

‘Time to Be Human’: Paul Doherty Talks Tech and Architecture

[Article originally appeared in
www.constructionexec.com]

By Maggie Murphy

Paul Doherty has worn more hats than most in the built environment. Trained as an architect in Manhattan, he detoured into technology early in his career—designing trade show booths for IBM in the late 1980s, back when Apple was still an upstart. That experience sparked a revelation: Computer companies, with their networks of component suppliers, looked a lot like general contractors managing subcontractors.

Today, Doherty is president and CEO of the Digit Group, advising governments and developers worldwide on smart cities and emerging technologies. His work touches everything from blockchain-enabled smart contracts to AI agents, robotics and even the role of cultural anthropology in city design.

In a recent conversation with Construction Executive, Doherty explains why he believes buildings are “computers we can live in,” how blockchain might finally deliver the trust construction contracts need and why small contractors shouldn’t be intimidated by cutting-edge tech. Above all, he stresses, technology should give people time back. Time to walk the site instead of sit in the trailer. Time to have better conversations with clients, coworkers and communities. Time to be human.

Let’s start with your journey. You trained as an architect, but your career has taken you far beyond traditional design. How did you get from there to leading conversations on smart cities and construction technology?

It’s been an amazing arc. I sometimes joke that I feel like Benjamin Button—the older I get, the more youthful my thinking becomes.

It goes back to architecture school. I did well academically, which allowed me to alternate semesters between the classroom and internships. Because I studied in Manhattan, I had the chance to work with some big firms. But when I thought about spending two years doing nothing but bathroom details, I realized that wasn’t for me.

Instead, I took an offer from IBM in the late ’80s. At the time, they were the only real game in town. Apple was just emerging, and IBM needed people to design their trade show booths. That meant I had to tear computers apart, understand how networking worked and showcase it all to the public. I got deeply immersed in technology—not just how the machines looked, but how they functioned.

That’s when it hit me: IBM didn’t make every component. They relied on OEMs for memory boards, motherboards and more, then assembled it all. Isn’t that exactly what a general contractor does? They don’t own the window company or the painting company—they coordinate and deliver the project. From then on, I started seeing buildings as computers. And if we think of

Image credit by www.constructionexec.com

them that way, with walls, floors and ceilings as components, what happens when we connect everything? That’s the “Internet of Buildings.”

Fast-forwarding to today, you’re advising governments across the globe on smart cities. What keeps you excited about this work after decades in the field?

I’ve been fortunate to work across architecture, construction, real estate development and now at the level of entire cities. What keeps me here is that sense of connection.

During COVID, I reread a biography of Leonardo da Vinci, and one quote stood out: “I’m learning how to see again, that everything is connected to everything else.” That’s exactly how I approach smart cities.

I don’t start with roads or buildings. I start with people—their education systems, healthcare, transportation, food and culture. I even bring cultural anthropologists into projects to ask: Why do people want to live here? What will attract them and, more importantly, how will they build community over time?

Cities can’t just be “pop-ups.” They need meaning and story. Technology is part of that, but it’s not about gadgets for their own sake. It’s about designing environments where people can thrive.

You’ve said that technology shouldn’t just save money or time—it should enhance the experience of the built environment. Can you explain that?

Mayor Bass Honored With Trailblazer Award for Climate Action, Announces New LADWP Program to Help Angelenos Conserve Water, Save Money, and Beautify Neighborhoods

[Article originally appeared in
www.calmatters.org]

Mayor Karen Bass today was honored with the Trailblazer Award for climate action at the Net Zero Conference, which celebrates leaders making a positive impact on people and the environment. She also announced a new no-cost program through the Los Angeles Department of Water and Power (LADWP) designed to help Angelenos in disadvantaged communities conserve water, save money on their water bills, and beautify their neighborhoods.

Through the Landscape Efficiency Assistance Program (LEAP), qualifying LADWP single-family residential customers can receive a front yard transformation that includes turf removal, efficient irrigation systems, drought-tolerant plants tailored to thrive in Southern California’s climate, and other water-saving upgrades – all at no cost to the homeowner. The program serves communities where residents often face financial barriers to making landscape improvements.

“This award is a testament to all of the City Departments, non-profits, advocacy groups, and community leaders taking action every day

to advance L.A.’s climate goals,” said Mayor Karen Bass. “What better day to launch an innovative new program to empower Angelenos to conserve water and further bolster the sustainability of L.A.’s neighborhoods – and it’s just one of many City initiatives helping to increase resilience, create cleaner communities, and show the world what’s possible when we commit to climate leadership.”

“I have witnessed firsthand Mayor Bass’ commitment to bold climate action, and LEAP is another program that will push us forward in meeting our ambitious climate goals,” said Janisse Quiñones, LADWP Chief Executive Officer and Chief Engineer. “Water conservation and sustainable landscapes should be for all Angelenos, and the LEAP program helps make California Friendly lawns accessible to everyone. By providing no-cost landscaping transformation services, we are helping LADWP customers save water, lower their bills, and contribute to the region’s overall environmental resilience.”

About the LEAP Program

Funded by a \$14.6 million grant from the California Department of Water Resources (DWR),

LEAP aims to convert approximately 1.03 million square feet of turf into water-wise gardens by December 2026. The initiative is projected to save more than 85.5 million gallons of water annually, enough water for 1,052 households.

To deliver the front yard transformations, LADWP has partnered with certified private contractors trained in water-efficient landscaping construction. These professionals will work directly with participants to remove existing lawns, install or upgrade irrigation systems, and plant drought-tolerant landscapes.

Program eligibility requirements include:

- Must be a single-family residential LADWP customer living in a Disadvantaged Community, as stipulated by the California Department of Water Resources (DWR)
- Front lawn must be alive (green); replacements are limited to front yards only
- Turf removal area must range between 1,000 to 3,000 square feet
- Property must have rain gutters installed in the front of the house

- Applicant must be the property owner or have documented permission from the owner

LEAP funds are limited. Customer participation is on a first-come, first-served basis until funds are exhausted. For more information and to check program eligibility, visit ladwp.com/LEAP.

Customers not eligible for LEAP may qualify for LADWP’s \$5 per square foot Turf Replacement Rebate, offered to all single-family residential customers. Pre-approval is required, and eligible customers can receive up to \$25,000 in rebates, depending on lawn size. Since its inception, LADWP’s Turf Replacement Rebate program has incentivized the replacement of 55.4 million square feet of turf. The associated water savings are equivalent to the amount of water used by 29,928 homes annually.

In addition, LADWP offers many rebates and incentive programs where customers can make household changes and upgrades needed to help them make water conservation a way of life.

CALIFORNIA SUB-BID REQUEST ADS

INDUSTRIAL CONTRACTORS INC.
COMMERCIAL • TENANT IMPROVEMENTS
CA CONTRACTORS LIC. NO. 80291 / WA CONTRACTORS LIC. NO. 80291

Project: Treatment Plant Screening Project
Owner: Grayson Community Services District
Revised Bid Date: October 30, 2025 @ 2pm
Bid Completion: 360 Calendar Days

TNT Industrial Contractors, Inc. is soliciting bids from Disadvantaged Business Enterprises (DBEs) for the Grayson Community Services District Treatment Plant Screening Project. As a prime contractor it is our intention to comply with the DBE participation goals established in the bid documents. We are seeking participation in the form of subcontractors, material suppliers and equipment vendors for the following:

Surveying, Rebar, Concrete, Grading, Paving, Fencing, Underground, Landscape, Painting & Coating, Electrical and Instrumentation, Trucking, Concrete Pumping, Ready Mix Concrete, Miscellaneous Metals, Valves, Piping, Pumps, Site Work/Excavation, Aggregate Supply, and Temporary Facilities.

Subcontractors and suppliers must be licensed to conduct business in the state of California. Plans and specifications can be accessed at <https://www.publicpurchase.com/gems/graysonccd.ca/bid/bidView?bidId=200268>. Plans and specs can also be viewed at our main office located in Sacramento at 3800 Happy Lane.

Please feel free to contact Jeremy Taylor at 916-395-8400 with any questions concerning bonding, insurance, lines of credit, and job overview. We look forward to your response.

TNT Industrial Contractors, Inc. an equal opportunity employer • California License # 622974

Employee-Owned

TAFT ELECTRIC COMPANY
1694 EASTMAN AVENUE • VENTURA, CA 93003

Project: Lafayette Reservoir Tower Safety Upgrade
Spec. No. 2175
Owner: EBMUD

Revised Bid Date: October 15, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified DBE/MBE/WBE/ Subcontractors and Suppliers but not limited to:

Low Density Cellular Grout, pipe Suppliers, Scaffolding, Divers, Steel Pipe, Construction Area Signs, Electrical-Building, Fencing, Hydroseeding, Misc. Metals, Trucking, Crane Rental, Valves/Water Main/Temp Facilities, Access Doors/Doors/Hardware/Gates & Actuators, Painting/Coatings, Roofing, Waterproofing, Concrete Repair, Bird Control/Netting.

Project Description:

Work includes demolishing the upper portion of the tower and shortening it to El. 460 feet; removing the existing manual valve operators for gates; furnishing and installing new operators, slide gates, stems and stem guides and replacing trash racks and fish screens outlets; constructing a new metal control house with crane on top of the remaining tower; retrofitting the west conduit by replacing the entire existing 24-inch ID steel pipe within an existing 60-inch conduit, providing supports as required, and extending the pipe an additional approximately 70 feet to the dewatered tower; retrofitting the east conduit by furnishing and installing and encasing a new 36-inch ID steel pipe and supports within the existing 60-inch conduit; and performing related required work.

Engineers Estimate: \$11 Million - \$14 Million

‘Time to Be Human’: Paul Doherty Talks Tech and Architecture

Continued from page 1

Too often, we think of technology only in terms of efficiency: Will it cut costs, save time or improve quality? Those are important, but that’s not the full picture.

I see technology as a design tool. It’s not just about building faster—it’s about enriching the human experience of what gets built. The real promise of emerging tech is when it becomes transparent, when it fades into the background and simply helps people work and live better.

That’s why I get excited about things like AI, blockchain and smart contracts. They’re not ends in themselves. They’re means to creating trusted systems, freeing people from grunt work and letting them focus on what matters.

Let’s dig into that. AI is everywhere in the headlines, but you’ve been clear that AI alone isn’t enough. Why is that?

Think of AI by itself like cotton candy. It looks great, it tastes sweet, but halfway through you realize there’s no nutritional value—and maybe you get a stomachache.

Right now, AI systems are trained on scraped internet data, which can be biased or flawed. That’s why sometimes you get answers that sound convincing but aren’t correct—hallucinations. But when you combine AI with blockchain, things get interesting. Blockchain creates immutable, trusted data. So if you layer AI on top of that, now you’re working with reliable information.

That’s when you can do things like smart contracts. Imagine a residential contractor who uses the same contract language repeatedly. Instead of drafting from scratch in Word or PDF, an AI agent builds the agreement in seconds, drawing on blockchain-verified templates. You “set it and forget it.” It’s like renting a car—you don’t read every clause of the Hertz contract each time, you just sign and move forward. That’s where we’re headed in construction.

Some of what you describe can sound pretty high-level. What does this mean for the small to mid-size contractors who make up much of the industry?

CALIFORNIA SUB-BID REQUEST ADS

PROJECT NAME: BART Police Department Headquarters
2000 Broadway, Oakland, CA 94612
DOCUMENTS TO BE RELEASED: Available Now.
BID DUE DATE: October 28, 2025 at 4:00 PM. Include ALL completed Bid forms.
Swinerton is requesting quotations from All Subcontractors and Certified DBE's.
Trades: Trade Package #6: Subcontractors to Swinerton Self Perform Concrete ONLY
RFIs Due: October 21, 2025, 4 PM.
Project Description:
Swinerton is Bidding this project for Bay Area Rapid Transit. This bid is for award.
Swinerton Builders and Gensler Architects are teaming up for a Progress Design-Build Tenant Improvement for a new Bay Area Rapid Transit (BART) Police Department Headquarter facility. The location of the existing building that will be ongoing construction is located at 2000 Broadway Street in Oakland, 94612, California. The scope of work for this project involves demolition of interior member like doors, interior walls, and fixtures along with partial MEPFS removal. Once demolition is complete, construction will consist of seismically upgrading the building, adding micro piles and viscous dampers along with refurbishing the interior space tailoring it to BART PD's needs.

PLANS & SPECIFICATIONS:
Available via Building Connected
Contact: Blake Nelson
Tel: (415) 385-4732
EMAIL TO: bnelson@swinerton.com

- This is a Public Works project that has federal funding. Subcontractor must be registered with the CA Department of Industrial Relations before submitting a bid. Application and renewal are completed online with an annual, non-refundable fee.
- Davis-Bacon Act Requirements and Wage Determinations shall apply to this contract.
- Project is covered by a Project Stabilization Agreement
- 45% DBE Participation requested
- This will be a "best value" procurement; Price, capability, DBE participation or DBE status. Proposal and interview

We reserve the right to require all subcontractors to furnish 100% performance and payment bonds from a U.S. Treasury-listed surety. Premium cost to be included as a separate item. At our discretion, a bid bond and/or letter of bondability from a U.S. Treasury-listed surety may be required within 48 hours of demand.

"Swinerton is an Equal Employment Opportunity, Minority, Women, Disability, and Veteran Employer"

431 Payran Street, Petaluma, CA 94952 • Phone: 707-835-2900 • Fax: 707-835-2994

AN EQUAL OPPORTUNITY EMPLOYER

Requesting participation for all construction trades, materials and services from small and minority businesses, women's business enterprises, and disadvantaged business enterprises for the:

CAPP - Advanced Water Purification Facility- Carpinteria, CA
This Hard Bid project will start in early 2026 for completion in October of 2028.

The Advanced Water Purification Facility (AWPF) construction includes demolition of existing structures, soil improvements (deep cement soil mixing, helical anchors), civil site work and grading, concrete construction, building and canopy construction, yard piping, mechanical, electrical, instrumentation, controls, SCADA systems, and equipment installation. The Project specifically includes the following elements:

- 200,000-gallon buried concrete equalization (EQ) tank with the UF system feed pumps and plant water pumps for the existing CSD WWTF and UF disc filter system located on top of the tank.
- 8,200-sf AWPF process and operations building consisting of the UF system, RO system, UF and RO CIP systems, RO feed tank, RO flush tank and pumps, and UV/AOP system with exterior 1,000-sf canopy, 10,000-gallon buried concrete purified water clearwell tank and pump station, purified water stabilization, 2,500-sf chemical storage area and feed facilities, 40,000-gallon buried concrete waste equalization tank and pump station, electrical room, and support spaces. The CMU building shall include 630-sf support area for control room, break room and restrooms.
- Soil stabilization via cement injection is required under the AWPF building and helical anchors under the EQ tank.
- Chemical feed pump skids added to the existing chemical feed facility at the WWTF.
- Equipping two (2) groundwater injection wells (drilled under separate bid package).

Labor: Both California DIR + Davis Bacon (The higher rate applies)

HENSEL PHELPS
Plan. Build. Manage.
An Equal Opportunity Employer
18850 Von Karman Avenue • Irvine, CA 92612
Phone: 949-852-0111

Subcontracts awarded on this project will be on the Hensel Phelps Construction Co. standard form subcontract and may include a requirement to provide payment and performance bonds from a T-Listed surety at the subcontractor's expense. Hensel Phelps will assist in obtaining bonds, lines of credit or insurances required.

PUBLIC LEGAL NOTICE
ADVERTISEMENTS

CITY AND COUNTY OF SAN FRANCISCO
Community Outreach Public Notice
Prepared by The Office of the Clerk of the Board of Supervisors
Pursuant to Administrative Code, Section 2.81

Participate on a Board or Commission!

The Assessment Appeals Board (AAB)
The AAB resolves legal and value assessment issues between the Assessor's office and property owners.
Hearings are quasi-judicial, conducted in a manner similar to a court setting, with evidence and testimony presented by the parties. The Board then evaluates the evidence and testimony and renders its decision.
To be eligible for seat appointment, you must have a minimum of five years professional experience in California as either a: (1) public accountant; (2) real estate broker; (3) attorney; or (4) property appraiser accredited by a nationally recognized organization, or certified by either the Office of Real Estate Appraiser or the State Board of Equalization.
For a full list of current or upcoming Boards, Commissions and Task Forces, please visit <https://sfbos.org/vacancy-boards-commissions-task-forces>.

Department Announcements
Child Support Services
Child support matters can be complicated, stressful, and confusing. The Department of Child Support Services helps parents understand the process so they know their rights and options for making and receiving support payments. We are available to assist you in person or by phone. Virtual services are also available. Call us today at (866) 901-3212 for more information. Enroll online or schedule an appointment at sf.gov/dcss to learn how we can help you.
City College of San Francisco
Enroll Now at City College of San Francisco!
City College of San Francisco is now open for Fall enrollment! Whether you're starting college, returning to finish a degree, or looking to learn something new, CCSF has hundreds of affordable programs to help you reach your goals.
San Francisco residents may qualify for **free tuition** through the Free City program—no income requirements, just opportunity. There's still time to register for late-start classes. Visit us in person or explore your options at www.ccsf.edu/
Open the door to your brighter future—**Enroll today!**
Emergency Management
sf.gov/ReadySF - The place to find everything you need to know before, during, and after an emergency. Stay ready, so you don't have to get ready. Brought to you by the San Francisco Department of Emergency Management (DEM).

Housing Authority
The Housing Authority of the City and County of San Francisco (Authority) is actively seeking new property owners to participate in the Section 8 Housing Choice Voucher (HCV) program. The program provides housing assistance to eligible individuals and families by paying a portion of their rent to private property owners.
Key benefits:
1. **Guaranteed Monthly Rent:** Property owners can rely on timely direct deposited rental payments from the Authority.
2. **Expanded Tenant Pool:** Property owners gain access to a broader pool of prospective tenants.
3. **Community Impact:** Partnering with the Authority supports

affordable housing and the community.

We are interested in expanding housing opportunities in San Francisco zip codes 94129, 94123, 94105, 94127, 94114, 94131, 94116, 94118, 94158, 94122, 94107, 94117, 94112, 94121, and immediate suburban areas. For more information, please contact us at customercare@sfga.org or learn more at www.sfga.org.

Police
Join the SFPD!
Come join a highly respected police department and serve the citizens of one of the most beautiful cities in the country. San Francisco Police Officers perform a wide variety of duties to promote public safety and security, prevent crime and enforce the law. From Fisherman's Wharf to Golden Gate Park and from Nob Hill to the Tenderloin, whether we're on foot patrol, horseback, or in squad cars, investigating felonies, responding to emergencies or leading classes on public safety, we're working with you to help keep our community safe. Be the force our community needs and make a positive difference in our citizens' daily lives. This is more than a job; it is an opportunity to build a career of which you can be proud of.

Starting Salary Range: \$119,262 - \$164,164. APPLY TODAY AT JOINSFPD.COM!

Rent Board
IMPORTANT NOTICE FOR LANDLORDS
San Francisco landlords need a license before imposing annual and banked rent increases on tenants according to the City's rent control laws. To obtain or renew a license, property owners are required to report certain information about their residential units into the San Francisco Housing Inventory each year. Property owners can submit their Housing Inventory information to the Rent Board in a few ways, but are strongly encouraged to complete the process online at portal.sfrb.org. Once the system accepts the submission, a rent increase license will be automatically generated and readily available. Owners can also deliver a paper Housing Inventory form to 25 Van Ness Ave., Suite 700, San Francisco, CA 94102 or to rentboard.inventory@sfgov.org. Assistance is available by calling 311 or emailing rentboard.inventory@sfgov.org. Visit sf.gov/rentboard for more information.

San Francisco International Airport
San Francisco International Airport (SFO) is offering exciting upcoming concession opportunities, including prime retail and food & beverage leases, as well as small business set-asides. While information conferences for the RCC Café Lease (Small Business) and the HMT1 & Terminal 3 Traveler's Retreat Lease were held in July, these opportunities are still available. Additional upcoming opportunities include two Terminal 3 Boarding Area E Pop-Up Retail Concession Leases (Info Conference: 9/25/2025), Terminal 3 West Food and Beverage Phase 1 Concession Leases and Travel Convenience Stores (both with Info Conferences on 11/5/2025), and the Terminal 3 Boarding Area E Candy Kiosk Lease, a Small Business Set-Aside (Info Conference: 10/29/2025). To learn more, visit flysfo.com/business/small-business-development. Don't miss your chance to do business at one of the world's premier airports!

The City and County of San Francisco encourages public outreach. Articles are translated into several languages to provide better public access. The newspaper makes every effort to translate the articles of general interest correctly. No liability is assumed by the City and County of San Francisco or the newspapers for errors and omissions.
