to remember is to think of networking outside of work. You could make great contacts standing in line for coffee, waiting for an oil change, or at your child's school function. It's not a bad idea to have an elevator pitch ready to go for a brief interaction. The elevator pitch is a to-the-point, high-level view of what you do and how your services make a difference in construction projects.

Networking Has Its Benefits

Going through the process to attract and win new business involves a large amount of networking and building relationships. Outside of growing

your project pipeline, there are several reasons to improve your networking skills.

Let People Get To Know You

Taking a construction project from start to finish is a team effort, where top-notch attention to communication and relationship building is required. People must learn about your brand and company history to establish a good working relationship from the start. Let the industry see who you are and what sets your business apart from the rest.

Gain Knowledge of Business Best Practices

Once these connections are made, you should take the opportunity to learn and gain new knowledge and adopt new business best practices. Some people operate differently, but a fresh perspective could lead to discussions around how to better manage your projects, which projects to go after, and how to maintain sustainability for long-term success.

Discover Ways To Embrace New Technology

If you're considering adopting a new piece of software or technology for your business, it may be helpful to first ask questions to contractors already using it. Artificial Intelligence is the talk of the industry and has transformative effects on every stage of construction. Networking is a great way to dip your toe into uncharted tech waters.

Resources for Networking Growth

Industry Associations

Consider joining a trade association related to your specialty in the industry. Associations are a great way to increase your networking opportunities and gain access to ITBs and industry news. Associations will frequently host webinars as opportunities to network and serve as a learning vessel for a current industry topic.

Business Cards

Even in this ever-changing technological landscape, always having a business card handy is

WORKFORCE DEVELOPMENT

Prison to Employment: How California workforce development boards help... and why it matters

[Article originally appeared in <https://calworkforce.org>]

By Matt Jocks

When that long countdown to the end of a prison sentence reaches zero, the door swings open. It will mean little, however, if that's the last open door an inmate sees.

Unlocking the entrance to the job market is essential for the 35,000 or more individuals released from California prisons yearly. It's also essential for the economy and for communities who feel the impact when those who are released fail to find solid employment and reoffend.

The Mother Lode Workforce Development Board, serving four counties straddling Central and Northern California, has taken an aggressive

and innovative approach in leading former prisoners to those open doors.

Inside, Mother Lode has facilitated training and certification programs, as well as counseling. In a significant advance, it has opened job centers in the two prisons within their area, linked online to the CalJOBS site.

Mother Lode WDB also provided a lifeline to those on the outside, using grant money to offer training and certification.

While jobs, sustainable incomes and lowering the recidivism rate are all vital, the results of these programs are larger than those elements.

"It's too simple to say we help them get a job," says Dave Thoeny, executive director of Mother Lode WDB. "When we hear from people who

have gone through, it's never, 'Thanks for helping me get a job.' It's 'Thanks for changing my life, for giving me a reason to get up in the morning.'"

Eric Kile, one of the success stories of the post-release grant program, can attest to the transformation he underwent.

Kile battled drug dependency before and after his incarceration. He also had to fight through the self-doubt and lack of direction that comes with being in prison.

"You know, I probably didn't have big plans to be a part of society," he says. "I just wanted to get on with my life."

After a couple of failed attempts at drug rehab, "it just clicked" on the fourth try, putting Kile in a position to find some direction. His job at a restaurant fell victim to COVID, but through a friend, he connected with the P2E (Prison to Employment) program.

A long-standing interest in the water treatment field was a perfect match for one of the available programs. In completing the academic portion and moving to work in the field, Kile found the kind of stability and trust that had been lacking in his life.

Kile credits the Mother Lode staff with helping him build a resume, polish his interview skills and navigate the application process.

Benefits of Networking

Continued from page 2

still considered a must-have for networking. You also want to ask contacts for their card before leaving the conversation.

Industry Conferences

If you miss networking in person, attending an industry conference is ideal for connecting with your peers. Conferences are stacked with networking opportunities from group seminars, team-building exercises, and happy hours. It's worth fitting a conference trip or two into your annual budget.

Chamber of Commerce

Joining the chamber of commerce helps you keep your ear to the ground of what is happening in the local business community in your area.

Social Media

Love it or hate it, social media has become an essential business tool used in all facets, from

brand recognition, reputation management, and ongoing networking and relationship building. Take your stack of business cards collected at conferences and association events and look those people up on LinkedIn. Stay connected through social platforms and you may lead yourself into a profitable project for your business. You should also try to post some original content and share information that can be utilized industrywide.

Whichever way you decide to beef up your network and build new relationships, taking a small amount of action is better than no action at all. The company you keep could hold the keys to having a steady pace in the construction pipeline marathon.

Prison to Employment

Continued from page 2

"Never before had I really let a process work for me without putting myself in the way of it," Kile says.

Along the way, he came to realize that his criminal record was less of an issue in the workplace than he had envisioned.

"The employers we have worked with have found ex-offenders to be good workers," Thoeny

says. "They're motivated because they don't want to reoffend. They've lived that life and they don't ever want to live it again."

The training in hard skills—specific job training as well as resume building—is central to the program. Linking to the CalJOBS database also gives job seekers coming from the justice system more equal footing with those outside.

REQUEST FOR Sub-Proposals from Certified DBE Firms

Project Name: Imperial Avenue Bikeway
Solicitation No. SOL1040580
Owner: SANDAG
DBE Goal: 22%

(Subcontractors) : Street Sweeping, Clear & Grub, Cold Mill Asphalt, Asphalt Paving, Slurry Seal, Minor Concrete, Minor Concrete Structures, Fencing & Railing, Guardrail, Electrical, Traffic Signal, Quality Control, Surveying, Reinforcing Steel, Landscape & Irrigation, Signage & Striping, Traffic Control, Demolition, Trucking & Disposal, Sawcutting, Joint Sealer, Tree Removal.

(Suppliers): Waterworks, Aggregates, Asphalt, Ready Mix Concrete, RCP, Trench Drain w/ Grates, Detectable Warning Tiles, Skate Stoppers, Traffic Control (Material), Steel Pipe Casing, Bike Racks, Curb Systems & Channelizers, Boulders, BMP Materials, Bioretention Soli Media (BSM), Signage, Concrete Formliners (Architectural Treatment), Misc. Construction Items, Misc. Metals.

Project Scope:

The work consists, in general, of constructing an approximate 3.5-mile of on-street bikeway, through Southeastern San Diego, along Imperial Avenue from 17th Street to 47th Street with a connection to J Street in Downtown via 22nd Street from Imperial Avenue to L Street, L Street from 22nd Street to 20th Street, 20th Street from L Street to J Street, and J Street from 20th Street to 17th Street. Proposed features include restriping, buffered and protected bike lanes, bendouts, bus islands, curb extensions and other traffic calming measures.

Work includes, but is not limited to, controlling for water pollution; traffic control; erosion control; clearing and grubbing; curb, gutter, and sidewalk work; roadway excavation; imported borrow; asphalt work; landscaping; wayfinding signage; pavement markings and signage; street lighting; trenching and backfill for storm drain installation, a 2-inch gas line relocation; retaining wall with pedestrian-scale lighting; traffic signal modifications; roadway striping and procurement of all materials and performing all other work necessary to complete the work in accordance with the project plans and specifications. For the SWPPP, this project is a Risk Level 2.

CalOSBA Invests \$25 Million for Launch of Nation's First Statewide Program

Continued from page 1

“CalOSBA’s mission is to increase economic mobility through entrepreneurship. Employment social enterprises have a proven track record of achieving that objective through employment and on-the-job training. We are confident that REDF’s deep expertise will support the work of each CA RISE participant and further the Governor’s vision of a California For All,” said CalOSBA Director Tara Lynn Gray. “We are excited to launch this first-in-the-nation effort in partnership with REDF and Lendistry.”

California’s 200 ESEs employ roughly 10,000 people each year—and this number is growing. REDF’s research verifies that ESEs deliver better job retention and more total income for their employees than other companies.

REDF is nationally recognized for building the Los Angeles Regional Initiative for Social Enterprise (LA:RISE), a pioneering partnership between the City and County of Los Angeles workforce agencies that has invested in ESEs to provide transitional employment to more than 7,000 Angelenos.

CALIFORNIA SUB-BID REQUEST ADS

Our firm is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), and Women Business Enterprise (WBE)

City of San Diego
 Morena Pipeline
 Bid No. K-23-2169-DBB-3-C
 Revised Bid Date: August 17, 2023 at 2:00 p.m.
 Engineer's Estimate: \$ 45.9 Million Outreach: DBE/ MBE/WBE
 Senior Estimators: Ben Sebat (562) 928-6111
 Email: bsebat@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Electrical, AC Cold Milling / Demolition, Asphalt Cap Paving, Traffic Signals / Loop Detectors & Signal Modifications, Slurry Seal (Type 1,2,3), Minor Concrete, Pre-Construction Video, Temporary Highline, Sawcutting, Potholing, Striping, Welding, Install 12", 15", 16" & 36" Pipeline including Appurtenances, Furnish Welded Steel Pipe, Furnish Waterworks Supply, Furnish Aggregate, Traffic Control Signs & Equipment, Cathodic Protection, Trucking & Disposal, SWPPP Development, Dewatering (Hazardous & Non-hazardous), Contaminated Soils (Monitoring, Hauling & Disposal), Chlorination/De-Chlorination, CCTV, Traffic Control Plans / Engineering, Equipment Rental, Camera Inspection, Shoring Equipment

NAICS Codes:

237110, 237310, 238110, 238190, 238210, 238910, 238990, 331110, 334290, 484110, 532490, 541330, 541690, 562910

Plans & Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the City of San Diego's Planet Bids Portal or by utilizing the following FTP link:

<https://www.dropbox.com/scl/fo/62dmpacyemtlcwnvkc/h?dl=0&rlkey=g61cyookpk8v9s550yeekl6q>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, and WBE quotes, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

Subcontractor/Supplier Bids/Proposals Requested

Owner: California Department of Transportation

Caltrans Contract Number: 11-2T3434

Bid Due Date: August 16, 2023- 12:00 PM

DBE -23%

Skanska USA Civil West California District Inc. is interested in soliciting in Good Faith all subcontractors and suppliers as well as certified DBE subcontractors and suppliers related to the scopes of work below for the:

**FOR CONSTRUCTION ON STATE HIGHWAY IN SAN DIEGO COUNTY IN
 CHULA VISTA FROM PALOMAR STREET OVERCROSSING TO 0.5 MILE
 NORTH OF BONITA ROAD UNDERCROSSING
 In District 11 On Route 805**

Granite is an Equal Opportunity Employer and will work with any interested subcontractor to identify opportunities to break items into any economically feasible packages. We welcome quotes from qualified Minority Business Enterprise (MBE), Women Business Enterprises (WBE), Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE) and other entities defined as socially and/or economically disadvantaged.

Assistance in obtaining bonding, insurance, equipment, materials and/or supplies is available upon request. Additionally, please contact us if you require any technical assistance. Quotations must be valid for same duration as specified by Owner for contract award. Granite intends to work cooperatively with all qualified firms seeking work on this project.

This project has a 23% DBE goal. In addition to request for participation from Certified WBE/MBE subcontractors and suppliers, Granite requests Non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are encouraged to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Please include your Contractor License Number and DIR Registration Number on your quote

Granite Construction Company is signatory to Operating Engineers, Laborers, Cement Masons Teamsters and Carpenters unions. Granite may require 100% performance and payment bonds for the full amount of subcontract price. Granite Construction will assist with bonding costs for subcontractors. Additionally, The US Small Business Administration may also assist you in obtaining bonding, for more information please visit them at <http://www.sba.gov/content/contractors#>. Subcontractors must possess a current contractor's license, DIR number, insurance, and worker's compensation coverage meeting Granite's requirements. All quotes are subject to the terms of Granite Construction Company's applicable standard form agreement which is available through the following link:

ESTIMATOR: DAVID CZECH

An Equal Opportunity/ Affirmative Action Employer

DeSilva Gates Construction (DGC) is preparing a bid as a Prime Contractor for the project listed below:

ROUTE 20 - FOR CONSTRUCTION ON STATE HIGHWAY IN NEVADA COUNTY IN AND NEAR GRASS VALLEY

AND NEVADA CITY FROM ROUTE 20/49 SEPARATION TO 0.1 MILE EAST OF CELIO ROAD

Contract No. - 03-4H0704, Federal-Aid Project ACNH-P020(203)E

Disadvantaged Business Enterprise Goal Assigned is 22%

OWNER: STATE OF CALIFORNIA DEPRATMENT OF TRANSPORTATION

1727 30TH Street, MS 43, Sacramento, CA 95816

BID DATE: September 14, 2023 @ 2:00 P.M.

DGC is soliciting quotations from certified Disadvantaged Business Enterprises, for the following types of work and supplies/ materials including but not limited to:

AC Dike, Asbestos Compliance Plan, Biologist Consultant, Clearing and Grubbing/Demolition, Cold Plane, Concrete Barrier, Construction Area Sign, Electrical, Emulsion Supplier, Erosion Control, Irrigation, Lead Compliance Plan, Minor Concrete, Pipe Lining, Roadside Signs, Rumble Strip, Striping, Survey/Staking, SWPPP Prep/Water Pollution Control Plan Prepare, Temporary Erosion Control, Testing, Traffic Control Systems, Underground, Trucking, Water Trucks, Street Sweeping, Hot Mix Asphalt (Type A) Material, Rubberized HMA (Gap Grade) Material and Bounded Wearing Course

Plans and specifications may be reviewed at our offices located at 11555 Dublin Boulevard, Dublin, CA or 3855 N Freeway Blvd Suite 100, Sacramento, CA 95834, or at your local Builders Exchange, or reviewed and downloaded from the dropbox site at https://www.dropbox.com/sh/5rvdc1bwfbasgl9/AAbrd0ba51_kN3GtAESfBU0a?dl=0 or from the Owner's site at www.dot.ca.gov/hq/esc/oe/weekly_ads/all_adv_projects.php

Fax your bid to (925) 803-4263 to the attention of Estimator David Czech. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

Request for Quotes from Certified DBE/MBE/WBE Subcontractors and Suppliers

Project: Morena Pipeline • Bid No. K-23-2169-DBB-3-C

Owner: City of San Diego

Revised Bid Date: Bid Date: AUGUST 17, 2023, at 2:00 p.m.

CASRF and EPA Funded Contract / SWRCB DBE Forms are REQUIRED

DBE Participation Encouraged

Flatiron West, Inc. is bidding the Morena Pipeline, Bid No. K-23-2169-DBB-3-C, as a Prime Contractor and is requesting quotes for the following, but not limited to, scopes of work:

Subcontractors - Asphalt Paving, Cold Plane AC, Color Stamped Concrete, Concrete Barrier, Dewatering, Electrical, Erosion Control, Fencing, Guardrail, Minor Concrete, Reinforcing Steel, Saw and Seal PCC, Shoring, Striping, Traffic Signs.

Suppliers - Aggregate Supply, Concrete Supply, PCC Material Supply, Pipe Supply, Ready Mix Concrete Supply, Traffic Control Materials.

Services - Hazardous Material Disposal, Ground Penetrating Radar, Potholing, QC Testing, Street Sweeping, Survey, Trucking, Video Documentation, Water Truck.

PLEASE SUBMIT QUOTES TO socalbids@flatironcorp.com or by fax to (858) 271-1330.

Plans and specifications are available to download, at no cost, from the City of San Diego PlanetBids website at the following link: <https://pbsystem.planetbids.com/portal/17950/portal-home>. The Bid Documents are also available, at no cost, from Flatiron in electronic format or can be viewed at our offices in San Diego or Chino. Please call to request access or to make an appointment to view the documents at one of our offices.

This is an American Iron and Steel project. Quotations must be valid for same duration as specified by Owner for contract award. Flatiron analyzes and considers each DBE quote, including those that are broken down into economically feasible units to facilitate bidding. Flatiron intends to work cooperatively with all DBEs for scopes of work firms you are licensed and qualified to perform. Assistance referrals in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and meet insurance requirements. A copy of our Standard Subcontract Terms and Conditions is available in electronic format upon request.

Notwithstanding any contrary language in a bid to Flatiron West, Inc. ("Flatiron") or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%.

Non-DBE Subs/Suppliers: Indicate lower tier DBE participation offered on your quotation as it will be evaluated with your price.

Address
621 25th Avenue, San Francisco, CA, 94121
Full Name of Registrant #1
Sharon Higgins
Address of Registrant #1
621 25th Avenue, San Francisco, CA, 94121

This business is conducted by **An Individual**.
The registrant(s) commenced to transact business
under the fictitious business name(s) listed above on
05-01-2023

Signed: **Sharon Higgins**

This statement was filed with the County Clerk of
San Francisco County on 07-24-2023

Notice: This fictitious name statement expires five
years from the date it was filed. A new fictitious
business name statement must be filed prior to this
date. The filing of this statement does not of itself
authorize the use in this state of a fictitious business
name in violation of the right of another under Federal,
State or Common Law.

**PUBLIC LEGAL NOTICE ADVERTISEMENTS****OAKLAND UNIFIED SCHOOL DISTRICT
DEPARTMENT OF FACILITIES
PLANNING AND MANAGEMENT****REQUEST FOR QUALIFICATIONS
AND PROPOSALS (RFQ/P)**

**CEQA Consulting Services
for the Modernization Project
at Roosevelt Middle School**
1926 19th Avenue, Oakland, CA 94606
August 2, 2023 (Issued)

Responses must be received August 24, 2023,
no later than 2:00 p.m.

The Oakland Unified School District ("District") is
requesting proposals from experienced firms, partner-
ships, corporations, associations, persons or profes-
sional organizations ("Consultants") to provide serv-
ices in accordance with the provisions of the California
Environmental Quality Act ("CEQA") associated with

the site improvements at and modernization of Roo-
sevelt Middle School ("Project"). Interested firms
are invited to submit a Statement of Qualifications
("SOQ") and a detailed Fee Proposal (collectively
"RFQ/P Packet") as described below of the requested
materials with a cover letter addressed to:

Oakland Unified School District
Kenya Chatman, Executive Director of Facilities
Department of Facilities Planning and Management
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Pack-
ets will not be accepted. RFQ/P Packets received after
this date and time will not be accepted. The District re-
serves the right to waive any informalities or irregular-
ities in the RFQ/P Packets. The District also reserves
the right to reject any and all RFQ/P Packets and to ne-
gotiate contract terms with one or more Respondents.

**The District will only accept electronic Propo-
sals sent via email in lieu of hard copies. Proposals
received by the District no later than 2:00 PM
(Pacific Time) on August 24, 2023 via email will
be accepted (to Juanita Hunter at
juanita.hunter@ousd.org and the contact persons
below).**

If you have any questions regarding this RFQ/P and/or
submitting proposal electronically, please email Ke-
nya Chatman at kenya.chatman@ousd.org and cc: to
Colland Jang at colland.jang@ousd.org

**SUCCESS STORIES****Ana Guerrero, FirstGen_Resilience**

Ana Yessica Guerrero

[Article originally appeared in
<https://cameonetwork.org>]

Ana Yessica Guerrero is a social entrepre-
neur who dedicates her life to empowering
first-generation Latinx students to reach
their full potential. She is a proud immi-
grant from Mexico City and grew up on a
ranch in Goleta, Calif. As a first-generation
student herself, she had numerous aspira-
tions and goals. Ana was an eager and
determined scholar, yet she received little
academic guidance and a lack of resources.
Although Ana encountered greater difficul-
ties in higher education, she went on to earn
a bachelor's degree in sociology from the
University of California, Berkeley. Then
she obtained a master's degree and doctor-
ate from the department of education at the
University of California, Santa Barbara.

A business born of her challenges

Ana realized the challenges she endured in
her academic journey were not unique, but

a recurring pattern among first-generation
students. While researching for her doc-
torate degree, she studied more closely
the experiences of first-generation, Latinx
students in college. She also looked at the
type of guidance they receive for career
development after graduation. Observing
the inequalities, Ana then used her ex-
pertise and passion for supporting Latinx
learners to launch her business, FirstGen_
Resilience.

FirstGen_Resilience is grounded in re-
search, practice, and personal experience.
The company empowers students by provid-
ing higher education information, exposure,
guidance, and motivation with a holistic,
culturally relevant approach. When Ana
started FirstGen_Resilience in June 2021,
she had the idea, the drive, and the passion.
But she sought resources and mentors to
guide her as a new small business owner.
This led her to Women's Economic Ventures
(WEV).

Knowing when to seek help

With WEV's guidance, Ana has been able
to further develop FirstGen_Resilience.
She completed WEV's LivePlan class
where she worked on a business pitch, fi-
nancial plan, identified target audiences,
and made her website more user-friendly.

Ana has appeared on multiple news plat-
forms, including a live interview in the
largest American Spanish-language news
network in the U.S. (Univision). She also
had a cover story in a national news media
magazine, and most recently was selected
for the "Education Advocate" of the year
award in her hometown.

silience/](https://cameonetwork.org/success-story/ana-guerrero-firstgen_resilience/)

ENVIRONMENTAL EQUITY

Emerging Energy Technologies Part 1: Leading with Equity for a Just Energy Future

[Article originally appeared in <https://greenlining.org>]

By Fatima Abdul-Khabir

If twenty years ago we asked what a clean energy future looks like, a sunny green field with a smattering of windmills and solar panels might have come to mind. Today, it's much more complicated. Industries are rolling out new technologies with bold claims about how they can save us from climate change, but in reality many of these solutions don't deliver as advertised or consider the people that are impacted. Even the clean technologies we have embraced, like solar, have profound equity implications.

As the country strives to define and work towards a just clean energy future, how can we ensure the transition does not replicate the same socioeconomic and environmental inequities created by the fossil fuel industry? How can we shape a new energy system that centers and is led by communities of color? One thing is for certain, if we take the same approach to the clean energy transition that we did with industrialization, we'll end up with the same results; people of color bearing the brunt of the burden in the new clean energy sacrifice zones.

While it is tempting to look to technology for quick climate solutions, many energy technologies, including carbon capture and storage, green hydrogen, and critical mineral mining, still run the risk of perpetuating harm to communities and the environment. Below are four guiding equity principles to consider before advocating for, investing in, or otherwise supporting these emerging technologies. We recommend using the principles to analyze the threats and potential opportunities of some of the latest technologies that have gained a buzz.

Greenwashing: A Tactic for Keeping the Fossil Fuel Industry Alive

The momentum toward clean energy gained steam with the passing of the Infrastructure Investment and Jobs Act and Inflation Reduction Act, directing more than \$460B in investments toward local governments, businesses, organizations, and households implementing climate projects. While some of this money has gone towards tax incentives and grants for solar, electric vehicles and capacity building for community organizations, significant funding has also gone towards nascent technologies. This includes \$4.9B earmarked for carbon capture and storage or CCS projects from the IRA as well as \$9.5B dedicated to development of clean hydrogen initiatives under IJA.

The IRA also allocates \$10B for the Qualifying Advanced Energy Project Credit program (48C) which provides investment tax credits to subsidize building hydrogen technologies, CCS, and critical mineral facilities. However, the danger is that fossil fuel industry players are using these technologies to craft false narratives of environmental good – or “green-

washing” – and continue to support the ongoing sale of fossil fuels.

Greenwashing isn't a new tactic for the fossil fuel industry. A utility in Washington faces a lawsuit after claiming “Natural gas is a clean, efficient, and reliable energy”. In fact, natural gas disproportionately burdens low-income communities of color with NOx emissions from leakages that cause serious health impacts and pose a safety threat. Fossil fuel companies use this same angle to mislead the public into thinking they are “greening” their companies by promoting carbon capture technologies at their facilities or hydrogen blending into gas pipelines.

One form of CCS known as point source air carbon capture, separates and captures CO2

emissions from fossil fuel-based power generation. The story from the fossil fuel industry claims this form of CCS is an emissions-free way to continue operating existing infrastructure as we transition. However, this narrative leaves out the fact that these technologies have proven to be ineffective at capturing carbon emissions and other harmful pollutants, while being expensive (money that could be going towards constructing proven decarbonization solutions and decommissioning polluting facilities), and potentially dangerous.

Fossil fuel companies also use hydrogen technology to greenwash their operations by proposing that blending hydrogen into existing gas pipelines is more climate-friendly. Whether it is hydrogen produced through renewable

energy (aka “green hydrogen”) or not, blending hydrogen into gas pipelines has no merit from an emissions reduction or cost effective perspective, and can actually be a safety risk at high blending percentages. This blatant misrepresentation of the viability of these technologies has, unfortunately, started to slip into policy – a hydrogen blending bill, sponsored by a gas utility company, was introduced in California this year. While this particular bill didn't make it into law, it was one among several green hydrogen bills introduced with many likely to come in the future.

ACCESS TO CAPITAL

Types of Capital for Construction Businesses

[Article originally appeared in
www.procore.com]

By Daniel Gray

Construction companies need capital to get off the ground, stay in business, and keep growing. The term capital is used across industries to represent all of a company's financial assets, including cash, inventory, equipment, and more.

Several different types of capital — working capital, debt capital, and equity capital — are common in the construction industry. Construction companies need a solid understanding of capital to run a successful business.

In this article, we'll explain what construction businesses need to know about the different types of capital available — and how to use them.

What is capital?

Capital is a fundamental financial concept meaning anything that is able to generate value. Money, for example, is a basic form of capital because it can be used to invest and create more wealth. But capital can take many other forms: Human capital, for instance, is labor that can build wealth. Construction businesses may have equipment, materials, or technology that function as capital, too.

However, when most construction companies think about capital, they are almost always thinking about cash. That's because other forms of capital — like labor or equipment — can't generate value if you don't have enough cash to take on new jobs, acquire materials, or cover overhead.

Joshua Leyenhorst, a CPA at BasePoint who has worked with many construction companies, defines capital like this: "Capital is all of the financial resources available to start or maintain a construction company, including working capital, debt capital, and equity capital."

Each type of capital has a specific purpose for construction businesses as they get started or look to grow.

3 types of capital for construction

Construction companies need to know the differences between the three types of capital and why each one is useful for managing and growing a business. For most businesses, working capital will be front of mind, but debt capital and equity capital serve important purposes as well.

1. Working capital

Working capital measures the difference between a construction company's current assets and current liabilities. In other words, working capital highlights the financial prospects of a business in the short term.

Businesses whose assets (like cash, accounts receivable, inventory, or materials) exceed the value of their liabilities (like wages, debts, vendor payments, or overhead costs) have working capital to use to maintain or grow. On the other hand, companies that have liabilities exceeding their assets lack working capital and may have trouble making payments and staying afloat.

"Working capital evaluates the financial resources a company requires to operate the company," notes Joshua Leyenhorst. "It's something business owners need to consider over the course of the next year of operations. Many companies are only thinking in terms of the next month — the next two payroll periods or upcoming vendor payments — but stable companies typically have sufficient cash forecasts to project their working capital further out."

Working capital is the lifeblood of a construction business. Because payment for construction jobs may be weeks or months after work is already completed, companies must manage their finances carefully to maintain cash reserves for taking on new jobs.

In certain situations, a company's best option is to employ debt capital to finance certain expenditures, which helps keep working capital intact.

2. Debt capital

Debt capital is funding that a construction business acquires by borrowing, typically from banks or other lending institutions. By taking on debt, construction companies can defer payment on large purchases and use cash reserves for more immediate costs, like employee payroll or purchasing materials for a new job.

"In construction, debt capital is often used to purchase so-called 'capital assets,' which would include equipment, vehicles, and real estate," says Joshua Leyenhorst. "Often, the case is pretty strong to use debt financing for long-term assets, which frees up cash for operating expenses. However, companies need to be on the lookout for lender covenants or other restrictions that may make debt capital less attractive."

Construction companies, just like individuals, need a credit history in order to borrow money. Frequently, companies start with a business credit card or another small line of credit that they pay back consistently in order to increase their creditworthiness. That way, as the need for credit increases, a business already has a demonstrated history of paying back debt.

Debt capital can be vital for managing cash flow in construction. Debt payments spread out the cost of a large purchase over time, enabling a construction company to continue to take on new jobs and bring in revenue to tackle the debt while still maintaining enough cash to pay operating costs and grow.

EVENTS

Time & Location

Aug 15, 2:00 PM – 4:00 PM

San Mateo Water Waste Treatment Plant, 2050 Detroit Dr, San Mateo, CA 94404, USA

About The Event

This is a FREE event sponsored by Jacobs

Come tour the San Mateo Water Waste Treatment Plant. Get a tour from the construction management team and ask away with any questions about the construction.

Light refreshments and food will be served on the project site after the tour, and you'll have an opportunity for fun networking with CMs and your peers.

Open to all CMAA student members, CMITs (and CMIT candidates), and students in related construction management career path.

CONSTRUCTION MANAGER IN TRAINING STUDENT SITE TOUR

GETTING DOWN TO BUSINESS

SUCCESS STARTS WITH A SOLID FOUNDATION

Getting Down to Business for Construction

The program will offer a detailed 11 class course to create a solid foundation for your business to pursue contracts while making sound financial decisions. The curriculum will focus on strengthening your skill set in 6 key areas of business operations –

- Pursuing Contract Opportunities and Marketing Strategies
- Take-Off Development and Production Rate Analysis
- Bid Preparation and Cost Analysis
- Cost Allocations and Overhead
- Financial Forecasting and Statements
- Contract Performance Management

Program dates:

August 22- November 14

Program and instruction will take place online through a video conferencing platform.

Apply or nominate someone now:

Contractors Assistance Center

LEGAL VIRTUAL EVENT

**THURSDAY
AUGUST 31, 2023
8:00 AM - 9:00 AM**

\$55 - CMAA MEMBERS
\$85 - NON-MEMBERS

SPONSORSHIPS AVAILABLE

**Managing Payment/
Performance Bonds,
Stop Payment Notice,
and Mechanics
Liens for Owners,
Contractors, and
Construction Managers**

SPEAKER:

Anthony Niccoli
Partner
Atkinson, Andelson, Loya, Ruud & Romo

PROGRAM SUMMARY

Knowing how to effectively use the labyrinthian tools in the mechanics lien statutory scheme: the payment and performance bond, the stop payment notice, and the mechanics lien is a great challenge for public and private owners, prime contractors, and subcontractors alike. The presentation will examine these valuable tools from each perspective with an eye toward simplicity and clarity.

SPONSORSHIP OPPORTUNITIES

Platinum - \$750 - Includes 4 Tickets (Limit 1)
Gold - \$500 - Includes 3 Tickets
Silver - \$250 - Includes 2 Tickets
