More Millennials Opting to Stay Put

Photo by K.M. Cannon/Las Vegas Review Journal

Parents spend the first 18 years of their children's lives raising them, educating them, clothing them, feeding them and providing them with housing. Typically, age 18 represents the time when parents then launch their children into the "real world," requiring them to find jobs, go to school and take on new sets of responsibilities. The hope is that those 18 years of nurturing will have prepared young adults to become self-sufficient, going on to purchase their own homes and start their own families.

That's how it's always worked—until now.

Millennials are changing the rules. A new report by the Pew Research Center finds that a record 21.6 million, or 36% of Millennials (aged 18-31) are still living at home with their parents—up from 18.5 million in 2007. At no time in four decades have so many young adults still lived at home.

There are several factors contributing to this increase, including:

- **Declining employment:** In 2012, 63% of 18-31 year-olds had jobs, down from 70% of their same-aged counterparts who held jobs in 2006. Yet, even among those who are employed, 29% report still living at home.
- **Rising college enrollment:** In March 2012, 39% of 18- to 24-year-olds were enrolled in college, up from 35% in March 2007. Among 18 to 24 year olds, those enrolled in college were much more likely than those not in college to be living at home – 66% versus 50%.
- **Increasing student loan debt:** By some estimates, Millennials have accumulated \$1 trillion in student loan debt. Monthly payments can sometimes be as high as mortgage payments. Many young adults are staying home to pay down their debt and save for future home purchases.
- **Declining marriage:** Fewer Millennials are tying the knot (25% vs. 30% in 2007).

Opting to Stay Put

■ **Continued from page 1**

Married couples were significantly less likely to live with parents; only 3% in 2012.

Interestingly, un-married Millennials with children were less likely (22%) to be living at home compared to Millennials overall; one may have easily surmised that this number would be higher—that more young parents would live with their parents (3 generations in the household) to help assist with daycare and other costs.

If today's parents are okay with having boomerang children, what's the issue?

The biggest implication of Millennials living at home is the impact it could have on the housing recovery. Typically, when Millennials are of the age to move out, they may be rent for a few years and then buy their own homes. But with the increase in multiple generations cohabitating, this delays young adults from purchasing homes, and therefore could stall the housing recovery. Already, interest rates are rising from historical lows and home prices are nearing pre-recession levels, making the cost of owning a home more expensive than it was even six months ago. As fewer people buy homes, fewer buy new appliances, furniture and other homewares associated with purchasing a home.

While the economy is certainly making gains, we must be mindful of the ripple effects that can occur when fewer young adults embrace independent living situations.

A **Pre-Bid Meeting** will be conducted on **September 11, 2013**, beginning promptly at **2:00PM**. Participants shall meet at **654 Minnesota Street, 2nd Floor, and San Francisco, CA 94107**. For further information, contact Michael Polan at Herrero Builders, at (415) 824-7675.

BIDS for BID PACKAGES 4E & 4F:

Sealed Bids will be received only at:

Herrero Builders, Inc.
2100 Oakdale Avenue
San Francisco, CA 94124
(415) 824-7675

• Bids will not be accepted after September 20, 2013 at 3:00PM

• The Bid Form shall be submitted in an opaque sealed envelope. The envelope shall be identified as "Bid Form," with the Project name, and the Bidder's

name and address.

• Bidder shall make no stipulations on the Bid Form nor qualify the Bid in any manner.

Prior to the Bid Deadline and after bid opening, the University may establish a new Bid Deadline no earlier than 24 hours from the prior Bid Deadline, if no material changes are made to the bidding documents, and no earlier than 72 hours if material changes are made. In such event the University will, at a minimum, notify all persons or entities known by the University to have received a complete set of Bidding Documents and who has provided a street address and/or facsimile number for receipt of any written pre-bid communications.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

The successful Bidder will be required to have the following California current and active contractor's license at the time of submission of the Bid:

LICENSE CLASSIFICATION: General Engineering and/or Roofing (Under-Slab Vapor Retarder Repairs/Waterproofing)
LICENSE CODE: A and/or C39

**ESTIMATED CONSTRUCTION COST:
\$100,000**

**LICENSE CLASSIFICATION:
Landscaping (Landscape & Irrigation)**
LICENSE CODE: C-27

**ESTIMATED CONSTRUCTION COST:
\$80,000**

Successful bidder may be required to furnish 100% payment and performance bonds.

CALIFORNIA STATE UNIVERSITY STANISLAUS

NOTICE INVITING BIDS
