

Here's what you need to know about California's new pay transparency law

[Article originally appeared in www.calmatters.org]

By Grace Gedy, CalMatters

In less than two weeks, job seekers in California will finally know how much a job pays when they apply for it — if companies don't figure out a way around a new law.

Starting on Jan. 1, employers with at least 15 workers will have to include pay ranges in job postings. Employees will also be able to ask for the pay range for their own position, and larger companies will have to provide more detailed pay data to California's Civil Rights Department than previously required.

California isn't the first state to force businesses to put their cards on the table. Colorado took that step in 2019, and a similar requirement went into effect in New York City in November. Washington state has its own version that will also kick in on Jan. 1, and a similar statewide bill in New York was just signed by the governor.

The goal of the California law is to reduce gender and racial pay gaps. But New York City's measure had a bumpy start, with some employers posting unhelpfully wide ranges the first day the law was in place. When Colorado rolled out its law at the beginning of 2021, some companies posted remote jobs that they said could be

California has gender pay gaps across industries

Source: California Department of Fair Employment and Housing

done from anywhere in the U.S. — except Colorado — dodging the requirement. That wasn't widespread; about 1% of remote job listings included a Colorado carveout, according to reporting in The Atlantic.

But since California has nearly 7 times as many people as Colorado, according to U.S. Census

data, excluding Californians in a remote job listing would come at a higher cost.

“California's just such a huge economic center,” said Lisa Wallace, co-founder of Assemble, a compensation management platform. “There just aren't that many industries that are not going to be touched by this.”

What's the pay range?

Here's what California job seekers can expect to see more frequently come January: \$44 an hour to be a plumber in Berkeley; \$18.38-\$28.51 an hour for an assistant teacher job in Los Angeles;

2022 U.S. road conditions by state

[Article originally appeared in www.consumeraffairs.com]

By Cassidy McCants

States with the best roads

The states with the best roads frequently perform maintenance on their streets and have significant infrastructure budgets, as well as residents with good things to say about the roads they drive on each day.

1. New Hampshire
2. Minnesota

3. Vermont
4. Alabama
5. Idaho
6. Kansas
7. Florida
8. Georgia
9. Nevada
10. Indiana

1. New Hampshire

Only about 3% of rural roads and 8% of urban roads in New Hampshire are considered poor, according to the International Roughness Index.

Over the last two decades, road travel in the Granite State has increased by 15% — this increase is probably at least partially driven by the state's 10% population increase over the same period. Recently, a project to widen NH-101 to five lanes between NH-114 and Wallace Road was completed.

A respondent from Portsmouth gave the state's roads a 6 out of 10 and wrote, “Most roads are OK,” noting that there are “a few roads that need work.” Not the highest praise, but comparatively, it's pretty good.

2. Minnesota

Is the Land of 10,000 Lakes as friendly to motorists as it is to aquatic creatures and canoeists? According to recent data from the Tax Policy Center, Minnesota spends \$952 per capita on its highways (the U.S. average is \$616) per year. Its International Roughness Index for urban roads is the lowest in the country, coming in at just under 5%.

In 2020, Minneapolis topped Redfin's list of most bikeable cities. This could indicate better road conditions, but not necessarily — one of our survey respondents did complain that the city has “put in walking and biking lanes when more lanes are needed for driving.”

3. Vermont

Since 1982, the Vermont Local Roads Program, with financial backing from the Vermont Agency of Transportation and the Federal Highway Administration, has provided seminars, workshops and training throughout the state to fulfill its mission of fostering “a safe, efficient, and environmentally sound surface transportation system by improving the skills and knowledge of the municipal transportation workforce and decision makers.” And it seems to be paying off.

Vermont's per-capita highway expenditure is \$1,082 annually, nearly doubling New England's average highway funding per capita (\$584). Only about 9% of the Green Mountain State's urban roads and 4% of its rural roads are in poor condition, according to the IRI.

ACCESS TO CAPITAL - READY TO GROW YOUR BUSINESS?

SBA Announces Historic Support for Small Businesses in Northern California

Acting District Director George Flores of the San Francisco District Office announced that the US Small Business Administration reached \$1.1 billion in funding to small businesses in Northern California, providing 1,272 traditional loans through its 7(a), 504, and Microloan lending partners for Fiscal Year (FY) 2022.

“SBA loans continue to be a key source of capital for small businesses across Northern California,” said George Flores, Acting Director of the SBA’s San Francisco District Office. “I’m especially encouraged by this year’s historic level of SBA 504 lending,” said Flores. “This region’s small businesses are continuing to bet big on growth, job creation, and the future.”

Despite ongoing, structural challenges that exist for small business owners when seeking capital, the SBA’s efforts in helping them pursue their American dream showed signs of progress.

Notably, the SBA’s low-interest 504 loan program grew in volume to \$472 million in Northern California, a record level of lending for the 504 program.

In addition, the 7(a) program saw an increase in small-dollar loans, evidence of the SBA’s prioritization of startups and businesses hampered by gaps in credit markets.

By the Numbers

The SBA continues to innovate and retool its programs, while deepening outreach efforts to better reach business owners across the nation.

FY22 regular business lending programs data of note includes:

- \$644 million in 7(a) loans: Returning to pre-pandemic levels, 861 7(a) loans worth \$644 million were provided to small businesses.
- \$472 million in 504 loans: Working with authorized Certified Development Compa-

nies (CDCs), the SBA’s 504 program delivered 380 fixed-rate loans for equipment and real estate worth more than \$472 million to small businesses, the highest lending level in the program’s history.

- \$683,997 in microloan funding: \$683,997 in Microloan funding went to 31 small businesses.

Disaster business lending in Northern California resulting from the pandemic has included:

- \$27 billion in PPP loans: Over 270 thousand businesses received forgivable loans through participating lenders.
- \$12 billion in COVID EIDL loans: Over 108 thousand businesses experiencing revenue loss received low-interest loans directly from the SBA.
- \$615 million in COVID EIDL Advances: Over 151 thousand businesses received

funds up to \$10,000 per business which did not need to be repaid.

In the whole state of California businesses were also helped by the Shuttered Venue Operator Grants (SVOG) and Restaurant Revitalization Fund (RRF):

- \$2.4 billion in SVOG: Nearly 2,000 venues affected by COVID-19 received these grants statewide.
- \$5.7 billion in RRF: Nearly 16,000 restaurants, bars and other food service businesses were helped with this funding in the state of California.

For more information about SBA’s loan programs, financial assistance, and other services, visit www.sba.gov.

TECHNOLOGY EQUALITY

Advancing Women in Technology the OCIO Way

[Article originally appeared in <https://blog.dol.gov>]

By Wendy Manning

The Office of the Chief Information Officer within the Department of Labor is an information technology--based organization seeking to promote excellence and equality in technology by incorporating the unique perspectives, skills and voices of women in leadership roles. We seek to help close the gender gap within tech career paths. For example, in FY20, 43% of our new hires were women. In addition, OCIO now exceeds our private-sector counterparts by hiring and promoting an average of 10% more women to leadership roles.

We seek to advance representation among women in the tech field and ensure that their career opportunities are equitable, sustainable and desirable. The women employed within OCIO are

an integral part of our team, and we could not achieve our vision of excellence without their expertise and the knowledge they share each day.

In honor of the women of OCIO and their contributions to the Department of Labor’s mission, we asked some of the impressive women leading OCIO into the future to share their thoughts on women in tech:

Julie DeNiro, chief of enterprise architecture: “Technology has been something that I’ve always enjoyed and loved. I have come up the ranks from being hands-on with system administration to program management, then to portfolio management. Everything along the way has just kept me engaged.”

Anne Klieve, data project lead within OCIO’s Data Analytics Center of Excellence: “Women in leadership roles have inspired me because I see myself in them, and I am grateful to have

them as examples. It’s really empowering to work in a department like DOL where we have a number of senior leadership positions filled by women. I seek to one day become them, and I see examples that I can use as templates as I think about the type of leader I want to be. That has been powerful.”

Kris Mena, branch chief for relationship management: “I think as a woman coming into a male-dominated field you have to decide how you’re going to present yourself. You could try to be one of the guys. You can come in and try to adopt a male perspective on how to talk to people or lead projects, but what works best is just being who you are. Fortunately, I’m older now, so I have a pretty good idea of what I’m capable of, what my skill sets are. So, when I come into a new team, whether it’s all men, or a mix of men and women, I’m coming into it knowing who I am and what I bring to that team.”

Sharon Kelsner, director, security authorization management: “I would tell any young woman to go where their passion lies. If it is in the technology field, don’t let that ever-changing, fast-paced nature scare you. Instead, let that be a motivator. There is so much to do and so many areas to learn in IT.”

The women of OCIO personify both the history and future of technology. Their stories show the progress that has been made and the work that must still be done. Technology, like any other industry, advances when more perspectives, backgrounds and experiences are brought to the table. At OCIO, we ensure the opportunities we offer are accessible to all. Technology is open to everyone, and we invite you to join us.

Here's what you need to know about California's new pay transparency law

Continued from page 1

\$74,600 – \$141,000 per year for a future compensation analyst in Davis. If companies aren't adding ranges, people can sue or file a complaint with the Labor Commissioner's Office, which can issue a penalty of \$100 to \$10,000 per violation. Companies that don't have pay ranges in job postings won't get penalized for their first violation, so long as they add the information.

In addition to preparing to post pay ranges in job listings, companies that don't already have pay bands for current employees should put them in place, and they should make sure that there aren't pay disparities based on race, sex, or other protected classes between employees doing substantially similar work, said Jacklin Rad, a lawyer who advises employers on California workplace laws at Jackson Lewis, a law firm.

Businesses are about to have their pay scrutinized by job candidates and employees, said Wallace, the compensation platform company co-founder. "You better make sure that you have a really strong answer for why an employee is paid less," than the posted range for a similar-

looking job, she said. The new California law is uncovering that a lot of organizations have been operating without pay bands, Wallace said. Many of the company's earliest customers were tech and biotech businesses, Wallace said, but since the bill was signed into law she's seen increased interest from other sectors, including manufacturing and utilities.

One question that arose immediately when New York City's law went into effect was how wide can a pay range be without violating the law? Some postings included ranges where the high end was about \$100,000 more than the low end.

California's law explains the required payscale as "the salary or hourly wage range that the employer reasonably expects to pay for the position."

"It's really ambiguous," said Rad, the lawyer. "A lot of attorneys that work in this sphere ask themselves: 'You know, if the range is too wide, then does that defeat the purpose of pay transparency?'"

CalMatters reached out to the Labor Commissioner's office, which is charged with enforcing

the payscale component of the law. The office didn't make anyone available to be interviewed, and did not respond to a detailed list of questions about how the law will be interpreted.

California government agencies include pay scales in job postings, and some of the ranges are large. The Civil Rights Department, for example, recently had a posting for an "Assistant Deputy Director, Workforce Data Officer" with a listed pay range of \$7,976 – \$19,321 per month, which translates to about \$96,000 – \$232,000 per year. Another posting, for a Deputy Chief Counsel at the Civil Rights Department had a similar range.

Pay ranges are set by the state's human resources agency, CalHR, and are influenced by bargaining with unions, said Adam Romero, deputy director of executive programs at California's Civil Rights Department. Those two positions are "very senior," and most roles don't have pay ranges that wide, Romero said.

Reporting pay data

The second major component of the new law is that businesses with 100 or more employees

will have to start reporting more detailed data on what they pay workers to the state.

It builds on a 2020 law that required companies to submit reports to the state's Civil Rights Department breaking down how many employees they have in each job category and pay band by sex, race, and ethnicity. The goal was to enable state agencies to more identify wage disparities more efficiently, and to prompt companies to assess their own pay.

The reports are used "in individual investigations of complaints of pay discrimination or other types of complaints of civil rights violations against employers," said Romero at the Civil Rights Department. The data on its own doesn't prove there's been a violation of the law, but it provides context, said Romero. The Civil Rights Department cited the pay data, for example, when it sued Tesla for race discrimination and harassment in February.

 Location: 14950 Telephone Ave, Chino, CA 91708
 Bid Date: **January 10, 2023 @ 2:00pm PST**

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE) firms, including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firm (LSAF), Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBES must be certified by one of the following agencies prior to bid opening: The US Environmental Protection Agency (USEPA), The Small Business Administration (SBA), California Department of Transportation (CalTrans), Tribal, State and Local governments, or an independent private certifying organization.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below.

Aggregate – demolition – plastic pipe (PVC) – asphalt paving – fencing – ready mix supplies – concrete forms and accessories – rebar – metals – stainless steel pipe – painting and coating – equipment – water supply and treatment equipment – hydraulic gates and valves – bolts and gaskets – hangers and support – valves – HVAC and electrical work

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of SmartBid system (at no cost to bidder) with project information and bid instructions. Plans and specifications will also be available for review at the address listed below if requested.

This project is funded in part by the Environmental Protection Agency (EPA), Water Infrastructure Finance and Innovation Act (WIFIA) funding and is subject but not limited to the American Iron and Steel (AIS) requirements, the DBE Program requirements, and the California Davis-Bacon Labor Code.

Responsive bidders must possess a valid California Contractor's license (as appropriate), be registered with the Department of Industrial Relations (DIR) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, licensing, insurance or bonding, equipment, supplies, materials, or related assistance or services or project schedule, please contact the Lead Estimator listed above.

"Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law."

SKANSKA

Subcontractor/Supplier Bids/Proposals Requested
 San Bernardino Valley Municipal Water District
 SPEC 22-02
 Proposal Due Date **February 7, 2023-10:00 AM**

Skanska is interested in soliciting in Good Faith with all DBE Subcontractors and Suppliers for the following project:

Enhanced Recharge In The Santa Ana River Basins-Phase 1B Highland, CA

Plans and Specifications are available through registering on our plan site at:
<https://app.buildingconnected.com/public/59b1c0096ab4570007e09292>

Requested scopes include, but are **not limited** to the following and should be based on the Contract and its amendments: Site Security, Traffic Control, Signs, Fence, SWPPP, Readymix, Concrete Removal, Saw Cutting, Clearing and Grubbing, Excavation, Riprap, Aggregate Base Course, Material Processing, Geotextile, Irrigation, Seeding, Testing & Inspection, Survey, Electrical & Instrumentation, Rebar, Trucking, Equipment Rental, Erosion Control, Reinforced Concrete Piping, Structural Concrete, Surveying, Slide Gates

Accepted Disadvantaged Business Enterprises specific to this project are:

- Entities owned and/or controlled by socially and economically disadvantaged individuals as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note) (10% statute), and Public Law 102-389 (42 U.S.C. 4370d) (8% statute), respectively;
- Minority Business Enterprise (MBE) - entities that are at least 51% owned and/or controlled by a socially and economically disadvantaged individual as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note), and Public Law 102-389 (42 U.S.C. 4370d), respectively.
- Women Business Enterprise (WBE) - entities that are at least 51% owned and/or controlled by women.
- Small Business Enterprise (SBE);
- Small Business in a Rural Area (SBRA);
- Labor Surplus Area Firm (LSAF); or
- Historically Underutilized Business (HUB) Zone Small Business Concern or a concern under a successor program

2022 U.S. road conditions by state

Continued from page 1

According to the ASCE, Vermont's roads might be doing OK right now, but the state needs to account for "increasingly severe winter storms" in its future infrastructure budgets and planning.

4. Alabama

According to the International Roughness Index, only about 1% of Alabama's rural roads and 5% of its urban roads are in poor condition, putting it just after Minnesota for the state with the least-rough roads.

One driver in Huntsville said, "99% of the roads I travel have few potholes," even if there are some roads that "need some work." A Theodore motorist thought the state's roads were just OK, arguing that "we need lotto and casinos, [then] we would have more money to spend on roads."

The recently implemented Rebuild Alabama and the Alabama Transportation Rehabilitation Improvement programs are at work solving new traffic congestion problems in the state, and they've already tackled more than 140 road improvements since 2020.

5. Idaho

Idaho is known as the Gem State, and we can count its highway system as one of its jewels. The state spends \$787 per capita on its highways per year, exceeding average U.S. expenditures

by about 28% and the Rocky Mountain region's by 6%.

According to the Deseret News, Idaho was the fastest-growing state from 2020 to 2021, with a population growth of 2.9% during that time. As of publishing, about 11% of Idaho's urban roads are in poor condition, based on pavement roughness, but the ASCE warns that the state needs to do more for its infrastructure sooner rather than later to keep up with the growing population.

6. Kansas

Dorothy and Toto didn't travel by car, but if they were on Kansas roads today, they might be happy with what they saw, thanks to recent state funding increases.

Even though one motorist from Wichita gave Kansas roads an 8 out of 10, they noted that "only major roads are improved on a regular basis." Still, only about 1% of its rural roads and 10% of its urban roads are considered poor by the IRI.

The Tax Policy Center's most recent findings show that Kansas spends just over the national average (\$626 per capita versus \$616) on its highways each year.

7. Florida

A driver in Venice we surveyed said their city had no potholes and that the roads are "nicely

paved and maintained." Not everyone in the state is happy with the traffic situation, though — some residents complained about out-of-towners who "don't know where they are going" overcrowding their roads.

Despite its snowbird problem, the Sunshine State received a C-plus for its roads on the Infrastructure Report Card, which is just higher than the nation's average score (C-minus). In terms of pavement conditions, over 99% of Florida's rural roads and about 95% of its urban roads are in fair or good condition, according to the IRI.

8. Georgia

According to the International Roughness Index, Georgia has comparatively smooth roads in both urban and rural areas, with just over 1% of its rural roads and about 5% of its urban roads in poor condition.

One driver in Whigham said the roads are in good condition with moderate traffic, but many residents felt more conflicted about the state of the Peach State's roads. A Stockbridge motorist said, "They fixed some bad [bypasses], but they need more reflectors on dark roads where they need more street lights. ... Turning lanes need painted or reflectors in two turning lanes." Another driver said simply, "Some are good, some are bad."

Some Georgia drivers are even saltier — one called out county commissioners for being "more interested in developing land" than in improving the infrastructure.

9. Nevada

Nevada spends more per capita annually on its highways than any other state in the Far West (\$756 versus \$599, with a national average of \$616).

According to our survey respondents, the Silver State's roads are acceptable, but they could be better. "There are mostly pretty good roads/streets; however, in other places they are in need of serious repairs," wrote a driver from Fernley. From another motorist: "Some are well paved, and some are full of potholes and completely neglected!"

One driver gave Nevada's roads a 10 out of 10 — only 3% of total respondents gave their state a perfect score.

10. Indiana

Indiana's roads come in at No. 10 of the best on our list. Only about 6% of the state's urban roads and 2% of its rural roads are in poor condition, based on the International Roughness Index.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

NOTICE TO CONTRACTORS

The Golden Gate Bridge, Highway and Transportation District (District) is soliciting bids from qualified firms for **Contract No. 2022-B-084, Suicide Deterrent System Rescue Training Net**. Bids must be uploaded to the District's Procurement Portal: <https://ggbhdt.bonfirehub.com> by January 24, 2023, at 2:00 p.m., Pacific Time, at which time bids will be publicly opened and read online.

Hard copy submissions will NOT be accepted. Hard copies received will be returned (unopened) to Bidders without consideration.

The bid opening will be conducted online only, and the District will be utilizing Microsoft Teams to conduct the meeting. Below is the Microsoft Teams Meeting information for Bidders who wish to participate in the bid opening. If you have not used Microsoft Teams before, please refer to the link: Join a Meeting in Teams prior to the meeting to ensure that you are able to join without technical difficulties. On the date and time of the meeting, press Ctrl+Click on the hyperlink, "Join Bid Opening." This meeting is specifically for the bid opening relative to the above Contract. Bidders may also call the telephone number and enter the Conference ID number provided below. Click here to join the meeting

Meeting ID: 242 577 088 91 Passcode: jkF6sE Download Teams | Join on the web

Phone Conference ID: 994 722 071#

This public works project consists of, in general, furnishing and installing net support frame, install District furnished stainless border cables, District furnished stainless steel net and District furnished hardware; existing concrete wall removal, furnishing and installing wood deck, furnishing and installing steel railings and guard rail; and all other related work items as required to complete the project titled , as shown on the Contract Drawings and as specified in the Contract Documents.

A pre-bid conference will be held on January 11, 2023 at 10:00 a.m., Pacific Time, at the Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, 94129. A job site tour will be conducted immediately after the conference. While attendance at this conference and the job site tour is not mandatory, the District highly recommends you attend. Due to the COVID-19 pandemic, bidders are notified that all state and local public health orders will be followed during the pre-bid conference. Depending on such requirements then in force, wearing of face masks and social distancing may be required. Parties interested in attending either the pre bid conference or the bid opening shall notify the District 24 hours prior to attending either event by contacting dmoore@goldengate.org.

Bidders bidding as the prime contractor shall possess a valid State of California Class A, General Engineering Contractor's License with a minimum experience of three (3) similar projects in scope and size, and one (1) public works projects in the past five (5) years at the time of Contract award. All subcontractors, if any, shall be properly licensed by the State of California to perform specialized trades. Pursuant to Public Contract Code Section 4104, each Bid Proposal must include the name and location of the place of business of each subcontractor who shall perform work or service, or install work for the prime contractor in excess of one-half of one percent (1/2 of 1%) of the bid price.

Bids must be accompanied by a deposit either in the form of cash, a certified or cashier's check, or Bidder's Bond, as described in the Contract Documents, which shall be applied to damages sustained by the District if the successful Bidder fails or refuses to enter into a contract awarded to it.

Bids shall be submitted on the District's Proposal Forms, including all attachments, and uploaded to the District's Procurement Portal: <https://ggbhdt.bonfirehub.com> and plainly marked with Bidder's name.

The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bid or in the bidding procedure. No Bidder may withdraw its bid for a period of ninety (90) days after the date of opening bids. Within two (2) working days of bid opening, a summary of Bidders' quotes will be available at the District's Procurement Portal website. To review the bid results, go to the District's Procurement Portal website: <https://ggbhdt.bonfirehub.com>

and look for Contract No. 2022-B-084. Each Bidder will be notified of award, if award is made.

The successful Bidder shall furnish a Performance Bond and a Payment Bond in amounts equal to one hundred percent (100%) of the total price of the Contract. District will retain five percent (5%) from each invoice/billing statement submitted in connection with the Contract. Pursuant to Public Contract Code Sec-

tion 22300, the successful Bidder may submit certain securities in lieu of the District withholding funds from progress payments (retention) during the Project.

The District hereby notifies all Bidders that it is the policy of the District to ensure nondiscrimination on the basis of race, color, national origin, or sex in the award and administration of contracts.

Bidders are strongly encouraged to obtain Disadvantaged and Small Business Enterprise (DBE/SBE) participation on this Project. DISADVANTAGED BUSINESS ENTERPRISES (DBEs) ARE, BY DEFINITION, CONSIDERED TO BE SBEs, AND ARE COVERED BY THE REFERENCES TO SBEs IN THIS DOCUMENT. In order to achieve such participation, the District has developed procedures to remove barriers to DBE participation in the bidding and award process and to assist DBEs to develop and compete successfully outside of the DBE Program. These procedures include the establishment of a SBE Element of the District's Diversity Program for Contracts. The District has evaluated subcontracting opportunities for this Contract and determined that such opportunities exist and has established an SBE contract-specific goal of 9.2%. Bidders must meet the contract-specific SBE goal or demonstrate good faith efforts to do so. Bidders are encouraged to attend the pre-bid meeting to better understand the applicable DBE/SBE requirements. For DBE/SBE assistance, contact Artemisé Davenport, DBE Program Administrator, at (415) 257-4581.

Contractor and all lower-tier subcontractors and suppliers performing covered work shall be required to submit certified payroll and labor compliance documentation to the District electronically using LCP-tracker software.

In accordance with Section 1720 et seq. of the Labor Code, the general prevailing wage rates, as established by the Director of the California Department of Industrial Relations, will apply to this Contract. Information about prevailing wage rates for this Project is set forth in the Special Provisions. The prevailing wage rates established by the California Department of Industrial Relations are available at <http://www.dir.ca.gov/DLSR/PWD>. Hard copies can be viewed at the District's Engineering Office or requested by mail, addressed to: Prevailing Wage Unit, Division of Labor Statistics and Research, Department of Industrial Relations, P.O. Box 420603, San Francisco, CA 94142.

Should the general prevailing wage rates not specify a wage determination for a particular craft classification or type of worker, attention is directed to 8 C.C.R. 16202(b) regarding petitioning the Director of the California Department of Industrial Relations for a special wage determination. The District has made no request for such determination, as the District does not know the specific craft classifications or type of workers in-

tended by Contractor for this Project.

Contractor and subcontractors must be registered with the California Department of Industrial Relations pursuant to Labor Code Section 1725.5. This Agreement is subject to monitoring and enforcement by the DIR pursuant to Labor Code Section 1771.4. The Contractor must post job site notices, as prescribed by regulation. The Contractor shall furnish the records specified in Labor Code Section 1776 directly to the Labor Commissioner, monthly in a format prescribed by the Labor Commissioner.

Bidders' attention is directed to the requirements of the Occupational Safety and Health Administration of the U.S. Department of Labor, which requirements shall apply to all work to be done under this Contract.

Bid documents are available at no charge on the District's Procurement Portal at <https://ggbhdt.bonfirehub.com>. In order to download and respond to posted solicitations, Bidders are required to register on the District's Procurement Portal. Once registered the documents may be downloaded. Click on the "Open Public Opportunities" page, click View Opportunity next to the desired project.

Any revision to the Bid Documents will be made by a written addendum and be available on the District's Procurement Portal for download at no charge. Such addendum will become a part of the Bid Documents and be binding on all Bidders. Bidder's receipt of the addendum shall be acknowledged and so noted by each Bidder in the space provided on the Proposal Form. It is the responsibility of Bidder to check the District's Procurement Portal website for any Addenda that may be issued relative to this Contract.

Questions regarding technical information and clarifications shall be submitted in the District's Procurement Portal by clicking on the Opportunity Q & A tab of the message section of the project page. Such submissions shall be sent no later than eight (8) calendar days before bid opening. Note that only written clarifications issued by the District are binding on the District. The District will post all pre-bid questions and the District's responses on the District's Procurement Portal website under Reference Number 2022-B-084. Bidders are encouraged to check the procurement portal website regularly

2022 U.S. road conditions by state

Continued from page 9

Still, Indiana's drivers don't seem thoroughly impressed. One motorist blames road issues on the state being "farm country" — "any improvements on any roads in the Straughn area are in vain because farmers and their farm equipment keep the roads constantly damaged. Most roads end up getting gravel-topped or chip-and-sealed. Yet, our taxes and wheel tax are expected to be paid annually," they wrote.

Other drivers felt less passionate: "The roads are pretty good overall, but some of the more rural parts ... definitely need work done to the roads," a Fishers resident said.

Which states have the worst roads?

We chose the states with the worst roads based on the roughness of the pavement and highway

maintenance and safety budgets. Scroll down to check out the full ranked list and see where your state lands.

1. Hawaii
2. Rhode Island
3. Louisiana
4. California
5. Wisconsin
6. Mississippi
7. Arkansas
8. Colorado
9. South Carolina
10. Iowa

1. Hawaii

Hawaii received a D-plus on the most recent Infrastructure Report Card from the American Society of Civil Engineers (released in 2019). More

than a quarter of Hawaii's urban roads come in at more than 170 inches per mile on the International Roughness Index (IRI), a measure of how much a vehicle vibrates based on the roughness of the road and how the wheel hits it. (Roads with an IRI at or above 170 inches per mile are considered in poor condition.)

Other Americans have come to know these rough spots in the pavement well — in 2022, Hawaii saw more than 70 million visitors from other states bumping along the islands' twisty roads in buses and rental cars.

According to TRIP, a nonprofit that researches surface transportation, 69% of Hawaii's major roads are in "poor or mediocre" condition, and its drivers spend an average of \$818 per person — \$772 million total — a year on wear, additional fuel and repairs caused by driving on deteriorated roads.

What do Hawaiians say about their roads?

One of our respondents from Wai'anae, on Oahu, said many of the town's roads "are in need of repair," and a driver in Ewa Beach, in Honolulu, mentioned one road in particular "where the asphalt forms mounds around the manhole covers that jar the vehicle terribly."

2. Rhode Island

It's not road island. A whopping 75% of Rhode Island's major roads (and 17% of its bridges) are in poor or mediocre condition, costing the average driver an additional \$833 per year. The state received a C-minus on its Infrastructure Report Card in part due to a lack of investment in its road and bridges. This lack of funding is evident in Rhode Island's poor road construction.
