

Gavin Newsom forecasts a rosier California budget and banks on AI boom continuing

[Article originally appeared in www.calmatters.org]

By Yue Stella Yu, CalMatters

Gov. Gavin Newsom's office on Friday forecast a "modest shortfall" of \$2.9 billion for the upcoming fiscal year, down sharply from previous estimates in a nearly \$349 billion budget proposal that relies heavily on continued windfalls from tech and AI stocks.

The governor's 2026-27 budget proposal projects \$9 billion more in revenue than anticipated, banking on the AI-driven economy to last. It's significantly rosier than the grim outlook by the nonpartisan Legislative Analyst's Office, which in November projected an \$18 billion deficit.

"A downturn in the market is one of the top risks," said state Department of Finance Director Joe Stephanshaw.

The projected deficit could balloon to \$22 billion in fiscal year 2027-28, a problem the governor will address in an updated fiscal forecast in May, Stephanshaw said. Newsom's proposal is the opening salvo in months of budget negotiations that begin in earnest in June.

The abysmal outlook means the Legislature must begin to look for ways to tackle the long-term problem, perhaps by allowing the state to deposit more into its rainy day fund in good years, said Sen. John Laird, a Santa Cruz Democrat who chairs the Senate Budget Committee. He said he's concerned the AI-driven revenue cannot be maintained.

"We don't know if there's an economic downturn and how long it will last," Laird told CalMatters. "If there's not an economic downturn, we need to reduce the future deficits as much as possible in anticipation (of one)."

But Newsom's proposal for next year calls for spending nearly \$30 billion more than this year. It includes \$248.3 billion in the general fund, the primary account for state operations, up by \$18 billion.

The spike is primarily in education and health care, partly driven by the need to implement federal cuts to the Medi-Cal program and constitutional requirements to deposit portions of higher-than-expected revenue into education and state reserves.

Medi-Cal, for example, is expected to cost the state \$2 billion more in the current fiscal year and \$2.4 billion more next year, with \$1.1 billion just to cover the added costs under President Donald Trump's budget bill, according to Guadalupe Manriquez, the Department of Finance's health budget manager.

Other departments would see lower funding next year, although Stephanshaw said the budget proposes no major cuts and the apparent decreases are from the loss of one-time allocations.

Newsom wants to spend \$1.3 billion less on housing and homelessness next year, slashing the department's budget by more than half as one-time allocations run dry. He also cut nearly \$15 billion in funding for climate programs to bolster coastal resilience as sea levels rise, pre-

The 'Green' in Concrete: Decarbonizing Construction Materials

[Article originally appeared in www.forconstructionpros.com]

By Beth Williams

Construction sites hum with activity as cranes lift material and concrete trucks rumble through with drums turning. A scene repeated millions of times a day, across the globe, to create our roads and homes. Despite the constant activity, everything being done onsite right now is causing an uncomfortable reality. What will hold our civilization together is currently adding to its destruction.

With the vast majority of concrete utilized, around 70 percent of all construction materials, the carbon dioxide (CO₂) footprint produced by concrete is so large that it would rank 3rd in global CO₂ emissions, behind China and the U.S. as a country. The cement and steel manufacturing industries contribute about 8 percent each of the global CO₂ emissions. Combined, these two segments produce an incredible amount of emissions compared to other sectors of the econ-

omy. Every construction site is now challenged with the same question: "How do we build while continuing to destroy?"

There are a number of solutions from laboratories, start-up companies, and innovative construction companies that represent what industry analysts are labeling as the greatest shift in building materials since the development of the Roman Empire's concrete technology two thousand years ago.

The Concrete Problem

The primary ingredient of concrete — cement — is a key component in determining the environmental impact of concrete and how it will affect climate change. The production of portland cement involves the chemical processing of limestone and clay through calcination. Calcining limestone and clay requires heating up to 1,450° C and then cooling down again. This process produces very large amounts of CO₂ into the atmosphere. The second method of CO₂ production occurs from the chemi-

cal process of fully converting limestone into portland cement.

Because portland cement production is, by nature, a very difficult area in which to reduce carbon dioxide emissions, the cement industry has many issues in transitioning to renewable energy sources for the heat needed to produce cement.

Using alternative fuels will not solely resolve CO₂ emissions produced during the calcining process. At the same time, the construction industry is at a crossroads; the world is experiencing unprecedented growth in infrastructure development due in large part to urbanization occurring in developing countries. By 2050, it is estimated by the United Nations that nearly 2.5 billion people will move to urban centers, which will create a demand for construction similar to the amount of construction completed each month for 30 years, or basically a new New York City every month. We now need to build more concrete than we have ever needed to produce before.

The ongoing challenge of this issue has produced many new inventions. Some scientists are looking back into history to recover old practices. Consider, Roman concrete used to last for over 2,000 years but modern concrete can only last about 20 to 30 years before disintegrating. While Romans used volcanic ash, modern scientists have created their version using waste materials such as fly ash (a by-product of burning coal) or slag (a by-product from manufacturing steel). These alternative cement materials may replace up to 70 percent of portland cement and dramatically reduce greenhouse gas emissions, as well as improving durability.

Others are exploring completely different pathways. One example is the process known as carbon-cured concrete. Carbon is injected into the wet concrete mix and undergoes a chemical reaction with the cement during the curing phase of the project — permanently trapping carbon in the concrete.

CALIFORNIA SUB-BID REQUEST ADS

O. C. Jones & Sons, Inc.
1520 Fourth Street • Berkeley, CA 94710
Phone: 510-526-3424 • FAX: 510-526-0990

REQUEST FOR CITY OF RICHMOND LBE SUBCONTRACTORS AND SUPPLIERS FOR:

Parcel FM Capping and Grading Project
City of Richmond

BID DATE: January 15, 2026 @ 2:00 PM

We are soliciting quotes for (including but not limited to): Trucking, Temporary and Permanent Hydroseed and Erosion Control Measures, SWPPP, Clearing & Grubbing, Geotextile Fabric, and Construction Materials

Randall Husch (510-809-3481 rhusch@ocjones.com) is the estimator on this project and he is available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office or can be sent out via Building Connected. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 10:00 AM on the date of the bid. Quotes from LBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage LBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbizfinance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

Kiewit Infrastructure West Co.
4650 Business Center Drive • Fairfield, CA 94534
Attn: Brittany Borgert at norcal.bids@kiewit.com • Fax: 707-439-7301

Requests quotes from qualified Subcontractors, Service Providers, Consultants, and/or Suppliers seeking to participate for the following project in Yosemite National Park, CA:

Replace Tuolumne Meadows Wastewater Treatment Plant
Yosemite National Park, CA
Solicitation No. 140P2026R0001; YOSE 215363
Owner: National Park Services
Bid Date: January 16, 2026 @ 5:00 PM
Quotes NO LATER THAN January 9th, 2026 at 12:00 PM

Kiewit requests Small Business (SB), Small Disadvantaged Business (SDB), Historically Underutilized Business Small Business (HUBZone SB), Indian Small Business Economic Enterprise (ISBEE), Service-Disabled Veteran-Owned Small Business (SDVOSB), & (VOSB), Woman-Owned Small Business (WOSB) proposals/quotes for the following scopes, but not limited to:

Abatement • AC Paving • Acoustical Ceilings • Aggregates • Building Commissioning • Building Furnishings - Roller Shades • Building Insulation • Building Interior Specialties and Accessories • Building Signage • Bypass Pumping • Casework and Countertops • Cathodic Protection • Cellular Concrete, Grouting and Abandoned Pipe • Clearing & Grubbing/Tree Removal • Composite/Fiber Cement Siding • Cast-In-Place Structural Concrete • Concrete Pumping • Concrete Readymix (Supply) • Cranes & Hoists (Permanent) • Demolition • Dewatering/Bypass Pumping • Doors, Frames & Hardware • Drilling/Piling • Dump Fees • Electrical • Erosion Control Supplies/Sub • Fences & Gates (Permanent) • Fences (Temporary) • Fire Protection Specialties and Safety Equipment • Fire Suppression • Framing & Drywall • Glass & Glazing • Hazardous Waste Removal • HVAC • Jack & Bore / Pipe Bursting • Joint Sealants & Firestopping • Laboratory Space • Landscaping • Mechanical Equipment • Metal Decking • Metal Trusses • Minor Concrete • Misc Metals & Structural Steel • Overhead Colling Doors • Painting & Coatings • Piping & Valves • Piping Insulation • Potholing/Vacuum Truck • Precast Concrete Utility Structures • Precast Concrete (Structures) Wall Panels • Quality Control • Rebar • Resilient Flooring • Roofing • Safety Specialties • Shoring • Shoring Supplies • Site Security • Soldier Pile • Tiling • Trucking & Hauling • Water Truck • Waterproofing

Certified through, but not limited to, any of the following agencies:
www.mbdca.gov; www.epa.gov; www.sba.gov

Small Business Concerns can self-certify based on SBA Size Standards Tools.

Non-Small Business firms are encouraged to contract with a group of lower-tier Small Business Concerns or individual Small Business Concerns. Non-Small Business firms with quotes/proposal exceeding \$1.5million are encouraged to submit a Subcontracting Plan per FAR 52.219-8 & 9

Plans are available for viewing through BuildingConnected. Please email norcal.bids@kiewit.com to have your company added to our BuildingConnected database to be able to receive bidding information, Plans and Specifications.

Performance and Payment Bonds may be required for Subcontractors, and Supply Bond for permanent material Suppliers on this project. Bond requirement can be waived on a case-by-case basis.

Please contact Kiewit for more information. Bond premiums are reimbursable by Kiewit.
Please contact Kiewit for any assistance in bonding, insurance, equipment, materials and/or supplies.

Davis-Bacon Act and California Prevailing Wages Requirements applies.

Request for DBE Subcontractors and Suppliers for:
The OLSD Sewer Collection System Pipeline
Rehabilitation and Replacement Project Phase 9
Job No. 45-146.09

BID DATE: JANUARY 13TH, 2026 @ 2:00PM

We are soliciting quotes from all qualified and/or Certified Disadvantage Business Enterprise including MBE, WBE to provide bids/quotes for the following (including but not limited to):

Trucking, Traffic Control Services, SWPPP, Sweeping, Saw Cutting, Paving, Striping, etc., as well as sewer material suppliers such as HDPE, CIPP, Manholes.

Plans and Specs available via email at no cost to interested firms.
Subcontractors and suppliers are encouraged to submit bid proposals to Projects@andesconst.com
by January 7th, 2026.

REQUEST FOR SUBCONTRACTORS/SUPPLIERS/SERVICE PROVIDERS
County of Placer – Placer Parkway Phase 1 – Construction Project
Bid No. 20634

(General work description: construct 1.5 miles of new 4-lane roadway including: constructing remaining half of Whitney Ranch/SR65 Interchange, constructing a new bridge spanning Industrial Avenue and UPRR tracks, constructing a MSE retaining wall along the Rio Bravo power plant, constructing bridge approaches and grading; paving; applying signing and striping, erosion control, installing new waterline, and other items and details that are required by the plans, specifications & Special Provisions)

Revised Bid Date: February 03, 2026 at 2:00 PM
Engineers Estimate: \$106M

****This is an Electronic bid submittal****

****Scopes/Quotes not received by 11:00 AM on January 19th may not be reviewed/evaluated****

Flatiron Dragados Constructors, Inc. (FDCI) requests subcontractor/supplier/service participation for the following items of work, but not limited to: Construction Area Signs & Roadway Signs, Bridge Demo, Clear & Grub, Erosion Control, Landscaping/Irrigation, AC Paving, Cold Plane AC, CIDH, Joint Seal Assemblies, Post Tensioning, Rebar, Overhead Signs, Asphalt Dike/Curbs, Underground Utilities, Fences & Gates, Metal Railing, MBGR, Bridge & Roadway Concrete Barrier, Striping & Markings, Electrical, Minor Concrete, Aggregates including: CL2 AB, Rip Rap, Ready Mix Concrete, Concrete Pumping Services, Welded Steel Pipe, Underground Pipe Products including ACP & RCP, Misc. Metals, Iron & Steel, Trucking Services, SWPP Plan & SWPP Materials, Lead Compliance Plan, Geotextile Materials, Bridge Bearings, Form Liner, Underground Precast, MSE Wall Material, Street Sweeping and Traffic Control.

Caltrans Spec Section 2-1.11 IN-USE OFF-ROAD DIESEL-FUELED VEHICLE LIST. CARB Cert required from listed Subs.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact FDCI for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all firms. FDCI will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact FDCI for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

Project: 6B E Street Waterline Replacement and 9th St. Improvements Project
Owner: City of Patterson
Bid Date: February 12th, 2026 @ 2:00 P.M.

We are requesting quotes from all qualified MBE/WBE and all other Subcontractors and Suppliers but not limited to:

AGGREGATES, ASPHALT, CONCRETE MATERIAL, PIPE SUPPLIERS, AC DIKES, AC OILS, ASPHALT GRINDING, CONCRETE FLATWORK, DEMOLITION, EROSION CONTROL, SAWCUTTING, STRIPING, SWPPP, TRAFFIC CONTROL, TRUCKING.

Project Description:

The scope of work includes but is not limited to: installation of approximately 13,655 lineal feet of 6-inch PVC watermain, 3,940 lineal feet of 8-inch PVC watermain, 1,275 lineal feet of 10-inch PVC watermain, 3,165 lineal feet of 10-inch non potable watermain, one-inch service connections, meter installations and connections to onsite plumbing at each residence as shown on the plans, back flow preventers, fire hydrant services and installation of hydrants and abandonment of existing water mains. The new watermain will connect to the existing water distribution system at multiple connection points as shown on the plans. In addition, the Work includes furnishing all labor, materials, and equipment necessary to complete improvements to 9th Street. This includes the reconstruction of a new asphalt concrete section between the intersections of 9th Street & Las Palmas Avenue and 9th Street & Sperry Avenue, curb ramps at the Intersection of E Street and Las Palmas along 9th Street, new concrete drive approaches and associated concrete sidewalk improvements and aggregate base swales. Utility improvements consist of adjusting existing utility boxes and structures within 9th Street to grade. Signage and striping improvements consist of new centerline striping along 9th street, stop bars and crosswalk striping and the relocation of existing signage outside the proposed improvements.

REQUEST FOR QUOTES FROM CERTIFIED
SF Contract Monitoring Division (CMD Certified Local, Small & Micro-LBE's
SUBCONTRACTORS/SUPPLIERS FOR:

Folsom Area Stormwater Improvements - Harrison/Treat Box Sewer & Connecting Auxiliary Sewers
Contract No. WW-719CR

Owner: San Francisco Public Utilities Commission (SFPUC)
20% LBE Participation Requirement

BID DATE: January 22, 2026s at 2:00 PM

Flatiron Dragados West LLC is soliciting quotes from SF Contract Monitoring Division Local, Small & Micro-LBE SUBCONTRACTORS/SUPPLIERS for the following scopes of work, but not limited to Divisions 02, 03, 05, 09, 26, 31, 32, 33, 34 & 40 or: CAS, Concrete Demolition, Erosion Control, AC Paving, Cold Plane AC, AC Dike & Curbs, Rebar, Tie Down Anchors, Underground Utilities, Striping & Pavement Markings, Grind PCC Pavement, PCC Paving, PCC Demo, Ready Mix, Concrete Pumping, Trucking, HAZ MAT Trucking, SWPPP Plan, SWPPP Materials, Sheet Pile Installation, Dewatering, Vibration Monitoring, Asbestos Monitoring, Survey, Quality Control Testing, Cured-In-Place Liner Pipe, Water Utility Distribution Piping, Emergency Firefighting Water System (EFWS) Work, EFWS High Pressure Ductile Iron Gate Valves, V-Bio Polyethylene Encasement of Ductile Iron Pipe, Viscoelastic Joint Wrap, Removal of SFWD-Owned Valve Box & Cover, Installation of Steel Pipeline, Fabrication Steel Pipeline, Field Welding Steel Pipe, Excavation for Installation of Service Pipe By SFWD, Steel Pipe Appurtenances, Sanitary Work Practices & Disinfection of Water Utility Distribution, Groundwater Wells, Sanitary Sewerage Utilities, Cement-Mortar Lining of Steel Pipe, Cement-Mortar Lining of Steel Pipe In Place, Traction Power Poles, Overhead Cable Suspension, Overhead Cable Isolation, Overhead Special Work, Overhead Testing & Acceptance, Concrete Crack Repair, Concrete Spall Repair, Cast-In Concrete Anchors for DSBS, Concrete Reinforcing, Drilled Dowels & Anchors, Cast-In-Place Concrete, Cast-In-Place Curb Ramp Concrete - Site Work, Grouting, Fabricated Metalwork & Miscellaneous Items for EFWS Work, High Performance Coatings, Valve And Gate Actuators, Fiberglass-Reinforced Plastic Sluice Gates, Process & Facility Control System Testing, Instrumentation & Control Systems, Local Control Station & Control Panel Construction, Control System Equipment, Harrison Treat Box Sewer & Connecting Auxiliary Sewers Control Strategy, Electrical (for Sluice Gate Actuator), Basic Electrical Materials & Methods (for Traction Power), Low Voltage Electrical Power Conductors & Cables, Grounding & Bonding for Electrical Systems, Grounding, Raceway & Boxes For Electrical Systems, PGRS Conduit & System Components, Underground Ducts & Raceways - Electrical Systems, Identification For Electrical Systems, Overcurrent Protective Device Coordination Study (and Arc Flash Hazard Analysis), Commissioning of Electrical Systems, Wiring Devices and Enclosed Switches & Circuit Breakers.

The Local Business Enterprise ("LBE") participation requirement is 20% (CMD-Certified San Francisco LBEs ONLY). Flatiron requests that all Non-LBE Subs and Suppliers consider utilizing LBE firms as 2nd tier firms as part of their quotes to assist us in achieving the project goal. Please indicate any lower-tier LBE firm participation on your quote.

Information regarding the plans and specifications is available through the SFPUC website at <http://contracts.sfwater.org>. Quotes must be valid for same duration as specified by Owner for contract award. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Flatiron intends to work cooperatively with all firms for scopes of work you are licensed and qualified to perform. Scopes of work can be split to facilitate participation from certified firms. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Standard Subcontract Terms and Conditions and meet insurance requirements. A copy of our Standard Subcontract Terms and Conditions is available in electronic format upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron Dragados or any prior course of dealing between Flatiron Dragados and a bidder, and unless waived in writing by Flatiron Dragados, we reserve the right to require each bidder to provide payment & performance bonds assuring bidder's obligations to Flatiron Dragados in the amount of 100% of the bid. We will reimburse the bond premium cost up to, and not to exceed 2%. The surety on the bonds must be a California admitted surety.

Please email all quotes to NorCalBids@FDcorp.com or to our BID FAX at 707-746-1603.

Gavin Newsom forecasts a rosier California budget and banks on AI boom continuing

Continued from page 1

pare for wildfires, ensure water security and develop solar and wind energy projects, but preserved an annual \$1 billion from the renewed cap-and-invest program for high-speed rail.

Newsom's budget proposal "dodges the harsh realities" of the federal cuts and doesn't go far enough to counter them, said California Budget and Policy Center executive director Chris Hoene in a statement.

"Gov. Newsom's reluctance to propose meaningful revenue solutions to help blunt the harm of federal cuts undermines his posture to counter the Trump administration," he said. "The proposal will leave many Californians without food assistance and health care coverage."

Republican lawmakers blasted Newsom's proposal as kicking the can down the road.

"This is more of the same from a lame-duck governor content on leaving the rest of us to pick up the financial pieces when he leaves office," said Senate Minority Leader Brian Jones of San Diego.

Bolstering the rainy day fund

Nodding to "long-term structural challenge," Newsom wants to deposit \$3 billion into the state's rainy day fund Budget Stabilization Account, as well as \$8.6 billion into two other reserve accounts. He also proposed spending \$11.8

billion over the next four years, including \$3 billion this upcoming year, to pay down the state's pension liabilities.

"There are encouraging signs in the California economy," Newsom said in a written statement accompanying the budget. "Yet history teaches us that prosperity, if taken for granted, can vanish as quickly as it arrives. California's responsibility is to act with steady hands and anticipate future instability."

Newsom did not attend Friday's budget presentation. He painted a rosy picture of California's fiscal future during his State of the State address Thursday. Flashing top-line numbers, the Democratic governor touted billions of dollars more in revenue, proposed new investments in education and pledged more toward the state's reserves and pension debt.

Education wins under Newsom's plan

Newsom's budget calls for \$350 million more for the University of California and \$365 million more for the California State University system, fulfilling Newsom's 2022 promise to increase that spending by 5% annually for five years.

It's a far better position for the systems compared to last year, when Newsom sought to reduce funding for the UC and CSU by nearly \$800 million combined. The systems fought off those cuts.

The funding from Newsom's promise has helped the UC increase the number of California resident students it enrolls by a total of 10,000 undergraduates since 2021.

California would also spend more on financial aid, which would benefit hundreds of thousands of students eligible for tuition waivers as well as scholarships for the middle class.

He also proposed no cuts to K-12 schools and preserved many existing programs, increasing per-pupil spending slightly to \$27,400. The proposal also includes a \$509 million increase in special education funding.

Newsom wants to fully fund the state's universal transitional kindergarten program and provide universal before and after-school programs at elementary schools. The TK program will cost \$1.9 billion annually, according to his proposal. Another \$1 billion will go toward adding high-needs community schools.

Immigrants to take a hit in Medi-Cal

Beginning October 2026, the federal government will cut federal Medi-Cal funding for certain immigrants including refugees, asylees and survivors of trafficking. In response, California's budget proposal would transition this group — approximately 200,000 immigrants in the state — to a restricted program that covers emergen-

cies and pregnancy care only.

This would essentially divide immigrants into different levels of care. California currently offers state-funded, full-scope Medi-Cal to undocumented immigrants. Asked about the confusion it would cause to offer different coverage, finance officials blamed the federal government for the change.

Stephenshaw on Friday said the state couldn't afford the \$786 million it would cost in 2026-27 to provide full benefits for this group, a cost that would rise to \$1.1 billion in future years.

Health advocates say they had assumed some immigrants would move into state-funded comprehensive coverage, like other immigrants in the state.

"You can imagine for the population that we're talking about, we're talking about someone who has arrived as a victim of trafficking who desperately needs a spectrum of health care services," said Kiran Savage-Sangwan, executive director of the California Pan-Ethnic Health Network. "The state is now saying ... 'We are not going to treat them the same as other immigrants with unsatisfactory immigration status, we're going to treat them differently.'"
