

High-Speed Rail Authority Celebrates Progress, 10-Year Partnership with Construction Trades

[Article originally appeared in <https://hsr.ca.gov>]

The California High-Speed Rail Authority (Authority) recognizes 10 years of collaborative partnership with the men and women of the skilled craft unions diligently working to bring the first electrified high-speed rail system to the United States.

This partnership is possible thanks in part to the establishment of the Authority’s Community Benefits Agreement, signed and executed in 2013, that promotes employment and business opportunities during construction while advancing training opportunities to targeted and disadvantaged workers.

“Since the Community Benefits Agreement, this project has created more than 11,000 well-paying construction jobs in the Central Valley, with more than 70% of the workers residing in the Central Valley,” said Authority CEO Brian Kelly. “Moreover, we worked closely with the Fresno Economic Development Corporation and the trades to expand workforce training to the men and women of the Central Valley looking to work in the construction industry.”

High-speed rail construction and labor jobs by the numbers:

- 11,474 jobs created (as of July 31, 2023).
- 1,359 average daily site workers (as of June 2023).
- 3,808 jobs going to residents from Fresno County.
- 2,141 from Kern County.
- 1,127 from Tulare County.
- 498 from Madera County.
- 392 from Kings County.

- 42 completed high-speed rail structures to date.
- 27 active construction sites.

“We would like to thank the Authority and the Authority’s CEO Brian Kelly for providing tremendous opportunity for the members of our building trades unions to work on such a monumental project transforming transportation infrastructure and communities in California,” said Chris Hannan, president of the State Building and Construction Trades Council of California. “We look forward to continuing our work with the Authority and our affiliates to build out our nation’s first high-speed rail system in California. Happy Labor Day to all!”

The Authority’s Community Benefits Agreement has helped create thousands of good-paying union jobs to date, with more than 1,300 skilled workers dispatched to a high-speed rail construction site each day. Nearly 75% of the jobs created on the project go directly to individuals from disadvantaged communities. The agreement applies to current and future construction segments of the 500-mile Los Angeles to San Francisco project.

“Transportation creates good-paying jobs. Construction creates good-paying jobs. And high-speed rail has been able to keep these jobs local and put residents in our home region of the Central Valley to work,” said Chuck Riojas, of the Fresno, Madera, Kings and Tulare Counties Building and Construction Trades Council. “We are proud of our ongoing partnership with the Authority and we look forward to seeing the project continue to grow and create more jobs in the Central Valley and across the state.”

For information about construction jobs with the Authority or pre-apprentice training programs like the Central Valley Training Center, visit: www.hsr.ca.gov/jobs.

Governor Newsom and Legislative Leaders Announce Agreement to Fast-Track a Cleaner, More Reliable Grid

[Article originally appeared in www.gov.ca.gov]

Governor Gavin Newsom and the Legislature reached an agreement on the Governor’s package to build more clean energy, make the grid more reliable, and help achieve our 100% clean electricity goal. Today marks a critical step in California’s work to combat the climate crisis

and ensure our grid is powered by clean energy 24x7.

Here’s the challenge: Electric retail sellers, like utilities, procure electricity for customers; it’s how we all power our homes. But these sellers may not buy the clean energy – like offshore wind or long-duration storage – that we need to achieve a 100% clean electric grid. Red tape and

unclear guidance can slow clean energy projects from breaking ground.

That’s why California passed legislation to streamline infrastructure projects.

And now, California is going to step in: Buying energy to bring more clean electricity to the grid and streamline electric infrastructure projects:

PROCURE CLEAN ELECTRICITY. California is creating a central buyer to procure clean electricity for the grid, focusing on sources like offshore wind and long-duration storage to diversify our energy portfolio – creating a market for diverse sources of clean electricity that will spur more projects to break ground.

FAST-TRACK ELECTRIC INFRASTRUCTURE PROJECTS. Accelerate permitting for electric transmission projects – like power lines and transformers – to deliver more clean electricity throughout the state, cutting permitting timelines by months.

STRENGTHEN THE STRATEGIC RELIABILITY RESERVE. New measures to help prevent the misuse of the new Strategic Reliability Reserve which is designed to maintain grid reliability during extreme weather events, like heatwaves.

MODERNIZE CLEAN ENERGY PROCUREMENT PROGRAMS. Aligns the state’s primary clean energy planning and procurement programs – Renewables Portfolio Standard, Resource Adequacy, and Integrated Resource Planning – with our 100% clean electricity by 2045 goal in an effort to chart a clear path to our clean energy future.

What Governor Newsom said: “We’ve set some of the most ambitious clean energy goals in the nation to break the vicious cycle of climate change-caused energy emergencies – we need every tool at our disposal to achieve them. This legislation will help us achieve a 100% clean

ENVIRONMENTAL JUSTICE

Driving Community-led Climate Projects: What Are Environmental and Climate Justice Block Grants

[Article originally appeared in
<https://greenlining.org>]

By Isa Gaillard, Rachel Patterson

The climate crisis is a crisis of environmental justice; low-income communities and communities of color that have faced decades of redlining, disinvestment, and discrimination are often on the frontlines of the worst climate impacts. Repair means giving those communities the direct tools and financial and political power to steer toward a better future.

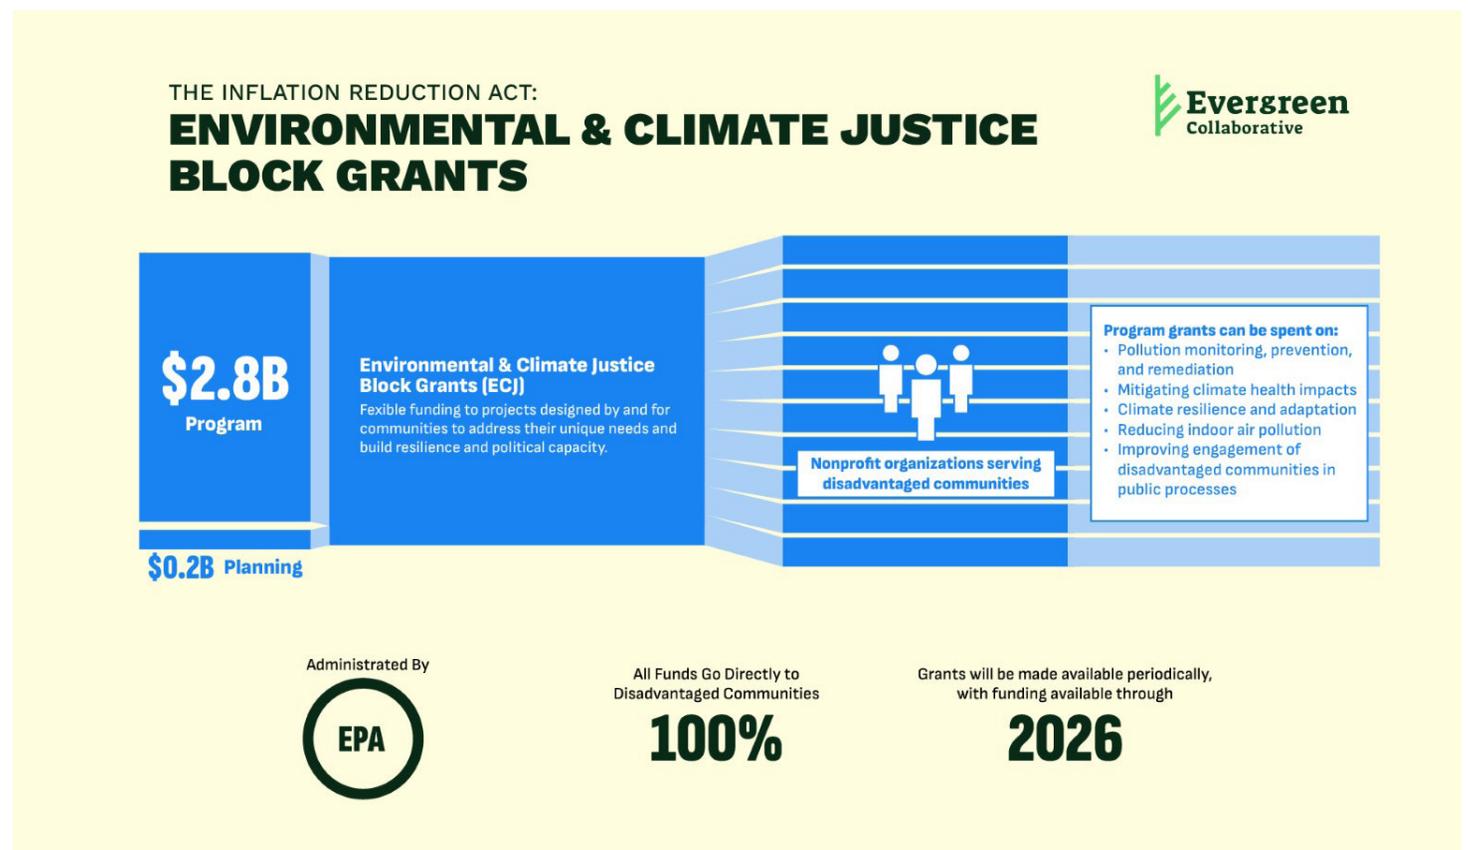

The Environmental and Climate Justice Block Grants (ECJ) Program within the Biden administration's Inflation Reduction Act is a step forward in repairing some of these harms by building power and resilience in disadvantaged communities and investing in their transition to clean energy.

This first-of-its-kind \$3 billion federal program aims to empower disadvantaged communities to determine and design their own visions of pollution reduction and clean energy investment. It does so by providing highly flexible funding that goes directly to nonprofit organizations serving disadvantaged communities—meaning projects are designed by and for communities to address their unique needs and build resilience and political capacity.

The vast majority of the ECJ funding will go to implementation grants, or as the Environmental Protection Agency (EPA) refers to them “Change Grants”. So, how can communities take advantage of this funding? Applications for Change Grants will be available later this summer or fall, so communities interested in taking advantage of this funding opportunity should start preparing now.

While many IRA programs allow nonprofit organizations to apply or partner to receive funds, ECJ focuses on community-level project design and implementation. This means that rather than a utility, business, state, or local government making the decisions on which projects matter most, disadvantaged community members get to be the decision-makers.

Since many traditional decision-makers have, over time, exacerbated the racist and classist planning patterns that have rendered commu-

\$2.8 billion will be allocated to nonprofits serving disadvantaged communities for spending across five broad categories.

nities at risk, centering power and funds in the communities themselves is a critically important reparative step. Communities need to be firmly in the driver's seat. Unlike other IRA programs that have a goal of providing 40 percent of program benefits to disadvantaged communities, every ECJ dollar and project is intended to provide a benefit directly to disadvantaged communities across the nation.

Despite the fact that many disadvantaged communities are already suffering most acutely from the impacts of climate change, they have received fewer federal funds to combat existing pollution, continue to need to spend energy to fend off polluting industry expansion, and are less well-positioned to capture clean energy resources to prevent future pollution. The ECJ program aims to change this pattern by empowering and resourcing communities to implement their own plans for pollution mitigation and renewable energy investment.

But first, how does the program define and identify disadvantaged communities to ensure these historic funds are targeted toward communities that stand to benefit the most?

Eligibility: What are disadvantaged communities

The ECJ program defines disadvantaged communities as those that are overburdened by pollution while also being underserved in resources and infrastructure. The White House Council on Environmental Quality developed a tool to identify disadvantaged communities nationally, which takes into account factors like the impacts of climate change, energy burden, health impacts, existing and legacy pollution, transportation systems and access, income level, and more. Notably, the tool does not explicitly include race in its criteria despite race being the prevailing indicator of pollution burden.

Pollution burdens, negative health impacts, and failed transportation and energy systems overwhelmingly impact Black and Brown communities. This is due to America's racist planning, polluting, and investment history. We have often called for tools that identify environmental justice communities to include race, given the reality of the pollution burden in this country. Though the ECJ program is not rooted in race-based considerations, we will continue our call for reconstructive climate work on race, as well as on other metrics. And the ECJ program can do very important work for communities in the context of this larger history.

Sukut Construction, LLC An Equal Opportunity Employer

**Project: Los Angeles Valley College Academic Complex #1
Owner: Los Angeles Community College District (LACCD)
Location: LA Valley College, Van Nuys, CA
Bid Issuance Date: 9/18/23
Bid Due Date: 10/18/23 @ 2pm**

Pankow is seeking certified **Local, Small, Emerging, Disabled Veteran** business enterprise subcontractor bid proposals for the scopes of work listed below for the new Academic Complex #1 building at LA Valley College (LAVC). Bid packages will be released via BuildingConnected on 9/18/23 and bids will be due by 2pm on 10/18/23.

Primary Bidding Scopes:

08 3300 Elevator Smoke Curtains, 09 7700 Acoustical Wall Panels, 09 7710 Wall Protection and Coverings, 10 4000 Signage (Interior and Exterior), 10 2000 Toilet Partitions & Accessories, 10 0000 Miscellaneous Interior Specialties, 10 0000 Miscellaneous Exterior Specialties, 11 1200 Parking Automatic Gates, 12 2400 Window Shades

Project started construction on May 30th, 2023 with a 24 month construction duration.

Interested subcontractors shall be aware that recent and relevant **DSA experience** is encouraged. Project has a **PLA** in place and awarded subcontractors will be required to be part of the **OCIP** which has a **maximum EMR limit of 1.24**. **Pankow cannot awarded any scopes to subcontractors with EMRs higher than 1.24.**

For More Detailed Bidding Scope Information, Responses and Questions

Jin Choi, Senior Preconstruction Manager

Outreach Participation & Local Workforce Hire Program

- Include at least thirty (30%) participation by Local, Small, Emerging and Disabled Veteran (LSEDEV) businesses based on the value of the work by Subcontractor. Subcontractor shall further stipulate that they will meet the goal by either qualifying themselves as an LSEDEV or by subcontracting their work to lower tier subcontractors in the amount of 30% of the overall value of the subcontract.
- Commits to meeting the goals of the Local, Disadvantaged Local Worker, and Veteran Hiring goals set forth by the District which includes the following:
 - o 35% of all skilled trade positions performing project work shall be: first, from qualified workers residing within the Primary Residency Preference Area; second, from qualified workers residing within the Secondary Residency Preference Area; and third, from qualified workers residing within Los Angeles County.
 - o 10% of all Local Workers performing project work shall be Disadvantaged Local Workers and/or Veterans.
 - o 50% of each craft's apprentice workforce shall consist, to the extent available, of first year apprentices.

Pankow Prequalification Process

All bidders will need to participate in Pankow's prequalification process during the bidding stage for evaluation in order to enter into a subcontract agreement with Pankow.

Bid Documents Bid documents will be issued through BuildingConnected

Selection Criteria Subcontractors will be selected and awarded the project based on best value.

Pankow is an Equal Opportunity Employer

**REQUEST FOR DVBE SUBCONTRACTORS AND SUPPLIERS FOR:
Replace AC surfacing, upgrade curb ramps, replace MBGR with MGS
Hwy 84 in Woodside and Redwood City
San Mateo County
Caltrans #04-0K7804
BID DATE: September 21, 2023 @ 2:00 PM**

We are soliciting quotes for (including but not limited to): Trucking, Temporary and Permanent Hydroseed and Erosion Control Measures, QC/QA Testing, Lead Compliance Plan, Develop Water Supply, Construction Area Signs, Traffic Control System, Portable Radar Speed Feedback Sign, Portable Changeable Message Sign, Water Pollution Control Program, Sweeping, Treated Wood Waste, Noise Monitoring, Clearing & Grubbing, Roadway Excavation (Type Z-2 Aerially Deposited Lead), Imported Borrow, Subgrade Enhancement Geotextile, Rock Blanket, Crack Treatment, AC Dike, Tack Coat, Cold Plane AC, Structural Concrete, Drill & Bond Dowel, Pedestrian Barricade, Abandon Inlet, Adjust Utilities to Grade, Detectable Warning Surface, Minor Concrete, Pre/Post Construction Surveys, Misc. Iron & Steel, Manhole Frame & Cover, Paint Curb, Delineator, Pavement Marker, Object Marker, Roadside Signs, Guardrail Systems, Handrail, Concrete Barrier, Striping & Marking, Electrical, and Construction Materials

Jason Martin (510-809-3432 jmartin@ocjones.com) and Donat Galicz (510-809-3498 dgalicz@ocjones.com) are the estimators on this project and are available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office or can be sent out via Building Connected. Plans are also available under the Advertised Projects tab at the Caltrans website at: <http://ppmoe.dot.ca.gov/des/oe/contract-awards-services.html>. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 12:00 PM on the date of the bid. Quotes from DBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbizfinance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

CALIFORNIA SUB-BID REQUEST ADS

Request for Proposals from Certified SBE Firms
Project Name: Utility Piping and Pile Replacement at Imperial Beach Pier
Solicitation No. 2022-19
Owner: Port of San Diego
SBE Goal: 5%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors)- Paint & Coatings, Electrical, Doors & Windows, HVAC, Pile Driving, Welding

(Suppliers): Misc. Metals, Timber Piles, Doors, Windows, Air Conditioning Unit, Lumber, Bolts, Nuts Washers, Utility Hangers, Waterworks, BMP Materials

Project Scope:

Project is located at Imperial Beach Pier in the City of Imperial Beach, CA. Work includes, but not limited to, replace portions of the timber deck, install 4 treated timber piles, repair gravity utility lines, install miscellaneous metal work hardware, repair/replace utility hangers, provide environmental protection, demolish and dispose of various elements including utilities, and other incidental items, provide a temporary generator, install new electrical components, switchboards, panels, and rewiring, and miscellaneous architectural work at the electrical room.

REVISED BID DATE: September 21st at 2pm (PDT)

FLATIRON

REQUEST FOR CERTIFIED DBE/SBE SUBCONTRACTORS & SUPPLIERS
Eastridge to BART Regional Connector (EBRC) Project
Santa Clara Valley Transportation Authority (VTA), San Jose, CA
Contract No. C20120

Bid Date: October 12, 2023 @ 2 PM EE \$300M to \$350M 8% SBE Goal

Quotes not received by noon on October 11th may not be reviewed/evaluated.

The Contract is subject to VTA's Small Business Enterprise (SBE) Program. The EBRC Project will extend light rail service approximately 2.4 miles along Capitol Expressway from the existing Alum Rock Light Rail Station South to the Eastridge Transit Center and 1.6 miles North from Alum Rock Station. The EBRC extension will operate primarily in the median of Capitol Expressway. The EBRC scope of work includes the construction of an aerial guideway (with Wall approaches), trackwork (direct fixation and ballasted tie), two passenger stations, systems (including two traction power substations), and minor road widening. **Bid Form 4 will be required from all DBE/SBE Firms. Bid Form 5 will be required from all listed Subs.**

Non-DBE/SBE Subs & Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE/SBE participation with your quote. 2nd-tier DBE/SBE participation will be evaluated with your price.

Flatiron requests DBE/SBE subcontractor, supplier & services participation for the following items of work, but not limited to: Construction Area Signs, Clearing & Grubbing, Demolition, Shoring & Excavation, Glazing, Street Sweeping, Carpentry & Drywall, Fencing/Gates, Metal Railing, Ladders & Stair Nosing, Landscaping/Irrigation, Electrical & Street Lighting, Traffic Control, Station Canopies & Sheet Metal, Elevators, Post Tensioning, Plumbing, F&I Mechanical/HVAC Equipment, Roofing, Traffic Signals, Utilities, Water & Sewer Line Construction, Surveying, Erosion Control, Precast Piles, CIDH, Operated equipment, Ready Mix Concrete, Rebar, Concrete Pumping, Striping & Markings, Roadway Signage including Station and Track Signs, Signal & Communication Systems, MSE Material, VTA Track & Rail, including Tie-in, VTA Systems, Walkway/Combined Trough, Duct Banks, OCS, TES, PTFE/Bridge Bearings and Pads, Joint Seal Assembly, Grading, AC Paving, AC Dike, Asphalt Crack Sealing, Minor Concrete, Curb/Gutter and Sidewalk, Underground & Drainage, Misc. Construction Material Supplies, QC Testing & Laboratory, SWPP Plan & Materials, Geotextile Materials, Trucking & Water Trucking, Supply & Erect Structural Steel, Painting/Concrete Staining, Welding, Asphalt Membrane Waterproofing, Steel Pipe Pile, Welded Steel Pipe, Underground Pipe for Storm & Sewer, Underground Precast, Misc. Metals, Iron & Steel, Formliner, Sheet Pile Installation, Dewatering, Ballast (VTA), Tire Shred Vibration Damping Layer, Vibration Mitigation/Monitoring, Noise Mitigation/Monitoring, **See Specifications for additional scopes of work in Divisions 6, 7, 8, 9, 10, 13, 14, 15, 21, 22, 23, 26, 27, 28, 32, 33 and 34.**

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

Project documents are available for **FREE** download at the VTA's eProcurement website <https://secure.procurenow.com/portal/vta> To download documents for this solicitation, Register as a vendor and sign up for notifications for your North American Industry Classification System ("NAICS") business codes at <https://secure.procurenow.com/signup> Please check your email inbox and follow the instructions to activate your account. There is no charge for downloading these documents. Click on the name of the solicitation that you are interested in.

Project documents may also be viewed in our office by appointment only, or downloaded for FREE from our BOX ftp site. CALIFORNIA SUB-BID REQUEST ADS

McCarthy Building Companies
515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

Subcontractor Solicitation of Interest
Kenneth Hahn Hall of Administration – Base Isolation Seismic Retrofit
Los Angeles, CA

McCarthy Building Companies, Inc., working as the Construction Manager at Risk in conjunction with the Department of Public Works for Los Angeles County, is soliciting interest from qualified subcontractors to participate in the bidding for award phase of the project. The independent Scopes of Work includes a Design-Build Fire Sprinkler Protection, Design-Assist Plumbing, Design Assist Mechanical, and Design-Assist Electrical and Low-Voltage.

Project description:

The Hall of Administration Base Isolation Seismic retrofit project consists of the installation of seismic isolators under the foundation of the existing building. Hydraulic jacks and temporary load-bearing shoring will be installed in phases to support and transfer the gravity loads from the existing columns/walls to new support foundations. Seismic strengthening of the superstructure using new concrete shear walls is required at selective locations. A moat gap will be constructed around the building perimeter using earth-retention walls. Shoring and earthwork operations will require demolition and reconstruction of the existing site around the building. The M/E/P scope consists of adjustments, alterations, temporary offsets, and new replacements to accommodate for the new structural systems and seismic movement of the building. All underground utilities will be modified with flexible connections where the utility lines pass through the perimeter moat gap. This project will be performed at an active site where the building is occupied during typical work hours. Temporary provisions of various sorts will be accommodated so as not to disrupt the occupants of the building.

Project Location: 500 West Temple Street, Los Angeles, CA 90012

Work categories include: Fire Sprinkler Protection; Plumbing; Mechanical; Electrical with Low Voltage.

Key Subcontractor Qualifications: Design-Assist experience for: Plumbing, Mechanical, and Electrical systems; Design-Build experience for Fire Sprinkler Protection systems; bondable and prequalified with McCarthy Building Co.; experience completing base isolation seismic retrofit projects using flexible seismic connections or other strategies of similar scope.

Key Dates: Request for Proposals (RFP) issued to Subcontractors – 08/28/23 via Building Connected website; Proposals Due to McCarthy Building Companies – 09/21/23.

This project requires:

- Prevailing Wages
- Traditional Insurance
- Design and oversight services by a qualified, licensed California Professional Engineer in collaboration with the existing Design & Engineering Team.
- Community Workforce Agreement

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin.

Please contact us if you have any questions regarding project specifics:

Request for DBE sub-quotes

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from Small Business from SCOOP Network; Small Disadvantaged Business, or a HUB zone business by the U.S. Small Business Administration; or business certified by the U.S. federal government's System of Award Management; or certified as a Disadvantaged Business Enterprise by Caltrans' or by the one of the signatory agencies within the California Unified Certification Program; or Metropolitan Water District of California's Regional/ Small Business Program; or certified by the City of San Diego's Small Local Business Enterprise and Emerging Local Business Enterprise Program; or certified as a Small Business or as a Disabled Veteran Business Enterprise by the California State Department of General Services.

Project Name: Southern First Aqueduct Structures Rehabilitation; Spec. No 636
Located in San Diego, CA
Owner: San Diego County Water Authority
Bid Date: October 10, 2023 @ 2:00p.m.

The work to be completed under this Contract consists rehabilitation, replacing, or abandoning 99 pipeline manway, air valve, pump well, and blow off structures; constructing new turnout connections with associated piping, encasements, vaults, and appurtenances, and making modifications at four flow control facilities; installing and removing bulkheads; installing, maintaining, and removing environmental fencing and flagging; installing and maintaining storm water pollution prevention measures; clearing and grubbing; dewatering; demolishing existing facilities; providing traffic control; excavating and backfilling, including providing excavation support systems; installing, maintaining, and removing temporary fencing; restoring surface improvements including base course, asphalt paving, curb, gutter, sidewalk, pavement markers, and striping; abandoning groundwater monitoring well; installing cathodic protection test stations; restoring existing access roads, restoring the site including placing soil amendments and hydroseeding.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below: Dumpster and trash services, traffic control/MOT, aggregates, trucking and hauling, water trucks, material landfill, shoring and underpinning, utilities cathodic protection, corrugated metal pipe, reinforced concrete pipe, asphalt paving and supplies, fencing, traffic signs and signals, landscaping contractors, hydroseeding, ready mix supplies, concrete forms and accessories, concrete reinforcing installation, concrete pumping, structural concrete, precast concrete, metals, stainless steel pipe and electrical work.

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of Building Connected system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact our Lead Estimator.

 Bid No. K-23-2169-DBB-3-C
 Revised Bid Date: September 14th, 2023 at 2:00 p.m.
 Engineer's Estimate: \$ 45.9 Million Outreach: DBE/ MBE/WBE
 Senior Estimators: Ben Sebat (562) 928-6111
 Email: bsebat@warasic.com**

W.A. Rasic is requesting bids for the following trades and/or material supplies:
 Electrical, AC Cold Milling / Demolition, Asphalt Cap Paving, Traffic Signals / Loop Detectors & Signal Modifications, Slurry Seal (Type 1,2,3), Minor Concrete, Pre-Construction Video, Temporary Highline, Sawcutting, Potholing, Striping, Welding, Install 12", 15", 16" & 36" Pipeline including Appurtenances, Furnish Welded Steel Pipe, Furnish Waterworks Supply, Furnish Aggregate, Traffic Control Signs & Equipment, Cathodic Protection, Trucking & Disposal, SWPPP Development, Dewatering (Hazardous & Non-hazardous), Contaminated Soils (Monitoring, Hauling & Disposal), Chlorination/De-Chlorination, CCTV, Traffic Control Plans / Engineering, Equipment Rental, Camera Inspection, Shoring Equipment

NAICS Codes:
 237110, 237310, 238110, 238190, 238210, 238910, 238990, 331110, 334290, 484110, 532490, 541330, 541690, 562910

Plans & Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the City of San Diego's Planet Bids Portal or by utilizing the following FTP link:
<https://www.dropbox.com/scl/fo/62d5mpacyemtlcwnvkcZ/h?dl=0&rlkey=q61cyookpk8v9s550yeeekl6g>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, and WBE quotes, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

CALIFORNIA SUB-BID REQUEST ADS

NOTICE IS HEREBY GIVEN that XL Construction Corporation will accept bids for the award of the contract for the following public work:

**XL Construction Corp, Project Number 4668
PCCD - Berkeley City College: West
2118 Milvia Street, Berkeley, CA**

The project consists of a new building, it is an instructional as well as administrative facility consisting of 59,561 gross square feet and 6 stories. We are seeking bids for the following scopes of work:

Core and Site Trades: Elevators, Earthwork and Grading, Deep Piers and Shoring, Surveying, Site Utilities, Site Concrete, Topping Slab and Concrete Polishing, Structural Concrete, Misc. Metals, Roofing, Waterproofing, Flashing, Masonry, Landscaping, Fencing.

TI Trades: Millwork, Doors Frames & Hardware, Smoke Curtains, Interior Glazing, Interior/Exterior Framing, Drywall & Plaster, Ceilings, Ceramic Tile, Flooring, Interior/Exterior Painting, Signage, Specialties, Overhead Coiling Doors, Signage, Window Shades, and Final Cleaning.

The bid period is September 5, 2023 through October 3, 2023. Bids are due October 3 at 2pm.

There is an optional pre-bid conference on September 7, 2023 at 2pm PDT. Please log into the Webex meeting through the following link: <https://xlconstruction.webex.com/j.php?MTID=m249d8c85d89bd336ebefd12f8cdca915>

All bid document distribution and proposal submittals will be conducted electronically via Building Connected.

Starting 9/5, the project will become available to view in our Building Connected Public Plan Room here: <https://app.buildingconnected.com/public/5430e7ae5cdc2e0300dd7c7e>

Work to be completed according to all applicable building and administrative codes, and the following:

- Prevailing Wage and Certified Payroll Project
- This project has SLBE participation goal of 25%, **SLBE bidders will be prioritized.**
- Subcontractor must be registered with Department of Industrial Relations & have DIR number issued
- All labor is to comply with Project Labor Agreement (PLA)

All subcontractors wishing to bid on this project must be prequalified with XL Construction. To request a prequalification package, please email prequal@xlconstruction.com. Prequalification must be completed by the time bids are due, the prequalification process takes approximately 3 weeks.

Please include: "Berkeley City College - West #4668" in the subject line of your email.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Please email Kristina Lee klee@xlconstruction.com with any questions.

GRANITE CONSTRUCTION COMPANY

Is requesting DBE quotes for the following Project:

I-10 East Bound Truck Climbing Lane • Project Owner: San Bernardino County Transportation Authority

SBCTA Contract No. 23-1002869

Bid Date: 09/19/2023 @ 2:00 PM

Points of Contact: Sara Hayes / Kalen Gopperton • Phone: 760-578-2819 / 442-300-4967

Emails: sara.hayes@gcinc.com / kalen.gopperton@gcinc.com

Please Email Quotes to: DCR.estimating@gcinc.com • Please Fax Quotes to: (760) 775-8229

General work description: Construct a truck climbing lane on the East bound side of I-10 near Yuicpa and Calimesa. Work will generally include concrete pavement, earthwork, concrete barrier, and related scopes as detailed below.

Plans and specifications can be accessed at no cost at <https://www.dropbox.com/scl/fo/4jfnsgayvfyuqmc18j6n/h?rlkey=g3mwmjnm6msgiuy11qwww2csu&dl=0>

Additionally, plans, specifications, and addenda can be viewed in the Files/Plans room in Smart Bid or at our office located at: 38000 Monroe Street, Indio, CA 92203. Please call to make an appointment.

Granite Construction Company (Granite) is requesting quotes from qualified Subcontractors and Suppliers including Certified DBE firms for the following items of work, including but not limited to: B1420 Crushed & Broken Stone, B1440 Sand & Gravel, C0624 Petroleum, Oil, Lubricants Supplier, C0625 Sand & Gravel Supplier, C0627 Rock, Cobbles, Bolders Supplier, C0639 Asphalt Supplier, C0649 Piling Supplier, C0651 Concrete & Cement Supplier, C0652 Reinforcing Bar Section Supplier, C0655 Steel Supplier, C0657 Lumber Supplier, C0670 Pipe Supplier, C0671 Draining Systems Supplier, C0680 Fencing Supplier, C0683 Guard Railings & Barriers Supplier, C0685 Pavement Markers Supplier, C0800 Traffic Striping, Marking And Traffic Control Materials Supplier, C0900 Bridge Deck Materials Suppliers, C1200 Construction Area Signs, C1201 Traffic Control System, C1290 Temporary Railing (Type K), C1531 Plane Asphalt Concrete, C1532 Remove Concrete, C1575 Remove Bridge Item, C1601 Clearing & Grubbing, C1701 Develop Water Supply, C1801 Dust Palliative, C1901 Roadway Excavation, C1910 Grading, C1920 Structure Excavation, C1930 Structure Backfill, C1940 Ditches Excavation, C2001 Rock Blanket, C2021 Hydroseeding, C2030 Erosion Control, C2066 Temporary Erosion Control, C2201 Finishing Roadway, C2602 Aggregate Base, C2700 Cement Treated Base, C3000 Concrete Pumping, C3600 Penetration Treatment & Prime Coat, C3901 Asphalt Concrete, C3910 Paving Asphalt (Asphalt Concrete), C3940 Place Asphalt Concrete Dike & Misc, C4010 Portland Cement & Concrete Pavement, C4040 Clean & Seal Pavement Joints - Rout & Seal Cracks, C4201 Groove & Grind Pavement, C4901 Furnish & Drive Piling, C4906 Cast-In-Drilled-Hole Concrete Piling, C5100 Concrete Structure, C5105 Minor Concrete Structure, C5201 Reinforcing Steel, C5620 Roadside Sign, C5701 Lumber & Timber, C6200 Alternative Pipe Culvert, C6650 Corrugated Metal Pipe (Csp), C6819 Filter Fabric, C6900 Downdrain, C7006 Corrugated Steel Pipe Inlet & Riser, C7200 Rock Slope Protection, C7500 Misc Iron & Steel Frame, Cover & Grate, C7602 Saw Cutting, C8000 Fencing, C8001 Temporary Fencing, C8201 Object Marker, C8320 Metal Beam Guard Railing, C8331 Concrete Barrier, C8391 Metal Beam Barrier, C8396 Crash Cushion, C8405 Thermoplastic Traffic Striping & Marking, C8406 Painted Traffic Striping & Marking, C8407 Remove Pavement Marking & Traffic Stripes, C8501 Pavement Marker, C8713 Consultant, Environmental, C8851 Lead Compliance, C8852 Swppp Planning, C8853 Biological Resources Studies, C9601 Super Dump Truck 4-Axle, C9602 Bottom Dump Trucking, C9603 Transfer Dump Truck, C9604 Super 10 Dump Truck, C9605 Flat Bed Trucking, C9606 Water Truck, C9607 End Dump Truck, C9608 Asphalt Oil Tankers, C9609 Street Sweeping Truck, C9670 Truck Rental, C9771 Truck Broker, C9774 Trucker, C9810 Small Structures, C9811 Small Structures, C9905 Cutting, C9906 Sandblasting, C9907 Construction Equipment Rental, C9908 Heavy Equipment Rental (Owned Equip Only)

Granite is an Equal Opportunity Employer and will work with any interested subcontractor to identify opportunities to break items into any economically feasible packages. We welcome quotes from qualified Minority Business Enterprise (MBE), Women Business Enterprises (WBE), Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE) and other entities defined as socially and/or economically disadvantaged.

Assistance in obtaining bonding, insurance, equipment, materials and/or supplies is available upon request. Additionally, please contact us if you require any technical assistance. Quotations must be valid for same duration as specified by Owner for contract award. Granite intends to work cooperatively with all qualified firms seeking work on this project.

This project has a 23% DBE goal. In addition to request for participation from Certified WBE/MBE subcontractors and suppliers, Granite requests Non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are encouraged to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Please include your Contractor License Number and DIR Registration Number on your quote

Granite Construction Company is signatory to Operating Engineers, Laborers, Cement Masons Teamsters and Carpenters unions. Granite may require 100% performance and payment bonds for the full amount of subcontract price. Granite Construction will assist with bonding costs for subcontractors. Additionally, The US Small Business Administration may also assist you in obtaining bonding, for more information please visit them at <http://www.sba.gov/content/contractors#>. Subcontractors must possess a current contractor's license, DIR number, insurance, and worker's compensation coverage meeting Granite's requirements.

All quotes are subject to the terms of Granite Construction Company's applicable standard form agreement which is available through the following link: <https://www.dropbox.com/sh/93isvduu5iv1316/AAcA2v58j7xY7Ja0IH-dL0J-a?dl=0>

Burns and McDonnell

Seeking Qualified DBE Subcontractors/Suppliers BIDS/Proposals
**Owner: Los Angeles County Metropolitan Transportation Authority (LACMTA)
Vehicle Engineering and Acquisition, Program Management, and Design/Engineering RFP No. PS112435
Proposal Due Date: 2:00 PM (PST) Thursday, September 21st 2023**

This advertisement is in response to LACTMA DBE Program. Burns and McDonnell intends to conduct itself in "Good Faith" with DBE firms regarding participation on this project.

Quotes are required by COB, September 15th, 2023 so that all bids/proposals can be fairly evaluated. Please submit bids/proposals for the following areas of work for surveying and underground utility locates, LiDAR, Civil design, PV and Battery storage design, Distributed energy resources, Distribution design and engineering, Electric vehicle infrastructure design, scheduling, cost control (project controls), HVAC, Architectural, fire protection, geotechnical, cost estimation. In addition, project controls, design support including electrical, structural and mechanical, vehicle procurement, electric vehicle engineering, administration and administrative support.

Interested DBE firms must provide proof of certification acceptable to the LA County Dept. of Public Works

**RESPONSES MUST BE RECEIVED NO LATER THAN
5:00 P.M., Friday September 15th , 2023**

Send Responses To

**Burns & McDonnell Engineering Company, Inc.
617 W. 7th Street Suite 700 • Los Angeles, CA 90017
Attention: Chamberlain Duru**

Bonding not required. E & O insurance may be required as applicable. Firms needing assistance in identifying resources available to DBE firms should contact Chamberlain Duru, Diverse Business Manager at (213) 458-5013 or cduru@burnsmcd.com. A copy of the RFP is available on-line at the LACMTA Vendor Portal Internet site at www.Business.Metro.net. Technical Questions should be directed to Milad Arouni via e-mail at marouni@burnsmcd.com. and via phone at 657.478.9125.

INVITATION TO BID

**Project: Specification No. 2816
State Route 47/Vincent Thomas Bridge & Front Street/Harbor Blvd
Interchange Reconfiguration
Owner: The Port of Los Angeles (POLA)
Bid Due Date: September 28, 2023, at 2:45 PM**

Request for quotes from Certified DBE Subcontractors and Suppliers for the following, but not limited to scopes of work: Aggregate Supply, Asphalt Dike, Asphalt Paving, Biologist, CIDH Pile, Clear and Grub, Cold Plane AC, Concrete Barrier, Concrete Supply, Construction Area Signs, Dewatering, Driven Pile, Electrical, Erosion Control, Fencing, Formliner Supply, Geotextile Supply, Ground Anchor, Guardrail, Hazardous Material Disposal, Landscape and Irrigation, Minor Concrete, Misc. Iron and Steel Supply, Modular Building Contractor, Overhead Signs, Photographic Documentation, Pipe Supply, QC Testing, Railing, Ready Mix Concrete Supply, Reinforcing Steel, Roadside Signs, Rock Slope Protection, Settlement Monitoring, Street Sweeping, Striping, Survey, Traffic Control Materials, Wick Drain.

PLEASE SUBMIT QUOTES BY EMAIL TO SOCALBIDS@FLATIRONCORP.COM
OR FAX TO (858) 271-1330

Plans and specifications are available, at no cost, from the Port of Los Angeles PlanetBids portal (CDBON) at <https://pbsystem.planetbids.com/portal/42217/bo/bo-search> (Registration Required). Additionally, plans and specifications are available to view at Flatiron's San Diego, CA and Chino, CA offices. Please send an email to socalbids@flatironcorp.com to make an appointment to view the documents.

This project has a 23% DBE Goal. In addition to request for participation from DBE subcontractors and suppliers, Flatiron requests non-DBE subcontractors to provide lower-tier DBE participation. Bidders are required to indicate lower-tier DBE participation information to be evaluated as part of their quote.

Quotes must be valid for same duration as specified by Owner for contract award. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Flatiron intends to work cooperatively with all firms for scopes of work you are licensed and qualified to perform. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies, and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and insurance requirements. A copy of the document in electronic format is available upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%. The surety on the bonds must be a California admitted surety.

**Flatiron West, Inc.

EVENTS

Free Event for Students Aims to Encourage Youth to Join Construction

[Article originally appeared in www.constructconnect.com]

By Sydney Paschall

NextGen is a group of dedicated individuals and professionals from ConstructConnect that are committed to inspiring the next generation of youth to consider and join the construction workforce. With a nationwide labor shortage and a frightening gap between the demand for workers and the number of qualified people searching for construction jobs, action must be taken to encourage students to enter this lucrative and diverse workforce.

To inspire and activate the next generation of builders, NextGen is hosting a free, one-hour “Day in the Life of an Estimator” workshop for middle, high, and trade school students. Taking place on September 13, 2023, from 11:00 a.m. to 12:00 p.m. EDT, this virtual event will introduce students to this exciting career path, which boasts a great starting salary and can be worked remotely.

ConstructConnect Academy Presents NextGen Estimation

To get a sense of the demand and pay in the job field of construction estimation, here are some really interesting numbers. Since 2014, the role has grown by 25%, with 140,000 people in the United States currently employed as construction estimators. Fortunately, the number of women in the field has increased by nearly 50%, making up a total of 16%. When it comes to salary, Indeed has a range of pay from \$53,000 to \$140,000, with the average sitting at \$85,000. Construction overall has over 400,000 job openings with wages continuing to rise.

What To Expect at NextGen Estimation:

-Introduction to construction estimation and see how buildings are first conceptualized and designed

- Learn about blueprints, cost estimation, and project management

- Interact with industry-leading technology that makes estimation more accessible
- Resources provided to learn more about preconstruction careers and industry training resources

The Future of the Construction Workforce

Let’s unite together to foster students to build their skills and a brighter future! The world is waiting to see what they will create. Enroll your class in the NextGen Estimation hour today. If you are reading this and a teacher, educational instructor, or special person comes to mind, please share this with them and encourage them to enroll in this complimentary event.

The team hosting the NextGen Estimation is a group of diverse professionals, all from ConstructConnect. The team features members with roles in Customer Success, Product Training and Management, Content Marketing, and Media Design.

With members from all departments that have a wide array of incredible backgrounds and expertise, the NextGen team has truly put together a special offering to show just how cool a career in estimation can be while being living examples of those who can and should be looking into the construction industry!

The ConstructConnect Academy

NextGen is an extension of the ConstructConnect Academy, which has been providing biannual opportunities for learning, development, and industry insights since the spring of 2021. With multiple sessions per year, the Academy chooses to focus on and present the most relevant topics at the time, considering current industry news, product reveals, and more. In extremely exciting news, the ConstructConnect Academy is hosting its first-ever in-person event this fall from October 23rd to the 27th.

BUSINESS TOOLKIT

How to Win More Construction Bids: 9 Ways to Improve Your Bid-Hit Ratio

[Article originally appeared in <https://solutions.borderstates.com>]

Contractors have often approached project bidding by offering the lowest possible cost. But as the bidding process becomes increasingly complex, it’s important to know how to win construction bid contracts and improve your bid-hit ratio while staying profitable.

Bidding low isn’t the same thing as bidding competitively. And increasing your bidding volume without changing your approach only leads to wasted time and money.

Check out these nine tips for winning more construction bids with fewer proposals.

Bid first and know your competition

An easy way to get more construction bids is stepping in before your competition does. Keep

an eye on construction bidding marketplaces to create a profile and preemptively find jobs.

- **BidClerk** – This site provides commercial construction leads and project information.
- **iSqFt** – A networking tool, iSqFt is specially designed to help construction professionals connect and communicate.
- **BidPlanroom** – Commercial construction professionals use this site to join a bidder’s list, post projects and promote their company. (It’s free!)

When preparing to bid on a project, know what criteria your competition will use so you can bring more to the table. This means making your offer about more than just price. Essentially, you need to sell the fact that your services are better.

Don’t chase every job

Just because a construction job is available doesn’t mean you should go for it. You’re better off taking the time to carefully craft a proposal for five projects you’re well suited for than 20 you aren’t.

Reducing the number of proposals you submit and improving their quality can actually be more effective in the long run.

Follow these tips for selecting projects with a higher chance of success:

- Bid on jobs that fit your niche. Figure out what you do best and stick with it.
- Focus on projects that will result in repeat business. Retaining an existing customer is much easier than finding a new one.

- If a project requires specialties you don’t have, don’t bid. You’ll either waste your time or end up with a project you can’t execute very well.

Identify the decision-makers and build trust

Contractors often waste precious time by working with people who don’t have any say in the final decision.

Find out the key decision-makers involved with the project, so you know who to prioritize. A good way to start this is by gaining an understanding of the prospect’s organizational structure.

Once you’ve identified the decision-makers, try to get as much time with them as you can. People want to do business with someone they trust, and they can’t trust you if they don’t know you.

SBA Recognizes Legacy Businesses during SBA's 70th Anniversary Celebration

[Article originally appeared in www.sba.gov]

As part of the agency's 70th anniversary celebration, SBA Administrator Isabella Casillas Guzman, the voice in President Biden's Cabinet for America's more than 33 million small businesses, recognizes U.S. Small Business Administration(SBA) Legacy Businesses from our 68 district offices of which many recipients started small and leveraged SBA resources on their journey to becoming household names.

Administrator Guzman is celebrating the SBA's 70th anniversary — which began July 30 — with events throughout the country. Earlier in August, she rang the closing bell at the New York Stock Exchange to mark the anniversary and celebrate SBA-supported businesses that have grown from small start-ups into some of the most recognizable publicly traded brands. Administrator Guzman also attended an anniversary celebration at the Eisenhower Presidential Library and Museum in Kansas, where she and local elected officials highlighted the nation's historic small business boom under President Biden and honored the legacy of President Dwight E. Eisenhower, who created the SBA 70 years ago.

Administrator Guzman and the Biden-Harris Administration are putting small businesses at the forefront of President Biden's historic Investing in America agenda: modernizing SBA programs and resources, expanding networks, and increasing access to capital and contracting so more small businesses can capitalize on national investments in our nation's infrastructure, rebuilding advanced manufacturing and more.

"The SBA's Legacy Businesses all demonstrate the strength and impact of entrepreneurship and how the federal programs at the SBA fill gaps in the marketplace to ensure small businesses have the support and resources needed to start, grow and thrive," said SBA Administrator Isabella Casillas Guzman. "We are proud of every small business the SBA has helped in our 70-year history and are working hard in the Biden-Harris Administration to ensure they have the capital and know-how to leverage opportunities as we Invest in America so they can do what they do best: innovate, create jobs and propel our economy."

For 70 years, America's entrepreneurs have relied on SBA support to help start and grow their small businesses. The federal agency has provided trillions of dollars in support to small businesses and has helped millions of small-business owners build meaningful lifelong connections and power their local economies.

In recognition of our nation's successes, the SBA is honoring some of the many Legacy Businesses who have leveraged SBA capital and resources to grow their businesses and strengthen their local economies and communities.

SBA Legacy Businesses:

Alabama: Stanley Construction, Huntsville

Alaska: Santa Claus House, North Pole

Arizona: Sonoran Technology and Professional Services, LLC, Goodyear

Arkansas: McCormick Asphalt Paving and Excavating, Inc., Mulberry

California: Equator Coffee, San Rafael; Meissner Filtrations Inc., Camarillo; Exquadrum, Inc.,

Agreement to Fast-Track a Cleaner

Continued from page 1

electric grid and phase out the very pollution that causes extreme weather in the first place. We're taking action to build the clean energy we need, faster."

What Senate President pro Tempore Toni G. Atkins (D-San Diego) said: "Given the growing impacts of climate change, it's critically important that our state invests in safety nets that will bolster our energy resiliency and help us meet our climate goals. Procuring energy from reliable and responsible sources also protects California against future fluctuations in the energy market. I applaud Assemblymember Garcia and Senator Becker for authoring this innovative approach to clean energy procurement, and appreciate the leadership of Speaker Rivas and Governor Newsom on this effort."

What Assembly Speaker Robert Rivas (D-Salinas) said: "In California, we meet the challenges of our vast state with innovative solutions. With agreement from the Governor and the President pro Tempore, we are now poised to build bigger clean-energy resources and meet the needs of our growing and greening electricity grid. AB 1373 enables the state to draw together the strength of many electricity providers to procure the difficult but essential resources that our future grid needs, including offshore wind energy and new geothermal power generation. This complex legislation includes careful checks and balances and required months of work. I am grateful to the Assembly members that led on that collaboration."

SUCCESS STORIES

Reem Assil, Reem's California

[Article originally appeared in <https://cameonetwork.org>]

In 2010, the dream of Reem's was born at the doorstep of a street corner bakery in Beirut, Lebanon. Founder Reem Assil says, "The scent of za'atar, yeasted bread, and sweet orange blossom syrup right out of the oven and the sounds of laughter and chatter in Arabic all around me conjured up memories of my childhood and my yearning to create home and community in the US. It was in watching the bread flying out of the oven, literally into hungry people's hands, and witnessing the life inside those bakery doors despite the political turbulence outside of them that I realized my people are masters of bread and hospitality: the lifeline of our history and what has kept us resilient over many generations despite colonization, war, drought, and famine in the Arab world."

On a soul-searching trip to Lebanon and Syria, Reem decided to bring this experience to the Bay. She wanted to bring more than just a bakery. Reem wished to recreate the sights, sounds, tastes and aromas of the streets of Damascus and Beirut, and at the same time a space that feels familiar and inviting to all cultures. She wanted to create a sense of home.

Reem's business truly began in 2014 when she participated in many pop up shops selling baked flatbread to go. In 2015, she officially launched her business as a participant of La Cocina. Her one farmers market location grew to five. Soon enough, they were serving bread and street food fare to hundreds of people a week. Looking to expand given the bakery's rapid growth, Reem entered and won the national OpenTable contest to fund a dream restaurant. Six months later, Reem's California was open. In 2017, Reem opened her first bakery

at her dream location: a corner of a transit center in the heart of the Fruitvale in one of the most diverse communities in Oakland.

Since then the restaurant has been the subject of local and national acclaim. It even became a Food & Wine Magazine Restaurant of The Year for 2018, partly through adapting to her customers' tastes. For example, she wanted to establish a vibrant breakfast and pastry menu, but her pastries and breakfast items didn't take off in Fruitvale as she had hoped. The bakery stopped opening for weekday breakfast service. Reem stated "we wanted it to be this morning bakery, but people didn't understand Arab breads and pastry to be a breakfast food. They wanted something more like lunch. So we pivoted and met customers where they were at. And we became this vibrant lunch and brunch spot. And right around 2019 we got this opportunity that we weren't necessarily looking for, but we were looking for bigger kitchen space because our catering program by then had grown."

Reem received her first loan from Pacific Community Ventures in December 2019. Initially, she had not met all qualifications for a loan upon opening her first location. In March 2020, Reem earmarked the 2019 loan for an opportunity that became available to open her second brick & mortar restaurant in San Francisco. The location was on 24th St. Mission District, which was a former community anchor, Mission Pie. This opportunity came 3 days prior to the country shutting down due to Covid-19 pandemic. The Reem's team faced the challenge of identifying the best options to keep production running. They were unable to maintain it as a restaurant.

Reem then gained an opportunity to partner with World Central Kitchen, a non-profit organization.

The idea was to become a feeding hub for the community for about a year. The partnership produced over 100,000 meals in a year for the houseless populations, frontline workers. It also provided employment to those who needed it on the Oakland side. During this time, in December 2020, the main oven in Reem's Mission location exploded, and it was beyond repair. As a result, the restaurant temporarily paused its operations. It started conducting a series of Pop Up services, farmers markets, and meal kits while they replaced the oven. Reem eventually used the funding from PCV for working capital, hiring new staff, and equipment.

Thoughtful Expansion: Creating More Jobs and Building a Stronger Business

Reem's commitment to her community is exemplified by the quality jobs she provides for her employees. The bakery and kitchen invests in employee training and development plans. It gives workers opportunities to grow and advance within the company. Their second location is open from 9am to at least 9pm six days a week and serves their famous mana'eesh and wraps for lunch and dinner. Reem is excited to offer an extensive Arab pastry program, which includes khobz sim sim, baklava, and kenafah.

Reem has shown incredible business acumen and conducts thorough analysis of both her market base and business finances. That's why she was thrilled to become a PCV Good Jobs Entrepreneur Fellow in April 2023. She joined a group of 14 like-minded business owners who are committed to promoting racial and gender wealth-building outcomes through their businesses.

Reem wants to grow her business while creating opportunities for her employees to advance

within the company by transitioning to a cooperative model and preparing for worker shared ownership. She plans to do this by providing training and development opportunities through a core salaried team. This will free her as the owner to focus on the vision and marketing aspects of the business. To support her growth strategy, Reem has multiple small business advisors, including Mike Vanecek, CFO at TMC Financing, and CPA Miles Mochizuki. Reem has also invested in a strategic operation focused on the recruitment, development, and training of her employees.

As a restaurant, Reem's has received a tremendous amount of recognition from local and national publications. This includes features in over 60 articles in major publications like the New York Times and Bon Appetit Magazine. Reem's was also voted as one of Food and Wine's Top 10 Restaurants in 2018. She earned back-to-back James Beard Nominations for Best Chef: West. Reem's media presence has helped to build a platform for her brand centered on Arab hospitality and the intersections of food and social justice. This has attracted visitors from all over the country who are eager to experience the brand and her story.

Reem is currently working on obtaining funding through The Real Peoples Fund for a new project and wants to create strategic partnerships that can help her have social impact. She wants to reach those with the most barriers to employment while creating economic opportunities for those in need.
