

Cold-Weather Concreting: Technical Guidance for Preventing Winter Damage

[Article originally appeared in www.forconstructionpros.com]

As construction timelines stretch deeper into the colder months, concrete contractors are increasingly expected to deliver high-performance placements under challenging conditions. Cold weather can slow hydration, delay strength gain and significantly increase the risk of early-age concrete damage. Without proactive measures and technical know-how, cold-weather concreting can lead to compromised structural performance, costly repairs or outright failure.

Fortunately, through adherence to industry standards such as ACI 306R-16: Guide to Cold Weather Concreting and strategic use of material technologies governed by ASTM C494: Standard Specification for Chemical Admixtures for Concrete, contractors can successfully navigate the cold-weather construction window. This article explores the mechanisms of cold-weather damage, outlines the latest guidance for winter placements, and discusses how informed planning and proper material selection can turn a seasonal challenge into an opportunity for superior performance.

The Challenges of Cold Weather

ACI 306R-16 defines cold weather as a period when, for more than three consecutive days, the average daily temperature is below 40° F (4° C), and the air temperature does not exceed 50° F (10° C) for more than half of any 24-hour period. These parameters are not uncommon in many construction zones from late autumn through early spring. When these conditions prevail, the

Concrete contractors work efficiently in freezing conditions, following ACI cold weather concreting guidelines to ensure proper placement, finishing, and protection. The Euclid Chemical Company

risk of fresh concrete freezing before achieving sufficient strength becomes a primary concern. Freezing at early ages, particularly before the concrete reaches about 500 psi (3.4 MPa), can severely disrupt the cement hydration process, leading to internal microcracking and a permanent reduction in structural integrity.

Compounding this issue is the slower rate of strength development in colder environments. Without sufficient internal heat or external protection, concrete is vulnerable for longer periods. Contractors must also account for temperature gradients within the structure, which can lead to differential movement, internal stresses

and surface cracking. Thus, cold-weather concreting requires not just site preparedness but a fundamentally different approach to mix design, placement and curing.

Aligning Performance with ACI’s Four Pillars

Cold-weather concreting hinges on a framework of technical principles rooted in ACI 306R-16. Often referred to as the “four pillars,” they form the foundation of effective winter installation strategies.

1. Prevent Freezing of Early-Age Concrete

The primary goal in any winter placement is to ensure that concrete does not freeze before it develops enough strength to resist frost damage. According to ACI 306R-16, this typically means maintaining concrete at a minimum of 40° F (4° C) during and after placement.

Freezing before adequate strength is achieved can cause ice crystal formation within the cement paste matrix, resulting in irreversible structural damage. This is particularly critical in flatwork or thin sections where temperature loss occurs rapidly.

Protective measures may include the use of insulated blankets, temporary enclosures or heated formwork systems — often in combination — to shield early-age concrete from exposure.

2. Promote Adequate Strength Development

Since hydration slows significantly at low tem-

SBA Releases State-Level Analysis of Shutdown Impact on Small Business Lending

[Article originally appeared in www.sba.gov]

The U.S. Small Business Administration released a state-level analysis of how small businesses have been impacted by the federal shutdown, which has frozen the agency’s core 7(a) and 504 small business lending programs. For fiscal year 2025 (FY25), the SBA guaranteed a record 84,400 loans, reaching \$45 billion in capital for Main Street. Each business

day the shutdown continues, an estimated 320 small businesses nationwide are unable to access \$170 million in SBA-backed commercial loans, translating to \$2.5 billion which has been blocked from 4,800 small businesses so far over the course of the shutdown. The loan programs are funded by lender fees and operate at zero subsidy, or zero cost, to taxpayers.

“Thanks to President Trump’s agenda to reduce taxes, regulation and unfair trade deals,

small business optimism is at seven-year highs, resulting in the SBA serving a record 85,000 job creators with \$45 billion in federally-backed loans – supporting historic hiring, expansion, and confidence on Main Street,” said SBA Administrator Kelly Loeffler. “Senate Democrats have decided to cut off that momentum and that capital for Main Street, in favor of growing government spending by \$1.5 trillion and blocking a clean funding bill

to reopen the government. With the SBA’s loan programs shuttered, thousands of small businesses are now unable to access the vital funding they need to survive, let alone thrive – and will soon begin cutting hours and benefits, laying off workers, and contemplating closing up shop for good.”

Below is the SBA analysis by state for the weekly impact on SBA-guaranteed loans:

State	# of SBA Loans Not Approved (per week)	\$ Value of SBA Loan Proceeds Blocked (per week)
California	212	\$126,885,142
Texas	128	\$88,976,933
Florida	135	\$76,862,958
New York	106	\$40,067,129
Georgia	49	\$34,619,694
Illinois	60	\$31,284,460
Colorado	46	\$26,411,206
Ohio	67	\$26,267,104
Pennsylvania	54	\$25,961,288

CALIFORNIA SUB-BID REQUEST ADS

4930 E La Palma Ave, Anaheim, CA 92807
Phone: 866-416-4214 • Email: rricard@caliagua.net • Contact: Estimating
Project: City of Santa Ana PFAS Water Treatment at John Garthe Reservoir
Contract No. SA-2025-1
BID DATE: November 13th, 2025 at 2:00PM

An Equal Opportunity Employer & Complies with the Standard Federal Equal Employment Specifications
All Qualified AND/OR Certified DBE Subcontractors and Material/Equipment Suppliers are requested to forward quotes for the above-referenced project.

Caliagua Inc. is seeking qualified subcontractors and suppliers for the following: Demolition, Earthwork, Reinforcing Steel, Masonry, Painting & Coating, Electrical & Instrumentation, AC Pavement, Fence & Gates, Precast Concrete Manholes, PVC Pipe, Steel & Ductile Iron Piping, Process Valves, Horizontal Split Case Pumps, Centrifugal Sand Separators, Cartridge Filters, Deep Well Pumps, Chemical Pumps, Ion Exchange Vessels, OSHG System, Landscaping

Project Documents: <http://www.ocwdplanroom.com/>

Free access to the project documents can be furnished upon request. Caliagua Inc. is signatory to the Operating Engineers, Laborers, Cement Masons and Carpenters Unions. Subcontractors must possess a current contractor's license, DIR Registration, insurance and workers compensation coverage per project requirements. Subcontractors and Suppliers are expected to bid per plans and specifications. Quotes need to be submitted at a reasonable time prior to the bid date. This project has a 5% DBE participation goal, participation is highly encouraged.

CWS Construction Group INC.
Invitation to bid as Subcontractor, supplier or vendor

Certified DVBE, DBE, MBE, SBE, LBE, WBE, OBE Contractors are encouraged to bid.

Subtrades Needed: Demo, Concrete, Metals, Roofing, Joint Sealers, Doors frames and hardware, Gypsum board, painting, Plumbing, HVAC, Electrical, Earthwork, Fencing.

Project Name: Ygnacio Valley Library Upgrades

Bids Due: November 6th, 2025 at 11:00 A.M

Scope Of Work: The project includes the demolition of the existing rooftop HVAC system and full system replacement with an all-electric HVAC system. This project also includes the replacement of the roofing system, electrical upgrades including new switch-gear, and lighting upgrades in the main library floor.

Bid Documents: <https://www.dropbox.com/sc/fo/hobryg1icpqekmfjcbwb1/AI9N6pdc5BX5vIMuqdcAYfg?rkey=5jghvjij1l2jd9isf0ywg8y0&st=jzhwp73t&dl=0>

Participation Goals: DVBE, DBE, MBE, SBE, LBE, WBE, OBE

CWS is capable of providing assistance in obtaining bonds, lines of credit and insurance.

REQUEST FOR SUBCONTRACTORS/SUPPLIERS/SERVICE PROVIDERS

Caltrans Contract 03-3H51U4
FOR CONSTRUCTION ON STATE HIGHWAY IN NEVADA COUNTY NEAR GRASS VALLEY FROM 0.2 MILE SOUTH OF LA BARR MEADOWS ROAD TO 0.1 MILE NORTH OF SOUTH GRASS VALLEY OVERCROSSING
(General work description: Rdwy excavation, place HMA, trenchless culverts, and retaining walls.)

Bid Date: November 6, 2025 at 2:00 PM

Engineers Estimate: \$83M

****This is an Electronic bid submittal****

****Quotes not received by 11:00 AM on bid day may not be reviewed/evaluated****

Flatiron Dragados Constructors, Inc. (FDCI) requests subcontractor/supplier/service participation for the following Items of work, but not limited to: Construction Area Signs & Roadway Signs, Clear & Grub, Erosion Control, AC Paving, Cold Plane AC, Rebar, Tie Back Anchors, Overhead Signs 60" CIDH Sign Foundation, Painting/Concrete Staining, Asphalt Dike/Curbs, Underground Utilities, Fences & Gates, Metal Railing, MBGR, Bridge & Roadway Concrete Barrier, Striping & Markings, Electrical, Minor Concrete, Jack & Bore, Abandon Well, Traffic Control, Aggregates including: CL2 AB, Rip Rap(20lb to ½ ton), Ready Mix Concrete, Concrete Pumping Services, Steel Soldier Pile, Misc. Metals, Iron & Steel, Trucking Services, SWPP Plan & SWPP Materials, Lead Compliance Plan, Geotextile Materials, Form Liner, Underground Precast, QC Testing, Street Sweeping, Treated Wood Waste.

Refer to Caltrans new Spec Section 2-1.11 IN-USE OFF-ROAD DIESEL-FUELED VEHICLE LIST.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact FDCI for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all firms. FDCI will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact FDCI for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

Requests bids from qualified California Department of General Services (DGS) certified Small Business, Microbusiness, Small Business for the Purpose of Public Works, Subcontractors, Consultants, and/or Suppliers seeking to participate in the following project in San Jose, CA:

PENITENCIA WATER TREATMENT PLANT RESIDUALS MANAGEMENT PROJECT
Project No. 93234044 Contract No. C0711
Owner: Santa Clara Valley Water District

REVISED Bid Date: November 12th, 2025 @ 2:00 P.M.

Scopes are due November 5th, 2025, and Quotes NO LATER THAN November 11th, 2025, at 2 P.M.

Small Business, Microbusiness & Small Business for the Purpose of Public Works

wanted for the following scopes, including, but not limited to: AC Paving • Aggregates • Bird Control Devices • Lockers • Window Blinds • Building Insulation • Toilet Accessories • Casework and Countertops • Clearing & Grubbing • Concrete Paving • Concrete Pumping • Concrete Readymix • Cranes & Hoists • Dampproofing • Demolition • Doors, Frames and Hardware • Electrical • Erosion Control Supplies • Final Cleaning & Janitorial • Fire Alarm • Fire Extinguishers • Fire Suppression • Flooring • Framing and Drywall • FRP Fabrications • FRP Tanks • Glass and Glazing • HVAC • Joint Seal and Firestopping • Landscaping & Irrigation • Masonry • Mechanical Equipment • Metal Roofing • Minor Concrete • Misc. Metals and Structural Steel • Overhead Coiling Doors • Painting and Coating • Piping & Valves • Plaster • Plumbing • Potholing • Precast Concrete • Pre-Engineered Building and Canopy • Quality Control • Rebar • Scales • Sound Absorbing Panels • Tiling • Trucking & Hauling

Bonding, insurance and any technical assistance or information related to the plans or specifications and requirements for the work will be made available to interested DGS certified, Small Business, Microbusiness, Small Business for the Purpose of Public Works, suppliers and subcontractors. Assistance with obtaining necessary equipment, supplies, materials, or services for this project will be offered to interested certified suppliers and subcontractors.

Plans are available for viewing through BuildingConnected after completion of a Non-Disclosure Agreement (NDA) provided by Santa Clara Valley Water. Please email norcal.bids@kiewit.com to have your company be able to receive the NDA, bidding information, Plans and Specifications.

Performance and Payment Bonds may be required for Subcontractors, and Supply Bond for permanent material Suppliers on this project. Bond requirements can be waived on a case-by-case basis. Please contact Kiewit for more information. Bond premiums are reimbursable by Kiewit.

Subcontractors must possess & provide current California contractor's license number & DIR Registration number.

Subcontractors and Suppliers will be required to execute Kiewit standard agreements and agree to Kiewit standard general terms and conditions. Copies are available for review through our BuildingConnected site.

Project: City of Parlier Wastewater Treatment Plant Improvements (REBID)
Owner: City of Parlier
Bid Date: December 3rd, 2025 @ 2:00 P.M.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
PIPE SUPPLIERS, PIPE SUPPORTS, PRECAST MATERIALS, MISC. METALS, CONCRETE STRUCTURES, ELECTRICAL, HANDRAILING, STEEL PIPE, MASONRY, ROLL-UP DOORS/ACCESS DOORS/DOORS & HARDWARE, PUMPING PLANT ELECTRICAL EQUIPMENT, GENERATORS/SWITCHGEAR, HVAC/MECAHNCIAL, DRAINAGE PUMPING EQUIPMENT, PAINTING/COATINGS, ROOFING, GRATE, WOOD TRUSS, VALVES/WATER MAIN/ TEMP FACILITIES, LINER.

Project Description:
The major work consists of the replacement of an existing aerated lagoon wastewater treatment plant with a new extended aeration treatment facility. The new treatment facility will provide aeration via turbo blowers and floating aerator chains with motorized butterfly valves. Secondary treatment will be provided by two circular clarifiers with spiral blade scrapers, density current baffles, and fiber glass weirs. Sludge will be pumped by three self-priming chopper pumps and either recirculated to the plants new influent structure or directed to the high-rate textile media sludge drying beds for dewatering. Polymer will be injected prior to the discharge of the sludge into the sludge drying beds. Scum collected by the secondary clarifiers will also be pumped via submersible pumps to the sludge drying beds. The water collected by the sludge drying beds will be directed to a drain pump station where two submersible pumps will recirculate the drain water back into the plant. Plant effluent will be collected within existing storage ponds and distributed to four new reclamation fields via two mixed flow impeller vertical turbine pumps.

All new equipment will be housed in CMU buildings.

Project: Construction on State Highway in Fresno County in and Near Clovis at Various locations from 0.1 mile east of Fowler Avenue overcrossing to 0.1 miles east of Warbler Lane
Contract No. 06-0X2204
Owner: Caltrans
Bid Date: November 5th, 2025 @2:00 PM ELECTRONIC BID
DBE Goal: 19%

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
AGGREGATES, ASPAHLT, CONCRETE MATERIALS, CURIED IN PLACE PIPE, SLURRY PIPE SUPPLIERS, DRAINING SYSTEMS PIPE SUPPLIERS, PRECAST MATERAILS, AC DIKES, AC OILS, ANALYTICAL TESTING, COCNRETE FLATWORK, CONCRETE STRUCTURES, CONSTRUCTION AREA SIGNS, DEMOLITION, EROSION CONTROL, FENCING, METAL BEAM GUARDRAIL, HYDROSEEDING, REINFORCED CONCRETE PIPE, CORRUGATES METAL PIPE (CSP), REINFORCING STEEL, SAWCUTTING, STRIPING, SWPP PLAN ONLY, TRAFFIC CONTROL, TRUCKING, RUMBLE STRIP.

Project Description:
The project includes, but not limited to, RCP culverts, CIPP, structural concrete (DI), and HMA (Type A).
Engineers Estimate: \$8,900,000
Plans and specs can be obtained at: <http://ppmoe.dot.ca.gov/des/oe/weekly-ads>
Or contact: estimating@mountaincascade.com

Please feel free to contact Mountain Cascade, Inc. at 925.373.8370 with any questions concerning bonding, insurance, lines of credit, and job overview. We look forward to your response.

Project: FY 2021 Onsite and Young's Farmland Non- Potable Water Pipeline Projects
Specification No. 2024-03
Owner: Coachella Valley Water District
Revised Bid Date: November 12th, 2025 @ 2:00 p.m.

*****Please note this is an electronic bid, to ensure your quote has been received and reviewed please have all quotes to MCI by 12pm ******

We are requesting quotes from all qualified Subcontractors and Suppliers but not limited to:
AGGREGATES, ASPHALT, CONCRETE MATERIAL, SLURRY, PIPE SUPPLIERS, AC OILS, ADJUST MH/WV, ASPHALT GRINDING, CATHODIC PROTECTION, ELECTRICAL-STREET LIGHTS/TRAFFIC SIGNALS/LOOPS, EROSION CONTROL, LANDSCAPING/IRRIGATION, SAWCUTTING, SWPPP, TRAFFIC CONTROL, TRUCKING, CPM SCHEDULE, DIP.

The project consists of onsite non-potable water pipelines in the facilities: Annenberg Estates, Jack Ivey Ranch, Palm Royale Country Club, Southwest Church, Suncrest Golf Course, Tamarisk Country Club and Young's Farmland. The work includes installing approx.. 14,450 lf. of C900 PVC pipe and installing zinc coated DIP with V-Bio Polyethylene encasement, including valves, fittings, restrained joints.

Additional facilities include:
1. Five meter vaults with electromagnetic flow meters & electronic pressure regulating valves
2. Six control valve vaults
3. Six lake discharge structures

Engineers Estimate: \$2,010,000

Project information, including plans & specifications can be found by contacting:
estimating@mountaincascade.com

Project: Ventura-Santa Barbara Counties Intertie
Specification No. 22-451
Owner: Casitas Municipal Water District
Bid Date: November 12, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
AGGREGATES, ASPHALT, CONCRETE MATERIAL, SLURRY, LOW DENSITY CELLULAR GROUT, PIPE SUPPLIERS, PRECAST MATERIALS, EROS MATERIALS, AC DIKES/OILS, ADJUST MH/WV, ASPHALT GRINDING/PAVING/STAMPED, BORE & JACK, BYPASS-PUMPING, CATHODIC PROTECTION, CCTV, CDS UNITS, CHIPSEAL/SLURRY SEAL, CONCRETE FLATWORK/PAVEMENT/PUMPING/STRUCTURES, DEMOLITION, DEWATERING, DIRECTIONAL DRILLING, HDD, ELECTRICAL-BUILDING, ELECTRICAL-STREET LIGHTS/TRAFFIC SIGNALS/LOOPS, ENVIRONMENTAL SERVICES, EROSION CONTROL, FALSEWORK/SCAFFOLDING/FORMWORK, GEOTECH ENGINEERS, GUARDRAIL, HANDRAILING, HYDROSEEDING, PIPE LINING (CEMENT MORTAR), CAST-IN-PLACE CONCRETE PIPE, REINFORCED CONCRETE PIPE, JACKED REINFORCED CONCRETE PIPE, CORRUGATED METAL PIPE, PLASTIC PIPE, JOINT SEAL, K-RAIL, LANDSCAPING/IRRIGATION, MASONRY, MICROTUNNELING, SAWCUTTING, SHORING SUBS, SOIL REMEDIATION, STRIPING, STRUCTURAL STEEL, SURVEYING, SWPPP, TRAFFIC CONTROL, TREE REMOVAL/ARBORIST, VIBRATION MONITORING, WELDED STEEL/JACK WELDED STEEL PIPE, CRANE RENTAL, CONVEYOR/EQUIPMENT RENTAL, TRUCKING, ACCESS DOORS/HARDWARE, ACOUSTICAL, BATHROOM FIXTURES, BLDG. MASONRY, BLDG. CONSTRUCTION, PUMPING PLANT ELECTRICAL EQUIPMENT, DRYWALL, EARTHWORK, FIRE PROTECTION, GENERATORS/SWITHC GEAR, HVAC/MECHANICAL, DRAINAGE PUMPING EQUIPMENT, PAINTING/COATINGS, PIPE INSULATION, PLUMBING, ROOFING, STUCCO, TANKS, WATERPROOFING, HAZMAT, GRATE,B-DECKING, WOOD TRUSS, ROAD SIGNS/SIGNAGE, VALVES/WATER MAIN/TEMP FACILITIES, BLDG. INSULATION.

Project Description:
The project includes:
• Open trench pipeline installation and horizontal directional drill (HDD) pipeline installation in both Ventura County and Santa Barbara County;
• Two pipeline relocation segments;
• Installation of two booster pump stations; and
• Bypass piping at the Rincon Control Reservoir, Rincon Chlorine Station and Rincon Pump Plant. The work location spans Highway 192 near Highway 150 and multiple sites along the District's existing Rincon Main

CALIFORNIA SUB-BID REQUEST ADS

REYES CONSTRUCTION, INC.
CONSTRUCTION WITHOUT COMPROMISE

Request for certified / Self Certified SBE, SDB, WOSB, VOSB, SDVOSB, HUBZone Subcontractors/ Suppliers to provide quotes for:

Project Name: P961U Integrated Training Facility
Project ID: N6247325RF528
Owner: NAVFAC Southwest
Estimated Project Value: \$12M

Subcontractors/Subconsultants/ wanted for the following trades:

Subcontractor- Archaeological and Cultural Monitoring, Environmental Monitoring, Surveying, Quality Control, SWPPP, Commissioning, Utility Scan, UXO, Pre-Engineered Building, Demolition, Traffic Striping, Electrical & Communication, Building Construction, Clear and Grub, Pavers, Drywall, Framing, Plumbing, HVAC, Painting, Tile, Signage & Striping, Airplane Flights.

Supplier- Aggregates, Miscellaneous Metals, Plastic Pipe & Fittings, Signs, Traffic Control Matl, Temp Fencing, Ready Mix Concrete, Waste Bin Rentals, Barging, BMP Material, Waterworks, Material Drainage, CMU.

Project Scope:

This Design Build (DB) project will provide a new 3,862+ square foot Integrated Maintenance Training Facility to include designated spaces for maintenance, administration, storage in support of post-flight maintenance, and minor repair of non-airborne equipment primarily for the MH-60 Helicopter and others. Approximately 75% of overall construction footprint is allocated to extensive site civil works and hard-scape installation. Site preparation includes site clearing, grubbing, erosion and sediment control measures, excavation/fill, and preparation for construction. Paving and site improvements include grading, concrete interlocking blocks pavement for approximately 10 vehicle parking spaces, concrete interlocking block pavement access roadway, fencing, gates, and signs, and construction of self-contained septic and leach field wastewater treatment system. Information systems include telephone, computer network unclassified Internet Protocol (IP) Router Network (NIPRNET) and classified (SIPRNET) networks, and fire alarm/mass notification system.

BID DATE: December 11th at 2PM

State License Number 507561
1383 South Signal Drive, Pomona, CA 91766
Contact: Brenda Martinez PH: 909.622.2259

Assistance will be available in obtaining bonds, lines of credit, insurance, necessary equipment, supplies, materials or related technical assistance.

For information on the availability of scope of work, plans, and specifications, please contact our office.

Plans, Specifications, and Contract requirements can be viewed at no additional cost:

- 1) Via iSqFt – please send an email request to estimating@reyesconstruction.com
- 2) In person at Reyes Construction Headquarters (please email for appointment)

Please e-mail Questions and Quotes to: Estimating@reyesconstruction.com

Owner: Port of Long Beach – Harbor Department

Project Name: Pier B Shoemaker Bridge Ramps Demolition at Shoemaker Bridge; Spec No. HD-S3164

Location: 415 W. Ocean Blvd, Long Beach, CA 90802

Bid Date: October 28, 2025, @ 2:00pm PST

Request for SBE and VSBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE) to perform as subcontractors, material contractors, and suppliers. SBE and VSBE must provide evidence of certification by the Department of General Services (DGS) and Port of Long Beach, PlanetBids portal.

Kiewit will be requesting quotes for various areas of work listed in, but not limited to, the scopes of work below.

Temporary fencing, asbestos abatement equipment and supplies, water quality monitoring equipment, lumber - treated safety barriers – traffic, general construction, site assessment, construction services, demolition services, excavation services, construction services, sewer and storm drain; electrical, contaminated soil services; earth handling, grading; paving marking services; traffic control services and wrecking and removal.

This project is subject to Project Labor Agreement, Labor Compliant and prevailing wage rates. The project is partially funded by the following grants – California State Transportation Agency 2023 Port and Freight Infrastructure Program (Grant #07-5108) Program, and is subject to federal funding requirements including, but not limited to the DBE Program requirements, and the California Labor Code.

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of BuildingConnected system (at no cost to bidder) with project information and bid instructions. Plans and specifications will also be available for review at the address listed below if requested.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, licensing, insurance or bonding, equipment, supplies, materials, or related assistance or services or project schedule, please contact the Lead Estimator listed below.

Kiewit Infrastructure West Co.

REQUEST FOR QUALIFICATION (RFQ) and RFQ's FROM LBABE/LIABE/SBE/VSBE
RFQ Period: October 27th, 2025 – November 7th, 2025

Turner Construction Company (Turner) is seeking RFQs for the following Trade Packages for:

Oakland International Airport
M103 AHU and Roof Replacement
Approximate Construction Value: \$34,000,000
Owner: Port of Oakland

Project Description:

Turner has been awarded the Oakland International Airport M103 AHU project designed by Gensler Architects, located at the Oakland International Airport. This project involves the replacement of four (4) existing rooftop air handling units (AHUs), roofing membrane, and associated components on Building M-103. This project is classified as a Level 1 Alteration per the 2022 California Existing Building Code.

Only those Subcontractors who meet pre-qualification criteria and are deemed pre-qualified to perform work on their respective trades will be invited to submit a bid. Trade Subcontractors who do not submit the prequalification information and are not pre-qualified will not be allowed to bid the project.

PREQUALIFICATION OF PROSPECTIVE TRADE PARTNERS:

Prequalification's are to be submitted online via www.Turnerconstruction.com. Contact Max Hanna mahanna@tcco.com for more information. In addition to the online Prequalification, the documents listed below will need to be provided by the trade partner.

(Note: Turner has a 40% LBABE/LIABE goal which includes a 20% SBE/VSBE goal for this project.)

1. Oakland Port Certifications: (Local Business Area Business Enterprise (LBABE), Local Impact Area Business Enterprise (LIABE), Small Business Enterprise (SBE) & Very Small Business Enterprise (VSBE)).
2. Include your Department of Industrial Relations Certificate.

(Note: For trades submitting multiple packages, please pre-qualify for each trade package.)

Turner is currently seeking RFQs for the following Trade Packages:

Trade Subcontractors who do not submit the pre-qualification information and are not pre-qualified will not be allowed to propose on the project.

Turner is currently seeking RFQs for the following Trade Packages:

Bid Package #	Trade Package	Approximate Value
BP-01	HAZMAT	\$575 K
BP-01	DEMOLITION	\$1.6 M
BP-01	CONCRETE	\$350 K
BP-01	SCAFFOLD	\$1.5 M
BP-01	MISC METAL	\$3.75 M
BP-01	ROOFING	\$3.3 M
BP-01	FIREPROOFING	\$275 K
BP-01	GLAZING	\$75 K
BP-01	DRYWALL	\$500 K
BP-01	ACOUSTICAL CEILING TILE	\$300 K
BP-01	FLOORING	\$30 K
BP-01	PAINTING	\$30 K
BP-01	FIRE PROTECTION	\$125 K
BP-01	PLUMBING	\$400 K
BP-01	HVAC	\$5.8 M
BP-01	ELECTRICAL	\$1.6 M

Project Goals: Turner has a 40% LBABE/LIABE goal which includes a 20% SBE/VSBE goal for this project. Persons claiming local business status shall apply to the Social Responsibility Division at least seven (7) business days before the bid or proposal due date for certification as a local business and return the application with documentation evidencing its business location, the length of time its business was located and operated in the LIA or LBA. Applications may be downloaded at <https://www.portofoakland.com/business/small-local-business/certification-application>.

Social Justice Fund: The Port of Oakland Maritime and Aviation Project Labor Agreement (MAPLA) contains a provision (Section 6.4) that requires contractors to pay into the Social Justice Labor Management Cooperation Trust Fund. Contractors shall pay thirty cents (\$0.30) per hour worked or paid into the Social Justice Trust Fund established.

For information on how to Pre-Qualify with Turner, please contact Max Hanna– Subject: OIA M103 AHU at the following email address: mahanna@tcco.com

Technical Guidance for Preventing Winter Damage

Continued from page 1

peratures, maintaining a curing environment that encourages strength gain is crucial. ACI recommends that concrete be maintained at or above 50° F (10° C) for at least the first 48 hours after placement. This period is critical for achieving structural milestones and maintaining construction schedules.

Methods to promote early strength include using high early-strength cement (Type III), preheating mix water and aggregates, and incorporating accelerating admixtures approved under ASTM C494. These techniques allow for earlier form

removal and load application.

3. Minimize Thermal Shock & Cracking

When temperature gradients form between the surface and interior of a concrete section — or between different structural components — thermal stress can result in cracking. Rapid heating or cooling can exacerbate this issue. Contractors should control the rate of temperature change, particularly during the transition from heated enclosures to ambient conditions.

ACI 306R-16 recommends a gradual reduction in temperature, ideally not more than 20° F (11°

C) per day, to prevent thermal shock. This guideline also applies to concrete stored in precast yards or transported to cold sites, where thermal equilibrium must be carefully managed.

4. Maintain Uniform Concrete Temperature

Temperature consistency across the volume of concrete is key to avoiding internal differential shrinkage and uneven curing. In cold weather, the perimeter of a slab or exposed areas of a column can cool much faster than the interior, setting up stress fields that lead to cracking. To mitigate this, ACI recommends thorough planning of placement sequencing, form insulation,

and internal temperature monitoring using thermocouples or maturity meters. This ensures that concrete cures evenly and develops its intended mechanical properties throughout.

These four pillars should be treated as interconnected components of a larger winter concreting strategy. Each decision — whether it involves curing method, admixture use or mix temperature — should be evaluated based on its ability to produce consistently successful outcomes.
