California reduces payments for rooftop solar power for second time in a year

Solar electric panels on the roof of the Hanover Olympic building, the first building to offer individual solar-powered net-zero apartments in Los Angeles, on June 6, 2017. Photo by Mike Blake, Reuters

[Article originally appeared in www.calmatters.org]

By Ben Christopher and Julie Cart, CalMatters

After months of debate and two postponed votes, California's utility regulator unanimously voted today to overhaul incentives for owners of apartment buildings, schools and businesses that install solar panels.

The new regulations are the second major step that the California Public Utilities Commission has taken in the past year to reduce power companies' financial support for rooftop solar. In December, the commission reduced payments to homeowners who sell excess power from newly installed solar panels on single-family homes.

Still, for solar advocates, it could have been worse.

Thanks to a last-minute regulatory tweak, the new rules today stop short of a previous proposal that solar industry groups and housing-related interests warned would result in the "evisceration" of the multifamily solar market.

Under the new rules, apartment buildings, schools, farms, commercial strips and other facilities where multiple electric meters occupy the same site will receive significantly less money from utility companies in exchange for the excess solar energy they produce and sell back. These customers would be paid about 80% less per unit of energy they sell, solar advocates say. The rates they are paid vary depending on the season and time of day.

"This (new rule) forces them to sell low and buy high," said Bernadette Del Chiaro, executive director of the California Solar & Storage Association, which led the campaign against the rule change. "No one is going to go solar under that setup."

The reduced incentives will apply immediately to new solar customers or arrays. Older units will be gradually phased in over the next 20 years. The commission also emphasized that existing rates would remain for those enrolled in affordable housing programs.

The new solar payments come at the same time that California is trying to stop using fossil fuels to produce energy, with a state goal of 100% carbon-free electricity by 2045. By then, the state projects that more than half of California's power will come from large-scale and rooftop solar.

The regulatory overhaul was endorsed by the three investor-owned utilities affected by the rules — Pacific Gas & Electric, Southern California Edison and San Diego Gas & Electric Company.

The commission said it altered the rates because paying solar panel owners near-retail prices allows these mostly wealthy property owners to avoid paying a fair share of maintaining the grid, while saddling everyone else with higher electric bills, including low-income customers.

Commission President Alice Reynolds said the decision would reduce a subsidy that burdened other ratepayers. She called the decision a culmination of a "complex and long process" and said it would modernize the rate system while providing incentives for new solar customers to add battery storage, critical for maintaining grid reliability, she said.

Small Business Saturday Prep: How to Prepare With Little Time

[Article originally appeared in https://sba.thehartford.com]

By Anne Shaw

For many small and locally owned businesses, Small Business Saturday® is not only a great way to boost sales at the start of the holiday season, but it's also a wonderful way to showcase a commitment to their local community. In 2023, the 14th annual Small Business Saturday will take place on November 25th.

Small Business Saturday was founded in 2010 by American Express as a celebration of small businesses. Their goal was to inspire shoppers to support local companies. Since it's start, consumers and the U.S. government have both fully adopted it. This led to the Shop Small® movement and in 2011, the U.S. Senate unanimously passed a resolution supporting Small Business Saturday. As a result, thousands of Neighborhood Champions now promote the day across all 50 states each year.

According to the Small Business Saturday Consumer Insights Survey, produced by American Express and the National Federation of Independent Business (NFIB), there was an estimated \$17.9 billion in sales on Small Business Saturday in 2022.

American Express also found that if every Gen Z and Millennial shopper in the U.S. spent \$10 at a small business on Small Business Saturday, it would support \$1 billion in local economic activity.

So how can you grab your piece of the Shop Small movement pie? There are two primary ways: by understanding and catering to why shoppers venture out on Small Business Saturday, and then preparing for the day in a way that both informs consumers of your status as a small business and encourages them to shop small with you. This means you'll want to get your website up and running. You'll also want to establish a presence on social media.

Capitalize on Why Your Customers Love Small Business Saturday

Some say that part of Sears' downfall was that it wasn't tied to local communities in any tangible ways—a strategy that proved especially detrimental in a time when consumers are longing to regrow a sense of real community. Consumers also report that they like making a positive social, economic and environmental impact when they shop.

According to the 2022 survey, 72% of consumers stated that Small Business Saturday made them want to shop small and dine at small, independently-owned businesses. Two-thirds of shoppers also strongly agreed that they will continue to shop small throughout the holiday season because of it's impact on their local community. It's easy to see why this day is such a great opportunity for small businesses, especially those that are locally owned.

So be sure to get into the community spirit when writing any messaging related to your Small Business Saturday promotions and also while planning how you'll treat this special shopping day.

How to Make the Most of Small Business Saturday

If you're behind schedule with your Small Business Saturday preparations—that's ok. You can follow our guidelines below to figure out what you can still pull off.

If You Have Two Weeks' Prep Time

With two weeks to prepare for Small Business Saturday, there is still plenty you can do to encourage customers to shop small with you. This includes planning promotions and sales for your business.

While you certainly may feel more comfortable if you had a month to prepare, you'll be surprised by how much you can accomplish in two weeks. Start with this checklist:

This Project is subject to the "Buy America" provisions of the Surface Transportation Assistance Act of 1982, as amended by the Intermodal Surface Transportation Efficiency Act of 1991 and as further amended by the Moving Ahead for Progress in the 21st Century Act (MAP-21) of 2012 and again by the Build America, Buy America Act (BABA) under Infrastructure Investment and Jobs Act (IIJA)/Bipartisan Infrastructure Law (BIL) (Pub. Law 117-58, Nov. 15, 2021). This Project is also subject to, but not limited to, Disadvantaged Business Enterprise good faith efforts, Davis-Bacon and California prevailing wage rates, American Iron and Steel requirements, the Contract Work Hours and Safety Standards Act, the Clean Air Act (42 U.S.C. 7401-7671) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended, and the Byrd Anti-Lobbying Amendment.

REQUEST FOR Sub-Proposals from Certified DBE Firms Project Name: Inland Rail Trail Phase 3B Bikeway Solicitation No. SOL1224667 Owner: SANDAG DBE Goal: 21%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors): Electrical, Traffic Signal (Traffic Loop), Asphalt Paving/Dikes, Retaining Walls, Minor Concrete (Structures), Fencing, CMU, Light Weight Cellular Concrete, Clear & Grub/ Tree Removal, Landscape, Signage & Striping, Shotcrete, Reinforcing Steel, CCTV, Surveying, Quality Control, Tree Removal, Sawcutting, Modular Block Wall, Job Coordinator, Street Sweeping, Trucking

(Suppliers): RCP, Ready Mix Concrete, Aggregates, BMP Materials/ Erosion Control, Geogrid, Misc. Metals, CMU Blocks, Shoring, Signage, Catch Basins, Waterworks, Precast Wheel Stops, Truncated Domes, Precast Grade Rings, Trash Receptacles, Welded Wire Fabric, Architectural

Project Scope:

Project Scope:

The work consists in general of constructing approximately 1.1 miles of a Class I bicycle facility, located between Civic Center Drive and Mar Vista Drive, in Vista, CA. The Class I bikeway is an 8-foot to 10-foot-wide multiuse bike path that is located mostly within the existing North County Transit District Right-of-Way, parallel to the railroad tracks. This bike path will connect to existing sidewalks or bike paths. Work will include grading, retaining walls, drainage improvements, cold milling asphalt concrete, crushed aggregate base, asphalt concrete paving, landscaping and irrigation, lighting, black chain link fence and gates, water quality swales, signing, and pavement delineation. The additive alternative work is for the CCTV system.

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Electrical, AC Cold Milling & Asphalt Cap Paving, Sawcutting, Trenchless Crossings, Striping, Welding, Install 14" – 36" Steel & HDPE Pipeline including Appurtenances, Furnish Welded Steel & HDPE Pipe, Furnish Sand & Gravel, Furnish Ready Mix Concrete, Furnish Asphalt, Traffic Control Signs & Equipment, Inspection Services (Compaction / Welding), Cathodic Protection, Trucking & Disposal, Environmental Exclusion Fencing, Survey, Geotechnical Instrumentation & Monitoring, Traffic Control Plans / Engineering, Equipment Rental, Shoring Equipment

NAICS Codes:

212321, 237110, 237310, 237990, 238190, 238210, 238910, 238990, 324121, 326122, 327320, 331110, 484110, 532490, 541330, 541370, 541380, 541990

M.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, WBE, SBE, SBRA, LSAF, and HUD quotes, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE, MBE, WBE, SBE, SBRA, LSAF, and HUD firms when a contract potion is too large to handle individually and to subcontract with DBE, MBE, WBE, SBE, SBRA, LSAF, and HUD firms whenever possible. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A Rasic's standard subcract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 2.0%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

CLEVELAND, OHIO SUB-BID REQUEST AD

Small Business Saturday Prep

Continued from page 1

Plan promotions: Ideas to consider include offering giveaways and discounts to your customers. For instance, you can offer buy one get one free sales on Small Business Saturday only. You can also offer free samples to customers after they make a purchase.

Partner with vendors or other local businesses: This allows you to promote one another's companies, especially any that are complementary and share the same types of customers.

Create branded Shop Small swag: You can give this to Small Business Saturday shoppers to show your appreciation and promote your products. Free samples of your products are an easy and quick option.

Generate buzz and spread news of your Small Business Saturday plans: You can start by posting to your social media accounts on what customers can expect from your business on Small Business Saturday. You should also mention any deals, discounts or promotions you'll have for Small Business Saturday. You can also create posters to hang up in your business that communicate giveaways or sales. Sending emails to your customer base is also a great way to get the news out about your Small Business Saturday plans.

Fun Fact: There are over 33 million small businesses in the United States. You can help promote yours by reading through the Small Business Administration's (SBA) social media guide for Small Business Saturday.

If You Have One Week's Prep Time

At this point, planning a larger event with Shop Small-branded swag may be out of the question, but that doesn't need to stop you from taking advantage of other opportunities. There's still plenty you can do like:

- Looking at your shipping rates: One way
 to motivate customers to shop on Small
 Business Saturday is to offer free shipping.
 Many businesses offer this benefit if customers spend over a certain amount.
- 2. Categorizing items on your website:

 Many Small Business Saturday shoppers are looking for holiday gifts. So, you can help guide their browsing by creating categories like "Gifts for Mom."
- 3. Building buzz ahead of time: Once you've decided how you'll make Small Business Saturday special for your business and its customers, you can build excitement ahead

of time by posting to social media and sending out emails.

Fun Fact: While Small Business Saturday traditionally has been great for getting consumers out and about in their local communities, it also can boost online and mobile sales for small businesses. In fact, the Adobe 2022 Holiday Shopping report found that 45% of holiday sales came from a mobile device.

If You Have One Day's Prep Time

At this point, focus on the essentials. If your operation includes a brick-and-mortar location, that means making sure that Small Business Saturday shoppers will notice your business and understand that it's part of the Shop Small movement.

Whether you're a brick-and-mortar shop or an online business, you also can nudge your social media followers with a friendly reminder about shopping small by:

- 1. Offering last-minute deals or promotions:
 You can easily entice shoppers to buy from your business with promotions. For instance, you can offer a flash sale that urges customers to buy items on Small Business Saturday.
- **2. Set up hand sanitizing stations:** You can help your customers shop safety this year by offering hand sanitizer.
- 3. Spreading the word of your participation in Small Business Saturday: You can post that your business is participating in Small Business Saturday with relevant local hashtags (such as #ShopSmall904, #ShopSmallDenver, etc.). You should also mention any sales or other promotions you plan to offer.

Fun Fact: Consumers look forward to Small Business Saturday promotions and giveaways both online and in-store. In fact, Mastercard's Spending Pulse Survey found that online sales increased 10.6% in 2022.

One last friendly tip: Now is a great time to put a reminder in your 2024 calendar to give yourself enough notice to comfortably get ready for next year's Small Business Saturday (which will be Saturday, November 30, 2024).

Good luck, and have fun! After all, Small Business Saturday has grown from simply supporting local businesses. It's now a celebration of your community. #ShopSmall!

J.F. Shea Construction, Inc.
BIDDING OPPORTUNITY
City of Cleveland with the following certifying authority:
NEORSD MBE/WBE/SBE and Ohio EPA WPCLF

Inviting qualified contractors, specifically firms within City of Cleveland, to contact J.F. Shea Construction, Inc. (Prime Contractor listed below) regarding subcontracting services and material supply opportunities in connection with the upcoming tunnel and shafts project.

The Work under this contract is in Village of Cuyahoga Heights, Village of Newburgh Heights and the City of Cleveland, Ohio, The Work consists of:

SOUTHERLY TUNNEL AND CONSOLIDATION (SOTC)
Owner: Northeast Ohio Regional Sewer District
3900 Euclid Ave., Cleveland, OH 44115
REVISED BID DATE: December 14, 2023 at 1:00 PM

667 Brea Canyon Road, Suite 30 • Walnut, CA 91789
Phone: 909-594-0990 • Fax: 909-869-0827
Send Inquiries/Certifications to Aimee Remo: aimee.remo@jfshea.com

Opportunities to participate exist in the following specific areas of soil excavation, hauling, excavation support systems, deep foundation system(slurry walls or secant piles, soldier beams), dewatering systems, structural steel, engineering, survey, geotechnical instrumentation and monitoring services, materials testing, demolition and site preparation, tree removal, aggregates and fill, traffic control, sewer tap and sewer bypass pumping, A/C paving, environmental investigation, utility relocation, paving, fencing and gates, planting and seeding, retaining wall, cured in-place concrete structures, cast-in-place pipe lining, reinforcing steel, ground stabilization, shotcrete, concrete finishing, miscellaneous metals, mechanical steel pipe, ventilation HVAC, precast concrete shaft covers, temporary office buildings/ services, Temporary electricians, waterproofing, service utilities, grouting, electrical/I&C, River bank stabilization, drilled shaft, pest control, IT services, waste disposal, cleaning services, and security.

Any business seeking to participate as an MBE, WBE, SBE, or Ohio EPA WPCLF MBE/WBE in the Contract that is not currently certified as set forth above review 40 CFR 33.204-33.205, certified by EPA Teree Henderson at 202-566-2222 or 13 C.F.R. Part 121 Northeast Ohio Regional Sewer District, Business Opportunity Program (BOP) or NEORSD/OCC at neorsd.org to obtain current certification.

J.F. Shea Construction, Inc. has an FTP site where you can view all plans, specifications and addendums for your convenience. Please contact Aimee Remo at (909) 594-0990, aimee.remo@jfshea.com, to receive instructions on accessing the FTP Site.

5 Examples of Circular Economy Solutions in the Construction Industry

[Article originally appeared in www.constructconnect.com]

By: Karen Lopez

Circular economy solutions aim at establishing a sustainable model of production and consumption by optimizing resources and reducing and recovering waste (giving it a second life as a new product). Thus, by adopting these solutions, businesses can extend product lifecycles, reuse waste, and ensure a more sustainable production model.

The construction domain is one of the largest users of energy and is responsible for 38% of emissions globally. Further, it is responsible for 30% of the extraction of natural resources in the world. Hence, to reduce its ecological footprint this industry must shift from a linear to a circular economy. This will not just protect the environment but also benefit the local economy by encouraging sustainable production models.

In this article, we will share instances showing how the construction realm is adopting various circular economy solutions.

1. Reuse of Local Excavated Earth to Make Eco-Friendly Building Material

As mentioned earlier, the construction domain is the most carbon and material intensive sector. This

industry is also one of the most polluting industries globally.

For instance, excavation sites are a common source of pollution and waste of resources. More often than not, the excavated earth and mining waste end up being transported and dumped in faraway places like mines, quarries, and artificial mountains.

Inefficient activities of digging, transporting, and dumping this waste contribute to superfluous transport, air pollution, and carbon emissions. However, several firms are reusing locally excavated earth as construction materials.

BC Materials is one such autonomous research center that collaborates with architects, construction firms, and transporters to recover and reclaim surplus mass. They are responsible for recycling this earth into construction materials like clay plasters, rammed earth, and compressed earth blocks. These are then sold directly to building companies and general and trade contractors.

California reduces payments for rooftop solar power for second time in a year

Continued from page 1

The five commissioners sat stone-faced during a barrage of criticism at the 90-minute public comment session that opened the meeting in El Centro. Some people let loose on commissioners regarding the solar proposal, calling them a disgrace, in the thrall of utility companies and saying they should be ashamed of themselves

One commenter from the Los Angeles Unified School District said if the new rules are adopted it would make it difficult for the district to meet its climate goals to operate on 100% renewable energy.

In a concession to months of lobbying from the solar industry and its allies, the commission opted to let multifamily housing residents directly consume the solar power they generate, rather than force them to sell it in bulk to utilities. Allowing this "self-consumption" boosts the financial value of a solar array by letting residents offset high retail rates.

It's a victory for rooftop solar advocates — but it only applies to residences so commercial, agricultural and school sites hoping for future solar savings are still out of luck.

Utilities, which have backed the regulatory re-do from the start and had spent months arguing against a self-consumption provision, nevertheless embraced the new rule as a compromise they're willing to live with.

"Generally positive" is how Gabriela Ornelas, a spokesperson for Southern California Edison, described it. She said the new rules ensure that the system "will benefit renters."

Rooftop solar advocates called the new rule an improvement over the previous proposal. But they aren't exactly applauding today's vote either.

"It's sort of a half loaf, or, more like a fraction of a loaf," Del Chiaro said. "It's still really messing with the economics of solar for multifamily housing."

The changes were made in what the commission calls "Virtual Net Energy Metering," or VNEM, and "Net Energy Metering Aggregation," or NEMA. Those rules set out how much utilities pay customers for the excess energy from solar installations they feed into the grid.

First houses, now apartments

Today's ruling is a regulatory sequel.

Rewind to the summer of 2022: Single family homeowners with solar panels were paid a fixed price for any home-made solar power. The prices they received were close to the retail rate for electricity.

Last winter, the Public Utilities Commission did away with that, replacing it with a flexible rate that amounted to a massive pay cut for solar-producing single family homeowners, trimming compensation by roughly 75%. The new rate applies only to new installations, not existing solar arrays. At the same time, the commission funded \$900 million in new incentive payments to single family home residents to help them purchase new systems.

For multi-unit apartments, schools and businesses, the new rate structure will apply immediately only to new solar customers. Building owners

that already have arrays on their roofs get a more gradual phase-in with a guaranteed 20 years under the old rules. For example, a customer that went solar five years ago won't have to switch over to the new rate system for another 15 years. Customers that have signed up since April of this year, many of whom are still waiting to be connected to the grid, get a shorter nine-year "legacy" period.

What 'self-consumption' means to ratepayers

The commission tasked itself with developing a policy for multiplexes, apartments and other multi-meter properties but ran into a problem: self-consumption.

Under the new pricing system for single-family households enacted in winter of 2022, homeowners can still use the solar electricity they generate, forgoing the high retail prices that utilities would otherwise charge them. That can add up to significant savings.

But when the commission put out an early proposal for the apartment rule, they didn't extend that same provision to apartment owners: Every electron produced by a building's solar array would have to be sold back to the grid at the new lower, variable prices. Electricity consumed by an apartment dweller would have to be purchased from the utility at retail prices. The commission argued, in part, that divvying up the value of solar across multiple accounts would be too complicated for utilities to administer, regulators to police and customers to understand.

But the rooftop solar industry saw it as an existential threat. No self-consumption meant a lower financial return from "going solar." Ivy Energy, a San Diego-based solar software company, warned that the policy, if enacted, would "result in a collapse of the multifamily solar market."

That prospect unleashed a lobbying blitz from rooftop solar trade groups. They were joined by other organizations interested in preserving higher compensation rates for apartment owners and their tenants. Building industry groups and landlords complained that while state regulations already require solar panels to top new buildings, this new rule would make those panels a money pit. Affordable housing developers and renter rights advocates joined in, warning that with the electrification of cars, stoves and heaters, solar savings were one of the few checks on skyrocketing electric bills for lower income renters.

The rules also caught the attention of farmers, school districts and commercial stripmall tenants, all of which tend to occupy multi-meter properties

This outcry drove the changes in the proposal to allow self-consumption for apartment dwellers.

Kiewit Infrastructure West Co 10704 Shoemaker Avenue, Santa Fe Springs, CA 90670 Telephone Number: 562-946-1816 • Fax Number: 562-946-3823 Lead Estimator Contact: Kevin Goodman | Email : kevin.goodman@kiewi

Owner: City of Los Angeles Department of Water and Power Project Name: Grant Lake Spillway Modification, IFB No. 7992 Revised Bid Date: December 14, 2023 at 2:00p.m.

Request for DBE, MBE, WBE, OBE sub-quotes

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from qualified, Disadvantaged Business Enterprises (DBE), including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Other Business Enterprise (OBE) firms; and all other business enterprises to perform as Subcontractors and Material Vendors/Suppliers. DBEs must be certified by one of the following agencies prior to bid opening: Minority Business Development Agency (MBDA), Small Business Administration (SBA), California Unified Certification Program (CUCP), California Public Utilities Commission (CPUC), Tribal, State and Local governments, or an independent certifying organization.

The **Grant Lake Spillway Modification** project includes work to construct, complete, the Grant Lake Spillway Modification, and the performance of other appurtenant work located in June Lake, California, approximately a five (5) hour drive from Los Angeles.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below

Land surveying/site photography, quality control, site security, aggregate, asbestos abatement, trucking and hauling, operate water trucks, demolition, shoring and underpinning, grading, plastic pipe (PVC), fencing, concrete reinforcing installatio concrete pumping, shotcrete, precast concrete, metals, metals doors and frames, painting and coating, and electrical work.

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of Building Connected system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office located at 10704 Shoemaker Avenue, Santa Fe Springs, CA 90670.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is union contractor signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers and teamsters. Kiewit will consider quotes from any and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, licensing, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact our Lead Estimator, Kevin Goodman.

Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law."
