

2025 Construction Industry Takeaways to Make Smart Decisions in 2026

[Article originally appeared in www.constructconnect.com]

By Maila Kim

In short:

- The construction industry in 2025 experienced slower overall growth, but high-potential opportunities emerged in sectors like manufacturing, data centers, sports and convention centers, and airports.
- Mega projects (over \$1 billion) surged, now representing a significant share of nonresidential construction starts and offering major growth pathways for firms.
- Persistent challenges—including rising labor costs, a shrinking workforce, and increased material prices—require businesses to focus on cost control and strategic resource allocation.
- To succeed in 2026, construction companies should target growth in expanding sectors and leverage industry data and resources to make informed, competitive decisions.

California continues to lead the nation in fusion energy, investing in technology of the future

[Article originally appeared in <https://business.ca.gov>]

Home to breakthrough technologies and world-class research institutions, California is the nation's fusion energy research and development leader and will help continue to lead the country in advancing new and promising clean energy technologies. Recent state funding and legislation, coupled with a recently released fusion technology report from the San Diego Regional Economic Development Corporation (EDC), reinforce California's dominance in this critical and emerging technology.

"California's fusion ecosystem can revolutionize the clean energy sector through deep collaboration between our universities, national laboratories, industry partners and state leaders. By advancing breakthrough technologies and fostering an industry-leading workforce, we are shaping the future of clean energy and demonstrating once again that California leads the world in innovation."

— Governor Gavin Newsom

California's fusion energy sector, a "bet" sector under the California Jobs First Economic Blueprint, represents a transformative economic opportunity for the state.

The new study, authored by the San Diego Regional EDC, finds that California is home to more than one-third of all U.S.-based fusion companies and has attracted over \$2.2 billion in cumulative public and private investment since tracking began in 2021. It also noted that the industry has the potential to grow to between \$48 billion and \$125 billion in economic impact, depending on scientific advancements and successful project commercializations.

Last month marked a major milestone for the fusion energy ecosystem with the first state-wide convening on the topic, hosted by General Atomics, Lawrence Livermore National Laboratory, and the University of California San Diego in collaboration with the University of California's Office of the President, the California Energy Commission, and the California Governor's Office of Business and Economic Development (GO-Biz). The convening provided an in-depth overview of California's emerging fusion energy landscape, highlighting recently signed legislation supporting the sector, state programs and resources, and regional hubs advancing fusion energy innovation, and also spotlighted the

University of California's announcement of \$8 million in grants awarded to UC laboratories to accelerate fusion research.

Expanding fusion innovation through state investment

In November, the Governor signed Senate Bill 80, authored by Senator Anna Caballero (D-Merced), to accelerate research and development of fusion energy in California. SB 80 created the Fusion Research and Development Innovation Initiative, which includes \$5 million to advance fusion research and development. This investment will help accelerate new technology capabilities that support project commercialization and continue California's dominance in developing and deploying novel clean energy technologies.

Leading the fusion energy ecosystem

The fusion energy sector currently supports approximately 4,700 jobs across California, generating \$1.4 billion in annual economic output. The state is home to both of the nation's premier fusion research centers: the DIII-D National Fu-

sion Facility in San Diego, the United States' largest magnetic-confinement (tokamak) user facility, and the Lawrence Livermore National Laboratory, the world's most energetic laser for inertial-confinement fusion, where researchers achieved the first laboratory fusion ignition in December 2022, marking a critical step in fusion viability. Both facilities support a vibrant startup environment.

Advancing California's clean energy future

California was powered by two-thirds clean energy in 2023, making it the largest economy in the world to achieve this level of clean energy. The state has also run on 100% clean electricity for some part of the day almost every day this year.

Fusion, the same energy that powers the sun, has the promise of providing a safe, carbon-free, and

virtually limitless source of electricity. As the technology advances, fusion has the potential to complement California's existing clean energy leadership, to play a role in helping California achieve its ambitious climate goals, to enhance U.S. energy security, and to expand global access to clean energy.

California's economic strength

California is not only a national economic powerhouse – it is driving the future. The state is one of the world's largest economies, feeds the country and leads the nation in new business starts, venture capital investment, manufacturing, and agriculture. With an increasing population and record-high tourism spending, California's economy continues to grow across key regions and sectors – proving that innovation and inclusion go hand in hand.

2025 Construction Industry Takeaways to Make Smart Decisions in 2026

Continued from page 1

Success in the construction industry isn't just about hard work. It's about making that hard work count. This means combining your effort with a smart strategy. Chief Economist, Michael Guckes, shared critical insights during the Bid Like a Boss: Strategies to Power Your 2026 Business webinar to help you do just that. He explored the economic landscape, highlighted specific construction trends, and offered a framework for next steps.

We'll unpack the biggest takeaways from 2025 that are key to setting your business up for success in 2026. Use these takeaways as your roadmap for growth and resilience in the new year.

What is the Economic Outlook for Construction in 2026?

To make 2026 your best year yet, you have to understand the broader economic environment. After two years of nearly 3% growth, the U.S. economy is expected to slow. While this is not a recession, it signals a shift away from the rapid expansion we've seen in previous years.

Several factors contribute to this slowdown:

- **Slowing Population Growth:** A long-term trend of slower population growth directly impacts consumption and, consequently, economic expansion.

- **Stable Interest Rates:** The era of historically low interest rates appears to be over. We anticipate rates will hold more or less steady, meaning the cost of financing projects will remain a significant consideration for the foreseeable future.

For contractors, this moderate economic environment means that opportunities for growth will be more targeted. The most successful construction businesses will focus on identifying and pursuing projects in sectors and markets with the greatest potential. Targeted growth, rather than broad expansion, will be key to making the most of the opportunities that 2026 has to offer.

Where is the Growth Happening in the Construction Industry?

While total construction starts were up modestly last year, the underlying story is a landscape of sharp contrasts between expanding and shrinking segments. Understanding where the opportunities lie is the first step toward smart, strategic growth in 2026.

High-Growth Sectors

Our data tracks 33 different subcategories, and a clear pattern has emerged: about half are growing while the other half are contracting. This divergence underscores the importance of focusing your sales and marketing efforts where momentum is the strongest. By directing re-

sources toward expanding segments and avoiding shrinking sectors, you'll maximize returns on your efforts and position your business for greater success in the new year.

The strongest growth is happening in:

- Data Centers
- Manufacturing
- Sports & Conventions Centers
- Airports

Categories like power infrastructure, hotels, and certain medical facilities are experiencing a contraction. The key is to align your business strategy with the market's momentum.

The Rise of Mega Projects Continues

One of the most powerful trends shaping the industry is the surge in mega projects—those valued at over one billion dollars. In 2025, mega project spending rose by 47%, accounting for one in every five nonresidential start dollars. This is a big increase from 2022, when it was one in every ten.

These mega projects are not evenly distributed. They are heavily concentrated in industrial, civil, and commercial construction. As you move into 2026, engaging with the momentum of mega projects can open substantial growth pathways for your business.

How Can Construction Firms Control Costs in 2026?

2025 trends make it clear that controlling costs is essential for achieving profitability in 2026. Understanding market conditions is only part of the equation. Your ability to actively manage costs—especially with ongoing pressures in labor and materials—will determine your competitive edge and financial outcomes in the year ahead. Two primary factors are creating major cost pressures for construction firms today: labor and materials.

The Labor Challenge is Here to Stay

The upward trajectory of wages seen in 2025—with year-over-year growth holding steady above 4%—will continue to shape the construction industry in 2026. This is driven by a shrinking labor pool and increased competition for skilled workers. The situation is particularly acute in construction, which is more sensitive to the availability of foreign-born workers than any other industry. According to recent U.S. Census data, nearly 34% of all construction workers are foreign born. Surveys also show that roughly half of these workers are classified as “unauthorized.” That puts as much as 20% of the entire construction workforce at risk if policies change.

CALIFORNIA SUB-BID REQUEST ADS

Glosage Engineering Inc.

GENERAL ENGINEERING CONTRACTOR

Glosage Engineering Inc.
590 S 33rd St. Richmond, CA 94804

DBE Subcontractor Requested for:

Oro Loma Sanitary District - Sewer Collection System Pipeline Rehabilitation and Replacement Project Phase 9

BID DATE: on 01/13/2026 at 2:00 p.m.

Email quotes to guzmanrcrp@outlook.com or frontdesk@glosage.com

General Project Description:

Phase 9: The project work is generally described as: the replacement of 16,014 linear feet of 6 and 8-inch vitrified clay pipe (VCP) with 8-inch high density polyethylene pipe (HDPE); 1,384 linear feet of 8-inch VCP with 10-inch HDPE pipe; and the reconnection of all laterals and re-channelization of all manholes, as shown on the plans and specifications.

Glosage Engineering, Inc. is seeking Certified DBE suppliers. If interested, please email Luis Guzman at guzmanrcrp@outlook.com

You may contact Luis Guzman at 510-815-4505 or guzmanrcrp@outlook.com or frontdesk@glosage.com to get on our subcontractor list. Should you require assistance with the bid or have any questions please feel free to reach out.

CEC – Shimmick Joint Venture
An Equal Opportunity Employer
20 Happy Valley Road • Pleasanton, CA 94566

CMD certified San Francisco Micro, Small-LBE and Disadvantaged Business Enterprises (DBEs),
and Non-DBE Subcontractor/Supplier/Service Providers Bids Requested For:

San Francisco Public Utilities Commission
Folsom Area Stormwater Improvements – Harrison/Treat Box Sewers and Connecting Auxiliary Sewers
Contract No. WW-719CR

BID DATE: Thursday, January 22nd, 2026 at 2pm

QUOTES DUE DATE: Tuesday, January 20th, 2026 at 5pm

LBE Requirement: 20%

Total Project Value: \$160M

Email quotes to jmiranda@shimmick.com

Bid Items: CEC – Shimmick Joint Venture is requesting quotes from certified LBE and DBE subcontractors and suppliers in the following scopes of work, including, but not limited to, the following. Non-DBE/LBE firms are encouraged to bring 2nd tier certified LBE and DBE participation. Please reach out to the lead estimator listed below for more details on scopes needed:

Excavation; Shoring; Soldier Piles; Dewatering; Trucking; Ready-Mix Concrete; Rebar; Dowel Drilling; Waterstop; Formwork; Concrete Pumping; Sewer & Storm Pipeline; Manholes; EFWS Work (Welding, Valve/Hydrant); Dry Utilities; Paving; Sidewalks; Striping; Demolition; Traffic Control; Decking; Sawcutting; Coring; Steel Fabrication; Sluice Gates; Erosion Control; Survey; Soils Testing; Instrumentation; BIM Modeling; Hauling and Disposal; Overhead Catenary System Foundations, Poles & Cable Work; Electrical Sign; Fencing; Backhoe Service; Sanitation Systems; Well Drilling; Hazardous Materials Contractor; Tree Service; Scaffolding Contractor; Pipe Supply; Site Security; Vibration Monitoring; SWPPP; Quality Control; Material Testing; Water Trucking; Street Sweeping; Flatwork; CLSM; Aggregate; Select Fill Material; Landscaping; Potholing; Tie-Down Anchors.

All items of work listed above are made available, even items of work normally performed by CEC – Shimmick Joint Venture. Please contact the lead estimator for assistance with breaking down items of work into economically feasible units, assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or any additional assistance. CEC – Shimmick Joint Venture's listing of a Subcontractor is not to be construed as an acceptance of all the Subcontractor's conditions or exceptions included with the Subcontractor's price quote.

Plans and Specifications: Plans and specifications are available via SFPUC's website <https://webapps.sfpuc.org/bids/bid-Detail.aspx?bidid=4560>. You may contact Jamie Miranda for a download link at jmiranda@shimmick.com.

The Bid Documents are also available for inspection at SFPUC Contractors Assistance Center.

Please visit <https://sfpuc.org/construction-contracts/contractor-assistance/contractors-assistance-center> for additional information.

Shimmick Contacts: Should you require assistance with your bid, please contact our lead estimator Craig Orr at corr@shimmick.com.

Additional Information: 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. For assistance with bonding, insurance or lines of credit contact Todd Yoder at todd.yoder@shimmick.com.

Bidders are alerted to the City's surety bond program, which assists LBE contractors in obtaining bonding and financing for contracts awarded by the SFPUC. For further information regarding enrollment eligibility and program services contact Jennifer Elmore at (415) 217-6578.

This advertisement is part of a good faith effort for DBE firms. All subcontractors must possess a current contractor's license and Public Works Registration number (DIR).

W.A. RASIC CONSTRUCTION
GENERAL ENGINEERING CONTRACTOR

W.A. Rasic Construction is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), Women Business Enterprise (WBE) and Other Business Enterprise (OBE).

Los Angeles Department of Water & Power
Western Trunk Line – Phase 2A
Bid No. 8070

Revised Bid Date: December 30, 2025 @ 2:00 PM

Outreach: DBE/ MBE/WBE/OBE

Senior Estimator: Ben Sebat (562) 928-6111

Email: bsebat@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Asphalt Cold Milling & Cap Paving, Traffic Signals, Sawcutting, Striping, Welding, Furnish Welded Steel Pipe, Furnish Earthquake Resistant Ductile Iron Pipe, Waterworks Supply, Furnish Aggregate Supply, Furnish Ready Mix Supply, Furnish Fiber Optic Conduit & Pull Box Supply, Cathodic Protection, Trucking & Disposal, Welding Inspection, Survey, Cathodic Protection, Shoring, Equipment Rental

NAICS Codes:

212321, 237310, 238190, 238210, 238990, 327320, 331210, 332996, 484110, 532412, 541370, 541690

Plans & Specifications are available to review Monday through Friday 8:00 am to 5:00 pm at no cost at our office located at 4150 Long Beach Blvd, Long Beach, Ca 90807.

W.A. Rasic intends to seriously negotiate with qualified firms and will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider all DBE, MBE, WBE and OBE quotes, including those that are broken down into economically feasible tasks or quantities as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE / OBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractor's bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

Andes Construction, Inc.

Request for DBE Subcontractors and Suppliers for:
The OLSD Sewer Collection System Pipeline
Rehabilitation and Replacement Project Phase 9
Job No. 45-146.09

BID DATE: JANUARY 13TH, 2026 @ 2:00PM

We are soliciting quotes from all qualified and/or Certified Disadvantage Business Enterprise including MBE, WBE to provide bids/quotes for the following (including but not limited to):

Trucking, Traffic Control Services, SWPPP, Sweeping, Saw Cutting, Paving, Striping, etc., as well as sewer material suppliers such as HDPE, CIPP, Manholes.

Plans and Specs available via email
at no cost to interested firms.

Subcontractors and suppliers are encouraged to submit
bid proposals to Projects@andesconst.com
by January 7th, 2026.

K.J. Woods Construction, Inc.

PO Box 947
South San Francisco, CA 94083
Kieran Woods (415) 759-0506

is seeking qualified DBEs, MBEs, WBEs, DVBEs, SBEs

Project Name:
Sewer Collection System Pipeline Rehabilitation
and Replacement Project Phase 9

Bid/Contract #: Job No. 45-146.09

Awarding Agency: Oro Loma Sanitary District

Project Location: San Lorenzo, Alameda County, CA

Bid Date: 01/13/2026 at 02:00 PM

Project Details

Seeking Subs for Traffic Control, Excavation, Paving, Grinding, Shoring, Install Concrete Flatwork, Saw Cutting, Manholes, Sewer By-Pass, TV Inspection & Pipe Busting, and Trucking.

Payment and performance bonds may be required.
Subs are encouraged to contact office@kjwoods.com
to obtain plans/specs at no cost.

PIONEER CONTRACTORS INC.

Request bids from all qualified DVBE, SBE, and LBE subcontractors and suppliers for the following project.

Project: Alamo Elementary School Roofing Project

250 23rd Ave, San Francisco San Francisco CA 94121

SFUSD PROJECT NO. 11961

Owner: SAN FRANCISCO UNIFIED SCHOOL DISTRICT

Bid Due: January 8, 2026 @ 2:00 pm

Email Bids or Inquiries To: Art Alicante or Joe Regalado

Arta@pioneercontractors.com - estimating@pioneercontractors.com

Office Phone: 415-671-1070

Project Description: Roof Replacement

Trades required: DVBE and Hazmat Abatement

Owner: City of Santa Barbara
Project Name: Cater Reservoir Resiliency Project – Bid No. 5106
Location: Santa Barbara, CA
Bid Date: January 22, 2026 @ 3:00pm PST

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE) firms, including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firm (LSAF), Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBES must be certified by one of the following agencies prior to bid opening: The US Environmental Protection Agency (USEPA), The Small Business Administration (SBA), California Department of Transportation (CalTrans), Tribal, State and Local governments, or an independent private certifying organization.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below.

Dumpster and trash services, aggregates, soils trucking and hauling, ductile iron pipe, plastic pipe, pre-cast manhole materials, asphalt paving, curb and gutter flatwork, chain link fencing, temporary fencing, landscaping contractors, ready mix supply, concrete reinforcing supply and installation, concrete saw cutting, misc. metals, C-200 field pipe welding services, C-200 steel pipe, painting and coating, concrete tank disinfection, heating, ventilating and air conditioning and electrical work.

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of BuildingConnected system (at no cost to bidder) with project information and bid instructions. Plans and specifications will also be available for review at the address listed below if requested.

This project is funded by the Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF) programs and is therefore subject to the requirements for American Iron and Steel, the DBE Program requirements, and the California Davis-Bacon Labor Code.

Responsive bidders must possess a valid California Contractor's license (as appropriate), be registered with the Department of Industrial Relations (DIR) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work are required to be signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. In addition, this project has a Project Labor Agreement (PLA). Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all project participants on this project. For further information regarding this project, licensing, insurance or bonding, equipment, supplies, materials, or related assistance or services or project schedule, please contact the Lead Estimator listed below.

Project: Conn Creek Water Line Project
Project No. 25-5564
Owner: City of Calistoga
Bid Date: January 7th 2026 @ 2:00 P.M.
Engineers Estimate: \$1,800,000

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
AGGREGATES, ASPHALT, CONCRET EMATERAILS, PIPE SUUPLIERS, EROS MATERIALS, ANALYTICAL TESTING, CATHODIC PROTECTION, ENVIRONMENTAL SERVICES, EROSION CONTROL, SAWCUTTING, STRIPING, SURVEYING, SWPP PLAN ONLY, TREE REMOVAL/ ARBORIST, TRUCKING

Project Description:
 This project is an upgrade to a segment of the existing North Bay Aqueduct pipeline that parallels the Silverado Trail and crosses the Conn Creek floodway to provide water to the City of Calistoga. The existing 12" pipeline under the streambed has been exposed to heavy scour and erosion and a concrete cap was placed over the pipeline during an emergency repair. The main purpose of the project is to remove the concrete cap and existing pipeline from the creek, so it won't impede fish passage. The new pipeline will be mounted on the Caltrans bridge which was recently reconstructed, and inserts were installed to support the new pipeline.

Project information, including plans & specifications can be found by contacting:
estimating@mountaincascade.com

Please feel free to contact Mountain Cascade, Inc. at 925.373.8370 with any questions concerning bonding, insurance, lines of credit, and job overview. We look forward to your response.
