

Top 5 Coolest Buildings of 2022

[Article originally appeared in www.constructconnect.com]

By Kendall Jones

As we bid adieu to 2022, it's once again time for our end-of-year annual tradition. No, I'm not talking about plotting revenge against all those people who sent me fruitcake again this holiday season. It's finally time to reveal ConstructConnect's Top 5 Coolest Buildings of 2022.

Criteria for inclusion on the list are twofold. First, the building must have been completed, topped out, or opened within the calendar year. Second, there has to be some aspect that makes the building cool. This could be the architecture, sustainability elements, unique construction methods, technology, building materials used, cultural impact, or some combination of these elements.

Here's a look at this year's list.

1. 111 West 57th – New York, New York

Who doesn't love a good superlative skyscraper? And while Burj Khalifa isn't losing its crown as the world's tallest, 2022 saw the completion of the world's skinniest skyscraper: 111 West 57th. Also known as the Steinway Tower, the new residential tower overlooking Central Park has a height-to-width ratio of 24:1.

Designed by SHoP Architects and developed by JDS Development Group and Property Markets Group, 111 West 57th sits on the site of the second Steinway Hall in the city, which was designed by Warren and Wetmore and built in 1925 to be closer to the recently opened Carnegie Hall. The historic building, which served as a showroom, concert hall, and offices for the Steinway & Sons piano company, was integrated into the design of the adjoining 1,426-foot tower, renovated, and converted into apartments.

The new tower, clad in terracotta, bronze, and glass, in addition to being the world's skinniest skyscraper, is also the third tallest building in New York City. For all the Led Zeppelin fans out there, the tower's pinnacle has a series of setbacks on the south side, earning it the nickname "Stairway to Heaven."

2. DJI Sky City – Shenzhen, China

DJI, the world leader in drone technology, opened its new headquarters, Sky City, this year in Shenzhen, China. Designed by Foster + Partners, Sky City is comprised of two skyscrapers using asymmetrical suspended steel structures. Each tower features six glass volumes cantilevered around their cores at varying heights that are supported by massive steel trusses and suspension tubes. The twin towers are connected by a 295-foot sky bridge that sits 345 feet above the ground on the 24th floor.

The suspended steel structures reduced the need for interior columns allowing for more open and uninterrupted office spaces. The massive V-shaped trusses were used to create four-story tall drone testing labs. A zen garden in each tower lobby welcomes workers as they enter the build-

ing, and rooftop gardens on the glass volumes and podium offer a network of green spaces.

The towers were designed to make use of daylighting, and additional sustainability measures include the use of an intelligent control system to reduce energy consumption, rainwater harvesting, and recycling greywater for irrigation. In addition to the flight labs and office spaces, Sky City has auditorium space, research and development areas, and a community health center.

What better way to explore DJI's new headquarters than with a video filmed using the new DJI Avata drone?

3. Rosewood Sao Paulo – Sao Paulo, Brazil

Next on our list is the Rosewood Sao Paulo hotel, designed by architect Jean Nouvel and artistic director Philippe Starck. The new hotel is actually comprised of two buildings. The first is the renovated Condessa Filomena Matarazzo Maternity, which was built in 1943 and saw the birth of half a million babies during its operation. The second building is the Mata Atlantica Tower, a vertical forest whose exterior is covered with interconnected wooden latticework and interspersed with local trees, plants, and flowers throughout as well as on the tower's rooftops.

The interior of the upscale hotel is adorned with 450 pieces of unique artwork from 57 local artists covering the walls, floors, ceilings, and elevators. The hotel has 160 guestrooms and 100 private residences as well as six restaurants and bars, including two pool and bar areas. Other amenities include a cinema, event space, music studio, and an Asaya well-being center.

Part of the project also included the renovation of the Chapel of Santa Luzia to its original 1922 architecture. Rosewood Sao Paulo is part of the larger Cidade Matazarro development blending the adaptive reuse of existing buildings with new construction.

Sustainability was a big part of the project, with all the construction completed with locally sourced and upcycled materials. There is also a biodiversity program aimed at repopulating indigenous plants and animals from the Mata Atlantica rainforest. Within a year of opening, the hotel is expected to be powered entirely by renewable energy from on-site solar panels and other renewable measures.

4. Taipei Performing Arts Center – Taipei, Taiwan

The Taipei Performing Arts Center, designed by OMA's Rem Koolhaas, is a unique take on what a performing arts center can look like, both inside and out. Rather than your typical front and back sides, each of the center's three theaters jut out from the building's 10-story glass cube. The exterior of each is clad in aluminum.

There's the spherical 800-seat Globe Playhouse, the 1,500-seat Grand Theater, and the 800-seat Blue Box. The Grand Theater and Blue Box can be combined to create the 2,300-seat Super Theater. All three theaters share a communal backstage area located in the central hub of the building in part to save space and also to encour-

Taipei Performing Arts Center

111 West 57th – New York, New York

age interactions and collaborations between productions.

Another cool feature of the building is the Public Loop which is open to, well, the public. This loop takes visitors from the ground floor all the way up to a viewing platform on the top floor, between the interior and exterior shells of the Globe Theater, and then down an elevator back to the ground floor. Viewing windows throughout the loop allow visitors a glimpse of performances, rehearsals, and the behind-the-scenes action backstage.

The Taipei Performing Arts Center took 10 years to complete due to various delays, with construction starting way back in 2012. The venue finally opened on August 7, 2022, with a performance by the Taipei Symphony Orchestra.

5. Rose Apartments – Venice, California

Rounding out this year's list is the Rose Apartments, designed by Brooks + Scarpa. All buildings serve a purpose, whether it's commercial,

Meetings are held during regular business hours.

Should you require assistance with your bid, please contact our lead estimator Scott Schueneman at sschueneman@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

*LSBs are defined as firms that are listed in the California Department of General Services (DGS) database for small businesses whose principal place of business is within Alameda, Contra Costa, or San Francisco counties.

EPA Funded – DBE Participation Encouraged

Engineers Estimate: \$190M to \$245M

REVISED BID DATE: January 11, 2023 at 1:30 p.m.

We are soliciting quotes for the following Divisions and items of work - Divisions 01, 02, 03, 05, 06, 07, 08, 09, 10, 13, 21, 22, 23, 26, 27, 28, 31, 32, 33, 40, 41, 42, 43, 44 and 46, including, but not limited to: Access Hatches and Vault Hatches, Anchor Tiebacks, Asphalt Paving, Clear and Grub, Concrete Finishing, Demolition, Dewatering, Doors and Frames, Fencing, Fire Protection, Fireproofing/Firestopping, Flashing and Sheet Metal, Glazing, Grouting, Gypsum Board, HVAC, Joint Sealants, Landscape and Irrigation, Louvers, Metal Building System, Minor Concrete, Overhead Coiling Doors, Painting and Coating, Plumbing, Precast Concrete, Railing, Reinforcing Steel, Removable Skylight System, Roofing, Signage, Steel Decking, Striping, Structural Steel, Waterproofing, Aggregate Supply, Chemical Feed Equipment, Concrete Supply, Geogrid Supply, Glass Fiber Reinforced Plastic, Hoists and Cranes, Metal Fabrications, Misc. Metals Supply, Pipe Supply, Precast Drainage Inlets, Pumps, Ready Mix Concrete Supply, Riprap, Traffic Control Materials, Valves, Chemical Tanks, Geotechnical Instrumentation and Monitoring, Pre/Post Construction Survey, QC Testing, Street Sweeping, Survey, Trucking. **Prequalified Subs Only for Electrical and Excavation/ Shoring.**

Non-DBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE participation with your quote. 2nd-tier DBE participation will be evaluated with your price.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron for any assistance to this solicitation, including obtaining bonding, lines of credit, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron will reimburse for bond premium up to 2%. **Firms must possess and provide current contractor's license number and DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms and conditions. Copies are available for review on our Box.com ftp site upon email request.

Project documents may be downloaded from the EBMUD website or they may also be downloaded for FREE from our Box ftp site. Please send an email request to NORCALBIDS@flatironcorp.com. Due to Covid-19 & social distancing requirements still in place in some areas, we are not currently scheduling appointments to review project docs or meet with estimators in our office. When all pandemic restrictions are lifted, we will offer these services again in our office by appointment only. Thank you for your understanding.

Please send all quotes by email to NORCALBIDS@flatironcorp.com

SKANSKA

Subcontractor/Supplier Bids/Proposals Requested
 San Bernardino Valley Municipal Water District
 SPEC 22-02
 Proposal Due Date February 7, 2023-10:00 AM

Skanska is interested in soliciting in Good Faith with all DBE Subcontractors and Suppliers for the following project:

Enhanced Recharge In The Santa Ana River Basins-Phase 1B Highland, CA

Plans and Specifications are available through registering on our plan site at:
<https://app.buildingconnected.com/public/59b1c0096ab4570007e09292>

Requested scopes include, but are **not limited** to the following and should be based on the Contract and its amendments: Site Security, Traffic Control, Signs, Fence, SWPPP, Readymix, Concrete Removal, Saw Cutting, Clearing and Grubbing, Excavation, Riprap, Aggregate Base Course, Material Processing, Geotextile, Irrigation, Seeding, Testing & Inspection, Survey, Electrical & Instrumentation, Rebar, Trucking, Equipment Rental, Erosion Control, Reinforced Concrete Piping, Structural Concrete, Surveying, Slide Gates

Accepted Disadvantaged Business Enterprises specific to this project are:

- Entities owned and/or controlled by socially and economically disadvantaged individuals as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note) (10% statute), and Public Law 102-389 (42 U.S.C. 4370d) (8% statute), respectively;
- Minority Business Enterprise (MBE) - entities that are at least 51% owned and/or controlled by a socially and economically disadvantaged individual as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note), and Public Law 102-389 (42 U.S.C. 4370d), respectively.
- Women Business Enterprise (WBE) - entities that are at least 51% owned and/or controlled by women.
- Small Business Enterprise (SBE);
- Small Business in a Rural Area (SBRA);
- Labor Surplus Area Firm (LSAF); or
- Historically Underutilized Business (HUB) Zone Small Business Concern or a concern under a successor program

Certifying DBE Firms:

Under the DBE Program, entities can no longer self-certify, and contractors and sub-contractors must be certified at bid opening. Contractors and sub-contractors must provide to the CASRF recipient proof of DBE certification. Certifications will be accepted from the following:

- The U.S. Environmental Protection Agency (USEPA)
- The Small Business Administration (SBA)
- The Department of Transportation's State implemented DBE Certification Program (with U.S. citizenship)
- Tribal, State and Local governments
- Independent private organization certifications If an entity holds one of these certifications, it is considered acceptable for establishing status under the DBE Program

Requirements: Skanska is an Equal Opportunity Employer and is requesting quotes from all qualified subcontractors and suppliers. Skanska will assist qualified subcontractors, vendors, & suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation on your quotation as it will be evaluated with your price. In order to assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities & establish delivery & construction schedules which will permit maximum participation when feasible.

Insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products and completed operations agg. and general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per scope or RFP requirement. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, and Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. All Contractors and Subcontractors must register with the DIR (Department of Industrial Relations) in order to bid on public works projects. Please include CSLB License Number and DIR Number on all quotes submitted.

Top 5 Coolest Buildings of 2022

Continued from page 1

educational, cultural, governmental, etc., but it's always heartwarming to see buildings purpose-built to address larger societal issues. In the case of the Rose Apartments, they were built to provide permanent supportive and affordable housing to address homelessness. It's primarily intended for local youths aging out of state or foster care and for the chronically homeless.

The Rose Apartments is in the courtyard housing style developed and popularized in Los Angeles in the 1920s. The ground floor of the building is commercial space and has offices for the Venice

Community Housing, which owns the building and is where their administrative offices were located before the site was redeveloped.

Above the commercial space is the 35-unit, U-shaped apartment building surrounding the landscaped courtyard. The LEED Gold-certified building was partially funded by Proposition HHH, which was a ballot measure passed back in 2016 to address homelessness with affordable apartment housing.

\$54 Million In Career, Technical Education Grants Across Texas

[Article originally appeared in
<https://gov.texas.gov>]

Governor Greg Abbott today announced 152 Jobs and Education for Texans (JET) grants totaling over \$54 million have been awarded by the Texas Workforce Commission (TWC) to public community, state, and technical colleges, school districts, and open-enrollment charter schools across the state. These grants will be used to purchase necessary equipment to establish or expand career and technical education programs that offer Texas students the opportunity to earn a license, certificate, or post-secondary degree in fields such as nursing, welding, automotive repair, and dentistry.

"Texas continues to cultivate a highly-skilled, diverse workforce through major investments in career and technical education training programs for our students," said Governor Abbott. "Through this over \$54 million in job training grants, more Texans will have the opportunity to pursue good-paying jobs in high-demand careers across the state. Texas is the land of economic opportunity, and I thank the Texas Workforce Commission for their ongoing efforts to ensure that our students can grow and thrive in our state's booming economy."

"It's important to identify high-demand jobs, but it's critical to proactively commit resources to ensure Texans are ready to meet those work-

force needs," said TWC Chairman Bryan Daniel. "JET grants represent an important investment by TWC to provide training opportunities for the high demand jobs of both the present and future."

Through funding provided by the Texas Legislature and approved by the Governor each biennium, TWC uses JET grants to defray start-up costs of developing career and technical education programs for public community, state and technical colleges, school districts, and open enrollment charter schools. Equipment funded through JET grants must be used to train students for jobs in high-demand occupations. Through the action of the 87th Legislature and in partnership with the Texas Education Agency, TWC was allocated an additional \$50 million to provide grants to eligible applicants in FY 2022.

The JET Advisory Board was established to assist TWC in administering these grants. For more information on the JET Program, visit the JET homepage or email jetgrants@twc.texas.gov.

Negotiations to resurrect Ferndale aluminum plant fall apart

[Article originally appeared in
<https://crosscut.com>]

By John Stang

"It's eerie," said former worker Brian Urban outside the closed Alcoa aluminum smelting plant in Ferndale. No noise. No swooshing and roaring of machinery. Dead silence.

He misses that industrial symphony. "It's the sound of American metal," Urban said. That quiet will remain.

For more than a year, a New York private equity firm, a union, the state government and the Bonneville Power Administration have worked to revive the facility and hire back 700 laid-off employees. Gov. Jay Inslee wanted the state to provide \$10 million toward the revival as part of his push to combat climate change, shrinking a resurrected plant's carbon footprint.

But they haven't been able to make a deal.

The big hurdle was that the BPA and the private equity firm, Blue Wolf Capital of New York City, could not agree on terms for the BPA to provide electricity for the power-hungry aluminum plant.

Earlier this month, Blue Wolf broke off talks, said BPA spokesman Doug Johnson. The federal agency is willing to resume talks if Blue Wolf

will come back to the table. For now the plant will remain silent.

Talks broke down mostly because aluminum smelting demands a huge amount of electricity. When Alcoa owned the Ferndale plant, it bought power under an industrial rate through a 1980 law. Blue Wolf and a new operating company, Intalco, wanted the same deal: to buy the facility from Alcoa with the site's industrial power-purchase rate intact. But a 1980 law said the industrial rate was not transferable to a new owner.

Consequently, the Blue Wolf/BPA talks focused on market rates, which would fluctuate with the power economy and could move above and below the industrial rate, Johnson said. Blue Wolf wanted a rate similar to an industrial rate, which is fairly steady compared to a fluctuating market rate. Johnson said a steady rate would mean that the fluctuations could lead to other BPA customers paying more to subsidize Intalco's power purchases. The bulk of the BPA's power comes from hydroelectric dams.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

NOTICE TO CONTRACTORS

The Golden Gate Bridge, Highway and Transportation District (District) is soliciting bids from qualified firms for **Contract No. 2022-B-084, Suicide Deterrent System Rescue Training Net**. Bids must be uploaded to the District's Procurement Portal: <https://ggbhtd.bonfirehub.com> by January 24, 2023, at 2:00 p.m., Pacific Time, at which time bids will be publicly opened and read online.

Hard copy submissions will NOT be accepted. Hard copies received will be returned (unopened) to Bidders without consideration.

The bid opening will be conducted online only, and the District will be utilizing Microsoft Teams to conduct the meeting. Below is the Microsoft Teams Meeting information for Bidders who wish to participate in the bid opening. If you have not used Microsoft Teams before, please refer to the link: Join a Meeting in Teams prior to the meeting to ensure that you are able to join without technical difficulties. On the date and time of the meeting, press Ctrl+Click on the hyperlink, "Join Bid Opening." This meeting is specifically for the bid opening relative to the above Contract. Bidders may also call the telephone number and enter the Conference ID number provided below. Click here to join the meeting

Meeting ID: 242 577 088 91 Passcode: jkF6sE Download Teams | Join on the web

Join with a video conferencing device
goldengate@m.webex.com

Video Conference ID: 112 043 254 2 Alternate VTC instructions

Or call in (audio only) +1 628-212-0729,,994722071# United States, San Francisco

Phone Conference ID: 994 722 071#

This public works project consists of, in general, furnishing and installing net support frame, install District furnished stainless border cables, District furnished stainless steel net and District furnished hardware; existing concrete wall removal, furnishing and installing wood deck, furnishing and installing steel railings and guard rail; and all other related work items as required to complete the project titled , as shown on the Contract Drawings and as specified in the Contract Documents.

A pre-bid conference will be held on January 11, 2023 at 10:00 a.m., Pacific Time, at the Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, 94129. A job site tour will be conducted

immediately after the conference. While attendance at this conference and the job site tour is not mandatory, the District highly recommends you attend. Due to the COVID-19 pandemic, bidders are notified that all state and local public health orders will be followed during the pre-bid conference. Depending on such requirements then in force, wearing of face masks and social distancing may be required. Parties interested in attending either the pre bid conference or the bid opening shall notify the District 24 hours prior to attending either event by contacting dmoore@goldengate.org.

Bidders bidding as the prime contractor shall possess a valid State of California Class A, General Engineering Contractor's License with a minimum experience of three (3) similar projects in scope and size, and one (1) public works projects in the past five (5) years at the time of Contract award. All subcontractors, if any, shall be properly licensed by the State of California to perform specialized trades. Pursuant to Public Contract Code Section 4104, each Bid Proposal must include the name and location of the place of business of each subcontractor who shall perform work or service, or install work for the prime contractor in excess of one-half of one percent (1/2 of 1%) of the bid price.

Bids must be accompanied by a deposit either in the form of cash, a certified or cashier's check, or Bidder's Bond, as described in the Contract Documents, which shall be applied to damages sustained by the District if the successful Bidder fails or refuses to enter into a contract awarded to it.

Bids shall be submitted on the District's Proposal Forms, including all attachments, and uploaded to the District's Procurement Portal: <https://ggbhtd.bonfirehub.com> and plainly marked with Bidder's name.

The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bid or in the bidding procedure. No Bidder may withdraw its bid for a period of ninety (90) days after the date of opening bids. Within two (2) working days of bid opening, a summary of Bidders' quotes will be available at the District's Procurement Portal website. To review the bid results, go to the District's Procurement Portal website: <https://ggbhtd.bonfirehub.com>

and look for Contract No. 2022-B-084. Each Bidder will be notified of award, if award is made.

The successful Bidder shall furnish a Performance Bond and a Payment Bond in amounts equal to one hundred percent (100%) of the total price of the Contract. District will retain five percent (5%) from each invoice/billing statement submitted in connection with the Contract. Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the District withholding

funds from progress payments (retention) during the Project.

The District hereby notifies all Bidders that it is the policy of the District to ensure non-discrimination on the basis of race, color, national origin, or sex in the award and administration of contracts.

Bidders are strongly encouraged to obtain Disadvantaged and Small Business Enterprise (DBE/SBE) participation on this Project. **DISADVANTAGED BUSINESS ENTERPRISES (DBEs) ARE, BY DEFINITION, CONSIDERED TO BE SBEs, AND ARE COVERED BY THE REFERENCES TO SBEs IN THIS DOCUMENT.** In order to achieve such participation, the District has developed procedures to remove barriers to DBE participation in the bidding and award process and to assist DBEs to develop and compete successfully outside of the DBE Program. These procedures include the establishment of a SBE Element of the District's Diversity Program for Contracts. The District has evaluated subcontracting opportunities for this Contract and determined that such opportunities exist and has established an SBE contract-specific goal of 9.2%. Bidders must meet the contract-specific SBE goal or demonstrate good faith efforts to do so. Bidders are encouraged to attend the pre-bid meeting to better understand the applicable DBE/SBE requirements. For DBE/SBE assistance, contact Artemis Davenport, DBE Program Administrator, at (415) 257-4581.

Contractor and all lower-tier subcontractors and suppliers performing covered work shall be required to submit certified payroll and labor compliance documentation to the District electronically using LCPtracker software.

In accordance with Section 1720 et seq. of the Labor Code, the general prevailing wage rates, as established by the Director of the California Department of Industrial Relations, will apply to this Contract. Information about prevailing wage rates for this Project is set forth in the Special Provisions. The prevailing wage rates established by the California Department of Industrial Relations are available at <http://www.dir.ca.gov/DLSR/PWD>. Hard copies can be viewed at the District's Engineering Office or requested by mail, addressed to: Prevailing Wage Unit, Division of Labor Statistics and Research, Department of Industrial Relations, P.O. Box 420603, San Francisco, CA 94142.

Should the general prevailing wage rates not specify a wage determination for a particular craft classification or type of worker, attention is directed to 8 C.C.R. 16202(b) regarding petitioning the Director of the California Department of Industrial Relations for a special wage determination. The District has made no request for such determination, as the District does not know the specific craft classifications or type of

workers intended by Contractor for this Project.

Contractor and subcontractors must be registered with the California Department of Industrial Relations pursuant to Labor Code Section 1725.5. This Agreement is subject to monitoring and enforcement by the DIR pursuant to Labor Code Section 1771.4. The Contractor must post job site notices, as prescribed by regulation. The Contractor shall furnish the records specified in Labor Code Section 1776 directly to the Labor Commissioner, monthly in a format prescribed by the Labor Commissioner.

Bidders' attention is directed to the requirements of the Occupational Safety and Health Administration of the U.S. Department of Labor, which requirements shall apply to all work to be done under this Contract.

Bid documents are available at no charge on the District's Procurement Portal at <https://ggbhtd.bonfirehub.com>. In order to download and respond to posted solicitations, Bidders are required to register on the District's Procurement Portal. Once registered the documents may be downloaded. Click on the "Open Public Opportunities" page, click View Opportunity next to the desired project.

Any revision to the Bid Documents will be made by a written addendum and be available on the District's Procurement Portal for download at no charge. Such addendum will become a part of the Bid Documents and be binding on all Bidders. Bidder's receipt of the addendum shall be acknowledged and so noted by each Bidder in the space provided on the Proposal Form. It is the responsibility of Bidder to check the District's Procurement Portal website for any Addenda that may be issued relative to this Contract.

Questions regarding technical information and clarifications shall be submitted in the District's Procurement Portal by clicking on the Opportunity Q & A tab of the message section of the project page. Such submissions shall be sent no later than eight (8) calendar days before bid opening. Note that only written clarifications issued by the District are binding on the District. The District will post all pre-bid questions and the District's responses on the District's Procurement Portal website under Reference Number 2022-B-084. Bidders are encouraged to check the procurement portal website regularly
