COVID-19

From internet rights to streeteries, how the pandemic is changing working from home

[Article was originally posted on www.calmatters.org]

By Elizabeth Castillo, Calmatters

Coronavirus has reshaped how Californians live, learn and work in uneven ways. The pandemic has exposed the state's long-standing digital divide with a significant share of low-income and rural households lacking reliable internet access. And even though employers have quickly adapted to remote work, the opportunity to work from home has not spread evenly across the workforce. Many Latino and Black workers who work in essential fields find themselves taking more risks to stay employed, leading to higher rates of infection and death in those communities of color. On the other hand, there appear to be bright spots that could spur creative solutions on housing and dining.

CalMatters and the Milken Institute have teamed up on a series of discussions examining California's response to the pandemic and how it will have lasting implications for the state going forward. In the latest installment, CalMatters economy reporter Lauren Hepler explored the challenges and opportunities of working from home in a virtual conversation with three policy and political experts:

- Kome Ajise, executive director of the Southern California Association of Governments
- State Sen. Anna Caballero, a Democrat from Salinas
- Lili Gangas, chief technology community officer at the Kapor Center, an Oakland organization that aims to increase diversity in tech.

How to Prepare for the Future of Construction Work Today

[Article was originally posted on Autodesk Construction Cloud Blog. <https://construction.autodesk.com/>]

By Grace Ellis,

Throughout 2019 and even in early 2020, discussions about new technologies and the future of construction work have been framed as something to keep an out for in the 5 or 10 years. Pre-pandemic, the future of construction was seen as something that lives... well, in the future, and therefore wasn't something to be concerned about today.

But COVID-19 shook up the industry and accelerated the need to adopt new solutions like automation, robotics, and advanced analytics. The pandemic also shed light on the importance of humans in construction projects, and how people's roles need to shift in the new normal.

Simply put, there's a new sense of urgency for construction firms to change and adapt. This means, to plan for the future of construction — particularly as it relates to the workforce — tomorrow's concerns need to be addressed today.

Let's explore how all of this plays out in the construction industry and what you can do to prepare.

Humans and Technology: More Powerful Together

Human beings and technology are often pitted against each other. There's this "us versus them" mentality around people and tech, and many are quick to think that new gadgets or software will replace people.

And while it's true that technology (e.g. automation, artificial intelligence, etc.) can start doing things that were previously assigned to people, that doesn't mean humans won't have roles to play going forward.

Sure, you can use analytics to crunch the numbers, but you still need someone to analyze the data and surface meaningful insights. Drones can play a role in site inspections, but it still

Image credit by www.pepperconstruction.com

takes skilled workers to operate the technology; not to mention, there are numerous tasks that require the presence of field workers.

In many cases, technology creates new opportunities for people while helping them be more productive and creative at the same time. And let's not forget that construction is still a people-centric field. Your construction clients are humans, not robots. And for the most part, we construct buildings or renovate spaces for people, which means humans will always have a prominent role behind the scenes and on the jobsite.

The key is to figure out which roles people should own, and how they can work with technology. As Deloitte puts it:

"Organizations should evolve their thinking about technology from taking a purely substitution view (replacing humans with technology) to using technology as an augmentation or collaboration strategy. The latter view can allow organizations to not only streamline costs, but to also create value and ultimately, provide meaning to the workforce as a whole."

We can see this in action the robot SAM (Semi-Automated Mason), whose purpose is to install bricks. SAM isn't there to replace humans; it's there to make their jobs easier and safer. The robot does the heavy lifting, but human masons are responsible for setting up and operating the system, as well as striking the joints and ensuring wall quality.

Scott L. Peters, the co-founder of Construction Robotics explains that SAM enables workers to

continue using their knowledge and skills without having the demand on their bodies that they may have had previously.

Aim for that level of thinking and action when you're adopting new technologies and hiring workers. As you move forward with new solutions or practices, see to it that you're seeing the relationship between people and technology as symbiotic, rather than combative.

Building a More Adaptable Workforce

When discussing COVID-19, many people express the desire to "go back to normal." Nonetheless, things will never completely go back to the way things were; the only path is forward. The sooner firms embrace a new mentality, the more effectively they can prepare for the future of construction work.

Rather than waiting for things to "return to normal," construction firms must forge ahead. The path likely won't be easy and there's a lot of uncertainty out there, which is why it's important to build an adaptable and resilient workforce.

To thrive, employees must be able to quickly roll with unexpected situations and they should be in a position to move and change course when necessary. A big part of doing that means arming your team with the right tools — i.e., hardware and software that allow them to work and collaborate from anywhere.

It's also important to instill the right mindsets and skills in your workers. Train them on research and critical thinking. Introduce new

COVID-19

From internet rights to streeteries, how the pandemic is changing working from home

Continued from page 1

Here's five takeaways on the future of working from home:

1. People may need a right to internet access...

Long before the pandemic, California has struggled with a digital divide, which is most apparent in low-income and rural families. At least 32% of Latino households lack access to internet service or rely solely on a smartphone for access, according to a 2019 UC Berkeley Institute of Governmental Studies poll. In Los Angeles County, nearly one in six households lack internet access at home.

"I think it borders on a right if you're going to demand that our students stay home and learn and yet, the avenue for learning is then denied," said Ajise, who helps coordinate local planning in six Southern California counties.

Caballero, the lawmaker, supports legislation to change how broadband infrastructure gets built. The bill, introduced by Sen. Lena Gonzalez, a Long Beach Democrat, would require providers to meet minimum internet speeds.

Bridging that gap is crucial for students. Gov. Gavin Newsom and first partner Jennifer Siebel Newsom announced earlier this year the donation of tens of thousands of laptops to help bridge the digital divide. While 70,000 computers and equipment were distributed, technological gaps remain as more than a million California children lack internet access.

For some students, it's more complicated than distance learning. In California's agricultural communities, a number of teens found themselves spending their days picking strawberries and other crops. Other families struggled to make distance learning work while also juggling their jobs and the special educational needs of their children.

2. ...that's reliable and accessible everywhere

For a number of California communities, internet connections can be slow and unreliable, making it hard to tackle work or school assignments. In some instances, Californians have resorted to parking outside of Starbucks to tap hotspots.

Guests dine on Glassell Street outside of Citrus City Grill and Smoqued California Barbecue in Orange on July 8, 2020 after the city closed off sections of Glassell Street to allow restaurants in Old Towne Orange to offer outdoor dining to comply with the state's COVID-19 guidelines. *Photo by Leonard Ortiz, Orange County Register/SCNG*

"Right now, some communities have internet, but the speed is terrible. You can't do telehealth and online education," Caballero said.

While hotspots have been added to school parking lots and buses, many Californians still lack high-speed internet. Whether or not the internet should be treated as a public utility, like water or electricity, is still up for debate and remains controversial.

"This is a public and health issue. It's an economic issue. And it's a civil rights issue," Gangas said. "Because the way that the services have avoided certain zip codes is not by accident, it's by design."

3. Remote work may be on the rise, but not for Latino and Black workers

Remote work has been a rising trend for years and coronavirus is accelerating that shift. This spring, Twitter announced employees can work from home indefinitely and Facebook expects half of its workforce will permanently shift to remote work within the next decade.

But while working from home continues to rise, Latino and Black employees are less likely to have that opportunity. Gangas says that for many in communities of color, their jobs became "essential" and offered little flexibility.

As a consequence, Latinos have become one of the most vulnerable populations. Not only do they suffer higher rates of unemployment, but are reporting higher rates of infection, along with Black Californians.

4. An opportunity to reprioritize housing

As Toys "R" Us, Sears and Kmart shutter store locations, California could take advantage of the decline in brick-and-mortar stores for in-fill projects that place commercial and residential structures next to each other in a village model.

"When those stores close, we have a lot of commercial space we're not going to be using anymore," Caballero said. "And right now there are strip malls that are performing very, very poorly because their major tenant is no longer there."

Some Californians have started to leave expensive places like the San Francisco Bay Area to other states like Oregon and Colorado. In one instance, a San Jose landlord moved to Colorado Springs and several tenants joined him in the departure. The result has been declining rental prices, though San Francisco rentals remain some of the most expensive in the state.

Caballero, who represents the agricultural coast, wants affordable housing developments to ensure current residents aren't displaced by transplants. Super commuters have popped up in her district, but she said there's room for those commuters to invest in their communities.

"These super commuters don't really have an opportunity to contribute to the social and cultural life of the community because they're spending so much time on the road," she said. But, as employees shift to remote working, "these individuals can now make their purchases in the community they live in rather than where they work."

Looking for a Business Loan? 3 Reasons a Business Plan Is a Good Idea

[Article was originally posted on
www.nav.com]

By Ty Kiisel,

Unless you're looking for a loan at the bank or applying for an SBA loan you won't need a formal business plan to get a small business loan. That being said, it can be a powerful tool to help you think about what your business does, what your business goals are, and how a small business loan can help you achieve them. Regardless of whether your lender will require it or not, creating a business plan is a good idea. If for no other reason than it encourages you to think more strategically about your business and your financing needs—which

sometimes get lost in the day-to-day responsibilities of running a business.

Creating a formal business plan shouldn't be treated as a once-and-your-done exercise, but rather as a living document created to help you leverage success, navigate challenging times, and strategically plan for the future. It can also help you when it comes time to seek financing. Here are three ways a business plan can help with your loan application.

Your Business Plan Will Identify Your Path to Success

Your business plan will put financial data a lender will need to evaluate your business' creditworthiness at your fingertips:

- Your Profit and Loss (P&L) Statement
- Your Business Cash Flow Statement
- Your Balance Sheet
- A Sales Forecast
- A Break-Even Analysis

This information will not only help a potential lender, but it will help you evaluate your business' ability to generate profits, identify problem areas, and help you determine if you have the necessary cash flow to make timely periodic payments (something a lender will also want to know) on a business loan.

A business plan also gives you the opportunity to dig into the financial reports, something many business owners don't spend enough time doing, to learn more about your business' financial health from the inside out. If you are unsure about what these reports are telling you, your accountant or other financial advisor can help you decipher what the numbers are telling you.

I once spoke with a lender who said, "If I can tell more about a business' financial health by looking at the financial reports than the business owner, I'm not going to give him or her a loan."

Diablo Boulevard, Walnut Creek, CA 94596 (925-932-3113). 100% Payment and Performance Bonds are required. Insurance will be required. Please contact us with any questions. We will provide assistance with bond and insurance requirements. We are an Equal Opportunity Contractor. Please respond by phone or fax if you are interested in bidding on this project. Garney Pacific, Inc. is signatory to Laborers & Operators unions.

Portrait Construction, Inc.

INVITATION TO BID
FOR
PUEBLO DEL SOL, PHASE 1
1400 GABRIEL GARCIA MARQUEZ STREET
LOS ANGELES, CA 90033

Portrait Construction, Inc., General Contractor, is seeking qualified **Section 3 Businesses and/or Non-SBE with SBE participation** and qualified **M/WBE** Subcontractors to submit bids.

This project is subject to Residential Prevailing Wages - higher of the 2 rates Federal and State applies.

Scope of work: Includes, but is not limited to Rehabilitation of:

2 and 3 story affordable residential apartment building with 201 units. Interior work consists of, but not limited to: New Vinyl plank flooring (silencer on 2nd floor units) and carpet in the bedrooms, new paint throughout, new cabinets and countertops, new appliances, new plumbing fixtures (sinks, faucets, toilets, shower trim, etc.), New light fixtures, new HVAC and Water Heater, new GFCI Outlets, refinish existing tub/shower combos, new bathroom hardware, new window blinds, new door hardware, new smoke detectors, new plugs and switches, and ADA modifications.

Plans only reflect the ADA modifications, but every unit will be receiving cosmetic upgrades mentioned above.

Exterior work consists of, but not limited to, new signage, overlay flat roofing, path of travel repairs, new ADA carpents, new building and site lights, asphalt seal and stripe, landscape modifications and tree trimming, new garage doors, trellis/fencing repairs as needed, pest control, building and site painting, new security camera system, and leasing office rehabilitation.

All building trades and CSI code trades are being requested to bid.

Bid assistance and splitting of trade work is available for Section 3 and M/WBE business concerns. Please contact our office for more information.

Schedule

Construction is expected to commence October 2020. Construction duration is estimated to be 12 months.

Local Hire and HUD Section 3 Requirements

The project is subject to Section 3 local hiring and Section 3 Subcontracting. The goals are as follows:

- **30 percent (30%)** of the aggregate number of new hires shall be Section 3 residents;
- **10 percent (10%)** of total work hours performed on the project shall be performed, to the greatest extent feasible, by Section 3 Residents; and
- **10 percent (10%)** of the total dollar amount of all covered construction contracts shall be awarded to Section 3 business concerns; and
- **3 percent (3%)** of the total dollar amount of all covered non-construction contracts shall be awarded to Section 3 business concerns.

The project shall meet the Section 3 New Hiring Requirements in the following order of priorities:

- (1) Current residents of Pueblo Del Sol
- (2) Qualified Section 3 Residents of the East Los Angeles neighborhood
- (3) Participants in HUD's Youthbuild programs in the City of Los Angeles, and
- (4) Income qualified Section 3 Residents living in the City of Los Angeles

Davis-Bacon and Prevailing Wage Requirements

Contractor shall comply with all applicable labor standards, including but not limited to the Davis-Bacon Act (40 U.S.C. § 276a et seq.), State prevailing wage laws, and City of Los Angeles "living wage" laws, as applicable.

This project is subject to **SB-854** - proof of registration with DIR is required to be submitted with your bid to be considered. For more information visit: <http://www.dir.ca.gov/public-works/PublicWorksSB854.html>

Bid the higher of the 2 rates

DUE DATE: Bids are due on or before Wednesday, September 23, 2020, 5pm

Ben Moller at bmoller@portraitconstructioninc.com

Prevailing Wage/Section 3 Questions:

Kelsey Day at kday@portraitconstructioninc.com

Julie Woodcock at jwoodcock@portraitconstructioninc.com

PLANS/SPECS: Available in Portrait's Corona office and via download link upon request.

Portrait Construction, Inc. is an equal opportunity employer. Applicants are considered for positions without regard to race, religion, sex, national origin, age, disability or any other consideration made unlawful by applicable federal, state, or local laws.

Looking for a Business Loan? 3 Reasons a Business Plan Is a Good Idea

■ Continued from page 3

The exercise of building a business plan will help ensure that doesn't happen to you.

Your Plan Will Identify How Much Money You Really Need

Despite popular media promoting the idea that more capital is the solution to just about every small business challenge, it isn't. Borrowed capital should rather be considered as a useful tool to help you meet the business objectives and goals identified within your business plan. Your plan should clearly identify your current financial position and help you strategically look into the next year, two years, or five years to determine if you'll be able to use cash flow or if your business will need an infusion of borrowed cash to meet your objectives.

Although I'm not a salesman, over the years I've spoken with many business owners looking for borrowed capital. Whenever I ask them about how much they want to borrow, if their response is, "How much can I get?", I cringe.

There are costs associated with financing that can make borrowing more than what you really need a dangerous idea. Your business plan will help you better align what you're looking for with what you really need. Your loan purpose should drive the loan amount—and you should have that articulated in your business plan.

Not only will it help you make better borrowing decisions, whether your lender requires it or not the fact that you have spent time thinking about it will resonate with a loan officer trying to make decisions about your loan application compared to someone else who is not quite as prepared to have these conversations.

Your Business Plan Will Guide Your Timing

If you treat your business plan like a roadmap, once you have all your goals outlined, understand the costs, and have identified all the details of your plan—you can use that information to identify, and plan for, the timing of your loan request. This will help you avoid trying to meet business crisis circumstances and instead make your approach to borrowing more strategic.

Of course that doesn't mean that there won't be a crisis, the coronavirus pandemic we're going through right now is a good example, but it will help you better react because you should be including "what if" scenarios in your plan should things turn upside down. This is beneficial because you will have created a game plan before you were in the heat of battle with a roadmap for how you will address those challenges.

Do the Work Now to Reap the Future Rewards

Taking some time today to build a detailed and realistic business plan will take some time, but the investment in your future will be well worth the time you'll spend. If you haven't got a business plan, that doesn't mean it's too late to create one, even in the midst of our current economic challenges, you can plan for how you intend to address the next six months, year, or longer. How do you intend to survive the crisis and exit with a healthy and thriving business.

California Sub-Bid Request Ads

O.C. Jones & Sons, Inc.
 1520 Fourth Street • Berkeley, CA 94710
 Phone: 510-526-3424 • FAX: 510-526-0990
 Contact: Terry Zahner

REQUEST FOR DVBE
 SUBCONTRACTORS AND SUPPLIERS FOR:
Bid #1871

**Paving at Maintenance and Operations Complex
 Mt. Diablo Unified School District**
BID DATE: September 1, 2020 @ 10:00 AM

We are soliciting quotes for (including but not limited to):

Trucking, Temporary and Permanent Erosion Control Measures, QC/QA Testing, Concrete, SWPPP, Striping, Landscape, Survey, and Construction Materials

Terry Zahner (510-809-3479 tzahner@ocjones.com) is the estimator on this project and is available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office, or can be sent out via Building Connected. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 9:00 am on the date of the bid. Quotes from DVBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DVBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

Stantec Consulting Services Inc. (Stantec) is seeking qualified Disadvantaged Business Enterprise (DBE) firms for inclusion in a proposal to the **Alameda County Transportation Commission (ACTC) for Project Management and Project Controls Services, RFP NO. R21-0001**.

All firms need to be DBE certified by the California United Certification Program (<https://ucp.dot.ca.gov/licenseForm.htm>) and meet the requirements outlined in the Alameda CTC's Request for Proposal (RFP). Respondents should review the RFP available at <https://www.alamedactc.org/get-involved/contracting-opportunities/>.

Stantec is seeking firms in the following disciplines:

- Overall Program Management
- Programming and Project Controls
- Project Development and Management
- On-Call Services and Other Direct Costs
- Construction Management
- Project Controls Database

Qualified firms with DBE certification in the appropriate discipline covering the services proposed and with the qualifications required by the RFP, should email a PDF Statement of Qualifications (SOQ) to DBEOutreach@stantec.com. For proper processing, please include 'Alameda CTC Project Management and Control Services' in the subject line of ALL correspondence. For consideration, SOQs must be submitted by **August 25, 2020, 12:00 PM PST**.

Each SOQ must include the following:

1. Firm name, address, and phone number
2. Brief firm profile, including DBE certification number
3. Description of services for the tasks in the RFP with which the firm has relevant experience
4. Names of two to three individuals on staff who have expertise or special qualifications relevant to the scope of work

Stantec will evaluate the proposals and make a selection after considering qualifications, availability of internal resources, and selection criteria included in the RFP.

How to Prepare for the Future of Construction Work Today

■ Continued from page 1

thought processes — ones that push them to be agile and flexible. Mindfulness exercises that encourage employees to be more aware and present may help as well. The Harvard Business Review points out that mindfulness improves cognitive flexibility, judgment accuracy, and insight-related problem-solving.

To maximize your success, incorporate these things into your construction culture. Foster an environment of collaboration and focus on continuous learning through initiatives like mentorships and upskilling. When employees are encouraged to work together and are regularly stimulated, they'll be more agile and adaptable.

Finally, make sure you're recruiting the right people. Expand your hiring strategies and bring in candidates from diverse technical backgrounds — even if they're not strictly construction-focused. A diverse and well-rounded workforce gives you access to a variety of talents and skills, which are valuable when dealing with an uncertain and fast-changing environment.

Leveraging the Power of Connected Construction Data and Workflows

The things we discussed thus far (i.e., using people and tech effectively, and increasingly adaptability) will only be possible with accurate data and streamlined workflows.

In order for your operations to be productive, safe, and effective, all of your firm's components — from your people and processes to your data and tech — should be connected. Information must flow smoothly across multiple teams and areas of the business.

How do you accomplish that?

Start with using a central construction management system powered by the cloud. Rather than giving different teams separate tools or solutions, have your staff collaborate on one platform, when possible. If you need to rely on multiple solutions, ensure you have solid data and technology integrations that can create a connected tech stack. Doing so helps you unlock several benefits including:

Automated workflows. A tightly integrated system reduces the need for manual entry, which paves the way for automated and streamlined workflows. Teams work faster and are more productive — and this critical, particularly with today's new safety protocols and the limited number of people onsite.

Better access to insights. You get better visibility into your data. Rather than trying to retrieve information from siloed systems, the data you need lives in one place, making it easy to uncover trends and insights that can inform project decisions.

Improved collaboration. Having connected construction data and workflows keeps team members on the same page, which allows them to collaborate more effectively.

From internet rights to streeteries

■ Continued from page 2

5. Streeteries and more

As California swings between closing and reopening, the state has grappled with how to keep the economy afloat. One creative response? Streeteries — or restaurants using parts of public streets to provide more outdoor seating.

"We're seeing things like cities shutting down streets to provide more outdoor dining," Ajise said. By closing down streets, people have more flexibility to social distance but still gather.

California is also moving toward formalizing, or at least experimenting with "slow" streets to attract pedestrians and bicyclists. That shift was brewing in public planning circles before the pandemic even hit, Ajise said.

The plans may be put on ice. Los Angeles, Orange and San Diego Counties continue to report more cases. Los Angeles Mayor Eric Garcetti said Sunday that the county could be heading toward another stay-at-home order.

Public Legal Notices

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

NOTICE INVITING GENERAL CONTRACTOR, ELECTRICAL OR MECHANICAL SUBCONTRACTOR PREQUALIFICATION

Prequalification Questionnaires will be received by the University of California, Irvine Medical Center (UCIMC) from general contractors, electrical and/or mechanical subcontractors, wishing to submit bids for a Cost Plus contract for the:

B3, 3rd Fl, Conversion to Tele/Med-Surg, Project No. 994664

PREQUALIFICATION: The University has determined that bidders must be prequalified for this project.

DESCRIPTION OF WORK: A complete re-build of the 3rd floor of building 3, an OSHPD 1 building. This space is currently empty shell space, already demolished. The re-build will include 26 new patient rooms with 41 total beds in a combination of both private and semi-private rooms. The re-build will also include all ancillary services for the new unit, including: (2) nurse stations, medication rooms, clean/soiled utility rooms, equipment storage rooms, housekeeping rooms, IT/electrical rooms, staff locker rooms/rest rooms, a staff lounge, physician sleep rooms, workrooms and offices for the unit as well. Scope also includes a new air handler, new med air and med vac systems, some structural framing and roofing.

PROJECT COMPLETION TIME:
330 calendar days.

ESTIMATED COST: \$15,000,000

PROCEDURES: Prequalification Questionnaires available Monday, August 24, 2020, 3:00 PM. Contact Kim Kerwin @ khau@hs.uci.edu or Terri Kalwara @ tkalwara@hs.uci.edu.

QUESTIONNAIRE DUE DATE: Questionnaires must be received by Tuesday, September 1, 2020 at 2:00 PM at UCIMC, Planning Administration, Building 27, Room 136, 101 The City Drive South, Orange, CA 92868.

GENERAL CONTRACTOR QUALIFICATIONS: Must have a current and active California CSLB "A" General Engineering or "B" General Building Contractor's license, insurance, bonding, safety, financial and claims history requirements. Must have completed a minimum of (1) project in the last 5 years that meet all the criteria listed below and demonstrate the Contractor's ability to successfully complete the project with respect to project size, scope, cost, use, complexity, etc.:

1. In a OSHPD 1 facility located in the State of California for which the subcontract amount was at least \$6,000,000;

2. Included interior renovation/remodel or facility expansion constructed in or adjacent to patient care areas;

3. Included the management of electrical, plumbing and HVAC subcontractors.

ELECTRICAL SUBCONTRACTOR QUALIFICATIONS: Must have a current and active California CSLB "C-10" Electrical Contractor's license, insurance, bonding, safety, financial and claims history requirements. Must have completed a minimum of (1) project in the last 5 years that meet the criteria listed below and demonstrate the Contractor's ability to successfully complete the project with respect to project size, scope, cost, use, complexity, etc.:

1. In a OSHPD 1 or 3 healthcare facility located in the State of California for which the subcontract amount was at least \$1,000,000 each;

2. Constructed in a limited and confined site adjacent to occupied buildings;

3. Included both normal and emergency power distribution, simplex fire alarm system installation, data and public address systems.

MECHANICAL SUBCONTRACTOR QUALIFICATIONS: Must have a current and active California CSLB "C-20" Warm-Air Heating, Ventilating and Air Conditioning and/or "C-36" Plumbing Contractor licenses, insurance, bonding, safety, financial and claims history requirements. Must have completed a minimum of (1) project in the last 5 years that meet the criteria listed below and demonstrate the Contractor's ability to successfully complete the project with respect to project size, scope, cost, use, complexity, etc.:

1. In a OSHPD 1 or 3 healthcare facility located in the State of California for which the subcontract amount was at least \$4,000,000 each;

2. Constructed in a limited and confined site adjacent to occupied buildings;

Bidders not meeting the requirements of the prequalification questionnaire will not be eligible to bid.

Prequalification is solely for the purpose of determining bidders who are deemed capable of successful performance of the type of work included in this project. A contract will be awarded to the prequalified contractor submitting the lowest responsive bid. Prequalified General Contractors must use the prequalified subcontractors for the trades established by the University to submit a responsive bid for this project.

The University reserves the right to reject any or all responses to this notice, to waive non-material irregularities, and to deem Contractors prequalified to submit proposals for the project. To prequalify, Contractors must agree to comply with all bid conditions including state prevailing wages, 10% bid bond, 100% payment and performance bonds, and insurance requirements. All information submitted for prequalification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Proposer may be required to show evidence of its equal employment opportunity policy.

No contractor or subcontractor, regardless of tier, may be listed on a Bid for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The successful Bidder shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined as \$13 per hour as of 10/1/15, \$14 per hour as of 10/1/16, and \$15 per hour as of 10/1/17) and shall comply with all applicable federal, state and local working condition requirements.

For other opportunities, please visit <http://www.ucirvinehealth.org/planning-administration>

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA
August 19, 2020

CITY OF LODI

City of Lodi Transit Three-Year Disadvantaged Business Enterprise (DBE) Goal

NOTICE IS HEREBY GIVEN that the City of Lodi has established a proposed Overall Three-Year Disadvantaged Business Enterprise (DBE) Goal for Federal Transit Administration (FTA)-assisted projects of **3.36%** for Federal Fiscal years 2020/21, 2021/22 and 2022/23.

The DBE Goal is applicable to FTA-assisted contracting opportunities scheduled to be awarded during the period of October 1, 2020 through September 30, 2023. The City of Lodi's proposed Three Year Goal and its rationale (developed in response to U.S. Department of Transportation's Disadvantaged Business Enterprise Program Regulations published under Title 49 CFR Part 26) is available for inspection at:

<http://lodi.gov/483/Disadvantaged-Business-Enterprise-Goal>

The goal and rationale are available for inspection until September 19, 2020. Lodi City Hall is currently closed to the public due to COVID-19, therefore in-person review of this goal is not possible at this time. However, a copy of the goal and methodology can be mailed to you. Please contact:

Julia Tyack
DBE Liaison Officer
(209)269-4960
jtyack@lodi.gov

Comments regarding the Goal will be accepted until September 19, 2020. Comments can be forwarded to Julia Tyack, DBE Liaison Officer, at the above stated address, phone number, and email; or to Nicholas Sun, Action Regional Civil Rights Officer, FTA Region IX, 90 7th Street, Suite 15-300, San Francisco, CA 94103-6701.

California Sub-Bid Request Ads

WESTERN WATER (WW), is seeking quotes from qualified subcontractors and suppliers, including but not limited to certified Disadvantaged Business Enterprise (DBE) firms, for the construction of:

**Russian River County Sanitation District Treatment Plant -
Seismic Retrofit of Secondary Clarifiers**
