

BuildingConnected and Assemble join Autodesk Construction Cloud to revolutionize preconstruction

[Article was originally posted on blog.buildingconnected.com]

By Tony Faccenda,

BuildingConnected was founded with the mission of building a network that connects every business and professional in commercial construction. We aimed to fix this fragmented industry by creating digital tools to promote better collaboration within organizations and across the industry as a whole.

Today, we're thrilled to announce that we're officially joining Assemble, BIM 360, and PlanGrid for the launch of a new unified and connected construction technology platform: Autodesk Construction Cloud™.

Through our combined capabilities, Autodesk Construction Cloud gives teams what they need to connect people and data from design through operations. You can read all about the many exciting product updates across our products on the new Autodesk Construction Cloud blog.

Our best-in-class preconstruction solutions empower owners, general contractors, and subcontractors to move from design to build by connecting the following core construction workflows:

- Design collaboration
- BIM coordination
- Quantification
- 3D estimating
- Bid management
- Qualification

To further optimize the preconstruction process, BuildingConnected and Assemble are proud to unveil four new features that enable teams to better communicate and collaborate.

Assemble

- Expanded support for Autodesk design solutions
- Enhanced management of properties

BuildingConnected

- 2D quantity takeoffs in Bid Board Pro
- Automated backlog sync for TradeTapp

Assemble

Expanded support for Autodesk design solutions

Assemble has released support for the new 2020 versions of AutoCAD, Revit, and Navisworks. This provides teams with enhanced support for an increasing number of file formats and access

to multidisciplinary design data. Assemble users can condition, query, and connect BIM data to key workflows, including design reviews, takeoffs, estimating, change management, value engineering, and schedule management. Publishing the models to the cloud allows project teams to collaborate and ensure that everyone is working on the latest files, avoiding project risks.

Enhanced management of properties

Assemble customers benefit immensely by enhancing the information contained in BIM models to facilitate and standardize construction workflows such as cost codes, work breakdown, project sequencing, value engineering, schedule data, and more. Now, Assemble has enhanced its tools to enable users to group, manage, and import properties from both past projects and external sources to increase time savings when starting new projects.

BuildingConnected

2D quantity takeoffs

Quantity takeoffs play an important role during the estimation phase of preconstruction. Takeoffs help estimators determine actual costs to ensure a project remains within scope. Still, they often struggle to easily and quickly identify quanti-

California Sub-Bid Request Ads

Is requesting quotes from certified and qualified DBE Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

SUBS/SERVICE PROVIDERS

INVITATION TO BID

**Request for Quotes from Certified DBE
Subcontractors and Suppliers**

**Project: Route 57/60 Separation
Contract No. 07-304504**

Owner: Department of Transportation (CALTRANS)

BID SUBMITTAL DATE:

January 15, 2020 at 2:00 PM

Federal-Aid Project ACHSNH-P057 (069) E

Request for quotes from Certified DBE's Subcontractors and Suppliers for the following, but not limited to scopes of work: Aggregate Supply, Asphalt Dike, Asphalt Paving, CIDH Pile, Clear and Grub, Cold Plane AC, Concrete Barrier, Concrete Supply, Construction Area Signs, Drill and Bond Dowel, Electrical, Fencing, Grind Existing Pavement, Guardrail, Hydroseeding, Landscape and Irrigation, Minor Concrete, Misc. Iron and Steel Supply, Misc. Metals Supply, Overhead Signs, PCC Material Supply, Pipe Supply, Pre/Post Construction Survey, QC Testing, Railing, Reinforcing Steel, Ready Mix Concrete Supply, Roadside Signs, Rock Slope Protection, Saw and Seal PCC, Street Sweeping, Striping, Surveys, Underground.

**PLEASE SUBMIT QUOTES BY FAX TO
(760) 471-4860 OR
EMAIL TO SoCalBids@FlatironCorp.com**

Plans and specifications are available, at no cost from Caltrans website: <http://ppmoe.dot.ca.gov/des/oe/weekly-ads/specs-ntb.php?c=07-304504> (Registration Required). Additionally, plans and specifications are available at Flatiron's San Diego, CA and Chino Hills, CA offices. Please call to make an appointment to view plans and specifications.

This project has a 18% DBE Goal. In addition to request for participation from Certified DBE subcontractors and suppliers, Flatiron requests non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are required to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Flatiron analyzes and considers each DBE quote, including those that are broken down into economically feasible units to facilitate bidding. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request. Additionally, please contact us if you require technical assistance.

Quotations must be valid for same duration as specified by Owner for contract award.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and insurance requirements. A copy of our Standard Subcontract Terms and Conditions is available in electronic format upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%. The surety on the bonds must be a California admitted surety. **WE ARE AN EQUAL OPPORTUNITY EMPLOYER.**

What Makes Up a Small Business Credit Report?

A business credit report is an essential tool for banks, lenders, suppliers and credit grantors in assessing the creditworthiness of small businesses. The information contained in a report provides crucial details needed to make informed credit decisions.

It illustrates a company's ability to meet its contractual obligations based on payment history and public records. The data in a small business credit report is vital to getting the funding you need to successfully run and grow a business. It impacts the following financial decisions:

- How much business credit a supplier will extend to you
- What repayment terms you'll receive
- What interest rates you'll pay
- How much credit or funding a bank or lender will extend to you
- How your customers view your business
- What insurance premiums you'll pay

Business credit reporting agencies — such as Dun & Bradstreet, Experian Commercial, and Equifax Small Business — collect data on millions of businesses and compile the data into a business credit report. All the information collected in a company's report is used to calculate a business' credit rating.

The typical information that makes up a small business credit report includes:

- Company information including number of employees, sales, ownership, and subsidiaries
- Historical data of the business
- Business registration details
- Government activity summary
- Business operational data
- Industry classification and data
- Public filings (liens, judgments, and UCC filings)
- Past payment history and collections
- Number of accounts reporting and details

Typically, all business credit reports have the same type of information. Although each business credit reporting agency has its own process for collecting and verifying data, the main data sections are pretty standard.

The first thing that displays on a small business credit report is the business profile or company information section. This section lists the company's legal name, address, incorporation details, ownership, subsidiary details, and number of employees.

Other standard information listed in the business credit profile section includes financial data. This data includes annual sales and may include a financial statement.

The payment history section shows a company's payment history for the past several years. This includes invoice activity, outstanding balances, payment terms, and credit limits.

The public records section lists legal filings, bankruptcies, collections, and UCC filings. If a business has legal judgments or collection accounts reporting in this section, a creditor may view the business as being in financial distress and may be hesitant to work with it.

Finally, based on the information listed in a small business credit report, each business credit agency will issue a business credit score or rating that predicts payment behavior.

Business credit reports and scores are a measure of a company's financial stability. The main goal for small business owners should be to establish records of timely payments with all of their financial obligations in order to establish a strong business credit report and score.

BuildingConnected and Assemble join Autodesk Construction Cloud to revolutionize preconstruction

Continued from page 1

ties and costs based on files received from general contractors. If estimators are lucky enough to receive updated 2D drawings, they still have to manage multiple tools to extract these costs.

Now, users can easily perform 2D takeoffs in Bid Board Pro as they manage their bids, eliminating costly errors and significantly reducing their take-off time to secure more work on time. Rolling out in the next couple of weeks, the 2D takeoff tool helps subcontractors organize takeoff items, draw and measure in plans, and view all information stored in the cloud. The new feature removes the need to enter each component and quantity into a list manually, and eliminates having to print, scan, and upload new files.

Automated backlog sync in TradeTapp

When it comes to evaluating construction risk, looking at subcontractor backlog is crucial. With-

out a thorough understanding of backlog data, general contractors are left guessing if a subcontractor is stretched too thin, might struggle to meet schedule commitments, or is at a higher risk to default. Making the process of tracking internal backlog easy requires some configuration of internal systems such as enterprise resource planning (ERP) and accounting systems.

Without these systems seamlessly transferring data to one another, risk teams lose time referencing several systems to have the information they need to complete a qualification review appropriately. TradeTapp now enables general contractors to automate backlog syncing with their ERP and accounting systems, speeding up the subcontractor qualification process, and improving risk analysis. Once internal backlog data is pushed to TradeTapp, automatic alerts are triggered to ensure the subcontractor is still within the internal

total limits set. This replaces the need for general contractors to email files or manually enter data.

A new era of connected construction

Autodesk Construction Cloud includes more than 50 new product enhancements, as well as deeper integrations between each product to allow data to flow across all stages of construction. The ultimate goal? Make the day-to-day lives of construction professionals easier and more enjoyable, while maximizing efficiency and profit.

To learn more about Autodesk Construction Cloud, download this guide and check out new product features from PlanGrid and BIM 360.

Plans and specifications may be reviewed at our offices located at 11555 Dublin Boulevard, Dublin, CA or 7700 College Town Drive, Sacramento, CA, or at your local Builders Exchange, or reviewed and downloaded from the ftp site at <ftp://ftp%25desilvagates.com:f7pa55wd@pub.desilvagates.com> (if prompted the username is ftp@desilvagates.com and password is f7pa55wd) or from the Owner's site at <http://www.bidexpress.com/>

Fax your bid to (925) 803-4263 to the attention of Estimator. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DeSilva Gates - Myers JV is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DeSilva Gates - Myers JV is an Equal Opportunity/Affirmative Action Employer.

Requesting Project Assistance from DBE/MBE/WBE and Other Business Enterprises:

DMZ Builders is bidding the following project as a Prime Contractor and is seeking subcontractors and vendors to assist with the project by submitting quotes for their trades or products.

**Project: 34.5kV Cable Replacement and Fiber Optic Cable Installation, A-Line, ACO to AUC
Contract: 15EJ-180**

Owner: San Francisco Bay Area Rapid Transit District (BART)

Bid Date: January 21, 2020 @ 2:00pm

Services Needed: Construction Survey, Construction Area Signs, Traffic Control, SWPPP, Temporary Erosion Control, Site Security, Janitorial, Trucking, Earthwork, Sitework, Drainage, Underground Utilities, Fencing, Concrete Foundations, Reinforcing, AC Paving, Electrical, Communication, Fiber Optic, Traction Power, Train Control, Trackwork, Quality Control, Testing.

Plans and specifications are available to interested firms via BART's on-line procurement portal or can be viewed at DMZ Builders Concord, CA office by contacting the DMZ office to make an appointment.

DMZ Builders is a union contractor. Subcontractors must provide their active CSLB license number and DIR registration number with their quote. Subcontractors will be required to execute DMZ Builders standard subcontract terms and conditions or purchase order agreement (for suppliers), both available for review upon request, and meet insurance requirements, including waiver of subrogation. Subcontractors, at DMZ's discretion, may be required to provide payment and performance bonds for 100% of the subcontract value. DMZ will reimburse bond premium at actual cost, not to exceed 2.0%. Project requires paying prevailing wages and submitting certified payrolls. All subcontractors must sign BART's project stabilization agreement prior to participating in the project.

For assistance in obtaining bonding, lines of credit, insurance, equipment, supplies and materials, technical assistance, or any other coordination required for the project, please contact Richard Zito by phone at (925) 826-5387, by fax at (925) 826-5766, or by e-mail at estimating@dmzbuilders.com. DMZ will work with interested subcontractors and suppliers to identify opportunities to divide the work into economically feasible packages and intends to cooperate with all qualified firms seeking work on the project.

Lead Estimator: Art Patamalai • Email: Art.Patamalai@kiewit.com

Owner: Inland Empire Utilities Agency

Project Name: Regional Water Recycling Plant No. 5 (RP-5) Liquids Treatment Expansion
to 22.5 MGD and Solids Treatment Facility
Project Nos. EN19001 & EN19006

Location: Inland Empire Utility Agency's Regional Plant No. 5, east of and adjacent to
IEUA's headquarters at 6075 Kimball Avenue, Chino, CA 91708

Bid Date: February 20, 2020 at 2:00 p.m.

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE), including Minority Business Enterprises (MBE), Woman Business Enterprises (WBE), Small Business Enterprises (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firms (LSAF), Historically Underutilized Business (HUB) Zone Small Businesses and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBEs must provide evidence of certification by the U.S. Environmental Protection Agency (US EPA), the Small Business Administration (SBA), the CA DOT DBE Certification Program (CUCP), Tribal, State, and Local Governments, or Independent Private Organization Certifications.

The **Regional Water Recycling Plant No. 5 (RP-5)** project involves the construction of the upgrade and expansion of the Agency's existing RP-5 plant from a conventional activated sludge wastewater treatment plant to a 22.5 MGD water recycling treatment plant as shown and specified and with the capability of being further expanded to 30 MGD in the future. The major items of WORK to be performed are categorized into the liquids treatment processes, solids treatment processes, common facilities, and off-site facilities, as further described.

Kiewit is requesting quotes for various areas of work including but not limited to: Dewatering, micro tunneling, asphalt paving, curbs and gutter, fences/gates/guardrails, landscaping contractors, concrete reinforcing installation, concrete pumping, concrete drilling and saw-cutting, concrete rehabilitation, masonry work, welding services, metal deck, damp proofing and waterproofing, membrane roofing, joint sealer, metal doors and frames, overhead doors, plaster and gypsum board, painting and coating and electrical work.

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of SmartBid system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office.

This is a public works project and is subject to state prevailing wage rates. The Project is financed in part by the Clean Water State Revolving Fund (CWSRF) and the Water Infrastructure Finance and Innovation Act ("WIFIA") administered by the EPA and is therefore subject to the American Iron and Steel ("AIS") Provisions, DBE Program requirements and the Davis-Bacon Related Acts.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers and teamsters. Kiewit will consider quotes from any and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact our Lead Estimator.

Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.
