

Texas, at Half Speed, Still Leads All States in Total Nonresidential Construction Starts

[Article was originally posted on www.constructconnect.com]

By Alex Carrick,

Texas the Leader, but Accolades for Missouri and Indiana

According to ConstructConnect, U.S. nonresidential (NR) construction starts year to date in 2020 have been -26.9% compared with January-August of last year. Table 1 ranks the Top 20 states by their NR construction dollar volumes.

One feature that pops out is how dominant Texas is in the NR starts arena. The state's dollar volume of starts has been cut in half (-51.1%) so far this year, but it still ranks number one overall. (Texas in full year 2019 was home to eight 'mega' projects starts with a combined value of \$29 billion; 2020 has seen only project valued at more than \$1 billion in the state.)

The dominance of Texas isn't just because two of the other three large population states also recorded big NR starts declines. Florida was -38.3% and New York, -24.1%. Even if those two states had stayed flat, Texas would still be beating them.

California, though, the other member of the Big 4 population states, and currently facing an onslaught of forest fires, has hardly faced any reckoning on the nonresidential construction front to date, -1.4%.

Of the Top 20 states, all but two have recorded declines, with 13 suffering double-digit percentage drops. Other than California, the smallest percentage pullbacks have been recorded by Ohio (-2.4%), Tennessee (-3.3%), and Arizona (-6.6%).

But how about some accolades for Missouri and Indiana. They're the only states that have managed nonresidential construction 'starts' advances, +24.5% and +2.2% respectively.

Washington State Climbs to 3rd Spot in Engineering

Tables 2 and 3 rank states according to the two major breakdowns of total nonresidential construction starts, i.e., by nonresidential buildings and by heavy engineering/civil work.

From Table 2, the order of states by nonresidential building starts is the same as for 'total' - i.e., Texas, followed by California, Florida, and New York. On a year-over-year basis, all four states of

Table 1: Ranking of Top 20 States by YTD \$ Volume of Nonresidential Construction Starts - ConstructConnect

	% CHANGE VS JAN-AUG	
	JAN-AUG 2020	2019
1 Texas	\$30,689,751,226	-51.1%
2 California	\$26,771,693,825	-1.4%
3 Florida	\$15,232,229,545	-38.3%
4 New York	\$12,844,607,744	-24.1%
5 Washington	\$10,787,646,410	-9.6%
6 Illinois	\$10,462,636,562	-13.9%
7 Ohio	\$10,113,237,365	-2.4%
8 Georgia	\$7,607,358,967	-45.1%
9 Missouri	\$7,550,586,497	24.5%
10 Virginia	\$7,357,592,331	-33.7%
11 Pennsylvania	\$6,868,150,756	-39.7%
12 North Carolina	\$6,810,659,864	-30.8%
13 Wisconsin	\$6,412,864,577	-18.6%
14 Massachusetts	\$6,336,329,947	-35.3%
15 Minnesota	\$5,999,876,580	-26.6%
16 Tennessee	\$5,875,718,743	-3.3%
17 Arizona	\$5,692,886,282	-6.6%
18 Indiana	\$5,531,810,017	2.2%
19 Colorado	\$5,460,690,197	-14.8%
20 Michigan	\$5,197,595,980	-47.5%

Texas, at Half Speed, Still Leads All States in Total Nonresidential Construction Starts

Continued from page 1

those states have suffered substantial nonresidential building starts declines: Texas, -59.6%; California, -22.7%; Florida, -26.4%; and New York, -26.8%. Texas, though, has had double the setback of the other three.

Ohio (-0.2%), in fifth place, and Illinois (+0.7%) in seventh, have managed to stay even with January-August of last year, while Missouri (+36.1%)

in sixth position, has pulled off an impressive gain.

The ordering of states according to engineering starts (Table 3) shows more variety. California takes over from Texas as number one, as the former makes a sizable upwards leap, +36.4%, while the latter steps into a pothole, -22.9%.

Washington state, with a year-to-date 'starts' increase of +166.9%, thanks to new rapid transit work, claims third spot.

Nationwide, nonresidential building construction starts through August have been -34.4% (vs Jan-Aug 2019) and heavy engineering/civil starts, -12.9%.

Ohio New Business Filings Set Record in August

[Article was originally posted on www.constructconnect.com]

After new business filings broke all previous records in June and then again in July with the most new business filings in one month, Ohio entrepreneurs continued the trend in August.

Ohio Secretary of State Frank LaRose reported Thursday that 18,659 new businesses filed start-up documents in August – a few hundred more than the short-lived record from the previous month.

Comparatively, the number of new businesses created in August is a 72.5% increase over August 2019.

“It’s no surprise that Ohioans continue to start their own businesses at a record pace this year,” said LaRose in a statement. “When faced with this historically challenging time, we as a state go the extra mile to create value in the free-market economy for our families and communities. So remember to do your part to support small business and help your fellow Ohioans succeed.”

New business filings are classified as forms filed with the Ohio Secretary of State that declare the formation of a business entity, including for-profit, nonprofit and professional corporations,

limited liability companies, partnerships, limited partnerships and limited liability partnerships.

Filing as a business in Ohio does not guarantee the company will begin operations, be profitable or create jobs, the secretary of state’s office points out.

Plans and specifications are available to download, at no cost, from the City of San Diego's PlanetBids website at the following link: <https://www.planetbids.com/portal/portal.cfm?companyId=17950&access> (registration required). The Bid Documents are also available, at no cost, from Flatiron in electronic format or can be viewed at our offices in San Diego or Chino Hills. Please call to request access or to make an appointment to view the documents at one of our offices.

This is an American Iron and Steel project. Quotations must be valid for same duration as specified by Owner for contract award. Assistance referrals in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request. Flatiron analyzes and considers each DBE quote, including those that are broken down into economically feasible units to facilitate bidding. Flatiron intends to work cooperatively with all DBEs for scopes of work firms are licensed and qualified to perform.

The project is subject to a Project Labor Agreement (PLA). Skilled and Trained Workforce Labor Requirements apply.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and meet insurance requirements. A copy of our Standard Subcontract Terms and Conditions is available in electronic format upon request.

The City of San Diego has implemented an Owner-Controlled Insurance Program (OCIP) for the project. OCIP Credit Worksheets are due from subcontractors.

Notwithstanding any contrary language in a bid to Flatiron West, Inc. ("Flatiron") or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%.

Non-DBE Subs/Suppliers: Indicate lower tier DBE participation offered on your quotation as it will be evaluated with your price.
