

Mid-April Economic Nuggets – With an Emphasis on Rules of Thumb

The remarkable strength and longevity of the current U.S. economic expansion is demonstrated by the fact that initial jobless claims have now been below 300,000 for 214 weeks in a row, or a little more than four years.

By Alex Carrick,

Central bank policy-setting interest rates in the U.S. and Canada are currently becalmed. The Federal Reserve's federal funds rate is presently in a range of 2.25% to 2.50%; the Bank of Canada's overnight rate is 1.75%.

As 2018 wound down, yields appeared set for further hikes. Share prices, homebuilding, and general spending levels all reacted negatively. Optimism in the economy faltered. Now that a pause has been placed on interest rate increases, however, the prevailing mood has turned chipper once again.

Lurking in the background, though, is a perhaps dangerous degree of denial. When this era of excessively low interest rates comes to an end, which it must eventually, although not if President Trump has his say, heavily burdened debtors among homeowners, car purchasers, corporations, and governments will be plunged into severe carrying-cost woes.

Anyway, for now, the U.S. economy is doing great (with Canada trailing a bit) and below are some of the highlights/nuggets from recent public and private sector data releases. In several instances, 'rules of thumb' are cited for key metrics and their standards of performance.

Initial Jobless Claims

The earliest warning sign of any softening in demand for U.S. workers will almost certainly appear in the initial jobless claims numbers issued by the Department of Labor (DOL). For starters, initial jobless claims are monitored weekly, whereas other data on jobs growth and unemployment are measured monthly. Prior to the recession, a figure as low as 300,000 for initial jobless claims was considered commendable. In the middle of the recession, they shot up to nearly 670,000. It was another five years before they dropped back down to again touch 300,000.

The remarkable strength and longevity of the current U.S. economic expansion is demonstrated by the fact that initial jobless claims have now been below 300,000 for 214 weeks in a row, or a little more than four years. Nor are they giving any indication of worsening. A level of 300,000 as a benchmark of health has just given way to 200,000. For the week ending April 6th, initial jobless claims reached a mere 196,000, their best level since December 6 1969's 193,000. The last month of the 'Swinging Sixties' was nearly 50 years (i.e., half a century) ago.

Stock Market Activity

Sometimes there's a graph so perfect, it leaves an economist breathless. Graph 1 (page 8) is such a chart. It provides the plainest possible evidence that North America has been the source of whatever economic momentum there has been in the world. The purple-shaded indices are derived from listings of companies that are mainly based in the U.S. (DJI, S&P 500, NASDAQ and Russell 2000) or Canada (TSX). The other nine indices measure the stock performances of companies in Europe, Japan, China, Latin America, Africa and elsewhere. Almost all the fastest rising indices over the past year have been North American. The indices from the rest of the world have mainly been in decline.

The end data points for the year-over-year calculations in Graph 1 are 'as of closing' March 29, 2019. There have been further upward shifts through the first two weeks of April. NASDAQ has risen by another +3.3%; the S&P 500, +2.6%; TSX, +2.4%; and DJI, +1.9%. The DJI, S&P 500, and NASDAQ, after briefly sinking into the doldrums in late 2018, have all recovered near their all-time peaks. The S&P 500 is closest. It would need a further lift of only +1% to match its former summit. The DJI and NASDAQ require additional gains of +2%.

U.S. Retail Sales

When inflation, as determined by the Consumer Price Index (CPI), is running near its target of +2.0% year over year – which, by the way, is the case at present – economists like to see retail sales growth be +5.0% year over year or more. U.S. retail sales, as calculated by the Census Bureau, are in 'current' dollars. Eliminating price effects will reduce a +5% gain to +3% in 'constant' dollar terms. In turn, +3.0% for 'real' retail sales will provide a big boost to 'real' gross domestic product (GDP). Consumer spending accounts for roughly 70% of U.S. GDP and retail sales are at least 40% of personal consumption expenditures (PCE).

With +5.0% year over year as a desirable yardstick, U.S. retail sales in the latest month for which data is available, February 2019, disappointed. They were only +2.1% (see Graph 2), and even if the negative impact of gasoline sales is omitted, they were just +2.6%. Over the past year, gasoline sales have been

California Sub-Bid Request Ads

Requests quotes from qualified and certified DBE Subcontractors and Suppliers for the following (but not limited to) work:

Landscaping, Irrigation, Tree Removals, Erosion Control, Asphalt Paving, Asphalt Dike, Concrete Sitework, Concrete Structures, Fencing, Rebar, Guard Rail, Striping & Signage, Electrical, Traffic Signals, Survey, Construction Area Signs, Retaining Walls, CIDH (Cast in Drilled Hole Concrete Piling), Concrete Pipe, RCP, Trucking, Street Sweeping

Mid-April Economic Nuggets – With an Emphasis on Rules of Thumb

Continued from page 1

dragged down by a price decline. That effect has been gradually dissipating. March’s U.S. CPI results have gasoline nearly flat, -0.7% year over year.

Motor Vehicle and Online Retail Sales

For much of the post-recession period, total retail sales have been bolstered by ‘motor vehicle and parts’ sales. The automotive segment traditionally approaches one-quarter of total retail. February’s sales by motor vehicle and parts dealers were okay, but not outstanding, +2.4% year over year. If you’re looking for excitement in retail sales, ‘nonstore’ merchandising continues to provide the most sizzle. In February, online auction and Internet platform sales were +10.0% year over year. Graph 3 highlights the determined and ultimately successful pursuit of general merchandise stores by nonstore retailers.

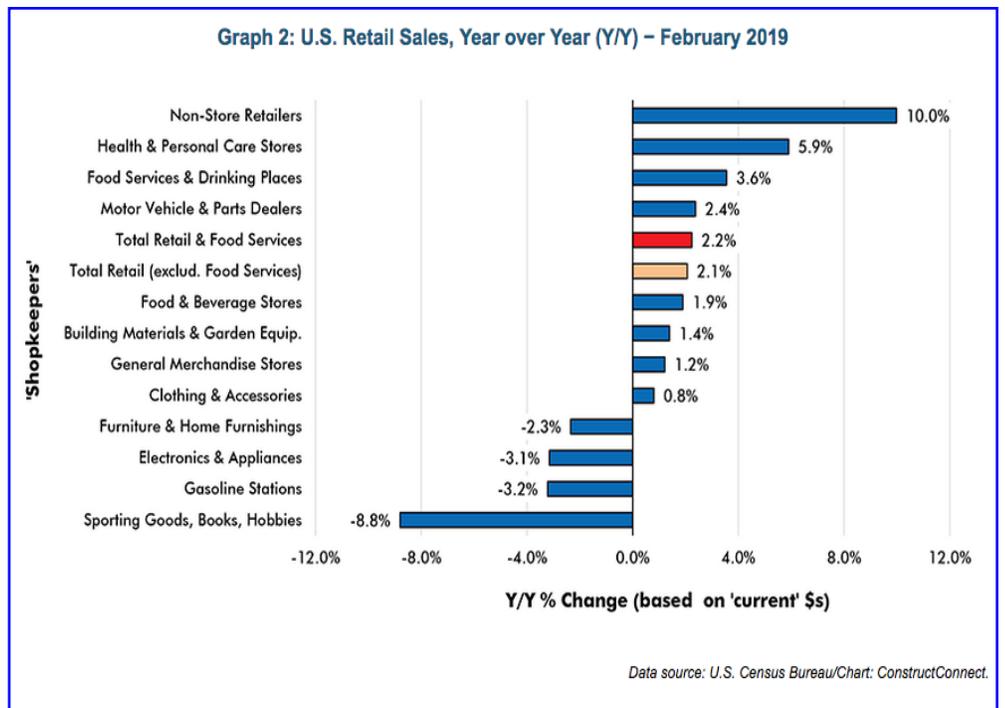

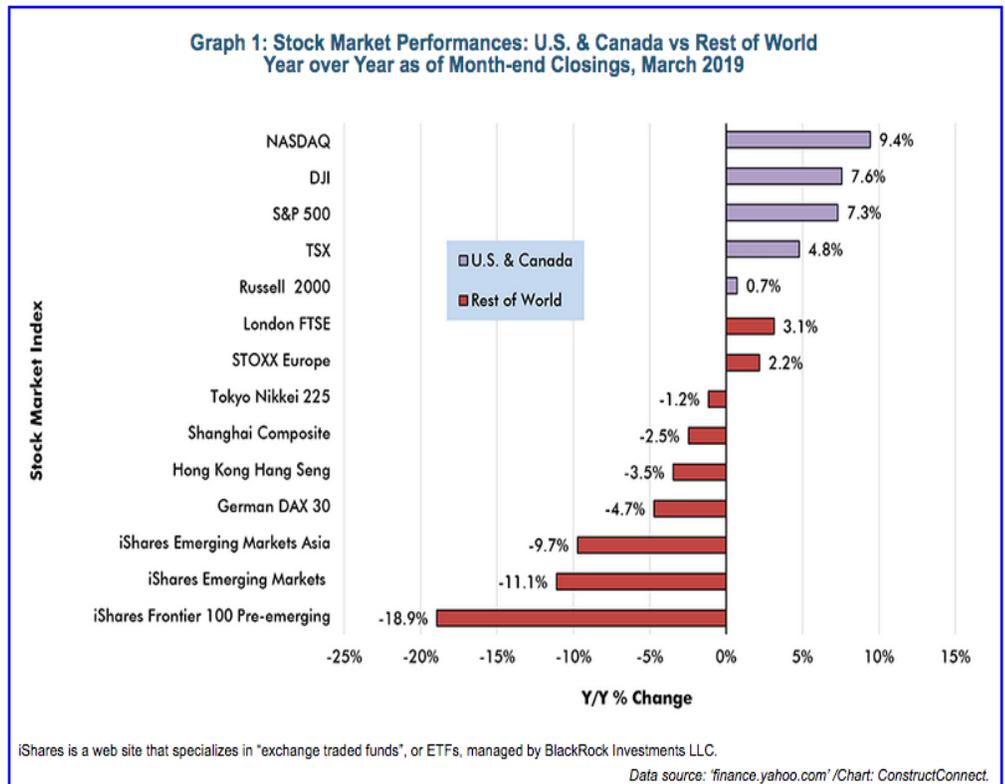

Furthermore, the merchandise store component of retail hasn’t been entirely paralyzed by the digital onslaught. It has fought back with warehouse clubs and supercenters. Ongoing carnage in other pockets of ‘bricks and mortar’ retail, however, is apparent. Signal Jewelers, the corporate owner of Kay Jewelers, recently announced it will be closing 150 mall locations over the next couple of years. Bed, Bath & Beyond is planning to shutter 40 stores in fiscal 2019, although it has been quick to add that it will also open 15 new sites.

Canadian Housing Starts

For years, monthly Canadian housing starts have hovered around 200,000 units, seasonally adjusted and annualized (SAAR). Therefore, it was with some alarm that February 2019’s figure of a measly 166,000 units was greeted. But in March, according to Canada Mortgage and Housing Corporation (CMHC), there was a bounce back, to 193,000 units.

Among Canada’s six most populous cities (i.e., those with more than a million residents each), Ottawa was the hot home construction market in Q1. The year-over-year percentage change in residential groundbreakings in the nation’s capital so far this year has been +44%, with multiple-unit initiations up considerably, +76%, but singles down, -19%. Montreal, at +14%, has also achieved an increase in housing starts in 2019 to date, but the other four major urban areas have backtracked: Calgary, -12%; Edmonton, -13%; Vancouver, -16%; and Toronto, -37%.

California Sub-Bid Request Ads

SWINERTON

PROJECT NAME:

Crane Cove Park – Building 49 - Contract No. 2814
Port of San Francisco
Pier 70 – Illinois & 18th Streets, San Francisco

BID DATE: April 25, 2019 at 2:00 PM.

Include completed Swinerton Bid Form &
Fully Detailed Scope / Bid Letter

Swinerton is requesting quotations from certified LBEs. Participation requirement is 23%.

Note that SBA LBE and PUC LBE subcontractors WILL NOT be accepted toward the 23% requirement.

Trades: All Trades needed. Note all long lead items & the anticipated lead times on scope letter.

RFIs Due: April 19, 2019 by 5PM.

Project Description:

The proposed project is to repair a 7,800 sf building's core and shell, and install public restrooms. Work will include demolition; grading adjacent to the building; AC paving; utilities work; HVAC; plumbing; replacement of exterior and interior wall covering and doors; new bituminous roofing; restroom installation; concrete foundation work involving installation of concrete grade beams and 27 steel pipe piles; new structural framing; and electrical work.

PROJECT SCHEDULE: Port of San Francisco's construction will start July 2019, substantial completion May 2020 and final completion July 2020. This project site has other contracted work occurring at the same time and requires some coordination with the other projects.

PLANS & SPECIFICATIONS:

Available upon request

WE REQUEST BIDS FROM ALL SUBS

Contact: Sandi Gessin

Tel: (415) 617.1478

EMAIL TO: sgessin@swinerton.com

- This is a Port of San Francisco Public Works project. Subcontractor must be registered with the CA Department of Industrial Relations before submitting a bid. Application and renewal are completed online with an annual, non-refundable fee.
- The project is subject to Office of Economic and Workforce Development (OEWD) requirements (applies to ALL Subcontractors) – Local Hire (San Francisco only) 30% for every trade and Local Hire for 50% of Apprentice Hours for every trade.
- This is a Prevailing Wage project.
- All LBE subcontractors, sub-subcontractors, suppliers, equipment rentals and truckers shall be certified LBEs before the bids are due.

We reserve the right to require all subcontractors to furnish 100% performance and payment bonds from a U.S. Treasury-listed surety. Premium cost to be included as a separate item. At our discretion, a bid bond and/or letter of bondability from a U.S. Treasury-listed surety may be required within 48 hours of demand.

"Swinerton is an Equal Employment Opportunity, Minority, Women, Disability, and Veteran Employer"

SWINERTON

PROJECT NAME: Presidio Tunnel Tops
BID DATE: May 17th, 2019 at 5:00 PM

Swinerton is requesting quotations from certified SDB's and SWB's.

These Trade Packages have varying SDB/SWB goals.

Reference each specific Trade Package for Requirements

Building Construction Estimate is: \$85M

Scopes: Site Utilities, Concrete, Structural Steel, Waterproofing, Plumbing, Mechanical, Electrical, Misc Metals, Masonry, Framing, Building Finishes, Doors-Frames-Hardware, Abatement, Appliances, Window Coverings, Surveying, Archeological Monitoring, Signage, Interior Demolition,

Pre-Bid Meeting: Friday April 26th, at 1 PM, 260 Townsend Street San Francisco.

Contact Elizabeth Messana,
emessana@swinerton.com, for call-in information.

Project Description:

swinertontunneltops.com

The Presidio Tunnel Tops, located in the Presidio of San Francisco, is a project to create 14 new acres of national park land over the recently completed Doyle Drive tunnels between Lincoln and Mason street. In addition to landscaped open areas, the project will include about 4 acres that will become an expanded youth education center. One historic building will be renovated and turned into classrooms, and two new buildings will be constructed. One existing (non-historic) building will be renovated and The Outpost, a nature play and learning landscape, will be constructed.

Overall project to start October 2019
