## \$336.9 million San Gabriel Trench Project Moves Along

By Greg Aragon

Traffic detours are rarely fun. But they can be interesting, especially when caused by big, exciting projects like the \$336.9 million San Gabriel Trench, which I encountered this week on a cross town errand. Currently under construction in the city of San Gabriel, about 10 miles east of Downtown Los Angeles, this grade separation consists of lowering a 1.4-mile-long section of Union Pacific railroad track into a trench through the city, with four bridges spanning major intersections constructed to allow vehicles and pedestrians to pass over the tracks.

The 2.2-mi-long project is being led by Jacobs Engineering of Pasadena, CA, as construction manager; and Chicago, IL-based Walsh Construction as general contractor.

“Our contractor is making significant progress with one of the four overhead bridge structures completed and one to be completed shortly,” says Mark Christoffels, CEO of the Alameda Corridor-East Construction Authority (ACE), the entity in charge of the project. “The remain-

ing two bridge structures will be completed by the end of the year, allowing the contractor to begin fully excavating the trench.”

The project, awarded in July 2012, is about 35 percent finished, and is on target for a September 2017 completion. Crews are currently excavating the trench, relocating sewer lines and preparing to erect the two remaining bridges. One of these structures is at Del Mar Avenue, the section I drove past.

ACE says the project is creating 6,057 full-time equivalent jobs, and will reduce locomotive horn and crossing bell noise, and eliminate an estimated 1,744 hours of vehicle delay each day at four crossings, the busiest of which, San Gabriel Blvd., carries 35,310 vehicles per day and operates at 118% of capacity in peak hours.

Besides the trench ACE also has three other major projects underway in the San Gabriel Valley: The Nogales Street Grade Separation; the Puente Avenue Grade Separation; and the Fairway Drive Grade Separation.

The \$118 million Nogales Street Grade Separation, located in the City of Industry, is constructing a six-lane roadway underpass and double-track

railway bridge, and widening two busy streets in each direction. The project broke ground in May 2013 and will complete in 2016. Brea, CA-based Griffith Company is serving as general contractor.

The \$98.1 million Puente Avenue Grade Separation, awarded in July 2014, is being led by Manhattan-based OHL USA, Inc. as general contractor, and will be complete in 2017. This job will separate the roadway and the railroad tracks on Puente Avenue at Valley Boulevard in the City of Industry. Plans call for constructing a roadway underpass on Puente Avenue with bridges for Valley Boulevard and the Union Pacific Railroad tracks. There will also be a loop connector road west of Puente Avenue and south of Valley Boulevard.

Scheduled for completion in 2018, the \$141.8 million Fairway Drive grade separation project broke ground last month, with OHL USA, Inc. leading

OWNER: Sweetwater Authority

Project No.: B.P. 20084022

LOCATION: Chula Vista, CA

QUOTE DEADLINE: June 8th, 2015 3:00 PM

### The project generally consists of the following:

MODIFICATION TO AN EXISTING BRACKISH GROUNDWATER DESALINATION FACILITY, INCLUDING THREE REVERSE OSMOSIS TRAINS, IRON AND MANGANESE FILTRATION SYSTEM, DEGASSIFIER, FLUORIDE SYSTEM, CHEMICAL SYSTEM MODIFICATION, AND EXTENSIVE ELECTRICAL, INSTRUMENTATION, SCADA AND PUMP AND MOTOR INSTALLATION, CONSTRUCTION OF WELLHEAD FACILITIES AND WELL BUILDINGS AT FIVE NEW WELLS.

Plans and Specifications are available free of charge online at:

<http://www.ebidboard.com/public/projects/index.asp?mbrguid=D0757BD8-8C21-406F-97F9-D160301A9BAF>

Quotes for Services & Supplies are requested for the following items including, but not limited to:

SWPPP, Landscaping and Irrigation, Masonry, HVAC, Sheetmetal, Doors & Louvers, Painting & Coatings, Composite Roofing/Insulation, Welded Steel Tank, Electrical & Instrumentation, Water Treatment Pumps and Process Equipment, Process and Waterworks Pipe & Valves, Reinforcing Steel, Concrete & Aggregates, Paving, Striping, Minor Concrete, Rough Carpentry, Fencing

Opportunities for quotations will be needed throughout the life of the project. Terms and conditions should be made part of the quotations. 100% performance and payment bonds may be required for the full amount of the subcontract price. Pulice Construction, Inc. will assist with obtaining bonding, lines of credit, and insurance by encouraging the subs and vendors to work with state supportive services programs. Responsive subcontractors must possess a current contractor's license, insurance, and worker's compensation coverage complying with Pulice Construction, Inc. requirements and will be required to sign a standard Subcontract Agreement.

Pulice Construction, Inc. will analyze and consider each quote received, including those that are broken down into economically feasible units to facilitate bidding. Quotes must be valid for the same period of time as specified by Owner for contract award. Any conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing.

Pulice Construction, Inc. is committed to ensuring that subcontractors and vendors have the maximum opportunity to successfully perform on this project, and to making good faith efforts to utilize small, minority, and women's business enterprises.
