

## California shouldn't let oil companies rewrite refinery safety rules

[ Article originally appeared in [www.calmatters.org](http://www.calmatters.org) ]

By Marie Choi and Nick Plurkowski, CalMatters

In recent months, a string of refinery fires, chemical releases and other disasters has put Californians on edge. Yet California regulators are quietly proposing to weaken the state's safety rules in a secret deal with oil lobbyists — putting us all at greater risk.

On Jan. 15, regulators will hold a public hearing at the state's Occupational Safety and Health Standards Board meeting in Sacramento on changes to California's Process Safety Management regulations, an issue with life-or-death consequences for workers and nearby communities.

These regulations exist to keep people safe. After the 2012 Chevron refinery explosion in Richmond sent a massive fireball into the sky and sent thousands of residents to seek medical help, California strengthened its refinery safety rules.

The reforms established crucial safeguards: rigorous oversight of hazardous materials and processes, common-sense standards ensuring meaningful worker participation in safety processes and engineering reviews, and authority for workers to stop unsafe operations.

We represent communities living next to refineries and the workers who operate them. Together, we are sounding the alarm — California must not allow oil billionaires and their lobbyists to rewrite refinery safety rules.

Recent disasters at refineries across California — including major fires and explosions in Martinez, Benicia and El Segundo in 2025 alone — show that the risks remain serious and urgent.

As oil executives disinvest from maintenance at aging refineries, the risk of deadly disasters increases, making these regulations more important than ever.

Refinery disasters don't just affect workers and local communities. They impact Californians across the state when we fill up our tanks. Major accidents often disrupt fuel supplies, driving up gasoline prices.

The proposed OSHA changes stem from a settlement between state regulators and oil industry lobbyists — a secret deal crafted behind closed doors, excluding workers and frontline communities. The changes would erode critical safety protections and give oil companies more control over the rules meant to hold them accountable.

The most dangerous change targets a crucial aspect of refinery safety, employee participation.

The proposal would allow oil executives to handpick workers to participate in developing safety plans and conducting critical safety reviews. In practice, that means a worker who raises concerns about corroded pipes or unsafe chemical levels could be replaced with someone more willing to stay silent.

This defies common sense. Refinery workers are responsible for the day-to-day operation and maintenance of these facilities.

## Construction Employment Increases In Small Majority Of Metro Areas In November; Survey Shows Contractors Have Subdued Expectations For 2026

[ Article originally appeared in <https://news.agc.org> ]

Just over half of metro areas added construction jobs between November 2024 and November 2025, according to an analysis by the Associated General Contractors of America of new government employment data. Association officials noted that the employment data is consistent with the results of a survey they released last week that found contractors less optimistic than a year ago about growth prospects for most project types.

“Construction hiring has slowed in many parts of the country as owners have put projects on hold,” said Ken Simonson, the association's chief economist. “While a majority of contractors expect to add workers in 2026, there are likely to be fewer markets than a year ago with

expanding opportunities.”

Between November 2024 and November 2025, 188 metro areas or 53 percent added construction employees. Houston-Pasadena-The Woodlands, Texas added the most construction jobs (5,700 jobs, 2 percent), followed by Washington, D.C.-Md. (5,600 jobs, 11 percent); Kansas City, Mo.-Kans. (5,200 jobs, 8 percent); and Minneapolis-St. Paul-Bloomington, Minn.-Wis. (5,000 jobs, 5 percent). The largest percentage gains—12 percent—occurred in Kankakee, Ill. (200 jobs) and Owensboro, Ky. (300 jobs), followed by 11 percent gains in Wilmington, N.C. (1,500 jobs) and Washington, D.C.-Md.

Construction employment declined over the year in 122 metro areas and was unchanged in 50 areas. The largest job loss occurred in New

York City (-8,600 jobs, -6 percent), followed by Riverside-San Bernardino-Ontario, Calif. (-8,500 jobs, -7 percent); Las Vegas-Henderson-North Las Vegas, Nev. (-7,000 jobs, -9 percent); Los Angeles-Long Beach-Glendale, Calif. (-6,900 jobs, -5 percent); and Nassau County-Suffolk County, N.Y. (-5,600 jobs, -7 percent). The largest percentage losses, -9 percent, occurred in Las Vegas-Henderson-North Las Vegas, Nev. and Newark, N.J. (-3,800 jobs); followed by 8 percent declines in Hanford-Corcoran, Calif. (-100 jobs); Grants Pass, Ore. (-100 jobs); and Bellingham, Wash. (-100 jobs).

Association officials noted that the association's 2026 Construction Hiring and Business Outlook Survey, conducted with Sage, found 63 percent of contractors expect to expand

their headcount in 2026, compared to 69 percent that expected to do so in 2025. Conversely, 15 percent expect to lower their headcount, up from 10 percent with that view in 2025. They noted that the association is pushing Congress to pass a new highway and transit bill this year, address workforce shortages and streamline federal reviews and the permitting process to help the construction industry.

“Federal officials have an opportunity to support construction demand while making needed enhancements to the overall economy,” said Jeffrey D. Shoaf, the association's chief executive officer. “That is why we will be busy advocating for measures to boost demand and address chronic labor shortages.”

## California shouldn't let oil companies rewrite refinery safety rules

Continued from page 1

They know which metals are used in each process and how much acid or additives can be used. They know which chemicals corrode and rip holes through pipes. Their knowledge is essential to preventing disasters.

Other revisions would reduce oversight of hazardous chemicals, narrowing what companies are required to analyze and fix.

These dangerous and carcinogenic substances don't disappear just because we decide to look the other way. They remain on-site, threatening workers and surrounding neighborhoods.

Communities like Richmond and Carson are already deeply impacted by day-to-day refinery pollution. They experience elevated rates of asthma, cancer and other chronic illnesses. Explosions and toxic accidents exacerbate these risks.

The existing safety rules were built with worker input for a reason. Refinery workers want safe jobs. Refineries are inherently hazardous, and a single failure can mean severe injury or death. Workers must be able to select their own representatives who understand refining processes, prioritize environmental health and safety and who will not cave to corporate pressure.

Luckily, this deal can still be stopped. Governor Newsom's regulators should reject these indus-

try-driven rollbacks and work openly with workers and residents.

The future of safety at California's refineries should be defined by public voices — not oil billionaires and their lobbyists.

Eastern Contra Costa Transit Authority (ECCTA), a Joint Powers Agency (JPA) located in eastern Contra Costa County, California, is accepting sealed bids from qualified firms for HVAC preventative maintenance and as-needed repairs for a five-year period at 801 Wilbur Avenue, Antioch, California. This project shall include the furnishing of all labor, equipment, materials, testing, tools, training, and other services as required by the Scope of Work section and other contract documents.

#### Pre-Bid Conference

A pre-bid conference will be followed by a site tour at 10:00 a.m. local time, on Thursday, January 15 in the ECCTA boardroom located at the address above. A site tour will be conducted after the meeting, weather permitting. All prospective bidders and subcontractors are encouraged to attend. The purpose of the site tour is to acquaint the bidders with any and all conditions at the work site.

#### Deadline for Receipt of Bids

Sealed bids will be received by Eastern Contra Costa Transit Authority (ECCTA) until 2:00 p.m. local time, on Monday, February 9 at ECCTA's facility located at 801 Wilbur Avenue, Antioch, CA 94509. Bids received after the said time or at any other place other than the time and place stated in this IFB will not be considered. Bids must be received on the enclosed ECCTA bid form with the required certification forms listed in the bid documents. Bids submitted on any other forms will be considered non-responsive and will be rejected.

#### Bid Documents/ECCTA Representative

Copies of the IFB documents may be obtained from the following ECCTA representative:

Joe Chappelle  
Manager of Administrative Services  
Eastern Contra Costa Transit Authority  
801 Wilbur Avenue, Antioch, CA 94509  
Fax: (925) 757-2530  
[procurement@eccta.org](mailto:procurement@eccta.org)

Copies of the IFB documents may also be obtained by visiting the following link: <https://www.bidexpress.com/businesses/72695/home>. New users to the Bid Express portal will be required to complete a free registration before receiving access to the IFB documents.

Copies of the RFP documents may also be obtained by visiting ECCTA's website at <https://trideltatransit.com/work-with-us/procurement/>

#### Contractor License Requirements

In accordance with provisions of California Public Contract Code section 3300, ECCTA has determined that the contractor shall possess and maintain valid State of California Class C-20 contractor's license and all other licenses necessary at the time the bid is submitted. Failure to possess the specified license shall render the bid non-responsive.

#### Legal Requirements

This contract may be subject to a grant contract between the Metropolitan Transportation Commission (MTC). The contract is subject to laws and regulations governing the use of such funds. Bidders will be required to certify that they have not been suspended or debarred from participation in federal or state funded contracts. Full compliance with applicable Safety and Health Standards, DBE requirements, Equal Employment Opportunity and Americans with Disabilities Act laws and regulations will be required of the successful bidder.

ECCTA has established a Disadvantaged Business Enterprise (DBE) program in accordance with regulations of the U.S. Department of Transportation, 49 Code of Federal Regulations (CFR) Part 26, and as a recipient of fed-

eral financial assistance, ECCTA has signed an assurance that it will comply with 49 CFR Part 26. As such, ECCTA hereby notifies all bidders that it will affirmatively ensure that in regard to any contract entered into pursuant to this IFB, Disadvantaged Business Enterprises (DBE) will be afforded full opportunity to submit a bid in response to this request and will not be discriminated against on the basis of race, color, sex, or national origin in consideration for an award and fully encourages all bidders to seek DBE participation in their bids.

#### Prevailing Wages

Subject to Labor Code Section 1771.1, as amended by SB 854, this bid is subject to prevailing wages compliance monitoring and enforcement by the Department of Industrial Relations (DIR).

ECCTA will only award this bid to contractors (including listed subcontractors) that are currently registered with the DIR and qualified to perform public work pursuant to Labor Code Section 1725.5.

Pursuant to Section 1770, et seq. of the California Labor Code, the successful bidder and all subcontractors shall pay not less than the prevailing rate of per diem wages as determined by the Director of the DIR. A copy of such prevailing rate of per diem wages is included in the bid documents.
