

## Construction Suffers Project Cancellations, Employment Declines as Pandemic Pain Continues

### From Associated General Contractors of America,

Construction firms are experiencing widespread project deferrals and cancellations, along with disruptions to ongoing work and few new project awards, as the economic damage from the pandemic drags down industry employment in metro areas across the nation, according to a new survey and an analysis of new government data released by the Associated General Contractors of America (AGC). Association officials urged Congress to pass new coronavirus relief measures to head off further job losses.

“The survey results make it clear that the months-long pandemic is undermining demand for projects, disrupting vital supply chains and clouding the industry’s outlook,” said Ken Simonson, AGC chief economist. “Without new federal relief measures, these challenges pose a significant threat to current construction employment levels.”

Simonson noted that three-quarters of survey respondents report having a scheduled project postponed or canceled. He added that is up from the 60% of contractors who reported a canceled project in our August survey and 32% who did so in June. Meanwhile, only 23% of contractors report working on new or expanded construction projects as a result of the pandemic, about the same percentage as in June.

The coronavirus is also disrupting projects that are still underway, Simonson noted. According to the survey:

- 78% of respondents report they are currently experiencing project delays or disruptions, up from 57% in June

- 42% of firms are experiencing disruptions due to a shortage of construction materials, equipment or parts
- 35% are experiencing disruptions because of a shortage of craftworkers and/or subcontractors

In one bit of good news, however, only 7% of firms are experiencing disruptions because of a shortage of personal protective equipment.

Shrinking demand and disrupted operations are shaking many contractors’ faith in the future, the survey showed. Thirty-four percent of respondents report they do not expect their firm’s volume of business will return to pre-pandemic levels for at least a year.

Delays, disruptions and uncertainty threaten to undermine employment levels in the construction sector. In fact, 30% of firms report they have already furloughed or terminated employees because of the coronavirus. That is likely why construction employment fell during the past year in most metro areas, Simonson added.

Construction employment fell in 234, or 65%, of 358 metro areas between September 2019 and September 2020. Construction employment was stagnant in 38 other metro areas, meanwhile, and only 86 metro areas added construction jobs during the past year.

- Houston-The Woodlands-Sugar Land, TX, lost the most construction jobs over those 12 months (-24,400 jobs, -10%), followed by New York City (-19,500 jobs, -12%)
- Brockton-Bridgewater-Easton, MA, had the largest percentage decline (-36%, -2,000 jobs), followed by Altoona, PA (-32%, -1,000

jobs), and Johnstown, PA (-32%, -900 jobs).

- Dallas-Plano-Irving, TX, added the most construction jobs from September 2019 to September 2020 (5,100 jobs, 3%), followed by Baltimore-Columbia-Towson, MD (4,700 jobs, 6%).
- Walla Walla, WA, had the highest percentage increase (25%, 300 jobs), followed by Fond du Lac, WI (15%, 500 jobs).

Simonson added that a majority of firms report they plan to cut jobs or abstain from adding new employees during the coming year. Twenty percent expect their headcount will shrink while 42% report they do not plan to add to the size of their headcount during the next 12 months.

Most firms participating in the survey (78%) cited a preference for new federal relief measures to mitigate against the impacts of the coronavirus. Among the measures firms are hoping Washington officials will enact are new federal investments in infrastructure, liability reforms that protect responsible firms from frivolous coronavirus suits and a new highway and transportation bill.

As a result, association officials urged Congressional leaders to recall legislators right after the election to pass much-needed new coronavirus relief measures. In particular, the construction officials called on Congress to enact new infrastructure investments, liability reforms and an additional round of Paycheck Protection Program loans.

“As our survey shows, the pandemic and efforts to mitigate its spread have deeply wounded the economy, depressing demand for many types of commercial construction projects,” said Stephen E. Sandherr, AGC’s CEO. “Congress can end the downward economic slide and help create needed new construction jobs by passing measures to boost demand and protect honest employers.”

# California Sub-Bid Request Ads

Balfour Beatty Infrastructure, Inc. is bidding as a Prime contractor and encourages all qualified Subcontractors and Suppliers to submit quotations for the following project. Balfour Beatty is a Union Contractor and Subcontractors must abide by the terms and conditions of the applicable Project Stabilization Agreement (PSA).

**Project Description:** Brackish Water Desalination

**Project Location:** Antioch, CA

**Owner:** City of Antioch

**Contract No.:** PW 694

**Bid Date:** **Prime Contractors: Tuesday, November 17, 2020 @ 2:00pm**

**Subcontractors: Friday, November 13, 2020 @ 2:00pm**

This is a design-bid-build project and subcontractor scopes must be based on the project documents provided. It is recommended that interested subs contact Balfour Beatty Infrastructure well ahead of the due date to discuss scope and quantities.

## SUBCONTRACTOR BIDS ARE SOUGHT FOR THE FOLLOWING TRADE(S)

Aggregate, Caulking, Concrete Drilling, Sawcutting, Coring, Concrete Pumping, Demolition, Dewatering, Doors, Driven Pile, Ductile Iron Pipe, Electrical, Fabricated Steel Pipe, Fences & Gates, Field Lining, Flashing & Sheet Metal, Flexible Pavement - Asphalt (AC), Groundwater Treatment System, Handrails & Railings, Hangers & Pipe Support, Hazardous Material Removal, HVAC, Instrumentation, Louvers & Vents, Masonry, Mechanical, Metal Deck, Miscellaneous Metals, Miscellaneous Valves, Offsite Transportation & Disposal (Truckers), Overhead Doors, Paints, Coating & Waterproofing, Pipe Support, Ready Mix, Rigid Pavement - Portland Cement Concrete Pavement, Sheet Metal Roofing, Shoring & Underpinning (Earth), Structural Steel, Structural Steel Erection, Thermal Protection (Insulation), Windows.

**PLANS & SPECIFICATIONS:** Project Bid Documents may be obtained from the Project Owner, BPX Printing & Graphics at [www.blueprintexpress.com/antioch](http://www.blueprintexpress.com/antioch), or you may view them at BBII's office by appointment. For your convenience, you may also view and download plans by following this link maintained by BBII: <https://securecc.smartinsight.co/#/PublicBidProject/544163>

Subcontractors and Suppliers are responsible for reading and acknowledging all Project Documents, Plans, Specifications and Addenda.

**BONDING & INSURANCE:** Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract, by an admitted surety subject to approval by Balfour Beatty. Bonding cost assistance is available. Subcontractors should expect to sign the standard Balfour Beatty subcontract agreement and provide a waiver of subrogation. Please contact Balfour Beatty at (707) 227-8500 for bonding and other types of assistance.

**QUESTIONS:** For questions regarding the bid, please contact Erik Golub at (707) 227-8500, fax: (877) 763-4002, email: [ewr@balfourbeattyus.com](mailto:ewr@balfourbeattyus.com), or in writing to: 5050 Business Center Drive, Suite 250, Fairfield, CA 94534.

Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Subcontractor scope (including any conditions or exceptions) is required one week prior to bid deadline, to allow proper evaluation. To assist DBE Subcontractors and Suppliers, we will divide total scopes into smaller tasks or quantities, and if necessary adjust schedules to permit maximum participation by DBE firms. Subcontractors are required to indicate all lower-tier DBE participation offered on their quotation.

Balfour Beatty is an Equal Opportunity Employer

**Owner:** City and County of San Francisco (CCSF)

**San Francisco Public Utilities Commission (SFPUC)**

**Project:** North Shore Pump Station

**Wet Weather Improvements • Project No.:** WW-685R

**Bid Date:** November 19, 2020 • **Bid Time:** 2:00 p.m. • **Quote Due:** November 19, 2020 by 12:00 p.m.

**NTK Construction, Inc.**

501 Cesar Chavez St., Suite 115 • San Francisco, CA 94124

415-643-1900 (phone) • 415-643-1300 (fax) <http://www.ntkconstruction.com> (website)

Estimator: Tin Tran - [ttran@ntkconstruction.com](mailto:ttran@ntkconstruction.com)

We, NTK Construction, Inc. (NTK), will be bidding this project as a prime contractor and we are interested in receiving proposals/quotes from qualified and certified LBE, DBE, MBE, WBE, DVBE subcontractors and suppliers for the following items of work: (but not limited to)

Concrete, Metals, Roofing, Painting, Plumbing, Mechanical, HVAC and Electrical

The objective of this project is to provide redundant effluent pumping capacity of the North Shore Pump Station (NSS) during wet weather. This project will replace existing four (4) dry weather pumps with larger capacity units so that they are capable of pumping redundant capacity during wet weather. The project also includes upgrades to the motor control centers (MCC's) and distributed control system (DCS).

The estimated cost of construction contract is 33,000,000.

Project goals: 11% LBE (local only)

The project plans and specifications may be viewed at our office (501 Cesar Chavez St., Suite 115, San Francisco, CA 94124) or may be obtained from the SFPUC. Please visit their website at <http://sfwater.org/contracts>. A confidentiality agreement is required.

Please respond to this email and let us know whether or not you are interested in submitting a quote for this project. Please include your company name, contact name, the scope you will be bidding on and the best way to contact you.

### OWNER:

Sacramento Housing and Redevelopment Agency  
Procurement Services 2nd Floor  
801 12th Street, Sacramento, CA 95814

**BID DATE: November 10, 2020 @ 2PM**

We hereby encourage responsible participation of certified M/WBE Minority Business Enterprise and Women Business Enterprise and solicit their subcontractor or materials and/or suppliers quotation for the following types of work including but not limited to:

### TREE REMOVAL

Plans and specifications may be reviewed at our office located at 11555 Dublin Boulevard, Dublin, CA or at your local Builders Exchange.

Fax your bid to (925) 803-4334 to the attention of Estimator Michael Collings. If you have questions for the Estimator, call at (925) 361-1424. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at [www.dir.ca.gov/Public-Works/PublicWorks.html](http://www.dir.ca.gov/Public-Works/PublicWorks.html)

If you need support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 361-1424. PSEC is willing to breakout portions of work to increase the expectation of meeting the M/WBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. PSEC is an Equal Opportunity/Affirmative Action Employer.

# Success Stories

## Kayleen's story: From building fences to building a successful career in construction—and helping others do the same

[ Article was originally posted on [www.pearsoned.com](http://www.pearsoned.com) ]

By Pearson,

### A Famous Face

If you've ever watched the DIY Network on television, Kayleen McCabe's is a face you may recognize.

She is the host and star of "Rescue Renovation," a show that helps homeowners who are in over their heads. Renovation projects turn from disastrous "befores" into jaw-dropping "afters."

When Kayleen is not in front of the camera, she's traveling the country telling students the story of how her long-time construction hobby turned into a successful career.

### Growing up different

"As a little girl, I was always building stuff with my hands," Kayleen says.

"My dad was a welder by trade, so I learned a lot of what I know from him."

"We did repairs around the house, built fences, and worked on cars together."

"I didn't realize how unique that was until high school," Kayleen says.

Kayleen says most of her classmates had no idea what they wanted to do after graduation.

Kayleen was different.

"I knew, even then, that I wanted to work in the construction trades," she says.

### Trusting her instincts

Although knew she wanted a career in construction, Kayleen didn't enroll in trade school after high school.

"I made good grades," she says, "and I felt pressure to do what the other 'good students' did: go to college."

One year and two schools (Red Rocks Community College and Colorado State University) later, Kayleen called her parents with some news that ultimately wasn't a surprise to them: college wasn't for her.

"I could've saved a lot of tuition money by following that instinct earlier," Kayleen says.

"I am so grateful that when I eventually did, my parents were supportive."

### The first foray into television

Shortly after graduating from high school, Kayleen says, her cousin called her with a proposition.

"She was a producer on the TV show 'Trading Spaces.'"

"She knew I liked working with my hands, and she said she could help me get a production assistant job."

From her very first day on the set, Kayleen says she was hooked.

"I would bounce out of bed at 5 am, vibrating with excitement about whatever we got to build next."

"It was the first time I fell in love."

### The mentor of all mentors

On the set of "Trading Spaces," Kayleen met a master craftsman named Frank.

"He was this grumpy-looking older guy with a big bushy mustache that was permanently stained from tobacco," Kayleen says.

"But he taught me more than I could ever explain."

"I could ask him anything, and he encouraged me to learn, to try, and most importantly, to fail," Kayleen says.

"Being in an environment where I felt so safe to do that was the best gift I ever received."

"Learning the way that I did—on the job—was more of an education than I could ever have gotten from going to college."

### "Rescue Renovation"

"Rescue Renovation" is currently in its fifth season on TV.

Kayleen says she is immensely grateful for her continued success—especially in a field that is traditionally dominated by men.

"When the show first started, I was one of the only female hosts on our channel—or any other one."

"It's different now, and I cannot wait for that to keep changing."

When she travels for her show, Kayleen says, she is often able to help drive that change.

"I like to leverage a plane ticket as much as possible."

"I'll find out what schools are close to the airport and call them up. I say, 'Hi, I'm a woman in the trades, can I come talk to your kids about career opportunities in my field?'"

"To the best of my ability," Kayleen says, "I will continue to leverage what fame I've garnered to help recruit more and more young women into the construction trades."

### Connecting with audiences on smaller screens, too

In her spare time, Kayleen produces short, instructional videos for her followers and fans. She hosts them on her personal web page.

Topics range from cabinet building, to clamps and fasteners, to drill skills.

"I want to get them into the hands of middle and high school teachers so they can show their kids what working in the trades is really like."

"Growing up, my teachers had nothing like that. In terms of recruitment, I think it could be game-changing."

### Something to strive for

Kayleen says she is constantly thinking about the future—for herself and for construction trades overall.

"I want to double the number of students I talk to every year ... until that becomes impossible."

Already this year, Kayleen has made incredible progress towards her goal. She has trips planned to Indiana, Ontario, Nebraska, Arizona, Kentucky, Nevada, Abu Dhabi, and Mississippi—all in the next few months.

"Someday, I hope I am able to travel full-time, speaking to students and giving them scholarships to study the trades."

"I want to be the Bill Gates of power tools," Kayleen says.

"And my passport has a lot of room in it."

### Request for DBE's

Subcontractors and Suppliers for

**Project: RUSSIAN RIVER-COTATI INTERTIE  
PIPELINE SEISMIC HAZARD MITIGATION  
AT THE RUSSIAN RIVER CROSSING**

**Agency: SONOMA COUNTY WATER AGENCY**

**Bid Date: Tuesday, November 17, 2020 @ 2:00 P.M.**

The Work consists of the construction of Owner's Russian River-Cotati Intertie Pipeline Seismic Hazard Mitigation at the Russian River Crossing located at 10290 Westside Road, in an unincorporated area of Sonoma County near Forestville, California. The Work includes, but is not limited to, the abandonment and replacement of section of the existing underground pipeline and construction of meter vault, flow meter, cathodic protection, air valves, and appurtenances, as well as construction of approximately 915 feet of 48-inch steel pipeline, approximately 250 feet of 42-inch steel pipeline, approximately 150 feet of 36-inch steel pipeline, approximately 150 feet of 30-inch steel pipeline, approximately 60 feet of 20-inch steel pipeline, and approximately 15 feet of 18-inch steel pipeline replacement, and temporary facilities including but not limited to deep shored trenches, cofferdams, and dewatering systems. Work shall be completed within 330 Days from the date when Contract Time commences to run. Bidding Documents contain the full description of the Work.

Seeking all trades (but not limited to): Survey, Earthwork, Clear & Grub, Demolition, Dewatering, Shoring / Sheet Piling, Trench Lining, Grouting, Tree Removal, Cathodic Protection, Underground Steel Pipe, SWPPP Implementation, Welding, Electrical, Paving, Temp Fence, Hydro-Acoustic Monitoring, Settlement Monitoring, Pipeline Abandonment, Landscaping, Hydroseeding, Testing & Inspection, Painting & Coating, Potholing, Hydrostatic Testing, Trucking, and Disinfection.

Plans, specifications, and requirements can be viewed at our office or by using the link below.
