

EPA Announces \$92 Million WIFIA Loan to Santa Clara Valley Water District

[Article originally appeared in
www.epa.gov]

The U.S. Environmental Protection Agency (EPA) announced a \$92 million Water Infrastructure Finance and Innovation Act (WIFIA) loan to the Santa Clara Valley Water District in California. EPA's loan will support planning and design work to increase long-term water storage capacity and strengthen drought resilience in the Santa Clara Valley. Earlier this year, EPA announced \$115 million in WIFIA financing to the District to bolster water infrastructure resiliency, including preparing for a seismic retrofit of Anderson Dam.

Since its creation, EPA's WIFIA program has announced \$19 billion in financing to support more than 110 projects that are strengthening drinking water, wastewater, and stormwater infrastructure while creating over 135,000 jobs.

"Climate stress is often experienced as water stress—especially in drought prone regions of the country. EPA is committed to helping the Santa Clara Valley Water District and communities across the country design and build climate-resilient water infrastructure," said EPA Assistant Administrator for Water Radhika Fox. "Through WIFIA and with \$50 billion for water infrastructure through the Bipartisan Infrastructure Law, EPA is investing in communities across the nation to meet their unique needs while advancing President Biden's Investing in America Agenda."

The WIFIA program offers planning and design loans to provide low-cost financing to support

project development activities so that borrowers can identify preferred options for complicated water infrastructure projects. By financing their planning activities with a WIFIA loan, Santa Clara Valley Water District will save approximately \$40 million and create approximately 600 jobs.

"We are incredibly grateful to receive another loan from the WIFIA program," said Valley Water Board Chair John L. Varela. "These loans reflect the commitment from federal lawmakers to invest in our nation's water infrastructure and allow Valley Water to finance major projects in a cost-efficient manner."

The Santa Clara Valley Water District's Pacheco Reservoir Expansion Planning and Design Project will assess options to address long-term water storage capacity concerns for customers. The district will utilize WIFIA financing to conduct planning, design, and environmental analyses. The District will also complete soil and geological analyses needed as part of their comprehensive planning and design process. Through this WIFIA financing, the District will evaluate alternatives and complete the planning and design for the complex Pacheco Reservoir Expansion project.

Learn more about EPA's WIFIA Program and water infrastructure investments under the Bipartisan Infrastructure Law.

Construction Employment Rises In 40 States & D.C. From October 2022 To October 2023, While 22 States Increased Headcount Last Month

[Article originally appeared in
www.agc.org]

Construction employment increased in 40 states and the District of Columbia in October from a year earlier, while 22 states added construction jobs from September to October, according to a new analysis of federal employment data released by the Associated General Contractors of America today. Association officials said more states would likely have added construction jobs if the pool of available, qualified workers were larger.

"The number of states with construction job gains has been tapering off in recent months," said Ken Simonson, the association's chief economist. "But contractors still report strong demand for workers, suggesting that the slowdown in hiring is due to a lack of qualified workers, not a weakened demand for projects."

Between October 2022 and October 2023, 40 states and D.C. added construction jobs, while industry employment declined in eight states and held steady in Connecticut and Virginia. California added the most construction employees over the year (21,000 jobs or 2.3 percent), followed by Ohio (17,700, 7.5 percent), Texas (17,000 jobs, 2.1 percent), Louisiana (12,900 jobs, 10.3 percent), and Kentucky (12,300 jobs, 14.9 percent). Kentucky had the largest percentage increase over 12 months, followed by Arkansas (13.3 percent, 7,700 jobs), Louisiana, Oregon (9.4 percent, 11,000 jobs), and Wyoming (9.1 percent, 1,900 jobs).

Colorado lost the most construction jobs during the past 12 months (-7,200 jobs, -3.9 percent), followed by Missouri (-4,400 jobs, -3.2 percent), North Carolina (-4,000 jobs, -1.6 percent), Washington (-2,600 jobs, -1.1 percent), and North Dakota (-2,300 jobs, -8.5 percent). North Dakota had the largest percentage loss, followed

by Colorado, Missouri, Hawaii (-1.6 percent, -600 jobs), and North Carolina.

For the month, construction employment increased in 22 states, declined in 26 states and D.C., and was unchanged in New Jersey and Vermont. Ohio added the most jobs over the month (6,000 jobs, 2.4 percent), followed by California (4,500 jobs, 0.5 percent), Florida (2,500 jobs, 0.4 percent), Indiana (2,500 jobs, 1.5 percent), and Kentucky (2,400 jobs, 2.6 percent). The largest percentage gain occurred in Kentucky, followed by Ohio, Indiana, and Idaho (1.3 percent, 900 jobs).

Tennessee lost the most construction jobs in October (-2,900 jobs, -1.9 percent), followed by Louisiana (-2,200 jobs, -1.6 percent) and North Carolina (-2,100 jobs, -1.6 percent). Rhode Island had the largest percentage loss (-4.5 percent, -1,000 jobs), followed by Tennessee, Mississippi (-1.9 percent, -2,900 jobs), and Louisiana.

Association officials noted that many member firms report applicants lack the qualifications needed to safely work in construction positions. And while many firms are boosting investments in worker training as a result, association officials called for improvements in the way most school districts prepare future workers. They also urged federal leaders to boost funding for construction education and training programs.

"The nation's education and training programs are failing to properly prepare workers who are employable for the sectors that are hiring," said Stephen E. Sandherr, the association's chief executive officer. "Fixing the way the nation prepares workers will go a long way to boosting economic activity in many parts of the country."

Project Name: Presidio Main Post Development Bid Request
Location: San Francisco, California
Bid Date: December 12, 2023 @ 10:00am
Pre-Bid Conference: Forthcoming
Labor Requirements: Federal Prevailing Wage

Nibbi Brothers has been selected as the General Contractor for the Presidio Main Post Development project in the Presidio, San Francisco. We are in receipt of the GMP Set and are currently requesting bid proposals from qualified subcontractors for DIV #01-33. Proposals are due no later than 10am on Tuesday, December 12, 2023 online via the Building Connected website.

The Presidio Trust and TEF Design plan to deliver the rehabilitation and adaptive reuse of Presidio buildings 2, 40 and 102 for education and multi-tenant office usage. Building 2 is a 3-level wood frame building located at 2 Funston Ave. Rehabilitation includes seismic strengthening, core and shell improvements, accessible path improvements, exterior improvements and partial interior improvement. Building 40 is a 2-level wood frame building located at 40 Moraga Ave. Rehabilitation includes seismic strengthening, core and shell improvements, accessible path improvements, exterior improvements and full tenant improvement interior build-out. Building 102 is a 4-level brick building located at 102 Montgomery St. Rehabilitation includes seismic strengthening, core and shell improvements, accessible path improvements, exterior improvements and core and shell buildout.

For any questions on accessing Building Connected, please contact Trevor Nibbi, Precon & Estimating Coordinator via email, tnibbi@nibbi.com For specific questions regarding this project, please contact Igor Bershteyn, Senior Estimator via email, IgorB@nibbi.com

REQUEST FOR Sub-Proposals from Certified DBE Firms
Project Name: Inland Rail Trail Phase 3B Bikeway
Solicitation No. SOL1224667
Owner: SANDAG
DBE Goal: 21%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors) : Electrical, Traffic Signal (Traffic Loop), Asphalt Paving/Dikes, Retaining Walls, Minor Concrete (Structures), Fencing, CMU, Light Weight Cellular Concrete, Clear & Grub/ Tree Removal, Landscape, Signage & Striping, Shotcrete, Reinforcing Steel, CCTV, Surveying, Quality Control, Tree Removal, Sawcutting, Modular Block Wall, Job Coordinator, Street Sweeping, Trucking

(Suppliers): RCP, Ready Mix Concrete, Aggregates, BMP Materials/ Erosion Control, Geogrid, Misc. Metals, CMU Blocks, Shoring, Signage, Catch Basins, Waterworks, Precast Wheel Stops, Truncated Domes, Precast Grade Rings, Trash Receptacles, Welded Wire Fabric, Architectural Liner, PVC

Project Scope:

The work consists in general of constructing approximately 1.1 miles of a Class I bicycle facility, located between Civic Center Drive and Mar Vista Drive, in Vista, CA. The Class I bikeway is an 8-foot to 10-foot-wide multiuse bike path that is located mostly within the existing North County Transit District Right-of-Way, parallel to the railroad tracks. This bike path will connect to existing sidewalks or bike paths. Work will include grading, retaining walls, drainage improvements, cold milling asphalt concrete, crushed aggregate base, asphalt concrete paving, landscaping and irrigation, lighting, black chain link fence and gates, water quality swales, signing, and pavement delineation. The additive alternative work is for the CCTV system.

EPA Announces \$92 Million WIFIA Loan to Santa Clara Valley Water District

Continued from page 1

and Innovation Act of 2014, the WIFIA program is a federal loan program administered by EPA. The WIFIA program's aim is to accelerate investment in the nation's water infrastructure by providing long-term, low-cost supplemental credit assistance for regionally and nationally significant projects. The WIFIA program has an active pipeline of pending applications for proj-

ects that will result in billions of dollars in water infrastructure investment and thousands of jobs.

EPA recently made the 7th round of WIFIA financing available and is currently accepting letters of interest for WIFIA and SWIFIA loans. \$6.5 billion is available through WIFIA, and \$1 billion is available through SWIFIA, which is a loan program exclusively for State infrastructure financing authority borrowers. EPA is currently

accepting letters of interest for WIFIA and SWIFIA loans. Learn more about submitting a letter of interest for a WIFIA loan.

In addition to WIFIA loans, there are many federal funding resources available for communities and utilities to improve vital water and wastewater resources. President Biden's Bipartisan Infrastructure Law is a once-in-a-generation investment in our nation's infrastructure and com-

petitiveness. The Bipartisan Infrastructure Law provides a historic \$50 billion investment in upgrading critical water, wastewater, and stormwater infrastructure.
