Phase 2 of Silver Lake Reservoir Replacement Project Begins

The new Reservoir will be 25 percent larger than the Phase 1 tank pictured above

By Greg Aragon

Excavation began last week on the \$110 million Phase 2 of the Silver Lake Reservoir Replacement Project in Burbank, CA. This segment includes the construction of a 68-million gallon concrete reservoir, which is about 25 percent larger than the 55-million-gallon Phase 1 tank, which cost \$140 million and was completed last November 24, about one year ahead of schedule.

Phase 2 construction is being led WOL, a joint venture of Webcor Builders, Obayashi San Francisco and W.M. Lyles. SSC Construction of Corona. This is the same team that did Phase 1.

Excavation for the new reservoir will take about 120 days and move somewhere in the neighborhood of 450,000 cu-yds of dirt. It will be led by Sharma General Engineering Contractors Inc., of Moorpark, CA. After this stage is complete, crews will start foundation and rebar work.

And as they did on the previous phase, the team will build its own on-site concrete

batch plant to avoid the risk of trucks getting stuck in LA traffic and missing important pours on a project that will consume an estimated 90,000 yards of concrete.

Vince Quinones, construction manager for WOL, says on Phase 2 his team will take advantage of lessons learned from Phase 1, which is practically an identical project, except for a 2,900-ft-long underground water-pipe connector tunnel. One of the things he says he learned was the importance of open communications with the owner / designer, the Los Angeles Dept. of Water and Power (DWP), and the Division of Safety of Dams (DSOD), which oversees mass-concrete water-bearing structures in the state.

"It is a pretty dynamic communication between all three of us to keep the project smooth and moving forward through submittals, RFI's and all the basic things," he says.

The multiphase Silver Lake Reservoir Replacement Project is located at the Headworks spreading grounds—a 43-acre former wetlands collecting site adjacent to Interstate 5 and the Los Angeles River. Phase 1 broke ground in 2013 and completed last

November, and the current Phase 2 is scheduled to complete by end of 2017. Quinones says they will begin selecting contractors for the rest of the work on Phase 2 in November.

Phase 3 consists of the River Supply Conduit 1A West, Hydroelectric Power Plant and Regulating Station, which will break ground sometime in 2017; and final stage is Phase 4 - an Eco-System Restoration of the entire project site, which will include covering both reservoirs with about 10 ft of soil to create park-like amenities.

The new reservoirs are meant to eliminate contamination of drinking water by bypassing the now-closed Silver Lake and Ivanhoe reservoirs that were open-air. The project complies with new U.S. Environmental Protection Agency (EPA) water quality regulations.

SMALL BUSINESS EXCHANGE

Did You Know a Black Woman Is Behind a \$150 Million Dollar Per Year Construction Firm?

Most people don't think of black women and the construction business, but that didn't stop this powerful woman from building her dreams. She powers one of Texas most successful businesses and doing it in a male dominated field.

Gail Warrior is the founded and CEO of Warrior Group, a construction management business

she began in 1997 with guts and a dedicated work ethic. Starting out as a Dallas based company, Gail focused on the Warrior Group's brand, reputation and obviously pleasing their clients.

Eventually Gail contracted a healthy share of a \$40 million dollar contract with the Army. The contract called for modular Army barracks for Fort

Bliss in El Paso, Texas.

The expansion was on. You don't turn down a contract and opportunity like this is have the ambition and drive of this woman. However, Gail and her team didn't just take the Army contract and run. They began to focus on Permanent Modular Con-

Guadalupe Dam Seismic Retrofit Project Design Services

Santa Clara Valley
Water District

Who: Santa Clara Valley Water District is the water resource management agency meeting watershed stewardship needs of and providing wholesale water reliability to Santa Clara County's nearly 1.9 million residents.

What: The Santa Clara Valley Water District (District) is soliciting proposals from consultant firms to provide design professional services for the District's Guadalupe Dam Seismic Retrofit Project. The primary objective of the project is to stabilize the Guadalupe Dam embankment to withstand a Maximum Credible Earthquake (MCE). The project will also implement improvements as necessary to safely pass the Probable Maximum Flood (PMF) and as well as ensure that the outlet works meet the current regulatory standards.

You are invited to submit a proposal based on your qualifications performing design services on projects similar in size and scope to the District's project. The full Request for Proposal (RFP) can be viewed at <http://cas.valleywater.org>.

Please submit your proposals electronically to the District's Contract Administration System (CAS) by the date and time specified in the RFP Schedule. Prior to submitting proposals, all firms must be registered in CAS. This can be achieved by going to the web address noted above and following the instructions to create an account. When in the creation process, select the expertise code "GE11 – Geotechnical Engineering" and add contact information as necessary.

Contact: If you need assistance with creating a CAS account, please call (408) 630-2992, or e-mail questions to ContractAdministration@valleywater.org.

In addition to submitting proposals electronically through the District's web portal, 6 hard copies of the proposal must be received by the proposal due date and time specified in the RFP Schedule. Please refer to the RFP for detailed hardcopy delivery instructions.

General questions regarding this solicitation will be accepted by email to **Bal Ganjoo**, Senior Project Manager, at bganjoo@valleywater.org. Questions must be submitted no later than the date specified in the RFP Schedule.

Small Business Exchange

The Sub-Bid Request Specialist

It's takes a sharp pencil and qualified, competitive sub-contractors, vendors, and suppliers to win the bid and achieve the diversity goals.

Look no further. We have them all in our database

Need construction contractors and suppliers familiar with public contracting, bondable, certified by cities, states and federal entities, and willing to work in one or many locations?
We have that, too.

Want to reach them by industry-specific codes (NAIC/SIC/UNSPSC)?
We can do that, too

The next time you're bidding project where time and accuracy are of the essence, call us.
We'll make it happen.

We are on the move to make your business better.
