

Digital Transformation in Construction Management and Real-Time Operational Control

[Article originally appeared in www.constructionexec.com]

By Construction Executive

Monitor projects from conception to ribbon cutting and manage jobsite operations throughout project duration in real time.

The digitalization of the construction industry is offering advantages that reach further than contractors may have initially anticipated. The ability to monitor projects from conception to ribbon cutting and manage jobsite operations throughout project duration in real time allows influence over the workforce, project review processes, bonding capacity, project outcome and more. Construction Executive sat down with Anton Mialeshko, a construction executive and project management professional with over 15 years in the construction and development industry, to discuss several facets of the sweeping influence of real-time operation control on and off construction jobsites.

Digital transformation is discussed everywhere in construction. What does it actually mean in practice?

In practice, it means fewer surprises. For many contractors, “digital transformation” sounds like a technology conversation. In reality, it is a control conversation. Construction companies have always relied on experience, project managers’ judgment and periodic reporting. That approach worked when markets were stable and growth was incremental.

Today, most nonresidential contractors are running several complex projects at once. Labor

availability shifts week to week. Material commitments change quickly. Scope adjustments move through multiple layers of approval. If leadership receives information only at fixed intervals, it is already reacting to something that has been developing for days or weeks.

Digital transformation, when implemented properly, shortens the distance between what is happening in the field and what executives see at the portfolio level.

Why is real-time visibility more important now than it was five or 10 years ago?

Volatility has increased. That changes the math. In a stable pricing environment, small inefficiencies could often be absorbed. Today, margin compression happens quickly. A procurement delay combined with overtime labor and a pending change order can materially affect profitability before the issue is visible in traditional reporting cycles.

In one commercial portfolio, delayed reporting contributed to cost variance approaching 9% midway through execution. After implementing integrated dashboards that connected labor hours, committed material costs and change-order exposure, variance in comparable projects declined to approximately 3%–4%. The difference was not better craftsmanship. It was earlier visibility.

When deviation is identified in its early stages, it can be managed. When it surfaces late, it becomes damage control.

Small California communities deserve protection from big polluting manufacturers

[Article originally appeared in www.calmatters.org]

By Beverly Whitfield and Christina Velazquez, CalMatters

Rushed decisions and backroom deals led to one of the worst rollbacks of environmental protections in California’s recent history during the last legislative session.

Senate Bill 131, which the Legislature passed and the governor signed in June, contains a number of exemptions to the California Environmental Quality Act, or CEQA, including one for advanced manufacturing.

That exemption makes workplaces more dangerous, increases the risk of toxic contaminants in already polluted neighborhoods and prevents workers, communities and governments from holding corporations accountable to protect community benefits, good jobs and safe places to live.

Since 1970, CEQA has required public disclosure of any environmental harms a proposed project could cause and the adoption of mitigating measures to reduce that harm before public agencies can approve or fund a project.

But within SB 131, CEQA exemptions could fast-track some of the most polluting projects in the state and lead to dangerous facilities popping up, with no environmental review or public input. These exemptions allow for a range of industrial facilities, including strip mining, refineries and chemical manufacturing to locate virtually next door to homes and schools, with dramatically scaled back environmental protections and little public notice.

This law will not harm all California communities equally. It will be an attack on lower-income communities of color that consistently get harmful industrial projects.

Pixley, our community, has fewer than 5,000 people and is severely disadvantaged. We’re already facing disproportionate impact from various pollution sources, including emissions from transportation, agricultural operations, the production of factory farm gas and poor water quality.

In 2024, Tulare County approved an experimental hydrogen project in our community, with no prior environmental review, despite its stated plans to produce and store large quantities of hazardous and explosive materials.

We and a group of our neighbors challenged the county’s approval of the project, and the developers were instructed to do an environmental review to determine what the impacts would be on our already overburdened town.

Without the protections of CEQA, we would have another hazardous facility surrounding our small town. SB 131 undoes decades of environmental protections in the name of expediting industrial development, at tremendous cost to public health and the environment. Pollution effects are already costing Californians billions of dollars a year in health care and cleanup costs, with the highest burdens on low-income communities of color.

Eliminating or severely curtailing CEQA review strips communities like ours of opportunities to challenge polluting projects proposed for our neighborhoods. Without an environmental review, how can a developer ensure safeguards are in place to protect a community from impacts?

It is abhorrent that environmental justice communities now won’t even get the bare minimum — transparency and a review of environmental harms — from massive industrial projects. Instead of having commonsense environmental review at the

start of a project, developers will build resource-intensive, polluting projects with minimal oversight or health protections.

Gov. Gavin Newsom and California legislators have traded the health and wellbeing of their constituents to score points with polluting industries.

Since then the Assembly and the Senate have both introduced bills nodding to their intention to correct the most egregious components of SB 131. This is a key moment for legislators to ensure that protections for public health, safety and the environment remain intact for communities like ours throughout California.

We expect more from our legislative leaders. They shouldn’t waste this opportunity to right the wrongs of last-minute decision-making, which would have negative consequences on California communities for decades to come if allowed to stand.

CALIFORNIA SUB-BID REQUEST ADS

O. C. Jones & Sons, Inc.
General Engineering Contractor
1520 Fourth Street • Berkeley, CA 94710
Phone: 510-526-3424 • FAX: 510-526-0990

REQUEST FOR DVBE SUBCONTRACTORS AND SUPPLIERS FOR:
American High School & Kennedy High School Track & Field Replacement
Fremont Unified School District
Bid # 526-01-27-26
REVISED BID DATE: March 24, 2026 @ 2:00 PM

We are soliciting quotes for (including but not limited to): Trucking, Temporary Erosion Control Measures, QC/QA Testing, Concrete, Fencing, Lime Treatment, Striping, Survey, Seal Coat, SWPPP, Electrical, Landscaping, Underground, and Construction Materials

Jason Martin (510-809-3432 jmartin@ocjones.com) and Donat Galicz (510-809-3498 dgalicz@ocjones.com) are the estimators on this project and are available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office or can be sent out via Building Connected. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 12:00 PM on the date of the bid. Quotes from DVBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DVBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbizfinance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

I & A Contractor Inc. is seeking for DVBE subcontractors for roof demolition at

207 King Street, Suite 300, San Francisco, CA 94107, (415) 978-1000
Invitation to Bid (ITB) for MBE, WBE, OBE, SBE, LBE, and DVBE firms
Project Name: Contra Costa County - East County Services Center | Location: Brentwood, CA | Owner: Contra Costa County
Proposal Publish Date via Building Connected: 3/3/26 | Pre-Bid RFI Due Date: 3/13/26 | Proposal Due Date: 4/6/26
****IMPORTANT: Site Concrete and Landscape bids are due 3/20/26**

A. REQUEST FOR PROPOSAL: This is not the full RFP. If you are interested in responding and are qualified for the services described below (Section C) please fill out the following Smartsheet via this link: <https://app.smartsheet.com/b/fo/rm/312138f38ae9460d903e8dbc26da6c0d> After filling the form with Intent to Bid, Bidders will be invited to the appropriate BuildingConnected project work package where bid docs are located.

B. PROJECT SUMMARY: The East County Services Center (ECSC) project is in East Contra Costa County, within the City of Brentwood. The proposed ECSC is a new 3-story facility totaling approximately 120,000 GSF on a combined project site area of 7.8 Acres. The design allocates primary public-facing services on the first two levels including a generous civic plaza to the north facing Technology Way, while the 3rd floor is dedicated exclusively to staff functions. The site will include surface parking areas designated for public, staff, and fleet vehicles. Staff and fleet parking will be located within a secure perimeter to the south, with controlled access to ensure operational safety and efficiency.

C. SCOPES OF WORK FOR THIS RFP:

WP#	Work Package Scope Description	Bid Due Date
WP-10	Sheet Metal & Flashing	04/06/2026
WP-11	Waterproofing & Roofing	04/06/2026
WP-12	Caulking & Sealing	04/06/2026
WP-13	Misc. Metals	04/06/2026
WP-19	Interior Glazing	04/06/2026
WP-20	Tile & Stone	04/06/2026
WP-21	ACT & Specialty Ceilings	04/06/2026
WP-22	Flooring	04/06/2026
WP-23	Concrete Topping Slabs	04/06/2026
WP-24	Paintings & Wall Coverings	04/06/2026
WP-26	Window Treatments & Blinds	04/06/2026
WP-27	Operable Partitions	04/06/2026
WP-28	Landscape, Irrigation, and Site Furnishings [Pre-Bid RFI's due 03/06/26]	03/20/2026
WP-29	Site Concrete [Pre-Bid RFI's due 03/06/26]	03/20/2026
WP-30	Stripping	04/06/2026
WP-31	Parking Control Equipment	04/06/2026
WP-32	Fences	04/06/2026
WP-34	Appliances	04/06/2026
WP-35	CMU Walls	04/06/2026

D. PREQUALIFICATION: All trade contractors will be required to be prequalified by Webcor Builders for your proposal to be accepted and to enter a contract for the scope of work. If you have been invited to propose on this project and are not currently prequalified by Webcor Builders, please visit our website at www.webcor.com/subcontractors
This ITB is Part of a Good Faith Outreach. Your response is appreciated.

Fax your bid to (925) 803-4263 or email to dgcestimating@desilvagates.com to the attention of Estimator Quinn Hance. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need MBE/WBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the MBE/WBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVALING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

CALIFORNIA SUB-BID REQUEST ADS

PLANT

TO ALL POTENTIAL SBE and LBE SUBCONTRACTORS

Plant Construction Company, L.P. is requesting budgets from qualified subs that are certified as LBE by CMD (Contract Monitoring Division) and SBE by DGS (Department of General Services). This is a competitive bid for Plant Construction.

CCSF Evans Center Modernization & Voluntary Seismic Upgrade

Address: 1400 Evans Ave SF CA 94124

Plant Project Number: 2026035

Owner: City College of San Francisco

Bids are due on 4/3/26

Project Description: The Evans Center Modernization and Voluntary Seismic Upgrade, located at 1400 Evans Ave. San Francisco CA 94124, includes structural seismic upgrades, a new roof, new windows, replacement of the mechanical, electrical, plumbing, heating ventilation and air conditioning system, and renovation/re-configuration of 69,616 sq ft of interior spaces. The project also includes site lighting, chain link fencing and gates, site restoration/improvements and an automotive spray-booth project under a separate DSA application.

The work includes bathroom renovations, new structural shear walls & footings, an aviation hangar door, a shade structure, accessibility and fire-safety improvements. Phased construction in occupied buildings with strict schedule milestones.

The project requires the payment of prevailing wages and requires Union labor per the Project Labor Agreement (PLA).

Plant is seeking qualified subcontractors for the following trade packages, but not limited to the following: Final Cleaning, Surveying, Scaffolding, Erosion/Sediment Control (SWPPP), Rebar, Structural Concrete, Unit Masonry, Structural Steel, Metal Fabrications, Railings, Rough & Finish Carpentry, Waterproofing, Thermal Insulation, Exterior Wall Surfaces, Roofing, Sheet Metal, Joint Sealants, Doors & Frames, Rolling Doors & Grilles, Hangar Doors, Aluminum Sectional Overhead doors, Entrances & Storefronts & Curtain Walls, Aluminum Windows, Skylights Plaster, Drywall & Framing, Tiling, Acoustical Ceilings, Fluid Applied Flooring, Carpet & Resilient Flooring, Painting, Epoxy Flooring, Visual Display Cases & Boards, Marker Boards, Signage, Toilet Partitions & Accessories, Lockers, operable partitions, Folding glass and Sliding glass partitions, Exterior & Interior Entrance Mats, New PC Shade Structure, Elevator renovations, Window Coverings, Fire Protection, Plumbing, HVAC, Electrical, Earthwork, Paving, Site Concrete, Chain Link Fence & Gates, Pavement Markings and Striping, Landscaping, and Site Utilities.

Link to the Bid Documents:

Please send an email or call Richard Mak below for an invitation to building connected. All bid documents are present there.

To be added to our Subcontractor List for this and other project opportunities subcontractors are requested to contact Plant Construction Company, L.P.'s Workforce Development & LBE Liaison:

Richard Mak at (415) 550-5952 or by email at Richardm@plantco.com

Plant Construction Company, L.P. is an equal opportunity employer.

SWINERTON

INVITATION TO BID

Inglewood Transit Connector

Request for Qualifications (RFQ) submission due **April 10, 2026, at 2:00pm PDT**

Swinerton Builders is seeking subcontractors to qualify to bid the **Inglewood Transit Connector** located at 222 N. Market St., Inglewood, CA 90301.

Mandatory Business Enterprise Participation – SBE/LBE (20%)

Project Overview The project consists of a 1,100 stall, 389,000 SF cast-in-place, post-tensioned, Parking Structure, a Pedestrian Bridge over Florence Avenue, and full streetscape improvements on Market Street, Manchester Avenue, and Queen Street.

Estimated Cost: \$150,000,000

Swinerton will be hosting a Sub Outreach Meeting on Wednesday, April 1, 2026, at 10AM. This meeting will be held virtually.

Virtual Event Registration Link: <https://forms.gle/pexwAVFTvHcHTcny8>

Key Dates & Deadlines

- **RFQ Due:** Friday, April 10, 2026, by 2:00 PM
- **Anticipated RFP Available:** April 20, 2026
- **Anticipated RFP Due:** May 8, 2026
- **Anticipated Construction Start:** October 2026
- **Anticipated Construction Completion:** December 2026

Labor & Compliance Requirements

- **Prevailing Wage:** Yes, (compliance with California DIR).
- **Union Requirements:** Yes, this project is under a Project Labor Agreement (PLA).

Trades include Surveying, Testing & Inspection Services, Demolition, Concrete Reinforcing & PT, Masonry, Structural Steel, Misc. Metals, Barrier Cables, Waterproofing, Traffic Coatings, Sealants & Caulking, Built-Up Roofing, Composite Wall Panel, Sheet Metal & Perf. Metal Panels, Glazing, Overhead Coiling Grilles, Painting, Parking Access & Revenue Controls System, Elevators, Escalators, Fire Suppression, Plumbing, HVAC, Electrical, Fire Alarm, Low Voltage Systems, Earthwork, AC Paving, Site Concrete, Curbs & Gutters, Unit Pavers, Pavement Markings, Tactile Warning Mats, Fences & Gates, Landscape and Irrigation, and Site Utilities.

Subcontractors also must be Prequalified with Swinerton, or to have submitted Prequalification document to our website by the RFQ due date. The Swinerton Prequalification (global) is in addition to this project specific RFQ. Subcontractors can submit their Prequalification info./docs. at: <http://www.swinerton.com/subcontractors/subcontractor-prequal>

Interested Subcontractors should contact Swinerton at the following email to be added to the invitation list:

EstimatingOC@Swinerton.com, or call 949.622.7000.

Swinerton is an Equal Employment Opportunity, Minority, Women, Disability, and Veteran Employer.

REQUEST FOR MBE/WBE/DBE/SBE/LBE/DVBE SUBCONTRACTORS, SUPPLIERS, MANUFACTURERS & TRUCKERS

PROJECT: Rodeo Creek Bank Erosion Repair. Project #: 7351-6D9N04

OWNER: Contra Costa County Flood Control and Water District

BID DATE: March 24, 2026 @ 2 PM

Kamalani Construction, Inc. is requesting sub-bids from qualified MBE/WBE/OBE/SBE/LBE/DVBE subcontractors, suppliers, manufacturers & truckers to bid on the upcoming project. Please bid on the upcoming project with the Contra Costa Flood Control and Water District Bidding on 3/24/2026 by 2pm. Good Faith Effort Required. Please provide your rates/proposal no later than 3/23/2026 by 3 pm to ensure our team receives it & has an opportunity to review it thoroughly to include with our bid.

The work generally consists of reconstructing the west bank of Rodeo Creek at two locations: (1) about 100 feet north of Seventh Street and (2) approximately 150 feet north of Fourth Street in the Rodeo area. Work includes channel excavation, clearing and grubbing, removal of sediment, embankment reconstruction, placement of soil-filled rock slope protection, temporary creek diversion and dewatering, temporary traffic control, hydroseeding, MGS installation, and pavement reconstruction.

For the following: (but not limited to) work: construction staking, traffic control, construction area signs, water pollution control, clearing and grubbing, trucking, temporary fence and chain link fence, roadway excavation, hydroseed, geotextile, rock slope protection, asphalt, minor concrete, guardrail system, guardrail removal

Requirements: 100% performance & payment bonds may be required for the full amount of the subcontract price.

Subcontractors must possess a valid contractor's license, DIR registration number, and current insurance meeting Kamalani Construction's requirements. Subcontractors will be required to sign the standard Kamalani Construction Inc. Subcontract Agreement. Quotations must be valid for one hundred and twenty (120) days after the specified Contract Award Date by the Owner. Plans & Specifications are available for viewing at our Novato office, please contact (916) 899-3223 or estimating@kamalaniconstruction.com.

Please call if you need assistance in obtaining bonding, insurance, equipment, materials and/or supplies for more information. Kamalani Construction, Inc. will work cooperatively with all qualified firms seeking work on this project.

If you are interested in bidding on this work or know someone who is, please contact Rob Thorpe at estimating@kamalaniconstruction.com at Plans, Specs, and Requirements for the project are available for review at our office or at the Contra Costa County Public Works Dept. 255 Glacier Drive, Martinez, CA., 94553 and are available for purchase online at www.cccounty.us/pwprojects.

For assistance in obtaining bonds, line of credit, and/or insurance for this project, please contact Denise Maloney at denise@kamalaniconstruction.com

**** All items are open for bid, including items of work normally performed by Kamalani Construction Inc. Quotations will be broken down into comparable packages as reasonably necessary. Kamalani Construction, Inc. will work with interested DBE, SBE, WBE, MBE, LBE and DVBE subcontractors to identify opportunities to break down items into economically feasible packages.**

The NorCal Small Business Development Center (SBDC) welcomes all entrepreneurs and business owners. Our events and services are open to anyone interested in small business development. Funded in part through a cooperative agreement with the U.S. Small Business Administration (SBA) and grants with the California Office of the Small Business Advocate (CO-SBA). All opinions, conclusions or recommendations expressed are those of the authors and do not necessarily reflect the views of the SBA, GO-Biz or Cal Poly Humboldt Sponsored Programs Foundation.

Reasonable accommodations for persons with disabilities will be made if requested at least 72 hours in advance. Contact Cagla Schaffer at 415-937-7232 or cagla.schaffer@sfsbdc.org.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR QUALIFICATIONS AND PROPOSAL FOR

ASBESTOS HAZARD EMERGENCY RESPONSE ACT (AHERA)

INSPECTION AND MANAGEMENT PLAN SERVICES

March 13, 2026

Oakland Unified School District ("District") requests qualified firms ("Firm(s)") to submit their qualifications and proposal for Asbestos Containing Building Material surveying, testing and on-site observations at

District facilities and services in accordance with the Asbestos Hazard Emergency Response Act.

Should you have any questions concerning the information contained in this Request For Qualifications and Proposals ("RFQ/RFP") document, please submit them via e-mail no later than April 13, 2026 to Sorbor Twegbe at sorbor.twegbe@ousd.org. Responses will be made available to Firms by April 20, 2026 at 11:00AM.

SCHEDULE

1. RFQ/RFP advertise: March 13, 2026
2. Pre-bid conference: April 20, 2019 at 11:00 a.m. at:

**Oakland Unified School District
Buildings & Grounds / Facilities**

955 High Street, Oakland, CA 94601

3. Proposals Responses due: May 21, 2026 to:

**Oakland Unified School District
Environmental Health & Safety Department
c/o Sorbor Twegbe
955 High Street, Oakland, CA 94601**

4. Interviews: June 15, 2026
5. Finalists notified of recommendation to Board of Education: July 15, 2026
6. Final determination/award: August 12, 2026 at OUSD Board of Education meeting
7. Contract(s) Start Date: August 31, 2026

This RFQ/RFP is not a formal request for bids, or an

offer by the District to contract with Firm(s) responding to this RFQ/RFP. The District reserves the right to reject any and all Proposals. The District also reserves the right to amend this RFQ/RFP as necessary. All materials submitted to the District in response to this RFQ/RFP shall remain the property of the District. The District reserves the right to seek proposals from, or to contract with, any Firm not participating in this process. The District shall not be responsible for the costs of preparing any proposal in response to the RFQ/RFP.

The full version of the Request for Proposal can be found by going to the following link:

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

INVITATION TO BID

Various Sites Eight (8) – Vegetation Fire Management Weed Abatement Maintenance Contract No. PR70036A

1. Notice is hereby given that the governing board ("Board") of the Oakland Unified School District ("District" or "Owner") will receive sealed bids for the following contract:

Various Sites Eight (8) Vegetation Fire Management Weed Abatement Maintenance Services ("Contract")

to be performed at the following District site(s):

• Kaiser ES, Hillcrest ES, Thornhill ES, Montera MS, Joaquin Miller ES, Skyline HS, Montclair ES, and Carl Munck ES.

2. Sealed Bids will be received until **2:00 PM on 16th day, April, 2026, at the District Office, located at 955 High Street, Oakland, CA 94601, at the Receptionist's desk**, at or after which time the bids will be opened and publicly read aloud. Any claim by a bidder of error in its bid must be made in compliance with section 5100 et seq. of the Public Contract Code. Any bid that is submitted after this time shall be non-responsive and returned to the bidder.

3. The Contract consists of:

Cut, remove, and properly dispose of vegetation ground fuels along the fence line. Clear weeds throughout each entire school site, including playgrounds, and trim bushes to an aesthetic design. Trim back ivy and any protruding branches along the fence line and low-hanging tree branches. Remove and haul all trash and debris. All services must be in full compliance according to the Oakland Fire code and Standards. The estimated amount is determined by the services performed in last year's scope of work.

4. A Mandatory pre-bid site visit will be held on **April 2nd, 2026, at 10:00 a.m.**, starting at Front entrance of Skyline High School site and ending until all (8) sites have been visited. Bidders not attending the site visit will be disqualified.

5. **Contract Estimate:** The District estimates the **not-to-exceed** amount of the Contract at **ONE HUNDRED THIRTY THOUSAND DOLLARS NO/100 (\$130,000.00)** for duration of the entire Contract. The estimated amount is determined by the services performed in last year's scope of work.

6. The Project Manager for this Contract is **Bernardo Martinez, who can be reached at 510-277-6547 or email: bernardo.martinez@ousd.org and assistant is Raul Vazques, phone#(510)-942-9838, email: raul.vazques@ousd.org**. Bidders can obtain a complete set of contract documents from Mr. Martinez.

7. The full version of Contract & Bid Documents can be uploaded by clicking on the link provided: <https://www.ousd.org/facilities-planning-management/opportunities/contract-opportunities/bids>

8. All bids shall be on the form provided by the District. Each bid must conform and be responsive to all pertinent Contract Documents, including, but not limited to, the Instructions to Bidders.

9. To bid on this Contract, the Bidder is required to possess the following State of California Contractor Licenses:

o A, B, and/or D49 – Contractors' License

The Bidder's license(s) must be active and in good standing at the time of the bid opening and must remain so throughout the term of the Contract.

10. **Prevailing Wages.** Pursuant to sections 1770 et seq. of the California Labor Code, Bidder and all Subcontractors under the Bidder shall pay all workers on all work performed pursuant to the Contract not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the State of California Department of Industrial Relations (DIR) for the type of work performed and the locality in which the work is to be performed within the boundaries of the District. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined

by the DIR are available from the District or on the internet (<http://www.dir.ca.gov>).

11. Contractor Registration. Bidder shall ensure that Bidder and its Subcontractors comply with the registration and compliance monitoring provisions of Labor Code section 1771.4, including furnishing its CPRs to the Labor Commissioner, and are registered pursuant to Labor Code section 1725.5. Labor Code section 1771.1(a) states the following:

"A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded."

A full copy of the bid form must be submitted at time of Bid Opening, 16th day, April, 2026, @ 2:00 p.m. A copy must be downloaded with this link: <https://www.ousd.org/facilities-planning-management/opportunities/contract-opportunities/bids>

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR QUALIFICATIONS AND PROPOSALS (RFQ/P)

Consulting Services for Certified Water Sampler
and Certified Water Testing Laboratory
at Various School Sites
Project # 25079
March 18, 2026 (Issued)

Responses must be received April 2, 2026,
no later than 2:00 p.m.

The Oakland Unified School District ("District") is requesting proposals from experienced and certified firms, partnerships, corporations, associations, persons or professional organizations ("Consultants") to provide comprehensive lead-in-water sampling and laboratory testing

for school sites district-wide ("Project").

Interested firms and/or person(s) are invited to submit a Statement of Qualifications ("SOQ") and a detailed Fee Proposal (collectively "RFQ/P Packet") as described below of the requested materials with a cover letter addressed to:

Oakland Unified School District
Preston Thomas, Chief Systems and Services Officer
Department of Facilities Planning and Management
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets.

The District also reserves the right to reject any and all RFQ/P Packets, and to select and negotiate contract

terms with one or more Respondents.

The District is accepting electronic proposals only. Please email your submission to the contacts listed below no later than 2:00 PM (Pacific Time) on April 2, 2026.

For questions regarding this RFQ/P, please email Nilufar Abdul at nilufar.abdul@ousd.org, Colland Jang at colland.jang@ousd.org, and Juanita Hunter at juanita.hunter@ousd.org

OUSD LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM

District Modification: Based on the current availability of qualified small and local business enterprises, as assessed by OUSD's LBU Consultant, the District is adopting the consultant's recommendation to waive the full 50% LBU participation re-

quirement for the scope of work referenced above.

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises ("DBE"), Small Local Business Enterprise ("SLBE"), Small Emerging Local Business Enterprise ("SELBE") and Disabled Veterans Business Enterprise ("DVBE") firms and/or person(s) shall be afforded full opportunity to submit qualifications in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation, or religion in any consideration leading to the award of contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any consideration leading to the award.

SANTA VALLEY WATER DISTRICT (VALLEY WATER)

NOTICE TO PROSPECTIVE PROPOSERS REQUEST FOR PROPOSALS (RFP) PB FILE NO. VW0638

WATER CONSERVATION SERVICES AND ASSESSMENT PROGRAM

Santa Valley Water District (Valley Water) is seeking proposals from qualified consulting, planning, and/or data management firms to provide project management support developing a water conservation strategic plan, updating a water conservation savings model, developing water conservation baseline

studies as required, performing mapping services that utilize internal and external data sources, and developing a water conservation data dashboard, etc.. Parties interested in obtaining a copy of this RFP may do so by accessing the Valley Water's web portal at <https://vendors.planetbids.com/portal/48397/portal-home>. All parties are asked to register on the Santa Clara Valley Water District Procurement Portal, PlanetBids, to

be automatically notified of any changes to the RFP document. Proposals are due by 2 p.m. on April 1, 2026 as specified in the RFP Schedule. All questions regarding this solicitation must be submitted directly in Valley Water's web portal at the link listed above no later than the date specified in the RFP Schedule.

Digital Transformation in Construction Management and Real-Time Operational Control

Continued from page 1

How does enterprisewide oversight differ from reviewing projects one at a time?

Reviewing projects individually often hides systemic patterns. A single project may show minor productivity issues that appear manageable. When those same issues are present across multiple projects, they become structural. Enterprise-level visibility allows leadership to see recurring themes: trade stacking during transition phases, procurement timing conflicts or documentation bottlenecks.

In one instance, portfolio analysis revealed consistent labor congestion during overlapping mechanical and electrical installation periods. Adjusting sequencing across projects reduced schedule volatility and improved labor efficiency across several sites at once. That type of adjustment is difficult to identify when projects are reviewed independently.

Enterprise oversight shifts the focus from project recovery to portfolio stability.

What impact does this have on financial planning?

It improves confidence in the numbers. Forecasting in construction is never perfect, but it becomes significantly more stable when operational data feeds financial projections continuously. In structured environments, forecast variance at mid-project milestones has narrowed to within 2%–3% of final outcomes. Prior to integration, deviations closer to 6%–7% were common.

For executive teams, that difference affects capital planning, liquidity management and growth decisions. When projections fluctuate widely, expansion feels speculative. When projections

are consistently reliable, leadership can make strategic commitments with greater discipline.

How does digital operational control influence bonding relationships?

Sureties are evaluating predictability. Bonding capacity is not only about financial statements. It is also about operational control. Firms that demonstrate disciplined reporting structures, documented variance monitoring and consistent forecasting stability signal lower risk. That perception strengthens underwriting conversations.

In competitive markets, bonding credibility affects which projects a contractor can pursue. Operational transparency therefore supports strategic positioning, not just internal management.

What about insurance and liability exposure?

Documentation quality has direct financial consequences. Many disputes and warranty issues are not the result of technical failure. They stem from incomplete records or inconsistent approvals. When documentation is centralized and timestamped, and when scope adjustments follow structured workflows, ambiguity decreases.

Several organizations that integrated documentation into operational dashboards reported measurable reductions in dispute frequency and post-closeout claims. Fewer disputes mean less management distraction and reduced indirect cost.

Digital discipline in this context becomes risk containment.

Change orders are often cited as a source of margin leakage. How does integration help?

Informal change management is expensive. When scope modifications are approved ver-

bally or documented inconsistently, revenue recognition lags and exposure increases. Structured workflows requiring quantified cost impact and formal acknowledgment reduce that risk.

In environments where digital change management was implemented, approval-cycle duration decreased by nearly 40%. That acceleration improved cash flow and reduced working capital strain. More importantly, it protected contract value by reducing ambiguity.

Workforce retention remains a challenge, especially in merit shop markets. Does real-time operational control influence workforce stability?

Yes, indirectly but meaningfully. When schedules fluctuate unpredictably, overtime spikes and crews are reassigned frequently, morale declines. Real-time workforce analytics allow leadership to rebalance deployment earlier and reduce reactive reallocation.

In one regional portfolio, improved oversight reduced overtime volatility by approximately 15%. That translated into more predictable scheduling and improved retention. Stability on the job site is increasingly a competitive advantage.

Cultural resistance can undermine transformation efforts. What differentiates successful implementations?

Clarity of purpose. When digital initiatives are framed as technology upgrades, they often encounter skepticism. When they are positioned as tools for improving operational stability and protecting margins, adoption improves.

Successful implementations typically begin with pilot deployments and limited scope before expanding enterprise-wide. Measurable improve-

ments – reduced variance, improved forecasting accuracy, fewer emergency schedule adjustments – build credibility. Over time, transparency becomes part of operational culture rather than an imposed requirement.

Does operational governance provide competitive differentiation?

Increasingly, it does. Owners and institutional clients are evaluating contractor reliability with greater scrutiny. Firms that demonstrate disciplined oversight and predictable execution project stability. In procurement environments where pricing differences are narrow, perceived reliability can influence award decisions.

Operational governance strengthens that perception.

What are the long-term implications for firms that fully integrate real-time operational control?

The long-term implication is resilience. Construction will remain cyclical and volatile. Firms that rely solely on experience and periodic reporting will continue to face reactive management cycles. Firms that integrate operational data into executive oversight reduce uncertainty at the enterprise level.

Reduced uncertainty does not eliminate risk. It makes risk manageable.

Over time, that difference compounds. It affects margins, bonding credibility, workforce stability and growth discipline. Digital transformation, in that sense, is not a technology initiative. It is a structural shift toward sustained control.
