A Customized Marketing Push

The goal of the Affordable Marketing Plan is to present clients with qualified leads. This is not a sales program but rather a marketing push. SBE's database and marketing methods deliver prospects to whom the SBE clients can sell their goods and services. With the utilization of the key 4-step marketing process, the Affordable Marketing Plan can be customized to fit unique marketing needs.

Every quarter SBE prints its Membership Directory, listing addresses, phone and fax numbers, and e-mail addresses for every member. For ease of reference, the Directory includes indexes by individual name and by company, and the listings are grouped into categories. SBE goes to great lengths to ensure that the directory is a useful reference for the SBE business community.

### **INTERACTIVE VOICE RESPONSE SYSTEM**

The Small Business Exchange offers the Interactive Voice Response System (IVR). The IVR system is a telephone technology in which someone uses a touch-tone telephone to interact with a database to acquire information from or enter data into the database. IVR technology does not require human interaction over the telephone as the user's interaction with the database is predetermined by what the IVR system will allow user access to.

The system can normally handle and service high volumes of phone calls. With an IVR system, businesses can reduce costs and improve customers' experience as Interactive Voice Response systems allow callers to get information they need 24 hours a day without the need of costly agents. Calls are also answered by voice mail or answering machine and can be sent to recipient's email where messages can be retrieved by email.

#### Rates for the Interactive Voice Response System (IVR)

Set Up Fee:	\$500.00
Monthly Service Fee:	\$350.00

Includes free DND number
